ASMSU Senate Minutes – February 6th, 2014

SUB 235

- Call Meeting to Order at 6:00 pm
- Roll Call
- Review Previous Minutes
  - January 30th, 2014

Rowe: Move to approve.

Mains: Seconded.

Minutes approved.

Move into Public comment.

Move into Presentations.

ASMSU OPERATIONS:

Brandy: Misinformation about reserve, come to clarify reserve and what money was actually have. ASMSU made up of three indexes-bank accounts-outdoor rec, retirement fund, and main reserve. Funded by years by fees unused during fiscal year. Varies from year to year. Three reserves basically are one big reserve, but it is easier to split. Need to have insurance money in case of accidents. Funding the outdoor rec every year. Retirement fund is for cashing out unused vacation and sick days. Important to have money set aside to cover big expenses. To be specific and clear. Outdoor rec- $59236.84, retirement- $107,135.00, reserve- $382,464,56. It cannot be spent because of bylaws. We need $455,740 by next year at all times for 2015. That money left over can be spent. Enrollment causes revenue increases. If we go over budget one year, we need that cushion in case of short falling revenue. In the bylaws, if that happens, that 40% increase has to come back for three years. If you fall by $100,000 you have to get $180,000. We have done a lot with the reserve, but we still need to consider the merit of events and spend it wisely. Have the ability to change bylaws from 40% to a lower amount, but it is not advised to do so. Finance board should be consulted before we do that. Do research before doing any of this. If you have questions, talk to Erica Dunn, Finance board, and Brandi Higgins. Reach out to me at brandi.m.higgins@gmail.com

Rowe: For our bylaws, have we changed that percentage at all?

Brandi: It’s been 40%.

Cowles: I think we should applause Brandi, she has done a lot these last couple years.
Green: Give chair to Murdock.

Murdock: I just wanted to say thank you again.

LEGAL AID

Phyllis: Turning to the budget, my salary with benefits, some revenue, which is legal aide appointments. Originally legal services were free, so we instituted nominal fee. There is a line under there for books, code annotated, then the MT supreme court comes once a year in Bozeman, we fund that so that is in the budget. I am your attorney. I only represent you guys. I go once a year to a legal conference. It aims at what I deal with. Mainly, did I get back at my deposit, did I get a Dui, that type of stuff. I am agency counsel for ASMSU. I review contracts; we have had trouble with insurance.

Cowles: Any finance board members have questions? If you could elaborate on continuing education fees?

Phyllis: I have to have 15 hours of

Rowe: Just wanted to thank you for your services.

STUDENT POLITICAL ACTION COMMITTEE

Aubrey: My goals and mission statements are ASMSU political programs to educate students, get them more excited about politics in MT, educate and engage students, create education forms on policy that effects students and residents. Make better communication among everyone. For lobbyist position, the stipend changed significantly, there was a miscalculation last year, this year it will fall, stipend three 2800 for fall, and spring will be tear one with 5500 living in Helena. We called up joint commission committee, assuming holding it at city hall next year we wont need to provide food, decreased flyers, for political action issues that is the budget for the forums. Hoping to have two next year. Student lobbyist housing stipend in Helena, printing, lobbyist registration, gas reimbursement for four round trips form Bozeman to Helena to have better communication. Fall lunch in, our district legislators, 25 people, 15 dollars a person. Good neighbor committee, they want ASMSU to cover printing costs for bags, 4-5 rounds a year. Had to use some funding for that. Door hangers, budgeted those, 3 rounds of 400 door hangers. Recipe cards for thanksgiving round worked into budget. Student trip to Helena, rent two suburban’s form enterprise that is the cost of rental and gas and lunch.

Ten minutes for questions.

Rowe: Are you going to over see hiring process for lobbyists?

Murdock: New executive hire all new positions, new VP will work with them to hire lobbyist.

Kirby: I understand combining UM and ....
Murdock: this had not been decided yet with mass, Danny and Asa, lobbyist last year, they don’t think that higher education can be done by one student, we would have one mass lobbyist them they would work with UM and ASMSU lobbyists to work together.

Mains: I was at the DR task force for Bozeman, so I was thinking you and matt could get on the same page there, good... committee was there as well. They were not happy with the MSU attendance.

Aubrey: I would be happy to attend those I was unaware

Cowles: We have a lot to cut with nonessential programs, if we decide not to fund the good... committee with they still go on and function okay without our help

Aubrey: It is not crucial, and they would go on, they have asked to fund a lot, so we would have to pay fro it anyway and go through president. Shared total coast for good neighbor

Nesbitt: If you could clarify the miscalculation for on-year off-year legislator.

