

Robert L. Mokwa

**Interim Provost and Executive Vice President for Academic Affairs
Montana State University**

EDUCATION

Ph.D.	Engineering (Geotechnical focus)	Virginia Tech
M.S.	Civil Engineering (Geotechnical focus)	Purdue University
B.S.	Engineering (Structural and Engineering Mechanics focus)	Virginia Tech

ADMINISTRATIVE POSITIONS

2016 – present	Interim Provost and Executive Vice President of Academic Affairs
2015 – 2016	Department Head, Mathematical Sciences
2014 – 2015	Presidential Leadership Fellow
2013 – present	Professor of Engineering
2006 – 2013	Associate Professor of Civil Engineering
2001 – 2006	Assistant Professor of Civil Engineering

HONORS, AWARDS AND RECOGNITIONS

MSU President's 2014 Excellence in Teaching Award, January 2014

MSU President's Excellence in Teaching Award – Finalist and Honorable Mention. Montana State University, January 2013.

Nominated for the *National Teaching Award from the American Society of Engineering Education*, nominated by the MSU College of Engineering, 2010.

Faculty Award for Excellence. Montana State University and the Bozeman Area Chamber of Commerce, February 2009.

Outstanding Teacher Award. Montana State University, College of Engineering, May 8, 2002.

Top Ten Paper Award. ASCE Journal of Geotechnical and Geoenvironmental Engineering, October 2002.

Presidents Research Excellence Award. Paul E. Torgerson's Presidential Research Award, Virginia Tech, 1999.

Charles E. Via Doctoral Fellowship. Virginia Tech.

Department of Energy Graduate Fellowship. Purdue University.

Licensed Professional Engineer, Idaho and Montana.

SIGNIFICANT PROFESSIONAL ACTIVITIES

Interim Provost and Executive Vice President for Academic Affairs, Montana State University. June 2015 – present:

Lead and manage all aspects of academics at the university with direct report to the University President. Oversee and work collaboratively with deans, department heads and other member of the president's executive cabinet to ensure the university delivers the highest quality of education in over 100 academic programs —at both undergraduate and graduate levels— taught by about 1,000 faculty members (528 tenure track and 422 non-tenure track FTE, in academic year 2016). Administer and monitor procedures and criteria for faculty appointments and promotions, and oversee the tenure review and assessment process. Collaboratively manage and administer the assessment of existing programs and conduct ongoing strategic evaluations of opportunities for growth in new academic areas. Manage the instructional budget and the overall academic affairs budget that together account for about 67% of the university's general fund expenditures, which totaled about \$123 M in fiscal year 2016.

Department Head Mathematical Sciences, MSU. June 2015 – June 2016:

Led and managed one of the largest units at the university, which consisted of four distinct academic areas: statistics, applied mathematics, pure mathematics and mathematics education. With 23 tenure track faculty and over 20 non-tenure track faculty, the department delivers about 10% of the university's student credit hours while maintaining a high level of scholarship and research, and a graduate program with over 60 masters and doctoral students.

Presidential Leadership Fellow, MSU. 2014:

Served a one-year appointment to the President's office to work on university and system-level initiatives and to receive mentorship and training in the culture, policies, budgeting and decision-making process of higher education from the university's senior executive leadership team. The program included four different components of higher education administration: mentorship, perspective, knowledge and contribution — modeled after the American Council on Education Fellowship. During this appointment, I participated in cabinet meetings at MSU and at four other institutions in Montana, and also worked closely with senior administrators in the Commissioner's Office of Higher Education. Led a project that successfully re-organized and re-structured the Extended University Program at MSU.

Chair, Montana University System Faculty Association Representatives. 2012 – 2013:

Represented faculty leaders from all state institutions in Montana on various Board of Regents, Office of the Commissioner of Higher Education and other state-level academic meetings, conferences, sub-committees and working groups. For the 2012 academic year, was the faculty representative and spokesperson at each quarterly Board of Regents meeting.

