Orientation Assignment #4
TOPIC: Medical Terminology Review

Learning Outcome from Activity: Through completion of the medical terminology course interns will review, recognize, define, memorize and use appropriately medical and anatomically significant terms.

Assignment: Connect with this online medical terminology course during this summer and renew your knowledge base. The course is through Des Moines University and you can access the units without charge. I suggest you do a little each day before you pack your bags for the move to Bozeman! Please send me an email verifying you have completed the course when you finish. Here is the link to the course: http://www.dmu.edu/medterms/welcome/
