ASMSU Senate Minutes—March 6th, 2014

SUB 235

- Call Meeting to Order at 6:00 pm
- Roll Call
- Review Previous Minutes
  - February 27th, 2014

Kirby: Move to Approve.
Rowe: Seconded.

Minutes Approved.

Move into Public Comment.

Brandon Marsh: President of rugby club, coordinator going thorough October half time position rec sports, meeting with president Cruzado to have it funded by her. Going into budgeting think of club sports give presentation. To throw funding our way. Appreciate what given and glad what we have done this year.

End of Public Comment.

Presentations.

Tom stump: congrats to new election winners, this evening mike and I are going to share where we are at in miller, north hedges there is a ramp that goes from north hedges to miller that will be taken away. Turn it over to mike.

Robert Plusky: police chief, interest in pay lot, student concerns, see if anyone has questions, glad to answer.

Blossom: changes?

Plusky: One or two cars left in lot after hours, over time there are more, people waiting in the cars to avoid paying for service, wanted to discourage that, ordered signs put signs up saying it closed by 8, plan to begin this week 3 week period of warnings to let people know about change in it, look like tickets but are warnings, started last night, went last night to go issue found there were over 120 people waiting in car to avoid, 40 left thinking they were tickets, 67 of them did not leave. After spring break, start addressing more.

Kirby: has program looked into automated system with credit card?

Plusky: Yes, the committee has been looked for automated systems for the pay lot, want to keep permit costs low as possible, recognize highest cost is the attendant there, so looked at automated systems there. End of spring have more insight on recommendations and changes. Long term looking at smaller pay lot enterprises especially if we developed automated system.
Cristando: the sign says 8 pm but the ticket says 11

Plusky: thank you for letting me know, we will fix that

Mitchell: with the lot after this week, are you writing tickets?

Plusky: we will, 25$ fine the plan is to not have to write any

Cowles: I serve on PTAC, discussing and evaluating ways to have people paying for parking, trying to weigh all pros and cons, it will be diff next fall, to eliminate attendant. Encourage people to buy permits rather than pay lot for free parking on campus. Want to keep costs down for students, bring me concerns about parking.

Plusky: thank you for your service, you always come regularly and bring concerns

Back To Presentations.

Tom Stump: We have been working on this for awhile, got a lot of student input and implemented that into the plans, turn it over to Mike.

Mike: We have Hannon, Harrison, miller dining hall, renovating all three. This summer focusing on miller, by 2016 all will be done. This year they are starting, two new entrances, they will allow entrance specifically into dining halls due to 24 hour lock down in dining halls. South entrance open 24/7, to walk to Roskie. North will be closed when late night bites are closed. To get into miller we have a path and a wooden tunnel going up into glass, which is the entrance for now on throughout summer. In the plans, the creek that runs Roskie Creek, will be to expose the creek down in front of north and to build a bridge to go over to north in 2015. There will be glass doors for north entrance, when you go in the cashiers office will be right there, oyu go up half a flight of stairs and enter North, up another flight and you enter miller. There is a back entrance behind north if you are coming from the suites you can enter there. There is a new dock area, for more storage and more seating area. South’s entrance coming off of twelfth to enter into Roskie or new residence hall. Back patio area, behind south, behind the conveyer belt for dishes, for outdoor seating. Stairs will disappear allowing more offices. Coming in from north on the left is a Mongolian grill.

Stump: New renditions, new lighting and stuff like that

Mike: As you move there will be Asian wok station, flat-top grill and gas char boiler grill. We are moving everything back, so where all the thermals are we are putting the new concepts. We have a comfort food station, a rotisserie and smoker sections, along with sides, bakery and Montana made deli, subway set up and desserts, local bakery and Wilcoxins ice cream. Down from desert on corner is breakfast nook. More poplar additions are a full espresso bar. 7 am- probably all night. Largest area there will be a brick oven pizza, pasta, vegetarian/vegan/gluten free, soups and then Mexican. Dough-sheeter where they run dough through making them out in front. In the back are salads. Seating in the addition, near south, there will be a fireplace.
Moving it down. There is soft seating and large TVs. Timeline, Jan/Feb plan reviews, we just started fencing off areas, contractor is here, may 2\textsuperscript{nd} miller closes, res life and cashiers office will be in Johnstone, cashiers will be in lobby of north. Replace all windows along with two new entrances. Hannon will open during orientation to help with overflow. August they move in, there might be some outside work. Staging area, they fenced off sidewalk coming from Roskie, digging in there for the addition. The other staging area will be at the end where new res building will be.

