Indigenous Economic Development

Indigenous planners from reservations around Montana to share their experiences and expertise in a facilitated gathering designed to identify best practices and challenges with regard to Indigenous land planning and tenure.

Research Methods in Applied Economic Analysis

Top scholars from both academia and the private sector to MSU to meet with students, discuss the research process and how they use research in their careers, and provide feedback on student research proposals. Several DAEE alums participated and also met with students to discuss how they use the economic analysis and research skills they learned at MSU in their careers.
