Have you been looking for more enriching, interdisciplinary curriculum with flexibility that allows you to blend science, social studies, mathematics, language arts, fine arts, physical education, and conservation? Would your students love the opportunity to develop and nurture a thriving ecosystem in the classroom?

This summer join us in Bozeman, Montana to discover Trout in the Classroom (TIC), a program for teachers wanting to enhance their environmental education curriculum.

The 1 day workshop will cover trout biology and the basics of aquatic ecosystem health, the “how to” of setting up and maintaining your Trout in the Classroom, dynamic educational opportunities, funding options to support the program, your go-to TIC contacts, and field activities at the local fish hatchery.

Workshop Cost: $60 (includes Continuing Education Units)

Time/Place:
9am-5pm, 401 Reid Hall

Registration options:
OPI Units click here
CEU Units click here
No OPI or CEU Units click here

TIC is an environmental education program developed by Trout Unlimited. The program allows K-12 students and teachers to:

- Raise trout from eggs to fry.
- Monitor tank water quality.
- Engage in stream habitat study.
- Learn to appreciate water resources.
- Foster a conservation ethic.
- Grow to understand ecosystems.

Register soon, space is limited!