Tom Stump: Questions on staging? Reminder, all interiors wont happen until next summer, right now is windows and entrances and columns to seismically fit the building.

Murdock: Since this is in two phases, in the second phase will it be same timeline?

Mike: Yes May to August.

Tom Stump: Trying not to impact students, we may be forced to do something to help with that. This summer we are putting in a new pizza concept down in the sub, taking out of Tomacedos and the Greek place. It will be a large pizza oven same as what it going into miller, brick fired oven. Biggest issue is it is a 3-ton equipment, can't get it down there yet. Putting pasta station in where Greek place is. By this fall there will be a food truck, software to trace through an app, tying it into Catcard stuff. Put electric lighting into the tunnel going into north cause it got dark.

Questions

Blossom: With espresso bar, is that only coffee or is it latte too?

Stump: Full lattes

Cristando: Is the food truck going to drive up and down the mall.

Stump: It will be up and down campus, not sure where we are putting it. Might be spots depending on time of day, president Cruzado is a fan of it.

Mike: Shakespeare in park, football games, mobile concessions stands.

Cristando: Club sports had game we could request it?

Stump: Yes

Birky: With renovations, will it be less self-served and more employees served?

Stump: Yes, each station will have a cook out front in students

Mike: For the Mongolian grill you go and pick all your items then give them to them and they cook it made to order.

Monteith: Will this change current meal plan?
Mike: No, it is all part of meal plan.

Rowe: Thank you for coming, about food truck, will it sell coffee as well? Concern is not access to coffee in lower buildings

Mike: The food truck will have coffee machine, not sure if it will be espresso but it will have it

Stump: We have looked at but not resolved espresso

Mitchell: The meal plan was my question, it looks really awesome.

Cowles: When schools renovate new dining hall, everyone is there and it is through the roof, so is this part of refreshing all new food services?

Stump: We did all of those in 2007 so they are pretty new to us, miller is beyond old.

Cowles: Really exciting change to campus, help quality of life for underclassman

End of Questions.

Move into Unfinished Business:

2014

Rowe: Move to approve.

Kirby: Seconded

Discussion:

Rowe: Had a chance to speak with all of you about this app, it will give incentive to our friends to pick up our drunk friends form bars to get home safe, partnered with tavern association and other bars downtown, get partnerships within the campus, such as bookstore or free tickets as rewards, create a responsible culture. Safe option to get home.

Oak: One app founder is in public comment section

Dale: Move to amend resolution 2014-R-05 by striking lines 4 and 5

Birky: Seconded

Dale: Feel that they are not applicable speaking on entire body, won't lose anything by doing so.

Cowles: I would like to change the title since it is specifically mentioning DD buddy and getting students on board, include DD buddy in title, support for MSU community integrating DD buddy app, or promoting it, it seems the title should be less embarrassing.
Cowles: move to amend the amendment to say, "Support for the DD buddy mobile application."

Seconded by Rowe.

Discussion.

Green: It does say on line two the integration of an anti drunk driving smart phone application. I think there is a better name for it because DD buddy hasn’t even been defined.

Dale: If you would like to change it you could get Cowles to resend motion

Cowles: I would write this differently but I resend my motion

Rowe: Move to amend the amendment, change title to “support for DD buddy driving application”. Then on line two after integration of the DD buddy application.

Cowles: seconded

Discussion:

Cristando: so are we still striking line 2?

Rowe: yes

Vote on amendment of amendment

13-1-0

Discussion of amendment to strike lines 4 and 5

Barry: how does the app work to recognize the DD credit?

Rowe: yield to ...

???: We have partnered up with downtown businesses

Barry: how does the process work, what is stopping people from cheating to get the goods?

???: When people go out to drink they don’t know who can get them, people who aren’t doing anything can go on the app

Barry: could you arbitrate it?

???: No you have to do it to get the prize, it is a live GPS

Vote on amendment.

13-0-0 Monteith was gone for personal privilege
Cowles: Yield to president Murdock

Murdock: Is it appropriate to put our support for a profit business?

Rowe: It is within our ability but we are supporting this and not endorsing this, while we support we support many other platforms do same thing, this support is not a monopoly that it is our only viable solution

Cowles: since it specifically mentions them, id like to see it written diff, that there is a concern and why we need the university to buy in for safety of student community, doesn't seem to be written in that way.

Rowe: elaborate on why I did not put words identifying problem, when we wrote this, the line we struck was the political aspect, so it was taken out, however I think this resolution is strongly illustrates the point move to previous questions

Kirby: seconded.

Vote on previous question 11-2-0

12-0-1 Cowles abstained.

Resolution 2014-R-05 passes.

Rowe: move to add the resolution 2014-R-09

Blossom: seconded.

Oak: At the arts and architecture there was a tie. In constitution this is resolved with a run off election. We have to give our support for this to happen. Discussion?

Cristando: If there is a write in for another college, does that count?

Rowe: It has to be college specific.

Oak: Yield to office manager, colleen

Colleen: By college

Green: Ask members of elections committee what other options are there?

Dale: This does not pertain to the topic of adding it to the agenda

Move into Placard Vote to Add to New Business.

12-0-0 Monteith is out for personal privilege.

Move into Resolution 2014-r-06

Green: Move to approve

Seconded by Rowe
Oak: There are two documents of this, one MOU original and one amended.

Cowles: spoke with Lindsay about the borderline between student government and the student advisory, with this ord chart, is this set in stone?

Green: ord chart is still a draft

Cowles: I don’t have a specific question other than whether it is still a draft

Green: recognize Murdock

Murdock: this is still a draft so if you have specific input, approving or denying doesn't have affect to put it into action it is a draft

Cowles: the ASMSU supervisory authority, is that whoever is delegated by dr. Marly?

Green: no that is who is in the ord chart is not final at all, threw it in there to clarify MOU and the direction we are headed to show full transparency, move to amend to the second document, to add numbers to it.

Dale: could we see said amendment?

Cristando: are you taking student directors out? What is the amendment?

Green: apostrophe on line one, crossed out student directors because I think we were supposed to cross out classified as well, crossed classified out of title, It is staff in general.

Cowles: like to amend amendment to change that Clayton Christian is the commissioner of higher education, Clayton Christian the Montana commissioner of higher education

Cristando: seconded

Vote on amendment of amendment 14-0-0 passes

Mitchell: would it include putting numbers on it?

Green: yes

Dale: state amendment.

Oak: the amendment is the secondary document in the packet, with some grammar fixes, parts of removing student directors from the second paragraph and classified staff from the title, adding numbers and with Clay Christian designated with his role.

Blossom: on the first line should classified be in there as well, I would like to amend to cross out classified in the first line

Barry: seconded
Cowles: the very last two words put an “of” in there, the con audit has offered to revise resolutions before they are brought into meeting.

Move in vote to approve amendment

14-0-0 passes

Move into discussion of main motion

Kirby: yield floor to classified staff

Mary: from a classified employee point of view, I wish things were more open, with a classified staff being involved, I see where it is now

Cowles: so as it stands now have you reviewed the actual text of the MOU? Have you read through that? There was a lot of frustration among senate, so now we have collaborated a doc that everyone can get on board with

Mary: I haven’t seen anything final, so I cannot comment on it specifically. I see this as something out needing to be decided.

Green: thanks for coming, as a task force, we kind of commissioned Phyllis to be your supervisor to get that sent out to you

Mary: yeah I got that document, I wish that we have been involved form the start, it would have been an easier process

Green: point out, does everyone have a copy of the MOU from last week, it is part of this, very inclusive, without passing this MOU.

