CRITERIA AND STANDARDS

*“Criteria” are the variables examined in an evaluation. “Standards” are the levels or degrees of performance which measure success in meeting criteria. [FH 602.00]
Revised 7/1/99*

200 CRITERIA FOR THE FORMAL REVIEW OF FACULTY PERFORMANCE

Montana State University-Bozeman is served by a faculty with a wide range of skills, interests and responsibilities. Thus, different faculty members may have very different assignments in terms of teaching, research/creative activity, and service. The Criteria and Standards portion of this document (630.00 to 633.03) carries forth this principle by distinguishing two general categories of academic faculty as defined in 602.00, those with “instructional” expectations and those with “professional practice” expectations who have responsibilities in any subset of these three areas. Faculty with professional practice expectations are not expected to meet the criteria and standards in any area in which they are not assigned responsibility. Each faculty member’s letter of hire or subsequently negotiated role statement shall specify which category of expectations apply.

Faculty may be appointed to positions with professional practice expectations only by agreement of the department head, dean, and Provost and Vice President for Academic Affairs. Appointments may not be converted to or from positions with professional practice expectations without the express written consent of the Provost. Once appointed to a position, faculty will be reviewed according to the standards appropriate to instructional or professional expectations.

The section requires that differences in expectations be recognized, valued, and respected at all levels during the review of faculty performance. Faculty review must take into account the resources available to accomplish the faculty member’s assignment including release time for scholarly activities, library support, and the availability of computing facilities and technical support staff. As an integral part of their assignments, faculty may be expected to seek available extramural funds appropriate to their field of study. [FH 603.03] Modified 7/1/98

210 UNIVERSITY CRITERIA

The criteria on which a faculty member with instructional expectations will be evaluated shall be the three areas of responsibility: teaching, research/creative activity, and service. A faculty member with professional practice expectations will be evaluated in the area or areas of responsibility (teaching, research/creative activity, or outreach) appropriate to his or her specific assignment.

Departments and colleges will establish specific standards for the review of faculty performance. [FH 632.00] Revised 7/99

Methods for soliciting external reviews are part of departmental criteria and standards documents. Candidates shall list all publications, presentations, exhibits, and performances in their dossiers and, in addition, shall submit for review a set of articles, publications, creative endeavors, or other evidence that, in their judgment, represents their best efforts to advance the discipline or profession. [FH 633.03] Revised 7/00

242.2 College Policies and Procedures

The college recognizes the diversity of research/creative activities within each department. The college adopts the university standards.

242.3 Department Policies and Procedures

Documentation. Candidates seeking promotion and tenure will follow the methods and procedures for an in-depth assessment of research (external peer review of research) established by the department and will include items as appropriate to his/her letter of appointment which include the following:

1. Vita. The candidate will indicate publications, presentations, grant activity, research in progress, and other creative accomplishments.

3. Supporting Documents. The candidate will submit supporting copies of his/her research/creative activities that best represent contributions to the field.

Procedures. External peer reviews of research are required for promotion and tenure reviews but not for retention reviews. A minimum of three external reviewers are required for promotion and tenure reviews. External reviewers are scholars with expertise in the faculty member's research/creative areas and are familiar with the usual expectations for faculty performance at comparable institutions and/or programs to MSU-Bozeman. External reviewers independently assess the quality of the faculty member's research/creative activities and write letters of evaluation for inclusion in the dossier. External peer reviewers may be professional associates but may not be mentors, close collaborators, or personal friends.

Spring semester, prior to the candidate's promotion and/or tenure review, the candidate will provide the department head with the names of three nationally recognized scholars in his/her field but will not solicit his/her own review. The candidate will not make direct contact with any potential external reviewer regarding the impending review. The department Retention, Promotion and Tenure Review Committee will also provide the department head with the names of five nationally-recognized scholars in the candidate's field of expertise. The department head will select two external peer reviewers from the department review committee's list and one from the candidate's list. In order to protect the confidentiality of the review process, the candidate will not be informed of the identity of the external peer reviewers.

