

Event: **Problem Kids, or Survivors?**

When: Friday, March 6, 2009 12:10 PM - 1:00 PM

Where: Herrick Hall 117

Description: In the past 10 years there has been a wave of international adoptions from former Soviet countries. While most of these adoptions seem to go well, a small but significant number, have problems as the children struggle to adjust to their new life in a family. In this seminar Dr. Sandy Bailey, Extension Specialist in Family and Human Development, will present results of a study of youth who have experienced problems post-adoption.

Cost: free