Dale: still Kirby’s floor.

Kirby: Move to previous question.

Monteith: Seconded

2-12-0 Motion fails

Rowe: move to amend after it says therefore let it be resolved the T in the needs to be lowercase, then after therefore let it further be resolved be sent to Julie Donogan, MSU Exponent, the comma be replaced with a semicolon, then after it says Robert Marly from office of student success, that comma be replaced with a semi colon and then in between president MSU insert of.

Blossom: seconded

Cristando: should we strike the classified staff in second paragraph?
Green: no because it is in conjunction with task force and representation of student staff and was brought forward by Smith in executive branch

Mitchell: so do we need to add in that line of student staff in there?

Cowles: they have it in there to clarify that the jurisdiction of the VPSS office pertains to the classified employees except for ethics or a major issue is at stake, to have jurisdiction over student staff in a case like that so it pertains to classified staff more so than including it is a distinction

Dale: how many times can a main motion be amended and how many times has it been

Blossom: 4 times, but I believe we can only amend it off a main motion once

Dale: recognize Murdock

Murdock: does not look like there is a limit to the amount of times, just said one amendment to amendment can be considered at one time.

Erwin: looking at an amended amendment that is still being amended, table this till next meeting

Kirby: seconded

Vote on tabling it 12-2-0 motion is tabled till after spring break

Move Into New Business.

First readings of:

2014-Ref-01: LI to become Fee Based

2014-R-07: Fee Restructuring Resolution

2014-R-08: Mentorship Support

Reading that was added to new business 2014-R-09

Rowe: suspend rules to have this be voted on today, it could get the ballet up by tomorrow if we passed this tonight, urgent need to settle the dispute

Kirby: Seconded

12-1-0

Rowe: Move to have senate president read it and then vote on a motion to go to a document

Cristando: Seconded

12-1-0
Dale: clarify vote

Oak: reads resolution 2014-R-09

Dale: move to amend 2014-r-09 capitalize C in line two, inserting semi colon in between office manager and Phyllis Bock

Rowe: Seconded

12-0-0 Erwin was out of room

Cowles: the idea is to hold this election tomorrow?

Oak: yes and it has been talked to and being set up concurrent to the passing

Cowles: many students are leaving town and won’t be attentive to check emails, we should change it to the week after spring break for the vote

Green: wanted to ask members of election committee, other things discussed? Open floor to Colleen

Colleen: Janet did contact each one last night to let them know there was a tie, to back down or move forward, referred to constitution and bylaws special election, when committee met this afternoon, after confirming with Jason Rhodes, to go ahead with vote tomorrow so we could close elections before spring break. Got a hold of students registered with A&A, locked down to only those students, emailed link to the ballet, we felt it was best to take care of it now rather than later, keep in mind Jason spent all day creating ballet today to have it ready for tomorrow

Green: like to move to amend on line 13 after special election on Friday march 7

Chapman: seconded

Cristando: should not put a date on this, echo what Cowles said to have more voters

Green: main reason I amended this, office manager and elections commission, candidate think it should be tomorrow, can still do it tomorrow even without a date

Cowles: I agree, thanks for input colleen, I think amendment is not necessary to this moving forward, this is a part of constitution, laying out policy, I move that john green resends his motion

Rowe: seconded

Green: I resend my motion

Cowles: move to previous question

Rowe: Seconded

9-4-0 Monteith moves to no 8-5-0 motion fails
Dale: move to amend amendment, for 2014-r-09 at the end of line 17 to add an L to Phyllis name and E to colleens name and a U to the word authority.

Erwin: we moved this fast so that it didn’t have time to edit it

Cowles: audit committee has good spellers and are happy to edit resolutions

Move into vote on amendment 11-0-0

Mitchell: question, what do people in the college think in the college of A&A? do they have idea what is going on?

