Printer Install Instructions: MacOS - HP Printers

1. Retrieve printer name from the physical printer. It can be found on a label in this format: Ex. CLS_WIL205_HP402.msu.montana.edu

1. Click on the Apple logo on the top right corner of the screen. Then select "System Preferences"

![System Preferences](image1)

1. Then select "Printers and Scanners". Click on the "+" button towards the bottom left.

![Printers and Scanners](image2)

1. Select the IP tab.
   a. Input the printer name in the Address line
   b. Select "HP Jetdirect – Socket" for Protocol
   c. Under Use, click on the drop down and select "Generic PCL Printer"
   d. Then Click "Add" and your printer will be added!
Not all printers are the same, or can be setup the same way, but using these instructions should work in most cases. If you have any trouble at all during this process, or have any questions, please let us know at 994-5551.