Brandi: We budgeted for three months, but they were in for four, and also the stipend with being in Helena to not being in Helena got confused.

Birky: This has struggled and Aubrey has done a great job figuring it all out.

ARTS AND EXHIBITS

Eric: There is one correction I would like to make, the total is actually 58757, I made a last minute change on one of the director stipends. SO essentially, this year I am proposing to raise the budget by 7361 by adding what comes out to be two more large events. The reason I proposed this is because campus entertainments is moving in better direction and the last few shows have been very successful. I want to regulate events. To have about one large event per month. I want to go over the shows this year that were completed. Green sky blue grass show exceeded expectations 550 people. Comedy show, at capacity at Reynolds hall. Gift of gab show had 220 people present. Bringing wide range of music and comedy events, looking at a diverse music range trying to reach everyone interests. Structures to move money into a pool system for more flexibility in the budget for each show, never know about last minute things in pricing. If over budget for large local band shows into a pool for large concert events. I eliminated that for flexibility with using local bands for openers for larger bands. Total fewer than 32000 dollars, about six events, 5300/show. If there was a larger show, we would charge tickets, if it is smaller then it would be free. If it was below 5300 it would be free, if over, it would be ticketed. Break down is self-explanatory.
The next item I have changed quite a bit which is the lay low shows. Recent one went well. Cut budget in half because I saw a lot of waste and unnecessary spending for such small artists-Montana musicians. It won’t sacrifice quality or number of shows. Large comedy shows, one show/semester. At 4000/each. Operating under same pool rule as the concerts. I cut advertisement budget, a little over half because it has been less expensive than thought to be. The NACCA, would move to admin budget, it benefits people outside of my department. It would be more appropriate, it involved spirit and entertainment. I moved that 4700 into the budget for shows. The stipends and associate pay, 2 assoc, 1 director, same as last year: 10824$. Kept overhead where it is as well.

10 minutes for questions.

Cristando: If you had to cut one event that wouldn’t affect budget, what would it be?

Eric: Bringing comedy shows down to one, I added another one in because they went so well.

Cristando: Homecoming, could we move the band to the DJ. Could we take 350 away and use DJ from productions?

Eric: It’s an artist so either way it will be a decision to make closer to the time.

Murdock: We have been fortunate to have DJs and productions people, we can’t assume they can do it.

Cowles: Shameless plug, Eric has done an amazing job making the most of a budget that was cut by over 100000, these past two years. Made money off of event last week, this area affects students, they show up and it is a high value program we offer, we should be careful making cuts, Eric has made the most of what we can, cutting where he sees fit. Making our dollars go as far.

Irwin: Equipment rentals, working with the programs can we bring that down for large concerts?

Eric: That is a fair price for what we need to rent, that might even be low for some shows, 500/show for the green sky show it was necessary for 200 in lights and 300 in extra sound equipment that made it a pro show. The size of show, 500/show is reasonable.

Polukoff: Direct to Alex.

Alex: It will help effect the cost, but won’t remove it, there isn’t a single upgrade for equipment at all anymore, we are bare bone, so we need these rentals to get up to that level, it has to be budgeted. Lets hope I’m back next year, but double tasking, and relying on DJ is going to be hard and unfair right now

Polukoff: How do you decide how much per show?
Eric: it is total cost of show including artist, rental, and place it happens in. that is the guideline to stick to.

Nesbitt: Having heard what Cowles outline in terms of drastic decrease, and with what Cristando said about removing one event, will that hold true? In terms of having to rent equipment, is that 4000 necessary to keep or could we take it out without affecting the way the budget at all

Eric: one less show is that much less for students to do, overall, I picked that not to complicate the small parts of the budget that could add up, its easier to put it aside as a group total, rather than money form here and here.

End of questions.

Cowles opens floor to finance board.