By August 15, the candidate will provide a copy of the review documentation to the department head prior to the applicable deadlines. The department head will contact the three external peer reviewers and send a cover letter with the candidate's documentation. The department head will include a copy of the soliciting letter format (without identification) in the candidate's dossier as the internal review process begins. The department head will request a vita from the external reviewers and a brief statement of any knowledge of or relationship to the candidate. The department head will include a copy of the external peer reviewer's vita and statement in the candidate's dossier as the internal review process begins.

External peer reviewers will assess the quality of the candidate's research/creative endeavors in relation to the letter of appointment, departmental criteria and standards, and the importance or significance to the field. The external reviewers' evaluations will be returned to the department head and, subsequently, to the department Retention, Promotion and Tenure Review Committee prior to the applicable deadlines for the completion of the departmental review.

Section 400

PROCEDURES FOR FORMAL REVIEW OF FACULTY PERFORMANCE

“Substantive review” means weighing all of the evidence in the dossier, including the rationales provided by preceding reviewers, and making a retention, promotion, and/or tenure decision based upon the criteria and standards of the candidate’s department (if applicable) and college, and the University. Beyond this, substantive review has different implications at the various levels of review. [FH 802.00] Revised 7/1/00

400 GENERAL PROCEDURES

*This section promotes University-wide academic oversight by establishing independent reviews at all levels (primary, intermediate and final). In this process, broad University **criteria and standards**, stated below, are refined by the colleges, and articulated further by the departments. The review of individual faculty is initiated at the primary level, where the relevant disciplinary expertise is located and is then carried to the college and University levels, where successively broader perspectives are employed.*

Any committee identified herein may adopt “Standard Operating Procedures” that provide necessary interpretation of these policies so long as they do not conflict with the policies and procedures outlined in this section. Such procedures must be approved by the Chair of Faculty Council and the Provost and Vice President for Academic Affairs. [FH 603.05] Revised 7/1/99

401 REVIEW BASED ON EVALUATION OF TOTAL PERFORMANCE

Third year, tenure and promotion reviews are based upon cumulative performance in each area (teaching, research/creative activity, and service) over the total period preceding review. In contrast, annual reviews assess the faculty members performance averaged over all areas within a year. Thus, a record of having met performance expectations as indicated by Annual Reviews does not necessarily guarantee the candidate has assembled and demonstrated a cumulative record that meets the standards for retention, tenure or promotion. [FH 611.00]

402 MANDATED CONTENTS OF DOCUMENTS

The criteria, standards and procedures documents of the department and college shall, at a minimum, contain the following information, as appropriate:

- A. *The criteria and standards used to assess a faculty member’s contributions to the role of the department and evaluate their performance (effectiveness, excellence, promise of excellence) in their assigned responsibilities and in teaching, research/creative activity, and service, according to the type and level of review (See section 200 above)*
- B. *Any quantitative and qualitative expectations in terms of job performance, teaching, research/creative activity, and/or service. (See section 300 above)*
- C. *The procedures used in selecting the membership of review committees. (See sections 413.1 and 415.1 below)*

- D. *The department's designation as to courses and presentations which are to be evaluated using student evaluation forms and the evaluation instruments to be used. (See sections 221.3 and 231.3 above)*
- E. *A description of the methods, in addition to student evaluations to be used to obtain formal, in-depth assessment of a faculty member's teaching performance. (See section 241.3 above)*
- F. *The type of materials accepted or required in the documentation of research and creative activities and of outreach and public service. (See sections 242 and 243 above)*
- G. *The dates and times of review. (See section 412 below)*
- H. *The procedures for obtaining outside peer reviews and soliciting internal letters of support/evaluation. (See sections 242.3 and 241.3 above and 415.31 and 415.4 below)*
- I. *The methods for designating and handling confidential materials. (See 242.3 above and 415.31 below) [FH 623.00] Revised 7/1/00*

410 PROCEDURES FOR THE CONDUCT OF FORMAL REVIEWS OF FACULTY

Primary Level of Reviews *(Primary Review Committee and Primary Administrative Reviews)*

These statements will not be sent to external reviewers.

