The NCAA Athletics Certification Handbook is designed to assist NCAA member institutions participating in the Division I athletics certification program and members of peer-review teams who will be conducting campus evaluation visits. The handbook was developed by the NCAA Division I Committee on Athletics Certification and has been organized in a format that permits easy access for individuals with only modest familiarity concerning athletics certification. It is not meant to answer every question related to athletics certification; rather, it provides a foundation on which to increase understanding of the self-study process.

The handbook follows a sequential order that conforms to the sequence of events related to athletics certification and describes the responsibilities and activities of the institution, the peer-review team and the Committee on Athletics Certification. Throughout the handbook, external peer reviewers are referred to as “the peer-review team.” When referring to the Committee on Athletics Certification, the handbook uses either the formal title or refers only to “the committee.”

To ensure that the handbook is a useful and up-to-date resource guide, the NCAA revises it annually and distributes it each year to institutions and peer-reviewers involved in the athletics certification process for the upcoming academic year.

Contained within this handbook is a document referred to as the glossary of terms. The glossary of terms document provides a brief explanation of key terms with which the institution will need to become familiar throughout the athletics certification process.

We hope the handbook is useful and contributes to the successful completion of the athletics certification process.

Users of the handbook are encouraged to submit questions or suggestions regarding the use of the publication to:

Introduction

The NCAA and its legislative process.

The NCAA is a voluntary organization devoted to the sound administration of intercollegiate athletics. The Association’s active members are separated into three membership divisions. Member institutions choose their membership division based on the relative emphasis and support they wish to devote to athletics within the academic context.

NCAA members regulate their athletics programs through cabinets and committees. These groups, made up of campus and conference representatives, may suggest changes in NCAA rules, but the full membership has the final authority. In Division I, that authority is exercised initially through a representative governance structure, consisting of a Legislative Council (athletics administrators and faculty members) and a Board of Directors (campus chancellors and presidents). The members of those bodies are selected by the conferences they represent. Division I institutions can call for an override vote, in which all schools and conferences participate, on any legislative action taken by the Legislative Council and/or Board of Directors.

Origin and history of athletics certification.

Athletics certification began Cycle 2 in 1999. Since 1999, the program has been reviewed annually, and in 2004, the NCAA Division I Board of Directors supported a revised version of certification that reduced the number of operating principles to seven. Cycle 3 began fall 2008.

Athletics certification was approved for Division I institutions at the 1993 NCAA Convention as a key part of the NCAA reform agenda. Certification was originally introduced in 1989 and tested in a two-year pilot program. Participants generally agreed that the pilot program was valuable but could be improved by limiting the scope of the self-study. After a special committee reworked the idea during the next year, the NCAA Presidents Commission, the NCAA Council and the Knight Foundation Commission on Intercollegiate Athletics supported a revised version of the program.

The program’s purpose.

Athletics certification is meant to ensure the NCAA’s fundamental commitment to integrity in intercollegiate athletics. The program is structured to achieve its goal in several ways:

1. **By opening the affairs of athletics to the university community and the public.**
   a. Key campus constituent groups must be meaningfully involved in the development of the institution’s self-study and may be asked to review the institution’s self-study report after it has been drafted.
   b. Self-study reports are evaluated by teams of peer-reviewers from other institutions and conference offices.
   c. Decisions of the Committee on Athletics Certification related to an active Division I member institution’s status are announced publicly.
2. By setting standards (called operating principles) for the operation of Division I athletics programs. These operating principles originally were adopted overwhelmingly at the 1993 Convention. They cover three basic areas — governance and commitment to rules compliance; academic integrity; and gender/diversity issues and student-athlete well-being.

3. By putting tough sanctions in place for institutions that fail to conduct a comprehensive self-study or to correct deficiencies. Athletics certification is intended to help an institution. For this reason, the program allows ample time for an institution to consider its programs, to identify deficiencies and to correct them. Institutions that fail to make an honest effort may face serious consequences including ineligibility for NCAA championships and, eventually, removal from active membership in the Association.

Benefits of self-study.

The core of athletics certification is the institution’s self-study, in which broad-based campus participation is critical.

An effective self-study benefits the institution by providing:

1. Self-awareness. The self-study offers a unique opportunity to educate individuals across campus about the athletics program’s goals and purposes, the many challenges facing athletics and the ways in which athletics supports the institution’s mission.

2. Affirmation. Athletics certification is meant to be a positive experience and the self-study process will reveal many aspects of the athletics program worthy of praise.

3. Opportunities to improve. Even an outstanding program can be better, and issues will be identified routinely as part of any institution’s self-study. As these issues come to light, the self-study process will offer a forum for suggestions from individuals with a wide range of experience.

There are also benefits for the Association:

1. The self-study provides a framework for the Division I membership to show its continuing commitment to institutional control of intercollegiate athletics within the academic setting.

2. Increased public confidence.

3. The athletics certification program serves as a means to ensure all Division I member institutions are meeting the standards adopted by the membership.
Committee on Athletics Certification.

The committee is responsible for the administration of the athletics certification program. All members are employed at Division I institutions or conferences, and include chancellors or presidents, athletics administrators, faculty athletics representatives, and conference administrators. The committee initially reviews institutional self-study reports to identify issues, receives and reviews the written evaluations of the peer-review team and the institution’s responses. This information becomes the basis for determining the certification status for each Division I member institution.

Philosophy statement of the Committee on Athletics Certification.

The Committee on Athletics Certification is charged by the NCAA Division I membership with assisting institutions in identifying mechanisms that ensure intercollegiate athletics programs are operating in accordance with the high standards and core values of Division I. An institution is expected to conduct an accurate self-study that involves broad-based campus participation. The committee, and a visiting peer-review team, will provide an objective evaluation of the institution’s program based on legislated operating principles adopted by the membership. Further, the committee expects institutions to routinely monitor and implement its plans for improvement to ensure these plans are completed on time. The certification program is designed to help an institution improve and make continual progress toward its stated objectives and build on previous certification reviews. The committee will allow ample time for an institution to consider its programs, identify deficiencies and take steps to correct them. If the self-study reveals deficiencies in the intercollegiate athletics program, the committee will work collaboratively with the institution to achieve those corrective actions or will withhold certification if the institution fails to remedy its deficiencies. Through its actions, the committee will monitor the effectiveness of the certification program to ensure that the NCAA’s fundamental commitment to integrity in intercollegiate athletics is supported and that the program continues to emphasize applicable principles of the Association.

External peer-review teams.

External peer-review teams, selected and assigned by the committee, are composed of experienced institutional and athletics personnel.

Peer-review teams are responsible for:

1. Verifying that the institution’s self-study is accurate and complete.
2. Confirming the self-study was developed through a process that involved broad-based campus participation.
3. Evaluating the self-study and committee-identified issues in relation to the operating principles that have been approved for all Division I members.

A typical peer-review team will consist of three to five members. Whenever possible, a chancellor or president will serve as chair.
The athletics certification cycle.

The first athletics certification cycle required each Division I institution to complete a self-study of athletics in the first five years of the program. The Division I membership voted at the 1997 Convention to change the frequency of athletics certification from once every five years to approximately once every 10 years.

For Cycle 3 of the certification program:

1. An institution’s placement in Cycles 1 or 2 has been taken into consideration for its placement in Cycle 3.
2. Conferences had input regarding a schedule for their member institutions.
3. Institutions from the same conference have been evenly scheduled to reduce the burden on the conference office.
4. Placement was in conjunction with the institution’s regional accreditation, insofar as possible, for those institutions that so desired.

General timeline for the athletics certification process.

**Step 1: August 16 through October 29, 2010.**
- Orientation videoconference occurs.

**Step 2: August 16, 2010, through April 29, 2011.**
- Institution develops the self-study report.

**Step 3: April 29, 2011.**
- Deadline to submit institution’s self-study report via the Athletics Certification System (ACS).

