

The SMART Scholarship for Service Program is a U.S. Department of Defense (DoD) - funded scholarship program that is designed to facilitate the education of talented science, technology, engineering, and mathematics students at all university levels and their subsequent placement in DoD research, development and design positions at DoD facilities nationwide. The Program includes full tuition, a generous annual stipend, a book allowance, and paid internships and travel in exchange for federal civilian service with the DoD at cutting-edge research labs for an amount of time commensurate with the scholarship award period.

SMART is one of the best scholarships available to students, and is a golden opportunity for students to advance their careers and academics simultaneously. Eligibility requirements, degree fields being sought and other information about the SMART Program can be found at:
