

Dear Montana State Students, Faculty and Staff:

The Drug Free Schools and Communities Act Amendments of 1989 require that institutions of higher education receiving any form of financial assistance provide students and employees with information regarding drug and alcohol use, including, but not limited to: sanctions related to their use or misuse, prevention and support programs available, and policies related to alcohol and/or other drugs. You are receiving this email as part of our compliance with the Act's requirements.

Myriad partners across the Montana State University-Bozeman campus strive to maintain a healthy and safe campus. Alcohol and drug misuse and abuse lie at the center of our concern for student and employee safety and welfare. Additionally, ample research highlights the dangers of alcohol and/or drug abuse or misuse on college campuses and in communities. Therefore, we aim to: 1. educate on the dangers of alcohol and drugs; 2. reduce the harm associated with abuse/misuse of drugs and alcohol; and, 3. support prevention and recovery efforts.

The [Dean of Students'](#), [Office of Health Advancement](#) and [Counseling and Psychological Services](#) websites provide information on alcohol and drug laws and policies, standards of conduct, prevention programs and treatment options and resources available to students. Additionally, I encourage you to review this document and our [Annual Security Report](#) for more detailed information. If you have any questions, please contact Marci Torres, Director of the Office of Health Advancement at marci.torres@montana.edu.

Sincerely,

Dr. Matt Caires
Dean of Students, Montana State University

Alcohol, Other Drugs, & MSU

The Montana State University community seeks to foster a campus environment conducive to academic inquiry, productive campus life, and thoughtful study and discourse. The University Code of Conduct and its Human Resources policies support these goals and aim to foster a healthy, safe, and productive campus and community; to promote moral and ethical development; and to encourage students and employees to abide by city, state, and federal laws as well as safe and healthy personal practices. As such, multiple departments and divisions at Montana State work steadfastly to prevent dangerous, illegal, and unhealthy behaviors including misuse and/or abuse of alcohol and/or drugs.

Employees at Montana State, are guided by drug and alcohol policies outlined on the MSU Policies and Procedures [web page](#). This includes reference to the Montana Board of Regents Policy, the Drug-Free Workplace Act, and the Drug-Free Schools and Communities Act and Amendments. Along with outlining the health risks of alcohol and drug use and providing information about employee education and assistance programs, the policy states: *Compliance with Montana State University - Bozeman's Drug and Alcohol Abuse policy is a condition of continued employment.*

Students should be aware that the student conduct process is quite different from criminal and civil court proceedings. Procedures and rights in the student conduct process are conducted with fairness, but do not include the same protections of due process afforded by the courts in criminal cases. Due process, as defined within these procedures, assures written notice and a hearing before an impartial board or hearing officer. No student will be found in violation of the MSU Code of Student Conduct without a determination that is more likely than not that a policy violation occurred. Any sanctions will be proportionate to the severity of the violation and to the cumulative conduct history of the student. Further, as a federally-funded institution, MSU adheres to all federal laws when it comes to alcohol and drug use or distribution. This holds true for marijuana as well. Using or distributing marijuana on or off campus is a violation of MSU's code of conduct even if a student has a medical card or comes from a state in which marijuana is legal or has been decriminalized. Finally, the University's alcohol and drug policies also apply off campus.

These pages provide students with important information about drugs, alcohol, and the university's policies regarding these substances. Included is information on the health risks associated with abuse of alcohol and other drugs, the kinds of help available to those with drug and alcohol related problems, the university's policies related to drug and alcohol use, and the sanctions the institution may impose on those who violate these policies. State and federal laws applicable to the use and abuse of alcohol and other drugs are also presented.

Because of the health and social risks of alcohol and drug abuse, Montana State University provides alcohol and drug abuse prevention education, counseling, and treatment programs designed to reach all segments of the campus community.

MSU Policies Related to Alcohol and Other Drugs

Introduction

MSU has a Campus Alcohol and Drug Policy that promotes a healthy campus environment. That Policy is found at http://www.montana.edu/policy/campus_alcohol_drug/ and it conforms to the requirements of the [Drug Free Schools and Communities Act](#), and the [Montana Board of Regents Policy 503.1](#).

Standards of Conduct

MSU's policy prohibits unlawful possession, consumption, use, distribution or sale of illicit drugs and alcohol by students and employees on campus property. These acts are prohibited by both Section 635.00 of the [Student Conduct Code](#) and Section 1230.00 of the [Personnel Policies and Procedures Manual](#).