Oak: spoken to candidates, made friends aware, but A&A has lowest voter turn out, have not made general announcement s out side of this. Yield to Colleen

Colleen: results have been posted all day online and at the ask us desk

Mitchell: echoing Cowles, with it having low turnout and spring break mode, but I wonder if it just would be better to suspend it till after spring break

Barry: address their concerns, you can vote once you leave

Monteith: I think we should wait till after spring break, doesn’t allow all constituents to vote, some have already left and some might not have Internet access over break

Dale: to clarify this does not put a time on it, this just said we support it can happen, we just have to say yes for it to happen ever

Cristando: address Barry, I believe just because people might not have Internet access doesn’t mean there isn’t enough time to get out and cote and get their name out there

Green: both candidates are aware it will happen tomorrow, we should just go through with it and let elections committee to do their job, candidates wan to get it over it.

Oak: elections are conducted by Janet, who has ultimate authority

Chapman: how long do people get to vote is it still 7-7?

Rowe: open from 7 am till 7 pm tomorrow

Cowles: I cannot believe in a time it took me to walk all the way there and back, its happening tomorrow, yield to Alexis, who is future A&A

Alexis: friends with a candidate, they’ve been passing word around knowing the election is tomorrow, spread around best as far as I have seen.

Cowles: that addresses our concerns, move to previous question

Dale: Seconded
12-1-0

13-0-0 Resolution passes

Move into Admin Reports

Murdock: Press conference Monday was huge, 50 million donation to build new innovation building, appointing three students up to the president, present her with as many as possible to plan this. Finance board has exec recs, if you have questions about budgeting process task to finance board, in middle of student regent interviews, three people up to governor, draft of advisory counsel bylaws that we have been working on, sent those out so everyone can look at them. LI ref is moving forward, that fee is set on current exec budget recommendations so that makes voting on that a little wonky, has to go through finance board then to you.

Green: Might need to table it for a couple weeks?

Murdock: yes, you can deal with it however you want to. MSU Friday tomorrow, presenting about ASMSU to new freshman, or come to see what it is like and answering questions. Not in our state had a call last night, moving forward about statewide student fee, 25 cents, 50 cents, 75 cents, per student per semester, Dillon has quarter system. Mini grant process, voted upon to task force. Continue supporting, advocacy programs, mass last night, we approved resolution similar to annual fee review you saw, we approved annual review of implementations of... board of regents would look at the entirety of the fee, the year it was approved, giving it a year to prove, 6 year sun set.

Cowles: should we include that in our resolution forth coming in the next meeting?

Murdock: yes, but all associated students met with board and it all went pretty well, it would be good to make that amended. Board meetings stream live online. University counsel was yesterday approved... degree policy. This upcoming commencement, raise aware of a student we lost in college of engineering, last week lost a student in A&A college, ... he was an avid student making a lot of video s and the voice center, Connor was a dedicated bobcat, very sad to lose. University counsel first reading of admin fee policy. Comments will be brought forward. Finally approved common hour exam policy. That policy will help students to not have to negotiate with professors about exam times, to be accommodated. Finally, sent some... training dates. QPR is a training open to students staff faculty, to see if someone may be suicidal and identify it, raise awareness about mental illness. We have trainings.... If any of you are interested let me know. A training that is usually not free. Library space meeting this week, talking about updates to the third floor, changes in furniture, two quiet computing spaces, expand group and tutoring space. Come talk to john or I.

Rowe: do you know how many computers they are placing on third floor?

Murdock: only like 3 or 4
Green: haven’t set it up, won’t be more than 4 or 5

Murdock: as we continue I can let you know

Blossom: I’m upset that I have a class tomorrow so thanks Lindsey

Murdock: turning thanks Obama into thanks Murdock, so it’s a new hashtag. In all seriousness thanks to all of you who raised awareness, continue to attend senate and work with new senators in your position for the transition. Have a safe and fun spring break. Once a representative, always a representation.

Dunn: let’s kick it into budgeting, giving presentation on Robert’s rules in budgeting cause they are different.

Erwin: have Robert’s rules ever been suspended for budgeting?

