

Help Wanted: Part-time Summer Gardening

We will be hiring a student to assist with landscape maintenance this summer, 3-5 hours a week, \$20 an hour. Our property is located 7 minutes west of Four Corners. Students with interest in native plant landscaping are especially encouraged to apply. Experience using string trimmers is important and familiarity with compact tractors is a plus. Please send information about relevant experience and references to Shannon at coinagetwo@gmail.com.
