C&I Spring Work Day
May 8th, 2012
Montana’s Common Core State Standards

8:15 Refreshments (Reid 301)

8:30 Webinar—Mapping to the Core: Planning for Curriculum Success  Presented by Dr. Heidi Hayes Jacobs
Dr. Jacobs’s Webinar presents step-by-step theory and instruction that guides teachers and administrators through the process of creating a curriculum map aligned to the Common Core Standards. "Mapping to the Core" addresses the following implementation steps:

- Understand basic mapping elements and types of maps
- Develop core unit maps with integrated Common Core Standards
- Establish core purposes for mapping reviews
- Develop consensus core maps with benchmark assessments
- Integrate literacy strategies into the maps
- Align the maps using the five alignment perspectives
- Update maps to engage the 21st century learner
- Sustain the core mapping review process

9:45 Break

10:00 Discussion: Integrating Montana’s CCSS into MSU’s Teacher Education Program
1. Why is the task of integrating CCSS important to us?
2. How will the CCSS affect you, your courses, your assignments, and your assessments?
3. How will we approach this integration task?
4. What will our timeline be?
5. Brainstorming new ideas for CCSS integration across the program

12:00 Lunch Provided (Reid 126)

1:00 Report on the Teacher Education Program Assessment System – Bill Freese (Reid 301)

1:30 Building Connections between Montana’s CCSS, Performance Assessment, and the Teacher Work Sample – Pat Ingraham

2:30 Adjourn