Drug and Alcohol Abuse Employee Policy

1230.30: Montana State University-Bozeman is committed to maintaining a work environment that is drug and alcohol free. The unlawful and unauthorized use, possession, manufacture, distribution, or sale of controlled substances and alcohol are prohibited in and on MSU-Bozeman property and during the performance of one's duties.

Compliance with Montana State University – Bozeman's Drug and Alcohol Abuse policy is a condition of continued employment. Violations of this policy will result in disciplinary action, up to and including termination of employment. An employee who violates the provisions of this policy may be required to successfully complete a drug/alcohol abuse rehabilitation program as an alternative to termination.

Illegal Drugs

MSU's Policy also prohibits the use, possession, manufacture, sale, or distribution of any illegal drugs on University property or at University sponsored, including the non-medical use of prescription drugs.

Alcohol and Drug Policies Pertaining to the Student Code of Conduct

The Code of Conduct at Montana State is guided by, but not limited to, the following:

- Fostering a healthy, safe and productive campus and community;
- Promoting moral and ethical development;
- Abiding by city, state and federal laws.

The University's [alcohol and drug policies](#) for students echo the aforementioned principles. And, as a federally-funded institution, we must adhere to all federal laws when it comes to alcohol and drug use or distribution. This holds true for marijuana as well. Using or distributing marijuana on or off campus is a violation of our code of conduct even if a

student has a medical card or comes from a state in which marijuana is legal or has been decriminalized.

- a. **Alcohol Illegal-Use** - Use or possession of intoxicants, including alcohol, in the buildings or on the grounds of Montana State University except as expressly permitted by law or University policy.
- b. **Alcohol Distribution** - Distribution of intoxicants, including alcohol, in the buildings or on the grounds of Montana State University except as expressly permitted by law or University policy.
- c. **Drugs Illegal-Use** - Use, possession, manufacture, distribution or sale of narcotics or dangerous drugs as defined by city, state or federal laws. This includes mind-altering drugs, designer drugs or synthetic substances used as a substitute for a controlled substance, except as expressly permitted by law or University policy. This also includes the abuse, distribution or improper use of prescription drugs.
- d. **Drugs Distribution** - Manufacture, distribution or sale of narcotics or dangerous drugs, except as expressly permitted by law or University policy.

MSU is a tobacco-free campus, which includes all nicotine delivery devices. Even though medical marijuana is legal in the state of Montana, University policy prohibits the use of any nicotine delivery device on campus through the tobacco-free policy and federal and state law prohibits the possession and/or use of drug paraphernalia at educational institutions.

Montana State Medical Amnesty Policy

A. Purpose

- a. Montana State University recognizes that certain barriers may exist that would prevent students from seeking medical assistance for themselves or others when someone's health and/or safety is at risk due to alcohol and/or drug use, or where other health issues arise where alcohol or drugs are being used. Therefore, to ensure that students receive prompt and appropriate attention for urgent medical situations, and to ensure there are no impediments to seeking such assistance, Montana State University implemented this Medical Amnesty policy.

B. Policy

- a. To promote the safety, health, and wellbeing of students at Montana State University, the University expects its students and organizations to immediately contact university staff, emergency medical services or law enforcement when they have reason to believe a fellow student is too impaired/intoxicated from alcohol/drug use to seek competent professional medical help on their own, or otherwise in need of urgent medical attention. Students should act immediately and not wait for any conditions to worsen when the health and safety of someone is at risk.
- b. Montana State University students and organizations who seek out and respectfully and fully comply with university, medical, or law enforcement personnel when having violated the alcohol and/or drug policy outlined in the

Student Conduct Code will not be subject to disciplinary sanctions nor have conduct files created for the related alcohol/drug violations. However, if other violations occur concurrently with the alleged violations, students will be held accountable for those violations.

c. Amnesty for the reporting of sex-based discrimination, sexual harassment, sexual misconduct, dating violence, domestic violence, or stalking, can be found in the Discrimination, Harassment, Sexual Misconduct, Dating Violence, Domestic Violence, Stalking and Retaliation policy.

d. Students assisting and/or those in need of assistance must affirmatively contact university staff, emergency medical services or law enforcement and request their presence in order to receive amnesty. Bringing a medical issue to the attention of law enforcement or emergency medical services after they are on scene for other purposes will not result in amnesty protection. If students and organizations involved do not reach out to emergency medical services or law enforcement, they may be subject to disciplinary measures.

e. The Dean of Students or a designee will record the names of students or organizations involved in the incident for the purpose of accurate recording and future evaluation of each student's conduct. These records shall be maintained separately from any disciplinary records but may be considered as relevant information in future decision making. In order for this provision to apply, students involved in the incident may be required to participate in an alcohol/drug education program or seek medical treatment for alcohol and/or drug abuse, but these requirements will not be recorded as sanctions.

f. Repeated use of this Medical Amnesty Policy for the purpose of avoiding disciplinary action by the University will be considered interference with the conduct process and may lead to additional disciplinary measures at the discretion of the Dean of Students or designee.

