**Professional Practice Assignment: Clinical Practice Staff Relief**

Learning outcomes from activity: Interns will demonstrate entry-level competence and provide clinical nutrition care to include the development and delivery of information, products and services to an individual, group or population. The culminating supervised-practice experience will demonstrate competence in performing the Nutrition Care Process and use of standardized nutrition language.

Competencies Addressed: CRD 3.1, 3.1a, 3.1b, 3.1c, 3.1e

**Instructions:**

Toward the final weeks of clinical supervised-practice, each MDI intern will complete at least one week (35-40 hours) of staff relief in the clinical practice setting. The area(s) of clinical staff relief will be determined by the preceptor and intern. The below evaluation of the staff relief experience will be completed by the preceptor, discussed with the intern and submitted to the MDI Director.
