

Resources Available to MSU Researchers

Tuesday, Oct. 28, 11:45 a.m.-1:00 p.m., SUB 233

Presenter: Laurie Hassell, Director, Regional Research Collaborations, Institute of Translational Health Sciences (ITHS)

The Institute of Translational Health Sciences (ITHS) is a research organization focused on increasing the speed and quality of translational science, so that research discoveries are more efficiently and effectively integrated into health practice. Laurie Hassell, Director of the Regional Research Collaborations Program at the ITHS will discuss many resources and tools that are available to investigators throughout Montana, Idaho, Alaska, eastern Washington and Wyoming. Some examples of the resources Laurie will describe include:

- REDCap, an electronic data capture tool
- Self-Directed Learning Center
- De-identified Clinical Data Repository
- Data QUEST and the FindIT tool
- Community-based clinical research networks

Faculty and research personnel from any discipline engaged in basic, animal or human research with health implications are encouraged to attend.

Lunch will be served at 11:30 a.m. with the session beginning at 11:45 a.m.

Laurie will also be available for individual or small group meetings on Tuesday October 28th and Wednesday, October 29th. Please contact Cindy Wilson cindy.wilson4@montana.edu to schedule an appointment.

Registration is required by 12:00 noon, Monday, Oct. 27. Register by going to <https://www.surveymonkey.com/s/LaurieHassell>

Laurie will also be available for individual or small group meetings on Tuesday, October 28th and Wednesday, October 29th. Please contact Cindy Wilson cindy.wilson4@montana.edu to schedule an appointment.

This event is sponsored by the College of Education, Health, and Human Development and the Center for Faculty Excellence.