Prescription Drug Abuse

Students' inappropriate use of prescription drugs such as to "get high," cram for exams, or use to enhance sports performance is a violation of MSU's policy. Prescription drugs, when mixed with alcohol, are particularly dangerous and potentially lethal. This is especially true of opiates, such as OxyContin, Vicodin or other painkillers. Harmful effects of prescription drug abuse include:

1. Mental health: increased irritability, agitation, anger, apathy, depression, paranoia (delusions and Hallucinations), violence, and dependence.
2. Physical health: drastic changes in sleep patterns, sudden weight loss or gain, stunted growth, and dependence.

Alcoholic Beverages on Campus or Associated with Groups/Organizations

[Montana Board of Regents Policy 503.1](#) provides that consumption of alcoholic beverages is permitted on property belonging to the Montana University System only as follows:

1. Within student living quarters, consumption of alcohol is allowed only by persons of legal age. Legal consumption by students in student living quarters shall not interfere with the rights of other residents and their guests or cause the normal operation of residence halls/student housing to be disrupted.
2. Within approved areas on campus property that are used or rented as approved by the President.

Approval Process

MSU has established procedures for obtaining approval for events where alcohol will be available. See [Section 890, Facilities Use Manual](#).

Residence Life and Family and Graduate Housing

All events involving alcohol held on campus must receive approval from University Catering. University Catering provides information about policies, laws, and the procedures to initiate the University's approval process. The requirements for events with service of alcoholic beverages are found in the [Campus Alcohol and Drug Policy](#) and the Facilities Use Manual

MSU's policy allows the possession and consumption of alcohol in the privacy of student rooms or individual family and graduate housing units, in accordance with applicable State law (legal drinking age in Montana is 21). However, it does not allow alcoholic beverages to be consumed in public areas such as hallways and lounges. If a public area is used for an event and alcohol will be present, the event sponsor must follow the requirements of [Section 890, Facilities Use Manual](#). Also, the Policy does not allow parties or activities in student rooms where large amounts of alcohol are present.

Residence Hall social funds (managed by Residence Hall Association (RHA)) may not be used for the purchase of alcoholic beverages. Approved residence life and family and graduate housing sponsored functions involving alcohol must also adhere to the state law and the policies of the university. Off-campus events organized or sponsored by MSU Residence Life or Family and Graduate Housing may serve alcohol only in accordance with the Campus Alcohol and Drug Policy.

Fraternity/Sorority Organizations

MSU Policy provides that possession and consumption of alcoholic beverages at Fraternity/Sorority houses and functions are subject to policies established by the Board of Regents, Montana State University, IFC/Panhellenic policies, and with national chapter policies, local ordinances, and State laws.

Any Fraternity/Sorority events must follow MSU's Alcohol and Drug Policy including its provisions concerning prohibitions on: alcohol at open parties; use of alcohol at

recruitment functions; the use of Chapter funds for the purchase of alcohol. Events with alcohol must also meet the requirements for registration with university officials and other related requirements and procedures.

ASMSU, Departmental and Other Registered Student Organizations

MSU's Alcohol and Drug Policy also regulates the use of alcohol at gatherings or events of ASMSU, registered student organizations, and other organized student groups. Such groups must follow MSU's policies and procedures governing the use of alcohol at events and must receive prior approval in accordance with Section 890.00 of the Facilities Use Manual. No organizational or ASMSU funds are allowed to be used to buy alcohol.

Stadium and Sports Facilities

Alcohol use is not allowed in sports facilities except in certain specific locations (e.g., Stadium Club) or as authorized under Section 890.00 of the Facilities Use Manual. Alcohol concessions at Football games and at tailgating are allowed in accordance with the requirement of MSU [policies](#).

University Employees and Outside Groups

MSU's Alcohol and Drug policy also requires employee or private party events using university facilities which involve the service of alcohol to comply with the requirements of [Section 890.00](#) of the Facilities Use Policy. No organizational funds of employee groups may be used to purchase alcohol.

Alcohol Marketing Guidelines

MSU's Policy also regulates [alcohol advertising and marketing](#) on campus. It prohibits reference to alcoholic beverages, free drinks, and drinking games, and regulates any allowed advertising.