Chair, Faculty Senate, MSU. 2013 – 2014:

Provided academic leadership for faculty on academic, administrative and governance issues. Presided over Faculty Senate and the Executive (steering) Committee of the senate. Represented the senate at the Board of Regents and numerous University committees and councils including University Council, Deans Council, President's Executive Council, weekly meetings with the President and Provost, Association of Shared Governance Leaders, and academic course and program sub-committees. Provided leadership presentations at New-Faculty orientation, MSU Leadership seminars, Ph.D. seminar courses, the President's Open House town-hall meetings, and other university functions.

Professor, Department of Civil Engineering, MSU. August 2001 – present:

Served as Assistant Professor, Associate Professor and Professor of Civil Engineering teaching a full range of undergraduate and graduate courses in engineering mechanics and geotechnical engineering topics. Consistently received outstanding ratings on student evaluations of teaching. Received department, college

and university-wide recognition for teaching excellence. Research is focused in the areas of engineering education, soil mechanics, geotechnical and materials engineering, structural settlement and forensic engineering, soil-structure interactions and x-ray computed tomography. Authored numerous research reports, peer-reviewed journal papers, engineering and teaching manuals, and other scholarly publications.

Assistant Professor, Department of Civil Engineering, University of Massachusetts, Amherst, MA. 1999 – 2001:

Taught courses in the Department of Civil Engineering and conducted research on deep foundations in a tenure-track faculty position.

Doctoral Studies and Degree, Virginia Polytechnic Institute and State University, Blacksburg, VA. 1996 – 1999:

Ph.D. Dissertation: Lateral capacity of embedded pile caps and large pile groups. Developed an applied solution to a complex soil-structure interaction phenomenon that is now used in the design of large multi-story buildings and bridges subjected to intense lateral loadings. Taught and co-taught undergraduate and graduate level courses.

Project Manager and Project Engineer, CH2M Hill. 1986 – 1996:

Design and constructed structures and engineered systems for a large, multi-disciplinary international consulting firm at many locations across North America.

Instructor, Boise State University. 1994 – 1996:

Adjunct instructor for geotechnical engineering courses in the college of engineering and the department of construction management.

SIGNIFICANT SERVICE AND OUTREACH ACTIVITIES

- Steering Committees and Task Forces, MT Office of Commissioner of Higher Ed., 2012 – present
- Chair, MSU University Athletic Council, 2012 – 2016
- Chair, MSU Academic Programs Working Group, 2012 – 2014
- Rapid Action Task Force on Research Office Budget - Appointed by the President, 2013 – 2014
- Joint Association of Shared Governance Leaders, 2012 – present
- Executive Faculty Steering Committee, MSU Faculty Senate, 2012 – 2015
- Chair, Faculty Senate, 2013-2014
- Chair-Elect, Faculty Senate, 2012 – 2013
- Senator, Montana State University Faculty Senate, 2009 – 2012
- Member, MSU University Curriculum and Programs Committee, 2012 – 2013
- Member, MSU University Planning Council
- Member, MSU University Research Council
- Member, Gallatin College Advisory Committee (MSU Faculty Representative), 2011 – 2012
- Member, Scholarship Review and Selection Committee – MSU CE Department, 2011 – 2012
- Member, Curriculum Committee MSU Civil Engineering Department, 2003 – 2011
- Member, American Society of Engineering Educators (ASEE), 2008 – present
- Member, American Society of Civil Engineers (ASCE), 1983 – present
- Member, International Society for Soil Mechanics and Geotechnical Engineering, 2001 – present
- Member, ASCE Geo-Institute Deep Foundations Technical Committee, 2005 – 2012
- Member, Transportation Research Board (TRB) Tech. Committee on Frost Action, 2003 – 2006
- Member, TRB Technical Committee on Soils and Rock Instrumentation, AFS20, 2009 – 2012
- Member, TRB Technical Committee on Soil and Rock Properties, AFP30, 2009 – 2012
- Vice President – American Society of Civil Engineers (ASCE), SW Montana Branch, 2002 – 2003, Secretary/Treasurer – American Society of Civil Engineers, Idaho Section, 1993 – 1996
- **Major Search and Hiring Participation (previous five years):**
 - Vice President for Student Success (2)
 - Vice President for Research, Creative Activity and Technology Transfer
 - Dean, College of Engineering
 - Dean, College of Health and Human Development — hiring authority and coordinator
 - Deputy Commissioner of Higher Education, Office of the Commissioner of Higher Ed.
 - Civil Engineering Department TT and NTT faculty positions
 - Statistics TT faculty (2) and NTT faculty — hiring authority and coordinator
 - Mathematics TT faculty (2) and NTT faculty — hiring authority and coordinator
 - Director of Instructional Technologies
 - University Athletic Director
 - MSU Head Football Coach
- **Senior Fellow** at Charles A. Dana Center, Mathematics Pathway Initiative, University of Texas at Austin. June 2016 – present.
- **Invited Plenary Special Speaker.** X-Ray CT Visualization for Socio-Cultural Engineering and Environmental Materials, X-Earth (IWX). Kumamoto University, Japan, December 6-7, 2012.
- **Invited Sponsored Speaker.** Micro-Geomechanics Across Multiple Scales Workshop. Cambridge, England, March 20-23, 2005. Sponsored by the National Science Foundation and the United Kingdom Engineering and Physical Science Research Council. Examine future research needs and the future direction of discovery and applications for the Geotechnical/Geomechanics discipline.