SUNDANCE

David: Procrastinator budget, going up this year 63167, increase of 13000. 27% increase. Essential stuff. Labor overall is going up 4500 dollars. For increase of pay, work-study grants are down. They give about half as much for that, minimum wage went up to 7.90. 10 cent per month raise. Tier one stipend for the director, herds a lot of cats, 120 for workman’s comp. Daily theatre operations is going up, film rental and advertising. Rental has been a 25-film budget; we should show 14 different films a semester. Films are about 1300-1500 each. $42,000 for film rental. Shipping varies a lot DVD vs. film. We get a lot on film. DVD is 20 bucks for shipping. $3,920 for shipping/year. Porters, 2 posters for one film, 280$ for films. 1/12 page ad in exponent. 1190, exponent ads. Copycats is down a bit, can’t put any up in dorms anymore. 120 prints every three weeks. 1320 for prints. Big increase there is because we are budgeting for 28 films to show diff movie each week. Ticket sales goal has been 10000$, that is close to what they have done, this year we are already at 9500, but I don’t want to raise that until proof of sustainability growth. Rocky horror picture show, love it, we were packed both nights. Fund drive for the food bank, 1200 for the film rental, advertising 120, 50 for shipping, 100 supplies, we went over this year so we have leftovers, food for employees. Pre expo, included a movie in the budget. 700for film rental, for a one time or two time showing, 120 for advertising for poster, 155 for food has been in it for a couple years. Sundance film festival, beneficial, you can read details. I brought it down, only need one for the director they benefit most. It is goof for programming not really for other things bringing down to 800. Maintenance, 200 dollars.

Cristando: We were thinking about cutting directors phone, how much do you use it?

David: I use it a lot; I talk to distributers all the time.

Cristando: Would it hurt if you had to share a phone?
David: No but it is nice to have your own phone.

Cowles: Would you use your personal phone?

David: I would not like to do that I use a lot of minutes.

Cristando: What is the pro expo?

David: It is a celebration of art and a Comicon type of thing; we show a movie and go for a comic book type of movie. Nerd fest, looking forward to it.

Brandi: They bought pizza, and had dress ups, and artist show comic book type stuff.

Cowles: Directed to Murdock.

Murdock: This is super detailed, everyone should read this, it sounds like you utilized that time well, now I support Sundance, I am now a believer, you talk about not always getting the best film movies, but getting the right movie for campus. I applaud you and working to appease your constituency. This set the bar high for directors to come.

Cowles: Great job, I’m guessing the additional 100 hours is the increase in movies?

David: No, that’s not additional, that how much more the productionist works to go in and build the films, 100 more hours than other employees.

Cowles: Percent of DVD vs. Film?

David: I wish it was 100% film, but it is about 80%.

Cowles: what is our attendance this semester

David: 1500 in revenue, for January, monthly goal is about 1450. Last year we doubled and tripled in the month.

Erwin: On the rocky horror picture show how much would it cost to buy it with licensing?

David: It might be an interesting thing to look at, it is old, and broke on us, it is cool to have that one on film even if we upgraded soon.

Schaff: What happens with posters after premiere?

David: I sell them for five dollars apiece back to the students, and also sell them at pro expo.

Schaff: Would there be a deal if you bought five posters of the same movie?

David: Yeah we could do that.
Rowe: You are doing awesome, about rocky horror, as you collect those cans, does it go through our can the Griz food drive?

David: No, I took it straight there.

Polukoff: About the Sundance, are you going to be able to show these movies?

David: They’d be the same cost as the other movies, and it depends if Swaint gets them. Yeah, if criterion gets them as well, it’s still up in the air. Negative to festival.

Nesbitt: How much for admission?

David: Two dollars per show except Thursday night show is one dollar. It’s important, and we want to keep it super cheap

Nesbitt: In what ways other than going to the Sundance, what ways do procrastinator understand the needs of the constituents?

David: We see what people show up to and what they don’t we look at reviews and box office. We research and then give it a go. This year has been educational and we are learning a lot about what they like and what they don’t.

Cowles: Do you charge for the same rocky horror as a normal show?

David: No, they donate cans of food.

Cristando: We own the theatre right?

David: No, we have it reserved for conference times, we get to do what we want with it at those times others can reserve it.

Rowe: Last year, procrastinator, allowed members of ASMSU to attend events for free is that still the case?

David: Yes, but people have been lying about it to get in wear your nametag and tell them David is okay with it.

Oak: It is important to understand the programs, but let’s limit questions to budget. Talk about other stuff after the meeting.

Concludes presentations.

Bill 2014 0-1 Senate appropriate bill.

Second reading of bill.

Rowe motions to approve.

Seconded by Kirby.

Open discussion.
Rowe: I believe all sponsors go to talk to you, this does after HHDC was not filled for multiple weeks, we contacted dean, no one applied. So we added this to bylaws. The end just says that it will move to at large position and go back n case they vacate. Full support.

Mains: Where is the presidential signature?