**Step 4: April 29 through May 31, 2011.**
- NCAA staff liaison reviews the institution’s report for preliminary issues.

**Step 5: June 1 through August 15, 2011.**
- Committee on Athletics Certification reviews the self-study report and finalizes the issues.

**Step 6: August 11, 2011 until two weeks before the evaluation visit.**
- Institution may respond to the Committee on Athletics Certification analysis via the ACS.
Step 7: September 15 through November 18, 2011.

• Peer-review team conducts the institution’s evaluation visit and writes the report.

Step 8: Within two weeks after campus visit

• Peer-review team report is sent to the institution’s chancellor or president for response on the ACS.

Step 9: December 16, 2011.

• Institution’s response to the report is due.

Step 10: February 2012.

• Committee on Athletics Certification deliberates a final decision.

Step 11: Spring 2012.

• Committee on Athletics Certification final decision announced publicly.
Preparing for the Self-Study

The athletics certification process allows the institution approximately seven to nine months to conduct its self-study. An orientation videoconference conducted by a member of the NCAA staff initiates the formal start of the self-study process.

Whenever possible, the NCAA staff member who conducts the orientation videoconference also will receive the institution’s self-study report, work with the institution to make arrangements for the peer-review team’s visit and accompany the peer-review team on the visit. The institution should consider the NCAA staff member the primary resource and should feel free to contact the individual directly with questions. If the institution has questions before a specific staff liaison is assigned, the institution should contact the academic and membership affairs staff at the national office.

Responsibilities of the chancellor or president.

Throughout the self-study process, the chancellor or president must make it clear, by word and action, that the self-study is a priority and that the entire institution – not just the department of athletics – is responsible for its completion.

In preparing for the self-study, the chancellor’s or president’s specific responsibilities include:

1. **Appointing the chair of the self-study steering committee.** Neither the chancellor or president, nor any person with direct oversight for athletics (e.g., the director of athletics, the vice president to whom athletics reports, the faculty athletics representative), may chair the steering committee. The chair should be appointed from among the institution’s senior-management team.

   The chair should be provided clear authority from and ready access to the chancellor or president. By doing so, the chancellor or president communicates the importance of the athletics certification process and encourages other participants to take the process seriously.

   However, given the unique organizational structures and reporting lines at some institutions, each chancellor or president is permitted flexibility in appointing a chair. The institution must document that the chair has clear authority from and ready access to the chancellor or president in situations in which the institution cannot state definitively that the chair is a member of the institution’s senior-management team.

2. **Selecting the members of the self-study steering committee.** The chancellor or president is responsible for ensuring effective representation of key campus constituent groups on the steering committee. The goal should be a balance between athletics department staff members and other key individuals and groups on campus.

3. **Making the charge to the steering committee clear.**

4. **Giving the steering committee the proper authority and resources to complete its work.**
Forming the self-study steering committee

Required members of the steering committee:

1. Chancellor or president.
2. Faculty athletics representative.
3. Director of athletics.
4. Senior woman administrator.
5. Student-athlete representative(s).
6. Athletics certification liaison (ACL).

The committee recommends the institution involve the campus contact and report coordinator in all meetings conducted by the steering committee.

The chancellor's or president's involvement as an active member of the steering committee is critical to ensuring the process is conducted with the necessary authority and seriousness of purpose. The chancellor or president may designate an individual to replace him or her at steering committee meetings that he or she cannot attend.

In addition to the required positions listed above, the membership of the remainder of the steering committee is left to the discretion of the chancellor or president, keeping in mind the importance of broad-based participation. The number of members will vary from campus to campus.

In appointing steering committee members, the chancellor or president should consider the differing perspectives, range of expertise and access to information that may be offered by representatives of the following groups:

1. Governing board.
2. Administration external to athletics, including, but not limited to, academic affairs, fiscal affairs, student affairs, multicultural or diversity affairs, admissions, registrar, financial aid and human resources.
3. Faculty.
4. Student-body.
5. Alumni or representatives of the institution’s athletics interests.
6. Athletics board or committee members.
Forming the subcommittees.

The steering committee should establish as many subcommittees as it considers necessary to complete the major topic areas of the self-study. Subcommittees should be organized in ways that best suit the institution’s needs and the requirements of the self-study. Subcommittee membership should be reflective of the broad constituent interests of the institution, including faculty, administrators (internal and external to athletics), students and student-athletes.

The chair of each subcommittee must be a member of the steering committee. Also, neither athletics department staff members nor faculty athletics representatives, may serve as subcommittee chairs, although they can be included as subcommittee members.

Some athletics department staff members (e.g., athletics academic advisor, compliance coordinator) may serve as ex officio members of subcommittees as appropriate to facilitate data collection and analysis.

Subcommittees are accountable to the steering committee and should be actively involved through regular communication, periodic meetings and timely reports. The steering committee is required to identify methods (e.g., appointment to subcommittees, interviews, student-athlete forums, student-athlete advisory committee) of involving student-athletes in the self-study process.

Key individuals.

1. **Campus Contact:** This individual is responsible for fielding questions from institutional personnel and forwarding them to the NCAA staff liaison, and is responsible for coordinating preparations for the evaluation visit, including lodging and travel for peer-review team members, scheduling interviews and organizing any work-related needs for peer-reviewers (e.g., computer resources, meeting rooms).

2. **Report Coordinator:** This individual is responsible for serving as the institution’s contact for the Athletics Certification System (ACS). He or she is charged with entering the self-study report into the ACS and should pay particular attention to the following:
   a. Clarity;
   b. Consistency; and
   c. Formatting of the self-study report.

3. **Athletics Certification Liaison:** The committee requires each Division I institution to designate an individual to serve as its athletics certification liaison (hereafter referred to as “liaison”). The liaison is the individual on the institution’s campus who is responsible for monitoring the progress of the institution’s plans for improvement developed during Cycle 2 of the athletics certification process.
Involvement of the conference office.

Conference offices’ involvement in athletics certification is optional, but is encouraged by the committee. The role of an institution’s conference office is determined by the institution. The conference office’s role may include:

1. Participating in the orientation videoconference.
2. Serving as an ex officio member of the institution’s steering committee.
3. Reviewing drafts of the institution’s self-study report.
4. Participating in the steering committee interview and exit meetings of the evaluation visit. Please note, the conference representative involved in an evaluation visit will not be permitted to attend any other interviews or meetings of the peer-review team.

If the regular, ongoing role of the conference office includes a review of the institution’s rules compliance efforts or help in developing and maintaining compliance initiatives, the institution should be prepared to provide a record of those efforts to the peer-review team.

Conference offices should treat institutional self-study reports as confidential. To the extent that conference personnel become aware of violations during the certification process, the conference is obligated to help ensure that conference members self-report those violations.

Use of outside individuals or agencies.

Some institutions may wish to involve individuals or agencies not otherwise employed by the institution in one or more aspects of the self-study process. These outside individuals or agencies may perform related functions that are different from the conference office responsibilities. However, institutional personnel are responsible for analyzing the data and writing the self-study report. Peer-review teams will evaluate institutions on their roles in developing the content of self-study reports.

NCAA rules recognize the institution’s responsibility not only for determining what role (if any) individuals outside the institution might play in the athletics certification process, but also for ensuring that outside individuals or agencies are appropriately involved. In no way should the balance of responsibility for the self-study process shift from internal to external personnel.

In addition, before individuals or agencies outside the institution may be used, the institution must receive written approval from the committee. The institution’s chancellor or president must request in writing from the committee approval for outside involvement and the request should include a full explanation of the specific services that will be rendered.

Any anticipated involvement by outside individuals or agencies also must be clearly defined in the institution’s written plan for completing the self-study process.

Please note, current committee members and individuals in the Cycle 3 peer-reviewer pool may not engage in any athletics certification consulting arrangements with institutions (other than their own or, for conference office personnel, institutions within their respective conferences) involved in the self-study process.
Preparing a tentative written plan for completing the self-study

Before the orientation videoconference, each institution must develop its written plan, or roadmap, that will assist in the development of the institution’s self-study report. The steering committee must consult with the institution’s governing board and/or its chancellor or president, before writing the plan, regarding plans and commitments that may affect the future of the institution and its athletics program (e.g., composition of the student body, organization of the athletics program, sports sponsorship, conference or NCAA divisional membership). The written plan should be submitted to the institution’s NCAA staff liaison two to three weeks before the institution’s orientation videoconference.

