If you have **multiple** appendices, please add this "divider" page for references.

If your ETD does not include more than one appendix, you do not need this divider page - just put references title in all caps at the top of your first references page

REFERENCES CITED
Start References on the first line of the page. All references should be single spaced with a double space between references. You choose your reference style.

References should precede appendices unless appendix material is included in the references section.
APPENDICES

If you have multiple appendices, you must have multiple divider pages. One page for appendices (this page), and one for each additional appendix. Remember to also include a divider page for your references.
If you only have one appendix, this is the only divider page that is needed.
