How Brightspace Binder works

From your Brightspace Binder app, you can create a persistent authenticated connection to your organization’s Brightspace Learning Environment. You can then download, browse, annotate, and organize course documents.
About document storage limits
Brightspace Binder has a document storage limit of 2GB (or 2048MB) per account. The maximum supported file size is 300MB. You can view the amount of remaining data storage in the Account or Settings area of your Binder application. If you reach the storage limit, the system notifies you the next time you use the Send to Binder or Add to Binder features. You can delete your documents as needed to free up space.

D2L is committed to making Brightspace Binder and supported e-text more accessible and welcomes comments and inquiries about the accessibility of Brightspace Binder by contacting bindersupport@desire2learn.com.

- Microsoft Office Suite: DOC/X, PPT/X, XLS/X
- Web files: HTML