The written plan should be concise and must include:

1. Stated goals for the process.
2. Identification of all institutional plans from the Cycle 2 self-study and all committee identified conditions for certification from Cycle 2.
3. The function (e.g., role in drafting report, developing plans for improvement) and composition of the steering committee and subcommittees, with the names and titles of steering committee and subcommittee members.
4. The identification of the institution’s campus contact.
5. The identification of the report coordinator.
6. An outline and schedule for completing the self-study, including the process for reviewing subcommittee and steering committee draft reports.
7. Plans for involving the conference office or other individuals or agencies outside the institution. [Note: Outside involvement requires prior written approval of the committee.]
8. Institutional guidelines for writing and editing the self-study report. These should address the work-related needs of self-study participants (e.g., meeting rooms, computer resources, clerical assistance, copies).
9. The process for developing the final self-study report, including evaluation of self-study responses against the operating principles and development of the institution’s plans for improvement.
10. Plans for communicating the work of the steering committee to the institutional community. Also, the institution should consider what plans, if any, it has for communicating the work of the steering committee to the media and general public.

The written plan outline is included in this instrument as Appendix C.
Preparing for the orientation videoconference

To prepare for the orientation videoconference, the institution (and the steering committee in particular) is expected to:

1. Review the athletics certification handbook and the self-study instrument.
2. Prepare its written plan.
3. Determine the role of the conference office in the self-study and evaluation visit.
4. Review institutional compliance policies and procedures.
5. Identify potential dates for the institution’s evaluation visit.

Orientation videoconference

The NCAA staff liaison will conduct the orientation videoconference for the institution approximately 12 to 14 months before the evaluation visit. The purpose of the orientation videoconference is to review:

1. The purpose and format of the athletics certification program.
2. The institution’s activities that have been conducted in preparation for the orientation videoconference.
3. The self-study instrument (with members of the steering committee and subcommittees).
4. Preparations for the evaluation visit.
5. Projected dates for the evaluation visit.

The orientation videoconference is intended for the benefit of those individuals who will be involved in the athletics certification process.

Modification of schedule

An institution may apply to the committee for modification of its place in the athletics certification schedule due to a special need. The committee shall, at its discretion, revise the schedule if practicable, and use its authority to ensure that the athletics certification process does not extend beyond 10 years unless extenuating circumstances are present.

Once an institution begins its self-study, a request for modification to delay the process will be granted by the committee only in unique circumstances that significantly affect the institution’s ability to complete its self-study. The institution must make its request for any modification in writing from the institution’s chancellor or president to the committee. When the committee approves a modification of the schedule, the committee will determine whether more current data will have to be collected by an institution when it
resumes the self-study.

Institutions that receive a notice of allegation(s) or inquiry from the NCAA enforcement staff are requested to notify the chair of the committee if the institution is currently engaged in the athletics certification process or is scheduled to begin the process in the near future.

After receiving a notice of allegation(s) or inquiry, an institution may continue with the self-study process on campus (e.g., conduct orientation videoconference, participating institution’s evaluation visit); however, the committee will postpone a certification decision until the enforcement process has concluded and the NCAA Division I Committee on Infractions has issued its public report or, for those institutions appealing the Committee on Infractions decision or penalties, the NCAA Division I Infractions Appeals Committee has issued its public report. In situations in which the committee would have certified an institution with conditions or placed an institution in a continuation of review, the committee may communicate those conditions or continuation-of-review issues to the institution after its most recent deliberations. Once the enforcement activity has concluded and before the committee’s certification status decision, the committee will review the Committee on Infractions report and the Infractions Appeals Committee report, if necessary, and may add conditions or issues associated with the enforcement findings to those previously communicated to the institution.
Conducting the Self-Study

The athletics certification program allows each institution approximately seven to nine months to conduct its self-study. During this period, an institution must gather and analyze data, and report the findings in a self-study report.

General responsibilities of the self-study steering committee.

1. **Collecting and organizing pertinent data.** The institution should gather data by making use of the individuals most appropriate to the specific area. For example, staff members in the offices of admissions and registrar will be able to report on the demographics, and the academic preparation and performance of the general student body. Similarly, athletics department staff members (e.g., compliance coordinators, academic advisors) may serve as resources.

2. **Coordinating activities of the subcommittees and monitoring progress of the self-study.** The steering committee is expected to help ensure that subcommittee and steering committee reports are developed with:
   a. Opportunities for input from appropriate campus constituent groups.
   b. Appropriate involvement of all members of the steering committee or of a given subcommittee in the preparation of particular reports.

3. **Reviewing previous self-study documents.** A review of previous institutional reports and plans for improvement along with documents from the committee and peer-review team will help the institution evaluate its progress in addressing past issues. This review will assist the institution in preparing its response to specific requests of the Cycle 3 self-study that reference Cycle 2 issues.

4. **Reviewing the reports of the steering committee and the various subcommittees.**

5. **Communicating regularly through meetings and reports.**

6. **Maintaining a written record of:**
   a. Dates on which subcommittee and steering committee meetings were conducted, and the individuals in attendance at those meetings.
   b. Individual(s) responsible for writing subcommittee reports.
   c. Invitations extended to members of the subcommittees and steering committee to comment on subcommittee and steering committee draft reports, including the approximate dates on which those invitations were extended.

The peer-review team will review these records and the extent to which the athletics certification process reflected broad-based campus participation.
In their review of the institution’s self-study process, peer-review teams and the committee will be guided more by the opportunities provided for comment and the quality of discussion than by the number of meetings.

7. Producing and publicizing the final self-study report.

Preparing the self-study report.

The committee has established a specific format for organizing each institution’s self-study report for the following reasons:

1. To make the institution’s preparation of the report as straightforward as possible.

2. To make the report easier for the peer-review team and members of the committee to read and understand.

3. To ensure greater consistency in the material being reviewed. Further, the committee expects that the institution will:

   Further, the committee expects that the institution will:

   1. Ensure that institutional responses address each aspect of all self-study items in a thorough but concise manner.

   2. Prepare responses to each specific self-study item so that they can be read individually, rather than as part of a general narrative.

   3. Ensure that institutional responses meet the expectations of the committee by reviewing the measurable standards documents and using the self-study report checklist.

Beyond the information requested in specific self-study items, the self-study instrument also refers to documents or materials that are “to be available” to the peer-review team.

The notation “to be available” denotes that the material should be collected during the self-study process and made available to the peer-review team either before or during the evaluation visit.

Athletics Certification System

The ACS is a web-based software program for the submission and storage of institutional self-studies, committee-identified issues, institutional responses, peer-review team reports, committee actions and committee precedent. ACS allows institutions, peer-review teams, the committee and the NCAA staff to view an institution’s self-study report. Institutions are required to submit their self-study report via the ACS. A user manual for the ACS may be found on the NCAA website at www.NCAA.org.
Conducting the Self-Study  Revised June 2010

[NCAA.org/Legislation & Governance/Committees/Division I/Rules Compliance/Athletics Certification Program (Division I)] along with helpful training videos.

Expectations for the self-study report.

The committee will review an institution’s self-study report to ensure that:

1. The report’s conclusions are based on data or records that are available and reliable.
2. The conclusions reached are reasonable based on available data.
3. The institution has provided thorough responses to all self-study items.
4. All existing concerns have been identified by the institution and plans for improvement have been established to address those concerns.
5. Where the institution has concluded that plans to correct issues in one area may affect existing programs in other areas, plans have been established to maintain the current level of quality of all programs.

