

# Want to Install A Satellite Dish ?

## Good News!

**Satellite dishes are allowed in Family & Graduate Housing! We want you to enjoy your home as much as possible; we only ask that you follow the guidelines listed below to ensure proper installation of your dish.**

1. Permanent alterations or modification of units to allow for installation of satellite dishes are not permitted. If damage occurs to Family & Graduate Housing property, charges will result.
2. Family & Graduate Housing is NOT responsible for any damage to satellite dish equipment.
3. Residents are expected to maintain the grounds/area surrounding the dish.
4. Satellite dishes **must** be placed on a wooden post in the ground. The hole for the post must be a shovel-dug hole approximately 24 inches deep and 24 inches from the building. Tripods for mounting satellite dish equipment are NOT permitted.
5. Residents are responsible for a fee if campus locate services does a sweep of the proposed location. The purpose of this would be to determine if underground utility lines would be interfered with by satellite dish post installation.
6. Entry into the unit with the satellite cable should be at a window or door opening. Residents must not drill into the building for access.
7. Anyone wishing to further pursue this approval must complete the information sheet on the reverse side for review by the maintenance supervisor **previous to installation.**
8. Residents who fail to remove their satellite dish upon vacating will be charged a fee to store the dish for 30 days, after which the dish will be disposed of.

**Thank you for following  
these guidelines.**