Dunn: do not encourage that, bringing in new senators you are welcome to join in if you are excited about budgeting. Levi has taken a hold of the seats we are trying to bring in, in the fall, calling them representatives, so there is a distinction.

Cowles: Reallocation of seats, when is that coming up?

Dunn: every two years. We have all new candidates, be welcoming in the office, I’m excited to those of you that showed up and encourage new senators to come to more meetings. You will start seeing Destini and Jordan shadowing Lindsay and Lukas. Poly task force did not meet this week. Meeting after spring break.

Murdock: first student body in Montana to vote in an African American president into student body

Dunn: might have third leg of government up and working by end of year. Advisory counsel, you have a lot on your plates these next months. The old budget has made it to finance board, they are having incredible conversations, and they are asking a lot of important questions.

Oak: how has passage of outdoor rec fee affected budget?

Dunn: Lindsay Lukas and I will be meeting, two budgets, one will have the fee and one will not.

Green: that is because board of regents still have to pass it right?

Dunn: right, that opens up 110,000

Cristando: that does not mean we have to spend that money

Dunn: will still go through finance board, before it comes to you. If you are not speaking to your directors I will not have it, if another one comes to me and says they didn’t hear about cuts in budget, let’s work on redistributing the list of liaisons. This is the one time that we expect you to do your job. The directors get paid to
work hard, be their representation. Keep it up have a great spring break. Suggest that since we have colleen and Mary here, ask them about the MOU since we are all in the same room so they don’t have to come back.

Cowles: colleen, now that we have been through the rough patch, we have the plans in place, they came up with new doc that reflects everyone’s desires, o you have any concern on new document on behalf of ASMSU and classified program staff?

Colleen: really my deepest concern, we would have liked this to come about in different way so that the feelings of the classified staff would feel included, that would help with some anxiety, this doc does not really affect my job, concerns I have and some program staff is the conflict of interest, I can speak on behalf of student programs as well, there will be a conflict between students and staff, so my concern is how does that play a part, what position does that put my boss in when she is trying to represent us and the student programs, I have concerns about that scenario playing out. MSU they do her review, so which side is she supposed to stand

Cowles; I think this has been a learning experience, same mistake will hopefully not be made in the future, maybe john green can elaborate on that scenario

Green: if there was that conflict of interest, we ca fight the administration, doesn’t need Phyllis’ signature, we take their input but as long as we are not doing illegal things we should be fine

Cowles: the main concern was the ASMSU advisory is caught between staff she works with, with her supervisor being the ultimate authority

Murdock: this keeps coming up, I thank it is important o consider mission of our organization, it is the students and their voice. In all my time the staff are working in best interest of students, we will not be at odds with the administration, if we get there we can meet I the middle and decide what best serves students. We really should not run into those issues.

Cowles: my understanding the way the chart stands now is we have, in between VPSS and student government is the advisory counsel, if something arises with Phyllis in the middle, the conflicts would be mitigated, in a private way. As it stands now, I don’t think it will be too much of an issue, everyone is cautious and open at this point. There wont be too many problems the way the VPSS has been integrated.

Green: put out that, as a nurse I have to be patient oriented, what the patients want, I have to give them, if my boss does not want to spend money on a patient, I advocate for that patient, so it should be the same, HR is involved in the decisions. We have an advisory counsel with have someone form HR on it, if there is conflict of interest, it is possible, but I do not think that people won’t put the students’ interests first.
Cowles: encourage us to do in the week after spring break is have conversations with office classified staff to have all concerns on table and move forward accordingly.

Colleen: know that it is a concern and I am sure we will tackle it.

Oak: as Erica made you aware of, working with Matt Caires, on judicial branch of government, we have to have one however it is in need of overhaul, powers of are not defined in bylaws, have to go through student government bylaws across nation and establish working document, and hammer out. Look forward to something you can approve before April 17th meeting. Card from Jim Del Dugan, man who want to present to us

Rowe: I was giving presentation on elections, approached me afterward, wants to see changes in MSU and within the body, he wants to give a presentation so I gave Eric his card however he wants to talk about power of unions and transferring funds into large banks in credit unions, limit it to ten minutes, as reps his right to speak we should hear him out.