Postponement of evaluation visits or resubmission of report

The committee reserves the right to postpone the evaluation visit or recommend that the institution resubmit its report the preceding academic year for the following reasons:

1. The report has numerous and complex issues.
2. The report lacks implementation of Cycle 2 gender-issues and minority-issues plans.
3. No gender and or diversity issues plan(s) for improvement for Cycle 3 or plans require major revisions.
4. Incomplete program areas analysis for Operating Principles 3.1 or 3.2.
5. Incomplete report in Athletics Certification System (ACS) (e.g., missing and or incomplete charts, incomplete responses, lack of information).
6. Nonsubmission of required documents (e.g., once in four-year rules compliance evaluation).
Institutional plans for improvement.

Institutional plans for improvement are required when an institution is not in conformity with a specific operating principle. Additionally, plans for improvement are required for the gender-issues and diversity-issues operating principles.

Written institutional plans communicate an institution’s current commitment, provide benchmarks to assess progress and also serve as records that ensure an institution’s continued commitment. Institutional plans must include the following requirements:

1. **Issues/Problems.** Each plan must identify issues or problems confronting the institution.

2. **Measurable Goals.** Each plan must include the specific measurable goals the institution intends to achieve to address issues or deficiencies.

3. **Steps to Achieve the Goals.** Each plan must include the specific steps the institution will take to achieve the goals.

4. **Individuals/Offices Responsible for Carrying Out the Specific Actions.** Each plan must identify the individuals and/or offices responsible for carrying out the actions identified by the institution.

5. **Specific Timetable(s).** Each plan must include specific timetables for completing the work.

Further, institutional plans for improvement must meet the following requirements:

1. **Stand-Alone and in Writing.** Each plan shall be committed to paper and shall be a stand-alone document.

2. **Broad-Based Campus Participation.** Each plan shall be developed with opportunities for significant input from appropriate constituent groups inside and outside athletics.

3. **Institution Approval.** Each plan must be adopted formally by the institution’s final authority (e.g., chancellor or president, or governing board) in such matters to ensure that it carries the commitment and support of the entire institution.

A sample format for plans for improvement can be found in the Athletics Certification Self-Study Instrument and on the website [NCAA.org/Legislation & Governance/Rules Compliance/Athletics Certification Program (Division I)].
Gender-issues and diversity-issues plans.

In addition to the requirements listed above, plans for improvement to address gender issues and diversity issues in the intercollegiate athletics program must extend at least five years into the future, and institutions must maintain an active written plan at all times. If a plan concludes before the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan were ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle. Further, the gender-issues plan must address all 17 program areas for gender issues, and the diversity-issues plan must address all nine program areas for diversity issues. All of the previously mentioned program areas can be found in the self-study instrument.

An institution-wide affirmative action plan is acceptable only if it:

1. Specifically references, in the plan or in a separate document, the intercollegiate athletics program.
2. Addresses diversity issues and needs (e.g., special programming, services of multicultural offices, general well-being issues) for student-athletes and athletics staff.
3. Satisfies the committee’s minimum expectations for a plan.

Finally, NCAA Operating Principles 3.1-(c) and 3.2-(c) require an institution to maintain a program, or continue progress toward a program, that is equitable for both genders and expands opportunities and support for diverse student-athletes and athletics personnel. Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as they relate to hiring practices. In the program area of hiring practices, institutions may submit plans that have broad, flexible non-numeric hiring goals. As they relate to other program areas, including, but not limited to, participation rates and budget increases, specific numerical targets may be appropriate.

Confidentiality of the self-study report.

Institutional self-study reports shall be treated as confidential by conference offices, the NCAA, peer-review teams and the committee. Institutions, however, are permitted to distribute reports and supporting documentation at their discretion.
Preparation for the Evaluation Visit

Responsibilities of the Committee.

The committee is responsible for selecting and assigning peer-review teams. The committee takes a number of factors into consideration when making peer-review team assignments:

1. Composition of peer-review teams.

   As a general rule, the committee will assign peer-review teams according to the characteristics of the participating institution (e.g., public/private, size of intercollegiate athletics program), giving specific attention to whether the peer-review team includes:

   a. An appropriate number of individuals to handle the anticipated workload.

   b. A range of expertise to cover athletics certification topic areas.

   c. Appropriate subdivisional representation.

   d. Appropriate representation of campus constituent groups.

   e. Appropriate gender and ethnic minority representation.

2. Conflicts of Interest.

   Approximately nine to 11 months before the scheduled evaluation visit, the NCAA staff will provide the participating institution with a list of potential peer-review team members from the larger pool of qualified peer-reviewers.

   The institution will review this list and, within approximately one month, may recommend to the committee, for legitimate reasons, particular individuals not be assigned as peer-review team members. The committee will consider conflicts but reserves the right to make all final decisions regarding peer-review team assignments.

3. Notification of peer-review team assignments.

   Approximately six months before the evaluation visit, the NCAA staff will notify the institution of the peer-review team chair who has been assigned to that institution.

   As circumstances dictate, however, the committee may change the assignment of the peer-review team at its discretion.

   Before the evaluation visit, the NCAA staff will notify the institution of the members of the peer-review team who will accompany the chair on the evaluation visit.
4. **Ethical considerations.**

The committee relies on the integrity of institutions and of individual peer-reviewers to avoid any assignment for which any potential for conflict of interest exists.

**Responsibilities of the participating institution.**

In preparing for the evaluation visit, the participating institution is required to:

2. Make lodging arrangements for members of the peer-review team and NCAA staff.
3. Make arrangements for transportation of peer-review team members (i.e., flights, transportation to and from airport).
4. Provide local transportation for peer-review team members and NCAA staff.
5. Make arrangements to cover peer-review team members’ expenses. (See Costs section, Page No. 24.)
6. Establish an itinerary with the NCAA staff for the visit.

The institution’s commitment to specific dates carries an assurance that key institutional personnel will be available for interviews, including, but not limited to, the institution’s:

a. Chancellor or president.
b. Member(s) of the institution’s governing board (e.g., board of trustees).
c. Member(s) of the institution’s athletics committee or board (if one exists).
d. Faculty athletics representative.
e. Director of athletics.
f. Senior woman administrator.
g. Compliance coordinator.
h. ACL.
i. Steering committee chair.
j. Steering committee members.
k. Subcommittee chairs.
l. Sampling of student-athletes.
m. Sampling of coaches.

The peer-review team also may request to interview other institutional staff members, including but not limited to, the admissions director, financial aid director, registrar, human resources director, associate or assistant director of athletics, Title IX coordinator and Equal Employment Opportunity Officer (EEOO).

Peer-review teams will interview selected institutional staff members who participated in the self-study process and others who might offer helpful information regarding self-study issues and the conclusions reached by the institution.

The peer-review team will inform the institution in advance of those individuals they will want to interview. The peer-review team also may request interviews at the time of the evaluation visit without prior notice.

**Responsibilities of NCAA staff.**

The NCAA staff member assigned to accompany the peer-review team on its evaluation visit serves as the liaison between the participating institution and the peer-review team.

The NCAA staff liaison verifies the institution’s self-study report is complete. In addition, the NCAA staff liaison also will provide a preliminary analysis regarding the institution’s conformity with the operating principles and adherence to the measurable standards.

The NCAA staff liaison will supply the peer-review team and the committee copies of public infractions reports involving the participating institution since its last institutional self-study.

As the date of the evaluation visit draws near, the NCAA staff liaison will coordinate with the institution’s campus contact to confirm arrangements for the peer-review team’s visit, including:

1. Hotel reservations for peer-review team members and NCAA staff.
2. Travel for peer-review team members.
3. Local transportation for peer-review team members and NCAA staff.
4. The itinerary and specific schedule for interviews and other activities of the peer-review team.
5. Availability of institutional representatives for scheduled interviews.
6. Involvement of the conference office (if any).
7. Adequate, private interview and work rooms, sufficient computer resources, Internet access, printers, photocopiers, and attention to other work-related needs of the peer-review team.