Oak: Has to be passed to be signed.

Kirby: This makes it consistent with section 7-12 with elections in the bylaws.

Schaff: This is great to have in place, as a back up and is a great idea. More people try to apply for at large seats, it will balance out student constituents.

Cowles: Under section two is not in agreement with 7-12 is it appropriate to amend, I move to amend section two to agree with section 7-12, it shall be open as an at large seat after 3 academic days.

Cowles: I wish to amend the amendment; it shall be open as an at large seat three academic days following the reelection app deadline and should remain an at large seat until next senate is sworn in to office.

Mains seconded amendment.

Cristando: The beginning intention to return to the college if something happened to senator Vander... that large seat should return to the college for two weeks.

Oak: That is the wording of the bill.

Cowles: I only amend the three days to be academic days, the rest stays the same.

Miller: This will extend three days after the deadline why is that good?

Cowles: I want it to reflect, we have problems in our bylaws, it also gives Janet a second chance to give a chance to promote it to the college.

Oak: Senate apps are handled by me and not Janet.

Erwin: Could we spell Cristando’s name correctly.

Placard vote.

17-0-0, Cowles is abstained not in the room.

Dale: This does not hurt us by adding this, gives more opportunity, having a quorum is something we need to think of.

End of discussion.

Move into vote.
Abstention- Cowles was not present in the room.

First reading of 2014 Bill 4-R-03.

Green: This was unanimously voted on, Alex was here, he wanted to speak on it, he felt comfortable going forward with this to vote on it tonight. You received an email last week.

Cristando: I do not think that it should be a reason to suspend the rules.

Erica: That was not Alex’s fault, if this had gone through the process he would have had it approved or denied in time, they have an event the 24th, I would hate for this body to hold this up when it was not the directors fault. I think it would be good to suspend the rules to get Alex the things he needs.

Rowe: Yield to Alex.

Alex: Basically, we do have a time deadline, the 25th we are trying to do English beats, we will have to rent if this does not go through the contracts are signed. We can definitely rent but it spends more money.

Rowe: If we approve this tonight you will for sure have it in time?

Alex: Yes, we will definitely have enough time, if suspended to next week it would be pushing it very tight.

Green: This would have been brought up if not for transition process, possibly amending, after finance board meeting, majority stands by amendment.

Green moves to suspend the rules and first reading.

Seconded by Mains.

Schaff: Could we get a total of the supplemental?

Dunn: It would come out of the reserve, financially it makes sense, and however if it doesn’t say on the supplemental, I think that should be amended. We have a little over 20,000 in supplemental.

Cowles: There’s a bout $24,000 sitting in supplemental. I would like to amend the request to replace supplemental with reserve.

Seconded by Kirby.

Cowles: Yield to Dunn.

Dunn: We should not be amending until we discuss the suspension of the rules.

Cowles: Move to remove amendment.

Dale: Move for a decision.
16 votes to suspend the rules.

Schaff: I move to approve.
Seconded by Dale.

Cowles: I move to amend the funds from supplemental to the reserve.
Seconded by Erwin.

Discussion.

Green: I marked supplemental, Brandi didn’t care where it came from, and anything from supplemental goes into reserve anyway.

Cristando: This is just taking more out of reserve, what if we can’t replenish the reserve?

Green: It all comes out of same pot; it has to come out of the reserve because it is over the limit.

Dale: Because Dunn suggested it was a good idea; it probably is a good idea.

Green: Move to previous question.
Seconded by Monteith.

16-1-0 votes.

Motion passes.

17-0-0.

Amendment passes.

Cristando: Move to Dunn.

Dunn: There had been frustration, I encourage someone to ask Alex his thoughts and feelings; I talked to him to talk to finance board. This is the only dept. we asked to do this. Directors can spend their money on what they want. We should never been spending outside of something we budget for, to account for these things would be smart. Go by consistency. Best financial practices, confirmation process, we didn’t have anything in place to stop Alex from spending money where he wants.

Cristando: Moves to Alex.

Alex: Production is just about at 200%, we have 1000 extra, 200 have not been collected yet, and we are currently on a collections track. As of now, there is really only $800, I am guessing that will increase. Upcoming events will bring in more revenue. Productions has no line up to get new equipment, we are under the equipment for things we put together, we want to better events, we need about
$12,000 for new lighting. We are tight on some stuff, have to cut some stuff, and with new lighting would benefit productions and entertainment. We should not be spending money on extra lighting. We need speakers first because, if we don’t have sound we don’t have an event. If it is a fear that we are spending this money on something appropriate. We need a lot of things, but to give this money back to reserve, it gets us farther away from what we need. People charge for services, so we have to treat this like student fees as well. This is not that large of an amount. It helps our service continue keep getting better.