421.2 Other Materials to be Submitted With the Dossier

Candidates shall submit to the department committee or department head a dossier which lists all research, creative activities and service and includes the set of articles, publications, creative endeavors, or other evidence that, in their judgement, represents their best efforts to advance the discipline or profession.

The "Cover Sheet–Candidate's Dossier" available from the office of the Provost shall be used as the cover page of the dossier.

For third year, tenure and promotion reviews, six sets of typed summary notebooks shall be prepared by the candidate to correspond to the sample notebooks available for use in the

departmental offices. Tabbing is essential for clarity. Each person being reviewed shall place in the teaching/advising, research/creative activity, and outreach sections of these notebooks a carefully developed self evaluation wherein departmental criteria and standards are stated and a personal assessment of how one has met those criteria and standards. A listing of the primary evidence and the location for finding this evidence in the primary documentation notebook shall be included for each section. Both the primary and summary notebooks are submitted for consideration at all levels of review.

The candidate who fails to submit the dossier by the established deadline forfeits his or her opportunity for review. In cases of retention, tenure or special review for retention, the faculty member who fails to submit a dossier shall be issued a terminal contract for the next contract term. 421.5 Candidate's Rights and Responsibilities Once Dossier is Submitted

Section 500

ANNUAL REVIEW

500 PURPOSE OF ANNUAL REVIEW

Annual review assesses faculty member's performance over the preceding calendar year and is based upon the faculty member's letter of hire, role statements, annual assignments, self-assessments, and the department head's evaluation of the individual's performance. Reviews must be completed by April 10 or the date specified by the Provost and Vice President for Academic Affairs. The annual review with ratings and any written appeals to the review shall be included in the candidate's personnel file. [FH 711.00] Revised 7/1/98

501 LETTER OF HIRE/FACULTY ROLE STATEMENT

The letter of hire identifies the instructional or professional practice expectations of the faculty member's appointment. The faculty member and the department head are responsible for developing, and updating as necessary, the Role Statement which identifies the broad responsibilities each faculty member is expected to perform. Any substantive changes in the expectations and/or the role of the faculty within the department must be approved by the dean, department head, and the Provost and Vice President for Academic Affairs, after negotiation with the faculty member.

Annual reviews evaluate the faculty member's success in meeting expectations identified in the letter of hire and the role statement. [FH 712.00]

510 PROCEDURES FOR CONDUCTING ANNUAL REVIEWS

The following procedures should be used in conducting annual reviews:

- A. The faculty member and department head annually review the faculty member's performance relative to the faculty member's role and responsibilities. Evaluations are expected to recognize the requirements and expectations of the position and the proportionate time and resources officially allocated to particular activities.*
- B. The department head rates the performance of each faculty member and submits the rating card to the college dean using the rating system prescribed by the Salary Review Committee (SRC).*
- C. The faculty member must sign the card on which the rating is communicated to the SRC. The signature of a faculty member does not indicate concurrence with the rating; rather it signifies that he or she has seen the rating. If the faculty member refuses to sign the card, the card shall be forwarded with the notation that the faculty member refused to sign it.*
- D. Copies of all annual reviews and the performance ratings of each faculty member shall be maintained in the faculty member's file in the department. These files shall be kept confidential and maintained in conformity with 453.00. [FH 720.00]*

510.1 College Procedures

The college dean is responsible for reviewing the annual rating cards and procedures used by the department. The dean will forward the rating cards to the Provost.

510.2 Department Procedures

Criteria and standards upon which annual evaluations of faculty performance are based shall be recorded in the appropriately dated document titled, "Department of Health and Human Development: Standards for Merit Evaluations." Tenure-track faculty, who have not achieved tenure, shall also complete the department's Performance Objectives document for the ensuing calendar year. The Performance Objectives document shall be submitted with the annual review materials as part of the mentoring process in preparation for future retention, promotion and tenure reviews.