8. Reimbursement of visit expenses incurred by peer-review team members, including per diem.

**Costs.**

The costs related to athletics certification will be shared by the NCAA and participating institutions. The institution is responsible for:

1. Expenses of all institutional representatives related to the orientation videoconference.

2. All costs associated with the preparation and completion of the self-study report.

3. Actual expenses of peer-reviewers for evaluation visits, including transportation to the reviewer’s local airport, local airport parking, luggage fees, round-trip coach air travel or ground transportation, lodging, local transportation, and per diem of $50 per day for each day of the visit, including official travel days.

4. Work-related needs (e.g., copiers, meeting rooms, computers, Internet access, printers) of the peer-review team and the NCAA staff member during the evaluation visit.

The NCAA is responsible for:

1. Expenses of NCAA staff members related to the orientation process.

2. Actual expenses of NCAA staff members (i.e., transportation to and from campus, to the hotel, lodging and meals).

Please note, member conferences are responsible for all costs incurred by a conference staff member related to that individual’s participation in the athletics certification process of a conference member institution.

**Responsibilities of the peer-review team.**

The peer-review team chair is responsible for:

1. Identifying topic areas to which the team will give special attention, in consultation with the other members of the peer-review team.

2. Assigning sections of the institution’s self-study report to particular team members.

3. Contacting the institution’s chancellor or president before the evaluation visit for the purpose of understanding special circumstances that might affect the peer-review team’s evaluation visit.

4. Consulting with the other members of the peer-review team to establish a schedule of activities (e.g., reviews of records, facility tours) for the visit and to identify those individuals on campus who will be interviewed by the peer-review team.
5. Meeting with the institution’s chancellor or president to discuss informally the nature of the information to be presented in the exit meeting.

6. Leading the exit meeting at the completion of the evaluation visit.

7. Ensuring the peer-review team’s report is reflective of the visit’s findings.

8. Communicating with the committee regarding the evaluation visit and peer-review team report, including appearing in person, if necessary, before the committee regarding an institution’s certification status.

10. Ensuring the team fulfills its responsibilities and the objectives specified for evaluation visits.

In addition, all members of the peer-review team, including the chair, share equally in other preparations for the evaluation visit.

Each peer-review team member is expected to review the institution’s self-study report and committee issues identified in order to:

1. Understand the organization and operation of the institution’s athletics program.

2. Identify areas in the report that may require clarification or additional information.

3. Target specific topic areas as instructed by the committee for special emphasis during the evaluation visit.

Members of the peer-review team should treat all materials and discussions related to the visit as confidential.
The Evaluation Visit

Peer-review team members visit the participating institution’s campus in order to assess the level of broad-based campus participation in the institution’s self-study and to assess the accuracy of the information contained in the institution’s self-study report. Experiences gained by the peer-review team during the evaluation visit help the team to evaluate more fairly the information contained in the institution’s self-study report.

By the end of the visit, the peer-review team will have reached tentative conclusions about the nature of the institution’s self-study process, the accuracy of the institution’s self-study report and the operation of the athletics program in relation to the athletics certification program’s operating principles.

Before leaving campus, the peer-review team will write a report that will be forwarded to the institution and to the committee.

The institution’s chancellor or president is afforded an opportunity to hear the peer-review team’s general impressions in an exit meeting at the end of the evaluation visit.

Length of the evaluation visit.

The evaluation visit typically takes place during a three- or four-day period. The chair of the peer-review team is responsible for determining the length of time necessary for the evaluation visit based on a review of the self-study report and the committee-identified issues.

Every effort will be made to establish a schedule in advance that reflects accurately the length of the evaluation visit. However, unanticipated events on campus may require changes in the schedule at the time of the evaluation visit. The chair is authorized to modify the schedule as necessary within the established period.

The following is a typical schedule for the evaluation visit:

Day 1
1. Peer-review team travel (morning).
2. Peer-review team prep session at hotel (afternoon).
3. Facility tour (afternoon).
4. Reception/dinner with institutional representatives (optional).

Day 2
1. Interviews with chancellor/president and steering committee (morning).
2. Interviews with other institutional staff/representatives (morning/afternoon).

3. Peer-review team report writing (afternoon/evening).

Day 3

1. Exit meeting with chancellor/president and other institutional representatives (morning).

2. Peer-review team departs campus following the exit meeting.

Ethical considerations.

The following guidelines have been established for evaluation visits in an effort to protect the integrity of the process:

1. All aspects of the evaluation visit are to be treated as confidential. This confidentiality extends to evaluation materials provided by the institution (including the institution’s self-study report); issues identified by the committee; peer-review team, conference or NCAA staff files and notes; conversations with institutional, conference or NCAA representatives; and conversations among peer-review team members, institutional representatives, conference administrators and NCAA staff members.

2. Institutions may choose to host a meal or reception on the first day of the visit to give the peer-review team an opportunity to meet key institutional representatives. The institution should not feel obligated to host such a function and it should not interfere with the peer-review team’s ability to accomplish its work.

3. Institutions should not offer, and peer-review team members or NCAA staff may not accept, gifts or gratuities of any kind.

4. Peer-review team members are required to pay for personal and incidental items.

5. The committee will not tolerate unprofessional or unethical behavior on the part of any individual participating in the evaluation visit on behalf of the committee. Please inform the NCAA staff liaison immediately if there are any questions or concerns.

Peer-review team’s basic functions.

The peer-review team performs three basic functions:

1. Verifies the accuracy and completeness of the self-study report.

2. Verifies broad-based campus participation during the athletics certification process.
3. Verifies issues that may prevent the institution from establishing conformity with the operating principles as identified by the committee.

The peer-review team begins the evaluation visit by meeting with the institution’s chancellor or president and with the steering committee. Members of the peer-review team also conduct interviews, review records and tour campus facilities. Throughout the visit, peer-review team members compare and contrast findings with each other, then adjust interview schedules based on these conversations.

**Peer-review team interviews.**

Individuals required to be interviewed during the evaluation visit include the following:

1. Chancellor or president.
2. Member(s) of the institution’s governing board (e.g., board of trustees).
3. Member(s) of the institution’s athletics committee or board (if one exists).
4. Faculty athletic representative.
5. Director of athletics.
6. Senior woman administrator.
7. Compliance coordinator.
8. Steering committee chair.
9. Steering committee members.
10. Subcommittee chairs.
12. Sampling of coaches.
13. ACL.

The peer-review team also may request to interview other institutional staff members, including, but not limited to, the admissions director, financial aid director, registrar, human resources director, associate or assistant director(s) of athletics, Title IX coordinator and EEOC.
Verifying the completeness and accuracy of the self-study report.

In evaluating the completeness and accuracy of the institution’s self-study report, the peer-review team will consider whether:

1. Institutional responses address each specific aspect of all self-study items.
2. Conclusions are based on data or records that are available and reliable.
3. Conclusions are reasonable in light of the available data.
4. All substantive concerns have been identified by the institution and a plan for improvement, if necessary, has been established to address those concerns.

Verifying broad-based campus participation.

The peer-review team will evaluate the institution’s level of broad-based campus participation by considering whether appropriate constituencies were:

1. Represented on the steering committee and subcommittees.
2. Involved in the collection and analysis of data used in drawing conclusions and responses to self-study items.
3. Afforded sufficient opportunities to respond to the steering committee’s initial observations.
4. Made aware of and provided access to the self-study report.

In addition, the peer-review team will evaluate whether members of particular subcommittees were involved in preparing and evaluating the subcommittees’ reports, and whether steering committee members were involved in evaluating subcommittee reports and in preparing and evaluating reports of the steering committee.

In verifying broad-based campus participation, peer-review team members will use the institution’s written plan for conducting its self-study, written records of meeting dates and attendees, writing assignments, and opportunities afforded to campus and community groups to offer comments.

Verifying conformity with the operating principles.

The peer-review team evaluates the extent of substantial conformity achieved by the institution with respect to the operating principles identified by the committee. In making these decisions, the peer-review team should make every effort to:

1. Base its decisions on reliable data.
2. Be sensitive to the unique characteristics and circumstances of the institution.
3. Remain free of personal and professional bias.

Preparing the peer-review team’s written report.