Green: our thoughts on him, he was fairly centric, deserves to present whether you want to hear them.

Cristando: its just an informational thing, we could learn things about it. He should come.

Oak: he will come after spring break; we will have a new opportunity to learn things. Also wanted to emphasize passage of run off election, ultimate authority is in Janet and election counsels hands. Admin we are getting ready for transition, Destini will be joining us. Have a safe spring break.

Green: we met today about the architecture forms with the sob barn, transitioning new senator Billy Dove, going to meetings with me, my apologies for MOU earlier didn’t have time to proof read, ... went through all funding so now we are going to go over match funding. Finance board moving along smoothly, turn 21 next Thursday, having some chocolate cake at my house, get chocolate wasted, Spanish exam tomorrow #lindsay.

Senate Reports.

Rowe: met with AIC roaming efforts for pow wow, April 10-12 very awesome, got tribes first presence, social media training the elders, PR still has some ice scrapers he wants to get rid of, please ask Andrew to hand them out. Thank you for that.

Constituent talk to me about the increase of human trafficking with in Montana and the states, on the rise, don’t have any prevention on campus.

Cowles: lecture by Diane, LI put on has been cancelled if you know of a great uplifting leadership oriented person to come, improve effectiveness towards students, college of engineering attended breakfast with alumni prior to donation
announcement, newly formed student counsel showed up. Exciting for college of engineering. Talk of memorial for two students that passed away at Fieldhouse, great idea, if anyone knew them that would be a great thing to help out with. Club sports steering counsel soliciting input form all student clubs about space needs, if you know leader of a club have them fill out survey, to get new event and rec space on campus. Constituent about not in out house task force inside clubs, campus entertainment has a show at 9pm, encourage other senators to attend meetings, its pathetic when we are missing around 6 each meeting.

Mitchell: March 23-april 4 is KGLT fund drive, help out with it, hectic for them. If you have time to go help, they would appreciate it. Outdoor rec fee is passed, haven't talked to Ryan yet.

Monteith: club sports coordinator position, meeting with president Cruzado about it if anybody wants to see proposal, let me know, that's on the 24th

Cristando: Steve Ericson?

Monteith: yes. Meeting with Carmen to go over LI budget after break, so let me know concerns. Sat in on... committee selected five candidates, they have been sent to president. Sitting on rec sports fitness director hiring committee, apps closed at end of Feb, reading those tomorrow, position filled by end of March

Birky: classroom committee, if you see things you want let me know

Erwin: C FAC, some of us will be distributing 47000, if you have nothing to do come help me, starts at noon

Green: recognize Murdock

Murdock: we don’t need a second person to take Mitchell’s seat on that, they like to see two I highly recommend someone to take her spot. Are we keeping track of absences? Because three unexcused means being removed. Holding them accountable.

Green: recognize Mitchell

Mitchell: lacey is going in my place

Dale: tomorrow is MSU Friday, it only takes 20 minutes to help out, represent ASMSU tomorrow, if we can give them good image, all the better.

Cristando: state that ever since leadership, look into their budget what we allocate to them is what they will be. With our proposed surplus of $110,000.

Cowles: maybe the job description could be included in a meeting

Green: we have one more meeting then we will have a finalized document
Cristando: next voice to the CFAC members we allocate to computers to, advocate for money in the office

Rowe: talked to Ryan about outdoor rec, send a big thank you for making it possible, encourages people to check out ice skates and to share about what is next.

Green: referendum on LI talk to Lindsay, C.J or I, we need feedback

Senate Announcements:

Dale: thank all of you that will wear nametag tomorrow, meat at the finish line, April 15th, entrance fee, free lunch if you participate. Apologize for this bark that I have, my winter bark.

Monteith: shout out to dale, some constituents about how well she is doing

Rowe: we are going to have 5 house candidates for debate in ball room A, politics, good debate

Cristando: spring break starts Saturday. Move to adjourn

Seconded by Cowles.

Meting adjourns 8:34.