Medical Marijuana

Although Montana state law permits the use of medical marijuana, i.e., use by persons possessing lawfully issued medical marijuana cards, federal laws prohibit marijuana use, possession and/or cultivation at educational institutions and on the premises of other recipients of federal funds. Therefore, MSU's Policy prohibits the use, possession or cultivation of marijuana for medical purposes in any Montana State University property, inclusive of housing; nor is it allowed at any University-sponsored event or activity off campus.

Tobacco-Free Campus

Tobacco use and secondhand smoke have been identified by the Surgeon General to be the cause of preventable diseases. Additionally, in 2009, the Montana legislature decreed that the "right to breath smoke-free air has priority over the desire to smoke" (Montana Code 50-40-102). It is the policy of MSU to promote the health, wellness, and safety of all employees, students, guests, visitors, and contractors while on campus. Therefore, the campus will be free of tobacco-use effective August 1, 2012.

Any violation of the University's [Tobacco Free Campus Policy](#), which includes nicotine delivery devices and prohibits the use of tobacco (including cigarettes, cigars, pipes, smokeless tobacco and all other tobacco products) by students, faculty, staff, guests, visitors, and contractors is prohibited on all properties owned or leased by MSU, including:

1. all interior space on the MSU campus and property leased by MSU, including the agricultural research centers and other remote sites;
2. all outside property or grounds on MSU's campuses, including areas such as walkways, breezeways, parking lots, and patios;
3. all outside property leased by MSU;
4. all vehicles leased or owned by MSU;
5. all indoor and outdoor athletic facilities.

Sanctions Related to Alcohol and Other Drugs

Code of Student Conduct Sanctioning Guidelines

Montana State utilizes a progressive discipline approach when resolving conduct code violations. When considering outcomes for alcohol or drug violations, all cases are contextualized. For instance, not all violations are resolved the same way. There are obvious variables that could impact the outcomes listed below, including level of intoxication, the intoxicant, etc.

If a student has been cited or arrested for an alcohol or drug-related law violation, the conduct officer may allow court-ordered sanctions to substitute for University sanctions. This is especially relevant to alcohol and drug education classes and community service.

- Recommended Sanctions for a first violation of an alcohol or drug policy are a University Warning and the completion of an Alcohol/Drug Education course.
- Recommended Sanctions for a second violation are conduct probation/residence hall probation or relocation and/or an additional level of Alcohol or Drug Education.
- Recommended Sanctions for a third violation are conduct suspension, housing removal and/or additional Alcohol or Drug Education, including a substance abuse assessment.

City of Bozeman Municipal Ordinance Sanctions

Article 4. – Alcohol Policy

1. Sec. 4.04.010. - General provisions and intent.
 - A. The city commission declares that alcohol possession and consumption by minors, high risk drinking behaviors by minors, and the supply and sale of alcohol to minors have negative and detrimental impacts on the community and are, therefore, a nuisance, and constitute conduct calculated to disturb the public peace of the city and threaten the health, safety and welfare of the citizens of Bozeman.
 - B. Significant problems exist when persons possess and consume alcoholic beverages in an irresponsible manner. Such persons create a public safety hazard by their consumption of alcoholic beverages and the subsequent driving of motor vehicles or

violent encounters on public property. Therefore, because of the negative and detrimental impacts of such behaviors on the community, the irresponsible consumption and possession of alcoholic beverages which disturb the public peace of the city are declared a nuisance and threaten the health, safety and welfare of the citizens of Bozeman.

- C. It is the intent of the city commission to address those areas related to alcohol access, consumption and usage which are not otherwise addressed by the current law in the state. Violations such as Endangering Welfare of Children (MCA 45-5-622), Unlawful Transactions with Children (MCA 45-5-623), Unlawful Attempt to Purchase or Possession of Intoxicating Substance (MCA 45-5-624), Driving under the Influence of Alcohol or Drugs or Operation with Alcohol Concentration of .08 or More (MCA 61-8-401 and 61-8-406), and Operation of Vehicle by Person under Twenty-One with Alcohol Concentration of .02 or More (MCA 61-8-410) have all been specifically addressed by state law as noted and will be enforced within the city under those laws. Disorderly Conduct and Public Nuisance (MCA 45-8-101 and 45-8-111) violations shall be addressed by state code. Noise issues shall be addressed through chapter 16, article 6, as applicable.
- 2. Sec. 4.04.030. - Public drinking or display of open alcoholic beverages; open containers; prohibited.
Public drinking or display or exhibition of open alcoholic beverages (open container) as defined in section 4.04.020 is prohibited, and it is unlawful for any person to engage in public drinking, public display or exhibition of open alcoholic beverages (open container) within the city limits.
- 3. Sec. 4.04.070. - Violation; penalty.
 - A. It is a misdemeanor for any person to violate any of the provisions of this article.
 - B. Anyone found guilty of the offense of having an open container under section 4.04.030 shall be fined an amount not less than \$100.00 and not to exceed \$500.00 or be imprisoned in the county jail for a term not to exceed six months, or both. The first \$100.00 of a fine under this section may not be suspended. C. Upon conviction, the court may, in its discretion, order the payment of the costs of prosecution or imprisonment, or both, as part of the sentence.

