1. At the bottom of the page before you want to insert a landscape page, insert a page break by selecting “Next Page” from the Page Layout tab.

NB: If your page number disappears from any of your pages, double-click in the header and format page numbers so they continue from the previous section.
2. Select Landscape Orientation from the Page Layout tab.

3. Insert your figure/table/image!

4. Follow the tips for adjusting your page number so it sits in the correct spot.