Cristando: I like confirmation notification system, since we do not have anything in place I would like to amend the reserve that we have now to just regard the revisement up to $5,833.97 of his excess revenue.

Seconded by Berry.

Enter discussion.

Green: I do not think striking this amendment is a good idea. As we move forward, this is a priority of what they are going to be used for. I would not get upset about something like that then say it is okay. If equipment is needed Alex is doing a great job of working with that. Things have changed since we approved the procrastinator. I recognize Dunn.

Dunn: Two people spoke other than Brandi, and one was Cristando who was against but now is for. Changing the rules in the middle of the year would be wrongful of you.

Green: as far as finance board not making a clear statement, I figured they wanted this too. I will be voting against it.

Cowles: I had an exam during that meeting, but seeing there is no policy I think finance board decision to make that change is them expressing their discontent with how excess revenue in budgets are working, productions do need more equipment we should move with the amended version.

Schaff: I want clarify on this amendment, I do not see the relevancy.

Cristando: We will give you the excess but we want you to replace the money eventually, it is like a loan.

Cowles: The stipulation was we didn’t know how much he would have but up to 5300 something would go back to paying for the speakers.

Nesbitt: Confirmation notification, what is it exactly?

Dunn: If you are not going to use the money for budget, comet o business manager, and tell them about what you are going to spend it on. Confirmation is a one-week process and goes through you, and we vote on it.
Cristando: I changed my mind because confirmation notification needs to be changed to with our budget, but we need to keep things consistent. Next year go to confirmation notification.

Move to amendment vote.

Green: this is unanimous for finance board

Cowles; it requires everyone get on board with it 2/3 vote

15-3-2.

Motion passes.

Admin reports.

Murdock: Recruit for elections, or if rerunning get app in on Monday! If we have a primary work to educate why we are having two elections. Recruit people to vote. Remember that new people wont get sworn in until budget is closed. Leadership institute follow-up, we were going to pull out budget and make it a fee. The Provos office will take that, both will be overseen in the Provos office. In order to insure we have enough student input, we will have one student one at large and enough student and ASMSU rep. we need input from national board as well and keep networks. At university counsel passed..., space management also passed, common hour exams... another knot in state wide.. sexual assault awareness. In September,... board of regants.. keep student driven. VBSS student meeting tomorrow. I will be out of town next thurs-mon. lastly, our conduct in here could be better, we need to shape up. Represent ourselves, and students really well. When you vote, you say I or nay.

Dunn: Exec met, productions storage unit is still up in the air, KGLT we cut decs phone book advertising, we asked about office supplies budget, we pay for her cell phone that is 780 dollars. Late night food cuts for staff meeting to 100$, the extra 100 they keep on buses has not been spent. Cutting phone lines, 175-350$, phones are not being used as much. Some programs use it excessively, so we will leave a few office phones. Spirit for homecoming, we initially, cut photographer, we cut tailgates completely because it was 450 or 475 that no one was excited about, participation is little. With feedback form tailgates, directors not worth their time or money. We cut her phone but might need it. PR cut phone, they are heightening their stuff they hand out.

Mains: Do directors know the cuts are happening?

Dunn: Yes they know that we could give them nothing after their proposal. The most important thing is take the advice and find out if it is right, go back to directors and find out how directors feel.
Murdock: I email all directors after we make cuts and have questions on. I notify them on all changes so they know.

Dunn: Confirmation notification process; came up last year when programs changed intent of money placement. It is important that what you vote on and set budget is your priority and statement, I propose this process that has flexibility.

IT got scrapped because it was called micromanaging. There might have been one or two that said that it was overstepping bounds. Bring the hatred of this idea from directors to meeting.

Nesbitt: is there a way to have these reports edited? It was unprofessional.

Dunn: it is only about transferring funds, and knowing when they are changed around. Bring that up to a VP that oversees those.

Cristando: Is there a way to change it to we limit how much money is being transferred?

Dunn: Proportionally we should look at percents not numbers. I will bring it up next week in admin meeting. Elections- please get people to run and vote, do a great job at this transformation process, it allows new senators and witness budgeting process. Hopefully this allows efficiency.

Mains: Has anyone talked to Danny about Homecoming election process? She is still concerned about the voting. I will work on that then.