ARTICLE 8. - Medical Marijuana

- 1. Sec. 16.08.150. - Applicability; failure to maintain state authorization.
 - A. For purposes of this division, the definitions, words, phrases, and expressions as set forth in this division are to be construed the same as those set forth in the Montana Marijuana Act (MCA 50-46-301 et seq.).
 - B. Any individual or entity licensed under this division to conduct any transaction, use or business involving marijuana, in addition to the requirements of this division, is subject to all other requirements of this Code, and the Montana Marijuana Act and any limits on possession, clean air, etc., and any applicable administrative rules established by the state. Should such rules or laws change, any person or entity

licensed under this division shall immediately come into compliance with any newly adopted rules.

- C. Notwithstanding the above, nothing in this Code shall be construed to authorize any person or entity to perform any act or conduct any enterprise not in conformance with state or federal law.
- D. Compliance with this Code does not shield any person, corporation, or other legal entity from the requirements of, or enforcement by, other governing entities, or from civil liabilities.
- E. Each individual or entity issued a license under this division shall at all times maintain authorization from the State of Montana under the Montana Medical Marijuana Act to acquire, possess, cultivate, manufacture, deliver, transfer, or transport medical marijuana. Failure to maintain authorization under the Medical Marijuana Act shall be cause for immediate suspension of a license issued under this division and may be cause for revocation or cause for criminal prosecution as provided by law.

Division 3. – Public Use and Display

1. Sec. 16.08.300. - Purpose and intent.

- A. The purpose of this division is to identify acts regarding the use of marijuana as authorized in Title 50, Chapter 46, MCA within the city that are not authorized to be conducted in a manner open or visible to the general public. In addition, the purpose of this division is to identify that acts related to smoking, consuming, or displaying marijuana in certain public areas are to be punished as criminal acts and as such shall be subject to criminal penalties. The purpose of establishing these acts where the use is further limited by the city as criminal is to protect the public's health, safety, and general welfare.
- B. It is the intent of this division that the visible or open display, smoking, or consumption of marijuana by registered cardholders is to be confined to private property where that property or portions thereof are not adapted and fitted for public travel or are not in common use by the public. (Ord. No. 1786, § 5(8.52.010), 7-26-2010; Ord. No. 1869 , § 2, 7-22-2013)

2. Sec. 16.08.320. - Public display, smoking, or consumption of marijuana prohibited.

No person authorized by the Montana Marijuana Act (MCA 50-46-301 et seq.) to acquire, possess, cultivate, manufacture, deliver, transfer, or transport marijuana, may, on the ways of the city open to the public, display, smoke, or consume marijuana in an open or visible manner. A violation of this section is an absolute liability offense.
(Ord. No. 1786, § 5(8.52.030), 7-26-2010; Ord. No. 1869 , § 2, 7-22-2013)

3. Sec. 16.08.330. - State law superseded and applicable.

The provisions of this division shall supersede by the Montana Marijuana Act (MCA 50-46-301 et seq.), only in so far as this division expands the limitations on the use of marijuana authorized under the Montana Marijuana Act. All other provisions of state law related to marijuana shall be applicable. (Ord. No. 1786, § 5(8.52.040), 7-26-2010; Ord. No. 1869 , § 2, 7-22-2013)

4. Sec. 16.08.340. - Violation and penalty.

A violation of section 16.08.320 is a misdemeanor and upon conviction a person shall be fined not more than \$500.00 or imprisoned in the Gallatin County Detention Center for a period not to exceed six months or both such fine and imprisonment. A person so convicted shall also be required to pay all costs and expenses of prosecution and the courts as authorized by law. (Ord. No. 1786, § 5(8.52.050), 7-26-2010)

5. Sec. 16.08.350. - No private right of action.

Nothing in this division shall be construed to create a private right of action regarding the acquisition, possession, cultivation, manufacture, delivery, transfer, or transport of marijuana.

State of Montana Laws and Sanctions

45-5-624. Possession of or unlawful attempt to purchase intoxicating substance.

