Overview & Job Duties:
These positions will be located within USDA Service Centers and will provide conservation technical assistance and conservation program delivery to private landowners within their assigned districts and other priority areas as appropriate. The incumbent will work in a joint capacity with USDA Natural Resources Conservation Service (NRCS), Texas Parks and Wildlife Department, Oaks and Prairies Joint Venture and other State and Federal partners to promote, accelerate enrollment, coordinate and implement the conservation provisions of the Federal Farm Bill and other wildlife related conservation programs such as the Grassland Restoration Incentive Program (GRIP). Activities will include program promotion (workshops and one on one meetings), contract coordination, conservation planning, conservation plan modification, site assessment and reporting. Incumbents will provide technical biological assistance for wildlife habitat enhancement techniques to private landowners and public organizations. Work with local chapters of Quail Forever (QF) and other local partners to increase habitat management efforts and participate in regional and statewide habitat meetings. Assist or coordinate activities and projects with other QF, NRCS, TPWD or OPJV staff. These positions will be employees of, and supervised by Pheasants Forever, Inc. & Quail Forever, with daily instruction and leadership provided by QF, NRCS and OPJV. Hired individuals will work largely within the focus areas of the OPJV to achieve the objectives of the partnership. For more information about the work of the OPJV, visit www.opjv.org.

Desired Knowledge, Skills and Abilities:
- Ability to communicate clearly and effectively with landowners, partner agencies and colleagues.
- Ability to work independently with little supervision and with diverse clientele.
- Knowledge of wildlife ecology, prescribed fire, and grassland, wetland and early succession habitat management.
- Ability to convey the use of various habitat management tools in the development of management plans.
- Knowledge of conservation and wildlife habitat programs provided by federal (i.e. Farm Bill, US Fish and Wildlife Service), state, & local entities. In addition, knowledge of how these programs are implemented in an agricultural landscape is desired.
- Knowledge of or practical experience with agricultural systems, farming and ranching.
- Excellent verbal and written communication.
- Strong organizational skills.
- Demonstrated ability as a leader with a high degree of self-motivation.
- Proficiency with ArcGIS and/or USDA Toolkit.
- Conflict resolution skills.
- Valid driver’s license required; some use of personal vehicle may be required (mileage reimbursement provided).
- Must be able to obtain USDA Federal Security Clearance.

Education and Experience Preferred: A minimum requirement for this position is a Bachelor of Science Degree in Wildlife Management or closely related natural resources field and three years of relevant experience. Wildlife Society Certification and graduate work will also be considered. Proven experience working with USDA Farm Bill programs (i.e. EQIP, CSP, ACEP, CRP and CREP) is preferred.
Starting Salary: Commensurate with Experience + Health Benefits and Retirement Package