Polukoff: Can freshman run?

Dunn: No, it counts them out, I am talking about potential seats that would be nonvoting seats. If you have concerns, start thinking about how to take action with them. If someone leaves, they could have the chance to apply.

Dale: What if there is no physical way for the candidate to be at the Monday orientation?

Dunn: Have them talk to Janet.

Mains: If you talk to her, you will have her come to answer other questions if you have ran before.

Dunn: LI fee is important now that we are talking bout fee based program. Once it is broken it cannot be changed without student vote, do not talk about it lightly. It is really important to think ahead. You do not have a senate meeting 24th, there is a huge banquet at the Baxter. Brandi...Since she came in she took our program and turned it into a fiscal machine. Her work is incredible.

Mains: Are we doing a group thing for Brandi?

Oak: I do have something planned, but lets communicate that.
Oak: I will be passing office hours sheet around to change. ON the back is a word written, laser tag event is on Tuesday, let’s form a team in the evening. Thank you for limiting questions on budget. We are done with budgeting except for Hannah. BE concerned with how these programs affect constituents. Like with CE cutting comedy show. Met with exec team and pres and provost for breakfast, she was interested in what happens in senate, if you have questions ask me later. Finally, just noticed there were side convos, I will call that out more. We dress nice because we have respect.

Green: There has been a lot of talking back, keep these running smoothly. We want to keep moving a long. Follow rules. Con audit committee meets 3:10 Mondays. Tom stump had an engineer look at sob barn, talk to us in two weeks.

Oak: We got bogged down in amendment process, I will shape that up. Please put on computers instead of prints.

Nesbitt: Posters go up tomorrow for world cup, tryouts, I have Tally and myself. We are taking tryouts.

Rowe: With the IT counsel Feb 12th there is room for public comment; we have a presentation about CRM. Met with AIC doing cool things in Wilson, parliamentary workshop. Streamline meeting today, talking about emerging technology, talk about app push system. Takes location and tells you closest spot and time. Talk about automated.. stop annunciation. Public relations talk to Andrew he is excited about new materials.

Mains: We have a meeting with spirit tomorrow about budget, photographer is student fee, Roberts rules, let us know if you need help with those. Next meeting I’ll be leaving early.

Dunn: Poly task force tomorrow, if you have anything yo want to see or say let me know, advisory counsel idea. Let me know immediately.

Mains: Mentioned Danny Clark has concerns about homecoming turn out, she wants someone to talk to about it.

Green: Policy tasks force, you can come to me about it as well.

Erwin: I spoke with... former pres of engineer without borders, looking to do something for credit option. Fermentation science or minor.

Cowles: I apologize for obnoxious conduct, I also apologize to Marshall for my snarky comment... integrate programs if we have funding.. IT services, duel poll for tasks force, outdoor rec fee... Serving things on campus if you have input on space shortage.

Dale: Get past email communication, when we review her budget, we should give her support she has taken many things that are not her deal into herself.
Dunn: The unique things about that program this year, it turned out unlike the proposal. See how we feel about that program that isn't as chaotic, Aubrey is doing an amazing job. It was not executed by intently.

Polukoff: The climbing wall expansion is still working on funding and presentation, the bike room as well has a meeting tomorrow. We have the money for that but we don't know what we are going to do with it.

Oak: Senate announcements.

Dale: Collegiate .. women entered separate can drive for can the Griz, we won .. Aggies online. Tyson foods is donating 30,000 pounds of chicken to Bozeman food bank. We are going to send part of it to Missoula or Helena. Pay attention to students.

Cowles: Last weekend was the greatest because the Seahawks won... I would advise people about washing your hands.. Bozeman plague.

Mains: We had people threaten their life cause of weather, stay warm. Political actions director, ... we need to voice opinions power point for drivers ed classes, we need more student input. Keep involvement in city. Pre law club, another meeting next week, 12-1, voice training, to get task force done. 8-12 events this month. Under the radar courthouse tours.

Rowe: Request my absence be removed, I would be really pleased, I am selling roses for a charity.

Monteith: I am presenting to classes about elections and ASMSU, resolution I was working on for sports coordinator, I haven’t had tome to email yet but we want to move forward with this and not affect teachers or students.

Oak: Working at a news station we produced a story of the climbing wall expansion. There is a polar bear dive in Special Olympics.

Erwin moves to adjourn.

Seconded by Kirby.

Meeting adjourns at 8:58 pm.