Before leaving campus, the peer-review team completes a written report which will be forwarded to the committee.

Format of the report.

The committee has established a standard format for peer-review team reports to promote consistency in the information provided to the committee.

The format approved by the committee for the peer-review team report includes:

1. An evaluation of the institution’s self-study report as to openness, thoroughness, breadth of participation and accuracy.
2. Peer-reviewer observations of the institution’s status related to the operating principles and committee-identified issues based on the information contained in the institution’s self-study report and the team’s campus findings (verified through a review of records and other data).
3. Additional issues the peer-review team believes should be addressed before the institution can be fully certified by the committee.
4. Opportunities for enhancement suggested by the peer-review team.

Lists of the individuals interviewed and the institutional records reviewed by the peer-review team are included as appendixes to the peer-review team report.

The exit meeting.

The peer-review team will conduct a meeting at the end of the team’s evaluation visit with the institution’s chancellor or president and other representatives of the institution selected at his or her discretion. The purpose of the meeting is to offer the team’s general impressions of the visit and to share information, including any serious problems that were discovered during the visit, that will be included in the peer-review team’s formal written report.

The peer-review team’s comments during the exit meeting will address:

1. The institution’s self-study process in terms of openness, thoroughness, breadth of participation and accuracy.
2 Any issues (identified by the committee or peer-review team) that should be addressed before the institution can be fully certified by the committee.

Possible rules violations.

The peer-review team will include in its written report any information discovered during the evaluation visit concerning possible violations of NCAA rules. The chair of the peer-review team or the NCAA staff liaison also will remind the institution of its obligation to self-report violations per NCAA Constitution 2.8.1 and the institution’s formal response to these findings can be a factor in the committee’s decisions.

The Committee on Infractions also may recommend to the committee that a particular institution’s certification status be reviewed as a result of the institution’s completed infractions case. The committee may review and alter an institution’s certification status on referral from the Committee on Infractions.
Preparing the peer-review team’s formal report.

After all members of the peer-review team agree the report is acceptable, the NCAA staff liaison finalizes and submits a copy of the report to the institution’s chancellor or president before its submission to the committee. The chancellor or president will be given at least two weeks from receipt of the report to review and respond. Copies of the peer-review team’s report also will be forwarded to the institution’s steering committee chair and the institution’s conference office.

Institutional response to the peer-review team’s report.

After reviewing the peer-review team’s report, the institution may submit a written response to the committee. Even though the institution may not have comments to provide, it should indicate this in writing. The institution’s response shall be limited to:

1. Corrections of factual errors.
2. Presentation of new, relevant information not considered by the peer-review team.
3. Proposed additional corrective actions for remedying deficiencies (e.g., institutional plans for improvement).

Evaluations.

The final task for the peer-review team chair is to complete an evaluation of the performance of other members of the peer-review team and the NCAA staff liaison(s). The chair also will be asked to comment on the self-study evaluation process in general. The chair’s evaluation and other comments are sent to the committee as soon as possible after completion of the evaluation visit.

The committee also will ask peer-review team members to evaluate the peer-review team chair, the NCAA staff and the evaluation visit.

Institutions will be asked by the committee to assess the evaluation visit, and the work of the peer-review team chair, other team members and the NCAA staff.

After the final, public decision of the committee, the institution’s chancellor or president also will have the opportunity to evaluate the overall athletics certification process.

All of this information will be used by the committee to improve the athletics certification program, including the peer-review process.
The Certification Decision

Once the committee receives the institution’s self-study report, the written report of the peer-review team and the institution’s response to the peer-review team’s report, the committee is responsible for determining whether an institution’s athletics program should be certified.

Committee members will not participate in determining the certification status for those institutions in which a potential for conflict of interest exists. In considering whether a potential conflict exists, the committee members shall apply the same guidelines approved by the committee for use by potential peer-review team members.

Basis of the certification decision.

The committee’s decision is a two-step process. First, the committee must decide whether the institution’s self-study report was adequate. Adequacy is based on whether the report was completed in an appropriate manner; for example, whether the information contained in the report was accurate and the self-study was conducted with broad-based campus participation. This decision is based both on the institution’s self-study report and the peer-review team report.

When the self-study is considered adequate, the committee then works toward a specific certification decision. In both parts of this process, NCAA legislation requires the committee to base its decision on:

1. The institution’s self-study report;
2. Issues initially identified by the committee after reviewing the institution’s self-study report;
3. The peer-review team’s report;
4. Additional written comments the institution may submit in response to the committee’s initial analysis and/or the peer-review team’s report; and
5. Additional material and information deemed relevant by the committee.

Further, the committee has the discretion to use any information it deems relevant in reaching a certification decision for an institution from the institution’s Website and any other materials that are available to the general public.

Additionally, the committee will include an institution’s public infractions report in its deliberations when such a report is released during the certification process.

Enforcement activity.

Institutions that receive a notice of allegation(s) or inquiry from the NCAA enforcement staff are requested to notify the chair of the committee and/or NCAA staff liaison if the institution is currently
engaged in the athletics certification process or is scheduled to begin the process in the near future.

After receiving a notice of allegation(s) or inquiry, an institution may continue with the self-study process on campus (e.g., conduct orientation videoconference, participate in the evaluation visit); however, the committee will postpone any certification status decision until the enforcement process has concluded and the Committee on Infractions has issued its public report or, for those institutions appealing the Committee on Infractions decision or penalties, the Infractions Appeals Committee has issued its public report. In situations in which the committee would have certified an institution with conditions or placed an institution in a continuation of review, the committee may communicate those conditions or continuation-of-review issues to the institution after its most recent deliberations. Once the enforcement activity has concluded and before the committee’s certification status decision, the committee will review the Committee on Infractions report and the Infractions Appeals Committee report, if necessary, and may add conditions or issues associated with the enforcement findings to those previously communicated to the institution.

Certification categories.

1. Certified.
   
   An institution that has been “certified” is considered to be operating its athletics program in substantial conformity with the operating principles. This classification denotes that (a) any problems identified by the institution in its self-study or by the peer-review team during its evaluation were considered by the committee to be not serious enough to affect the institution’s certification status, and (b) the institution demonstrated adequate follow-up to concerns or improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution’s previous self-study.

2. Certified with Conditions.
   
   An institution that has been “certified with conditions” is not considered to be operating its athletics program in substantial conformity with the operating principles. This classification denotes that (a) problems identified by the institution in its self-study or by the peer-review team during its evaluation were considered by the committee to be serious enough to withhold full certification until those problems have been corrected, or (b) the institution did not demonstrate adequate follow-up to concerns or improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution’s previous self-study.

3. Not Certified.
   
   An institution that is “not certified” is not considered to be operating its athletics program in substantial conformity with the operating principles. This classification denotes that (a) problems identified by the institution in its self-study or by the peer-review team during its evaluation were considered by the committee to be very serious or pervasive, or (b) the institution did not demonstrate adequate follow-up to concerns or improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution’s previous self-study and action must be taken by the institution before it can be certified.
4. Postponement of Certification Decision.

The committee reserves the right to postpone the certification decision of an institution under either of the following conditions:

a. When the self-study is deemed to be inadequate (e.g., lacking accuracy, openness or campus-wide participation). If the institution does not respond to the committee’s concerns in a period of time specified by the committee, it may be placed in restricted-membership status. Such an institution shall not be eligible for certification until an appropriate self-study is completed; or

b. When the committee, during its deliberations, concludes the institution has not received adequate notice from the peer-review team of a problem significant enough to affect the institution’s certification status. The postponement allows the committee to seek written clarification from the institution and the peer-review team chair before rendering a decision as to the certification status of the institution.

Institutions classified as “certified with conditions” or “not certified.”

