POSTDOCTORAL FELLOWSHIP

Sara E. & Bruce B. Collette
POSTDOCTORAL FELLOWSHIP IN SYSTEMATIC ICHTHYOLOGY

Purpose

The purpose of the Collette Postdoctoral Fellowship is to support full-time, resident, independent research focused on the study of systematics, including comparative morphology, of fishes using the collections of the Smithsonian Institution, National Museum of Natural History (NMNH). This is a two-year award. Awardees are expected to be actively involved in the scholarly activities of the NMNH Division of Fishes and collections-based systematic ichthyology both national and internationally.

Who is Eligible?

Applicants should have a proven record of research accomplishment and knowledge of the systematics of one or more groups of fishes. The fellowship may begin on or after 1 January 2020. All formal requirements for a Ph.D. must be completed before the start of the tenure. Fellowships are available to US and non-US citizens.

How Do I Apply?

To apply, send as an email attachment the materials below to Lynne Parenti at PARENTIL@si.edu in PDF format. The subject of the message should be “Collette Postdoctoral Fellowship Application.”

- Curriculum Vitae
