Study Abroad in France!

“The new Mediterranean resort, the gateway to Provence”
The 2600 year old city of Marseilles welcomes you!
Overview of Marseilles

Marseilles was founded about 600 B.C. by Greek sailors from Phocaea. It was the first of France’s cities, and it is surely the most complex. Poorly known, Marseilles does not instantly reveal its charms to the visitor. You must take time to understand this town and its passions, discover its strange beauty and take in its excesses.

You can also discover Marseilles from the sea by taking a boat trip to the Frioul Islands, Château d’If (where, according to the legend, the Count of Monte Cristo was imprisoned), Mâine, Pomméguès and Ratoureau (where Hôtel Carême was built during the Restoration). From the boat, you have a splendid panoramic view of the capital of the Mediterranean.

Marseilles is a geographical location surrounded by a natural environment, nestled between sea and mountains and where to enjoy top-level sports facilities: kite-surfing, diving, beach volley…