A person under 21 years of age commits the offense of possession of an intoxicating substance if the person knowingly consumes or has in the person's possession an intoxicating substance. A person may not be arrested for or charged with the offense solely because the person was at a place where other persons were possessing or consuming alcoholic beverages. A person does not commit the offense if the person consumes or gains possession of an alcoholic beverage because it was lawfully supplied to the person under 16-6-305 or when in the course of employment it is necessary to possess alcoholic beverages.

A person convicted of a first violation of this section is presumed to be entitled to a deferred imposition of sentence of imprisonment.

Federal Guidelines

The [United States Controlled Substances Act](#) established sanctions for possession and distribution of controlled substances, based on the schedule of the drug and the amount involved. However, in addition, the statutory sanctions for possession and distribution are subject to the "Sentencing Guidelines for U.S. Courts." Imposition of the guidelines may lead to higher offense levels and, thus, stricter penalties than otherwise indicated. Courts must make adjustments in the offense level for victim-related considerations, defendant's role in the offense, multiple counts, obstruction and acceptance of responsibility. Finally, the guidelines establish sentences for each offense based on the defendant's criminal history. Federal penal sanctions range from: manufacture, distribution or trafficking of large amounts of heroin, cocaine, PCP, methamphetamine, Schedule I and II hallucinogens, marijuana, hashish, or any of their derivatives (30 years to life, regardless of the defendant's criminal history) to Possession of any Schedule III-V drug if defendant has lowest level or criminal history (0-4 months).

Further, if serious injury or death results from the crime, minimums of up to 10 years (serious injury) and 20 years (death), plus fines of up to \$4,000,000 may be added. These penalties maybe doubled for defendants with past felony drug convictions. Finally, penal sanctions in the federal system are "real time," with reductions in sentences only for good behavior.

Besides the criminal sanctions, the consequences of unlawful or irresponsible alcohol or drug use include, but are not limited to:

1. Restrictions on future employment opportunities
2. The loss of Federal Financial Aid (Mandatory for Drug Offenses)
3. Potential risks for injury, including permanent disability
4. The risk of being a victim of a crime and / or committing additional crime(s)
5. The loss of driving privileges
6. Additional sanctions on your educational record and future educational opportunities

Health Risks Associated with Use and/or Abuse of Drugs and/or Alcohol

Health Risks of Alcohol and Drug Abuse

Abusive use of alcohol and/or the use of illicit drugs or misuse of prescription drugs can be detrimental to the physical and mental health of students and members of the surrounding community. The various risks are classified and described in this section of the Report.

Social, Academic, and Personal Risks of High-Risk Substance Abuse

Social, academic and personal risks are associated with students who drink alcohol, use illicit drugs or abuse prescription drugs. High-risk and illegal use of alcohol and illicit drugs are the most prominent health and safety risks to the MSU student population, which can result in significant legal and academic problems. Prevalence of this type of alcohol use (also known as “binge drinking” or heavy episodic drinking) and/or use of drugs can directly or indirectly lead to:

1. Social problems: driving under the influence, fighting, unwanted sexual contact, vandalism, trouble with authorities, unsafe sexual behavior, among others.
2. Academic problems: poor grades, missed classes, memory loss, falling behind in class work or projects.
3. Personal problems: depression, illness and injury, experiencing unwanted attempted or completed sexual intercourse, suicide, being the victim of violence or racial harassment, being unable to control drinking or drug use.

Second-Hand Effects

“Second hand” effects result from other peoples’ drinking or drug use, often experienced by students who choose not to use drugs or alcohol in a high-risk manner. These problems are typically most prominent among students living in close quarters (e.g., residence halls or Greek houses). Effects include: disruptions of sleep or studying, having one’s property damaged, feeling unsafe, having one’s membership in an organized group adversely affected, and decreased enjoyment of campus activities. Non-students, i.e., community

members, are also at risk of experiencing problems because of student drinking or drug use (e.g., intoxicated driving, vandalism, violence, sexual assault).

Risks Associated with Dependency or Addiction

For some students, substance use escalates to dependency. Adverse effects of dependency can include illnesses such as liver disease, peripheral neuropathy, and cerebella degeneration. Additional health risks to students with chemical or psychological dependency include the personal problems listed above in addition to blackouts, alcoholic hallucinations, and delirium tremens. Prescribed medications and illicit drugs can be abused with or without dependency, leading to potential dependency, acute intoxication (can include depression or euphoria, altered time perception, impairment of immediate memory, overdose, stupor, shock, coma or death), acute withdrawal, psychosis, or aggravation of existing mental illness.