Faculty members shall schedule up to a one-hour (tenured faculty) or two-hour (non-tenured faculty) appointment with the Department Head beginning January 15 and prior to March 15. Faculty must submit all annual review materials to the Department Head at least one week prior to their annual review appointment. Once materials have been submitted to the Department Head, a meeting must occur within two weeks (unless extenuating circumstances prohibit meeting at the scheduled time).

The Department Head shall review each faculty members materials and submit a draft of the annual review letter to the faculty member one full work day prior to the scheduled meeting (unless extenuating circumstances prohibit meeting at the scheduled time).

Upon faculty review, corrections and clarifications shall be discussed during the review. The Department Head shall finalize and sign the annual review letter of evaluation within one week following the appointment. Two copies of the evaluation shall be sent to the faculty member, one of which shall be signed and returned to the Department Head.

511 RESPONSIBILITIES OF THE DEPARTMENT HEAD

The department head shall assign each faculty member the specific duties and responsibilities which meet department needs and enable the faculty member to fulfill the responsibilities of the position. The department head shall ensure that, taken collectively, the assignments of the faculty shall meet the department's and college's obligations to the University. The department head and the faculty member shall annually review the faculty member's role within the department and make any modifications as may be necessary, after consultation with the faculty member. Any substantial modification of the faculty member's role within the department must be approved by the department head, dean, and Provost and Vice President for Academic Affairs, after consultation with the faculty member. [FH 721.00]

511.1 Procedures for Making Salary Recommendations

The department head shall assign each faculty member the specific duties and responsibilities which meet department needs and enable the faculty member to fulfill the responsibilities of the position. The department head shall ensure that, taken collectively, the assignments of the faculty shall meet the department's and college's obligations to the University. The department head and the faculty member shall annually review the faculty member's role within the department and make any modifications as may be necessary, after consultation with the faculty member. Any substantial modification of the faculty member's role

within the department must be approved by the department head, dean, and Provost and Vice President for Academic Affairs, after consultation with the faculty member. [FH 721.00]

511.2 Department Procedures for Making Salary Recommendations

Salary recommendations are based on performance evaluations calculated during the annual review process. Each of the following categories of evaluation are given a weighting in multiples of five: teaching, advising, research/creative activity, service/outreach, and if applicable, administration. The total percentage weighting for a faculty member's performance will be 100%. The following scores will be applied: extraordinary performance = 4; exceeds expectations = 3; meets expectations = 2; fails to meet expectations = 1; and unacceptable performance = 0.

The weighting of each category of performance is multiplied by the performance score to obtain an evaluation score. The evaluation scores are totaled to obtain the annual performance evaluation. The range of total scores are consistent with the University Salary Rating Card.

A rating of "meets expectations" is necessary before one can be considered for a merit pay increase. An overall evaluation of "meets expectations" require that faculty meet expectations in all areas of their job assignments.

In the event that no monies are allocated to the department for one or more years, annual evaluations for each of those years will be averaged with the evaluation rating given in the first year that monies are awarded. No averaging will be done if raise monies were awarded the previous year.

The department's floor salary for tenure-track faculty may be determined by the department head in consultation with and approval by the dean. Full-time adjunct faculty members, who have had three continuous years of appointment in the department, will be eligible for merit raises in years for which monies are available.

512 RESPONSIBILITIES OF THE SALARY REVIEW COMMITTEE

The Salary Review Committee shall be appointed and charged according to 253.00. The Committee shall review all salary recommendations for conformity in the application of the standards of the University's salary administration plan and forward them to the President. [FH 722.01]

513 FACULTY RIGHTS RELATIVE TO ANNUAL REVIEW

Tenurable faculty shall be involved in the review of administrators. [FH 730.00]

513.1 Right to Timely Review

A faculty member who is not reviewed or does not receive a copy of the written annual review with performance rating by April 11 may bring the matter to the attention of the dean. The faculty member should inform the dean in writing, no later than April 15. (See 461.00) [FH 731.00]

513.2 Right to Appeal Performance Evaluation