If an institution that has been classified as “certified with conditions” or “not certified” fails to make a serious effort to correct problems within the time specified by the committee, the committee may place the institution’s athletics program in restricted-membership status for up to one year. As a result, the institution would not be eligible for NCAA championship competition in all sports. NCAA legislation stipulates that an institution placed in restricted membership shall remain in that category for a minimum of one year. However, an institution may request a waiver of such status from the NCAA Division I Legislative Council immediately after rectifying deficiencies outlined by the committee. Such a waiver shall be submitted to the Legislative Council at least 60 days before the meeting in which the Legislative Council will act on the waiver. The Legislative Council, by a two-thirds majority of its members present and voting, may waive the 60-day deadline due to circumstances beyond an institution’s control.

If, at the end of this period of restricted membership, the committee concludes that the institution has not addressed the identified concerns properly, the committee may reclassify the institution as a corresponding member. This means the institution would no longer be an active Division I member of the Association.

Interim campus visits and additional institutional reports.

The committee may require interim campus visits by a peer-review team or additional written communication. Interim campus visits will be conducted by peer-reviewers assigned by the committee.

Generally, corrective actions for a certified institution are expected to be completed without interim campus visits or additional communication with the committee. Actions taken by the institution, consistent with the
institution’s plan for improvement and any requirements of the committee, will be examined in the next regular certification cycle.

Corrective actions for an institution that has been “certified with conditions,” however, may warrant the need for written confirmation – or an interim campus visit – depending on the nature and severity of the issues, the institution’s apparent ability and willingness to correct those issues, and other factors that may be of concern to the committee.

Institutions that have been classified as “not certified” should expect the committee’s decision to include requirements for additional written reports and/or interim campus visits.

**Notification of the certification decision.**

The committee will communicate its certification decision, including any specific conditions, to the institution’s chancellor or president in writing. After notifying the institution, the committee will announce its decision publicly through a standard press release.

For those institutions that are “certified with conditions,” the institution will generally have a maximum of one year in which to report back to the committee. When the institution responds with additional information regarding its conditions, the committee will deliberate the institution’s materials at its next in-person meeting.

While other information related to the peer-review team’s report or the committee’s actions will be considered confidential between the institution and the NCAA, the institution may release information regarding the committee’s decision at its own discretion. The chair of the committee, the NCAA staff or a member of the committee designated by the chair also is authorized to offer additional comments concerning the committee’s deliberations when an announcement is warranted.

**Opportunity for a hearing.**

An institution may request a hearing related to its athletics certification status or decision from the committee according to the committee’s policies and procedures. The committee shall be obligated to honor an institution’s request for a hearing related to a decision by the committee regarding the institution’s certification status.

**Request for appeal.**

An institution may appeal the decision of the committee to the Legislative Council according to the appeal procedures established by the Legislative Council. Public announcements of decisions of the committee, however, will not be postponed pending appeals.
Appendix

A

Glossary of Terms

Athletics Certification Liaison (ACL). The committee requires each NCAA Division I institution to designate an individual to serve as its athletics certification liaison. The liaison shall be the individual on the institution’s campus responsible for monitoring the progress of the institution’s plans for improvement developed during the athletics certification process. The institution’s chancellor or president has previously identified the ACL who was responsible for monitoring the progress of the institution’s plans for improvement developed during the Cycle 2 athletics certification process. After the evaluation visit and before receiving the certification decision, the NCAA staff liaison will contact the chancellor or president to initiate the submission of the ACL for monitoring Cycle 3 plans for improvement developed by the institution.

Athletics Certification System (ACS). In order to increase efficiency, reduce costs and add greater consistency, the committee developed the ACS, a web-based program, for the submission and storage of institutional self-studies, committee-identified issues, peer-review team reports and committee actions. Self-study reports are required to be submitted through the ACS, which is both ID-and password-protected.

Campus Contact. The campus contact is responsible for coordinating preparations for the evaluation visit, including lodging and travel for peer-review team members and NCAA staff, scheduling interviews and organizing any work-related needs for peer-reviewers (e.g., computer resources, meeting rooms, documents to be reviewed).

Certified. An institution that has been “certified” is considered to be operating its athletics program in substantial conformity with all operating principles. This classification denotes: (1) Any issues identified by the institution in its self-study or by the peer-review team during its evaluation were considered by the committee not serious enough to affect the institution’s certification status, and (2) the institution demonstrated adequate follow-up to concerns/improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution’s previous self-study.

Certified with Conditions. An institution that has been “certified with conditions” is not considered to be operating its athletics program in substantial conformity with all operating principles. This classification denotes: (1) Issues identified by the institution in its self-study or by the peer-review team during its evaluation were considered by the committee to be serious enough to cause it to withhold full certification until those issues have been corrected, or (2) the institution did not demonstrate adequate follow-up to concerns/improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution’s previous self-study.

Committee Analysis. Once the staff analysis is completed, the committee will review the institution’s self-study and the staff analysis of the report. The committee will determine the final issues that will be forwarded to the institution and the peer-review team.
**Condition.** For institutions classified as “certified with conditions” or “not certified,” the committee will include any corrective actions, and the timetable for completing each action, specified by the committee. These corrective actions are considered conditions. For those institutions that are certified with conditions, the institution will generally have a one-year time frame in which to report back to the committee to rectify its conditions. Once the institution responds with additional information regarding its conditions, the committee will deliberate the institution’s materials at its next in-person meeting.

**Conformity.** The peer-review team’s and committee’s most demanding task is to assess the extent of substantial conformity achieved by the institution with respect to the operating principles. This evaluation inevitably involves subjective judgment. In making these decisions, the peer-review team and committee make every effort to base decisions on reliable data; be sensitive to the unique characteristics and circumstances of the institution; and remain free of personal and professional bias.

**Evaluation Visit (EV).** The EV occurs after the institution has submitted its self-study report, after the staff and committee analyses have been completed and after the institution has had an opportunity to respond to the committee’s analysis. The EV is staffed by a peer-review team that will have reached tentative conclusions about the nature of the institution’s self-study process, the accuracy of the institution’s written report and the operation of the athletics program in relation to the certification program’s operating principles. Before leaving campus, the peer-review team is obligated to record its conclusions in a report that eventually will be forwarded to the institution and to the committee. In the meantime, the institution’s chancellor or president (and other institutional representatives at the discretion of the chancellor or president) is afforded an opportunity to hear the peer-review team’s general impressions in an exit meeting at the end of the EV. The EV can occur anytime between September 15 and November 19.

**Measurable Standard (MS).** The committee developed measureable standard documents as a means to bring greater consistency to the athletics certification process. These documents are intended to clarify the expectations of the committee for each operating principle.

**Not Certified.** An institution that is “not certified” is not considered to be operating its athletics program in substantial conformity with the operating principles. This classification denotes: (1) Issues identified by the institution in its self-study or by the peer-review team during its evaluation were considered by the committee to be very serious or pervasive, or (2) the institution did not demonstrate adequate follow-up to concerns/improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution’s previous self-study and action must be taken by the institution before it can be conditionally certified.

**Operating Principle (OP).** The athletics certification program is made up of seven standards, OPs, that every Division I institution needs to meet. The OPs were originally adopted overwhelmingly at the 1993 Convention. They address the three basic areas of governance and commitment to rules compliance, academic integrity, and gender/diversity issues and student-athlete well-being. OPs are included as a part of the athletics certification self-study instrument and appear in NCAA Bylaw 22 of the NCAA Division I Manual.
Opportunities for Enhancement. As part of its report, the peer-review team will identify any pertinent recommendations for the institution in a section titled, “Opportunities for Enhancement.” The institution is not obligated to implement or respond to such recommendations; rather, these should be viewed as helpful suggestions from the institution’s peers to improve its athletics program.

Orientation Videoconference (OV). The NCAA staff liaison will conduct an OV for an institution approximately 12 to 14 months before the evaluation visit. The purpose of the OV is to review the purpose and format of the certification program; the institution’s activities already conducted in preparation for the orientation; the self-study instrument (with members of the steering committee and subcommittees); preparations for the EV; and projected dates for the EV. The OV is intended to benefit campus members who will be involved in the self-study. The OV can occur anytime between August 17 and October 30.

