Step 1: Press with Windows key on your keyboard type the word “network”. Once the search results populate, click “Network and Sharing Center” from the start menu.

Step 2: Click “Set up a new connection or network”
**Step 3:** Click “Connect to a workplace”

**Step 4:** Click “Use my Internet connection (VPN)”
**Step 5:** Enter “vpn.montana.edu” in the Internet address field, “MSU VPN” in the Destination name field, and check the “Don’t connect now” box.

**Step 6:** Enter your NetID and NetID Password in the “User name” and “Password” fields respectively. Enter “MSU” in the “Domain” field.

![Login to MSU VPN](image2.jpg)
**Step 7:** Click “Close”

**Step 8:** First, click the “Network” icon in the lower right tray. It may also be displayed as the wireless signal indicator if using wireless. Second, click the “MSU VPN” link, then click the “Connect” button.
**Step 9:** Enter your NetID password in the "Password" field and click "Connect". You should be connected!