Symptoms of dependency include the following:

1. psychological craving: intense feeling of need for the drug which may be accompanied with antisocial behavior involved in the procurement of the substance;
2. physiological dependence: withdrawal symptoms are displayed when use of the substance is discontinued; and
3. tolerance: need to increase the dose of the substance to obtain the desired effects.

Campus Safety

Annual Security and Fire Report

Montana State University invites all University current and prospective employees and students to read the [Annual Security and Fire Safety Report](#). As required by federal law under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act), any postsecondary institution participating in the Higher Education Act (HEA's) Title IV student financial assistance programs must comply and issue campus alerts to provide the campus community with information necessary to make informed decisions about their health and safety, issue a timely warning for any Clery Act crime that represents an ongoing threat to the safety of students or employees and issue emergency notifications upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus.

Montana State University is required under the Clery Act to publish an Annual Security Report every October. Montana State University prepares this report in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act and the Public Act no. 12-78, an act concerning sexual violence on college campuses. This report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by Montana State University; and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies on campus security, such

as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other matters.

Crime Prevention

The University's [crime prevention program](#) stresses community awareness and interaction through the dissemination of materials and presentations designed to familiarize students, faculty and staff with their responsibility in reducing criminal opportunity. The **university police department** also plays an active role in the local crime prevention and crime stoppers program as well as the DUI task force. University officers provide presentations throughout the university community ranging from late night discussion sessions in residence halls to classroom presentations. Crime prevention materials and reminders are also distributed to the campus community.

In addition, the University [Police Website](#) provides crime prevention information for the campus, including a [crime log](#), [crime alerts](#), the [MSU Sexual or Violent Offender list](#), 360 Stay Safe at College online and other useful information.

Because of growing national trends on college campuses of mental health issues and the increase in unsafe behaviors leading to harm or death, Montana State University has created the [Campus Safety and Welfare Team \(CSWT\)](#). To promote the safety and wellness of the University, the CSWT addresses behaviors that are disruptive or concerning and may include mental health and/or safety issues.

The **CSWT** is a multi-disciplinary team composed of members from the Office of the Dean of Students, University Police, Counseling and Psychological Services, Student Health Service, Residence Life, and Disability, Re-Entry and Veteran Services. This team maintains responsibly for discussing, assessing and responding to reports of individuals who are demonstrating disruptive or concerning behaviors. The CSWT is designed to be a centralized entity that is proactive in providing swift, coordinated, caring, and developmental intervention to members of the campus community prior to crisis.

The [student conduct process](#) at MSU is not intended to punish students; rather, it exists to challenge those whose behavior is not in accordance with our policies and to foster a better understanding of the expectations that exists for members of our academic community. The vast majority of conduct cases at MSU are resolved through administrative meetings. These are one-on-one conversations between the student and a Conduct Officer. During an administrative meeting, the Conduct Officer will provide the student an opportunity to share their account of the incident, view incident reports and/or other written documentation, ask follow-up questions, and discuss potential outcomes (sanctions) if the student is found responsible for violating the Code of Student Conduct. The primary focus of these meetings is to determine what happened and if a violation took place, assist the student in understanding the impact of their behavior, and provide a space for the student to begin reflecting on how to learn from the incident. If it is determined that a violation of the code occurred and that the student is responsible, most administrative meetings conclude with an administrative agreement in which the student agrees to take

responsibility for their involvement in the incident and to complete a sanction or set of sanctions that will help them learn from the incident.

Residence Life places an educational packet in each room for every resident about Safety and Security in the halls and on campus, including information about vandalism and reporting suspicious persons and activities. This brochure also contains information about missing persons reporting, the silent witness program, and residence hall access. Additionally, each semester Residence Life provides educational programming for residents that focuses on safety and security in the buildings. In the fall semester, each building completes a program that addresses the importance of locking doors in the hall by going to every door in each hall and giving out educational materials. In the spring semester, each building designs a safety program that meets the specific needs of that building. Examples of those programs include cyber security, reporting suspicious persons, and leaving items unattended in common areas.

Each **Fraternity and Sorority** chapter at MSU is required by the Dean of Students to host a sexual assault prevention training with the VOICE center each fall. A variety of other health and safety trainings are held during the academic year. Topics include but are not limited to: sexual health and awareness, men and women's health, safety on campus, QPR (suicide prevention) training, mental health and wellness and alcohol awareness. All MSU fraternities that host events with alcohol must attend an alcohol awareness and risk management training at the start of every fall semester.

The **Office of the Dean of Students** offers an annual **Faculty Excellence Workshop** on dealing with disruptive and at-risk students. In addition, trainings regarding how to deal with suicidal or disruptive students are conducted (or offered) for department heads and academic advisors in all colleges and academic departments during each academic year. Associate Deans receive regular updates regarding Safety and Welfare trends and policies each semester.