TEACHING AND PEDAGOGICAL-RELATED PUBLICATIONS

Following is a partial list of publications by Dr. Mokwa that involved scholarly pedagogical work and instructionally related activities. (Student contributing authors are underlined.)

- Mokwa, R.L.** and Miller, J. (2014). Innovative Approach to Modernizing Civil Engineering Pedagogy. *American Society of Engineering Education (ASEE)*, in-press, Indianapolis, IN, June 2014.
- Mokwa, R.L.** (2012). Nondestructive Particulate Measurements in Ambient and Subzero Conditions Using X-Ray Computed Tomography. Invited Special Lecture and white paper that introduced the concept of using x-ray computed tomography as both a teaching and research tool. *Proceedings of X-Earth (IWX) 2012: X-Ray CT Visualization for Socio-Cultural Engineering and Environmental Materials*, Workshop at Kumamoto University, Japan, December 6-7, 2012.
- Mokwa, R.L.** and Morris, Z. (2011). X-ray computed tomography: A new pedagogical tool for studying micro and macro geomaterial properties. *Proceedings of the American Society of Engineering Education Annual Conference (ASEE 2011)*, Vancouver, CN, June 26-29 2011.
- Mokwa, R.L.** (2011). Solution Manual for the textbook *An Introduction to Geotechnical Engineering*, 2nd Ed., by R. Holtz, W. Kovacs and T. Sheahan. Published by Prentice Hall/Pearson.
- Mokwa, R.L.** (2010). Classroom integration of a construction case study using active learning. *Proceedings of the International Conference on Engineering Education (ICEE-2010)*, Gliwice, Poland, July 18-22, 2010.
- Mokwa, R.L.**, Robbins, B., and Nichols, J. (2010). *X-Ray CT Imaging of Geomaterials — User's Manual*. Instructional manual for x-ray CT scanning of geomaterials created by students as part of a MSU special studies undergraduate research project.
- Mokwa, R. L.**, Anderson D., Jackson, R., and Shearin, K. (2008). *MDT Geotechnical Manual*. Prepared for Montana Department of Transportation to provide guidance in performing geotechnical investigations and design analyses on Department of Transportation projects. July 2008.
- Mokwa, R.L.** (2007). *Geotechnical Laboratory Testing Manual for University Undergraduate Students*. Prepared for the Montana State University Civil Engineering Department. Funded through the MSU Enhancing Scholarship and Teaching Program. January 2007, pp. 100.
- Mokwa, R.L.** (2004). *Advanced Soil Applications in Highway Construction*. Instructional manual prepared for the Montana Department of Transportation, January 2004, pp. 77.
- Mokwa, R.L.** (2004). *Fundamentals of Soils and Highway Construction*, 2nd Ed. Instructional manual prepared for the Montana Department of Transportation, January 2004, pp. 45.
