GRADUATE TRAVEL AWARD NOTICE
2016-2017

The Graduate School is pleased to announce another round of domestic travel grants for academic year 2016-17. Specifically, $25K has been allocated to support this initiative. The funds will be used to support two forms of travel requests.

- 60% of the funds will be used to support recruitment of new graduate students from non-STEM departments only;
- The remaining 40% will be used to support travel opportunities for existing MSU Bozeman graduate students (in good standing), from any department, to present (oral) their research findings at domestic professional conferences and workshops or to conduct research for their dissertation at domestic locations.

The amount in either case will be dependent on the travel budget available to the Dean of The Graduate School and will be disbursed until depleted. Travel, in all cases, is limited to domestic travel only.