Resources and Assistance

At Montana State University

Tobacco Use Cessation Programs: Students and employees wanting to quit the use of tobacco can access the Montana Quit Line at 1-800-784-8669 (1-800-QUIT-NOW). Employees on the MUS medical benefits plan can also contact the MUS Employee Benefits Department at 1-877-501-1722 or visit the MUS benefits website at www.mus.edu/choices to explore eligibility for the Tobacco Cessation Benefit.

Alcohol and Drug Assistance Center/Insight Program: The MSU Office of Health Advancement provides a voluntary, confidential resource to assist all students. MSU provides a voluntary, confidential resource to assist all students who are impacted directly or indirectly by chemical abuse through its Alcohol and Drug Assistance Center/Insight Program, including the MIP (Minor in Possession) program.

This is a three-level assistance and intervention program open to all MSU students, either by self-referral or by referral from MSU offices, departments or the local court system. This program can be contacted at (406) 994-5937 and is located at 1106 South 6th Street. Student confidentiality will be respected. The Center provides referral and pre- assessment support.

The Center:

- Offers referral assistance to students and their friends who have alcohol and other drug use issues.
- Offers workshops, seminars and training related to substance abuse.
- Provides support to friends and family who are affected by someone else's substance use/abuse.
- Supports other MSU offices, faculty and staff in issues relating to alcohol/drugs.
- Provides factual information and dispels myths about alcohol and other drugs.
- Disseminates information on local treatment and recovery program options.
- Provides information, support and referral for those students affected by behavioral compulsions and for students who are/were affected by chemical abuse within a family.

The Center also offers limited family counseling and referral. A licensed counselor will meet and consult with family or friends of students on a limited basis to discuss options and offer support. The Center also provides treatment referrals. The three levels (Focus Seminar, Brief Alcohol Screening and Interventions for College Student— BASICS, and Intervention and Referral) are described in detail at the Insight website. Students can also call Insight at 406-587- 2306.

A full-time licensed clinical and addiction counselor works specifically with substance abuse issues. This service is provided as part of the health fees and is free to participants.

The Office of Health Advancement/Insight program also supports Students in Recovery group providing support to students in recovery as they navigate their experience at MSU. The Insight office staff also includes an MIP Case Coordinator and graduate student employees. Graduate students facilitate the Level I Focus Seminars; the licensed counselor conducts the BASICS program and oversees the Levels III interventions.

Montana State University Center for Recovering Students

The MSU Office of Health Advancement provides the [Center for Students in Recovery](#). This is a community for students in sobriety, their allies, and those looking to gain or maintain recovery from addictive disorders. They provide sober events, fellowship, wellness mentoring and other resources. The Center provides recreational opportunities, service work, academic and professional growth as well as a peer-based recovery mentorship program that helps students manage and excel in challenging situation, on and off campus.

General Counseling Services

In addition to the Student Alcohol and Drug Assistance/Insight Program, general counseling and rehabilitation programs are available through MSU's Counseling and Psychological Services located in 211 Swingle, 406-994-4531.

Assessments, treatment groups, and individual counseling for students whose lives have been affected by their own or someone else's substance abuse are available. Persons who voluntarily avail themselves of university services shall be assured that applicable professional standards of confidentiality will be observed.

These counseling and rehabilitation services include:

1. Training professional staff and student staff on drug abuse information, intervention and referral;
2. Conducting education programs for students who have demonstrated abusive behavior with drugs;
3. Conducting individual and group counseling for members of the university community with drug problems;
4. Conducting drug abuse assessments;
5. Organizing campus self-help groups;
6. Providing consultation, information and referral for students, staff and faculty with drug problems;
7. Designing and developing referral opportunities for members of the university community who desire to seek professional assistance beyond the campus. This will be done in cooperation with the employee assistance program and MSU Human Resources; and
8. Providing, with peer involvement, a system of intervention and referral services for students, faculty and staff.

This program has been designed to make faculty, students, administrators, and other employees served by the program comfortable, to give choice in the selection of assistance, to maintain confidentiality of clients, and to provide professional service.

An employee assistance program (EAP) is also available to provide information or confidential referral to drug and/or alcohol counseling or rehabilitation programs. An employee wishing to access the services may go to: www.montana.edu/wellness; click on TLC button and access the TLC website (company code MUS) or call toll free 1-866-248-4532.

Employees needing help in dealing with drug/alcohol problems or information on insurance coverage for treatment and rehabilitation programs may also contact Human Resources.