Peer-Review Team (PRT). An external PRT, selected and assigned by the committee, is composed of experienced education and athletics personnel. The PRT is responsible for verifying that the institution’s self-study was accurate and complete; confirming that the self-study was developed through a broad-based process that involved campus-wide participation; and evaluating the self-study and committee-identified issues in terms of the OPs that have been approved for all Division I members. Before leaving campus, the PRT must complete its written report to the committee. Ordinarily, each member of the PRT is responsible for writing one or more sections of the report, divided generally according to those sections of the self-study to which members of the PRT were assigned. A typical PRT will consist of a maximum of four members. Whenever possible, a chancellor or president will serve as chair. Each PRT member will receive training, with special emphasis on training for PRT chairs.

Plans for Improvement. Written institutional plans have significant value for every Division I institution. They communicate an institution’s current commitment, provide benchmarks to assess progress and also serve as enduring records that help ensure an institution’s continued commitment in the future. Institutional plans must meet certain minimum requirements. There are additional requirements for gender and diversity plans.

Report Coordinator. The report coordinator is responsible for entering information, including plans for improvement, into the ACS. The report coordinator submits responses to each specific self-study item so they can be read individually, rather than as part of a general narrative. It is suggested that the report coordinator be well-versed in Internet technology and/or data entry programming.

Self-Study Item (SSI). An SSI is a question contained in the self-study instrument to be researched, studied and answered by an institution during its self-study process. In evaluating the completeness and accuracy of an institution’s self-study report, the peer-review team will consider whether institutional responses address each specific aspect of all SSIs identified by the committee.

Staff Analysis. After an institution submits its self-study report via the ACS, the NCAA staff liaison will review the self-study report, verify that all self-study items are completed and ensure that all measurable standards are met. This results in the staff analysis. Once the staff analysis is completed, the committee will review the institution’s self-study and the staff analysis of the report. The committee will determine the final issues that will be forwarded to the institution and the peer-review team.
Staff Liaison. There is an NCAA staff liaison assigned to each institution going through the self-study process. The staff liaison verifies that the institution’s self-study report, including any supporting documentation, is complete. In addition, the liaison provides a preliminary assessment regarding the institution’s adherence to the measurable standards. The staff liaison accompanies the peer-review team on its campus visit and serves as the liaison between the participating institution and the peer-review team.
Peer-Review Team Requirements

Following is a list of the basic qualifications and typical activities of peer-review team members involved in athletics certification.

Placement in the pool of peer-reviewers.

To be considered for placement in the pool of peer-reviewers, an individual must:

1. Be currently employed at a Division I institution or conference office; (Note: An individual who has retired will be considered for selection for up to five years after retirement and can be considered for a longer period if he or she demonstrates continued active involvement in intercollegiate athletics.)

2. Have a substantial knowledge of intercollegiate athletics as evidenced by employment and service history;

3. Hold the position of chancellor or president, faculty athletics representative, director of athletics, or senior woman administrator at a member institution; or

4. Have recognized expertise, skills or experience in at least one of the three areas addressed in the certification program (i.e., expertise in all operating principles related to that area).

In addition to these basic criteria, the committee has established additional guidelines for its selection of peer-reviewers:

1. An individual should have five years of campus experience as a full-time employee, including three years in Division I. A conference administrator may be selected, provided the individual has at least three years of conference office experience.

2. An individual employed outside an institution’s athletics department should have a direct working relationship with athletics.

3. An individual will not be considered for selection if that individual has been found by the Committee on Infractions to have committed a major violation of NCAA rules in the last five years.

The committee uses a variety of specific criteria outlined on page 23 in selecting peer-reviewers that are subject to periodic revision. In addition, the pool of peer-reviewers includes women and members of underrepresented groups to ensure diverse peer-review teams.

The committee will, on an ongoing basis, thoroughly evaluate peer-reviewers, including chairs, through NCAA staff evaluation of individuals and evaluation of each peer-reviewer by his or her fellow team members.
Peer-Review Team Requirements

The committee will not knowingly assign an individual to serve as a peer-reviewer who:

1. Is or has been an employee at the participating institution.
2. Is employed at an institution in the same primary athletics conference as the participating institution.
3. Is employed at an institution in the state in which the participating institution is located.
4. Is or has been an employee within the past three years, at a conference office in which the participating institution is a member.
5. Is a candidate for employment, or has been a candidate within the past two years, at the participating institution.
6. Has been an appointee, consultant or employee of the participating institution, or has close relatives who are employees at the participating institution.
7. Is an alumnus or alumna of the participating institution.
8. Has previously visited the institution as a peer-review team member or as part of a regional or professional accreditation team that either put the institution on probation or terminated its accreditation.
9. Is or has been associated in any manner with an organization that provides consulting services for athletics certification.
10. Served as a peer-reviewer for the participating institution in Cycles 1 or 2.

To avoid the appearance of any conflict of interest, no member of the peer-review team may serve as a consultant to an institution to which that individual was assigned as a peer-review team member for a period of one year after the conclusion of the evaluation visit.

Peer-review team members should not encourage staff members at the institutions they visit to seek employment at the peer-review team members’ institutions, nor should peer-review team members suggest their own availability as consultants or employees.

Every peer-review team member must review and sign a statement related to potential conflicts of interest at the time that individual agrees to serve as a member of a particular peer-review team.

New peer-review team members are required to participate in a training session before serving on an evaluation visit.

SELF-STUDY INSTRUMENT

2010-11 CYCLE 3, CLASS 3

2010-11
NCAA® Division I
Athletics Certification
Self-Study Instrument
The self-study instrument is designed to assist participating NCAA member institutions in the Division I athletics certification program. The self-study instrument was developed by the NCAA Division I Committee on Athletics Certification.

The self-study instrument is organized into three sections, consistent with the athletics certification program’s three basic topic areas:

1. Governance and commitment to rules compliance;
2. Academic integrity; and
3. Gender/diversity issues and student-athlete well-being.

Each section is formatted so that institutions’ self-study reports are completed in as consistent a manner as possible.

To ensure the self-study instrument is a useful and up-to-date resource guide, the NCAA revises it annually and distributes it each year to institutions involved in the certification process for the upcoming year.

We hope the self-study instrument is useful and contributes to the successful completion of campus self-studies and to the fair evaluation of those self-study efforts by members of peer-review teams.

Users of the self-study instrument are encouraged to submit questions or suggestions regarding the use of the publication to their NCAA athletics certification staff liaison.

Introduction to Self-Study Report

Institutional Information

(Name of Institution)

1. Type of institution:  □ Public □ Private

2. Year institution was founded:

3. Special affiliation (e.g., religious, military)?  □ Yes □ No

4. Coeducational?  □ Yes □ No

5. Total student enrollment (undergraduate and graduate combined) [using a full-time equivalency basis]:

6. Number of faculty [using a full-time equivalency basis]:

7. Highest level of academic degree offered:

8. Institution’s governing entity (e.g., board of trustees):
   a. Regional accreditation agency:
   b. Date of most recent regional accreditation self-study:
   c. Current accreditation status:

Athletics Information

1. Subdivision status of athletics program:  □ FBS □ FCS □ Division I (without football)

2. Conference affiliation(s) or independent status:

3. Athletics program structure (check all that apply):
   □ One combined department of athletics.
   □ Separate men’s and women’s departments.
   □ Incorporated unit separate from institution.
   □ Department within a physical education division.

4. Date of NCAA major infractions case(s) (if any) since the institution’s previous athletics certification self-study and impact (if any) on the areas of the certification program. If this is the institution’s first time to complete a self-study, respond to the question based on the last 10 years:

5. Other significant events (with dates) in the history of intercollegiate athletics program since the institution’s previous athletics certification self-study. If this is the institution’s first time to complete a self-study, respond to the question based on the last 10 years:
Previous Certification Self-Study

1. Date of Cycle 2 orientation visit and evaluation visit (if applicable):

2. Cycle 2 certification-status decision and date rendered by the NCAA Division I Committee on Athletics Certification (if applicable):

3. Subsequent actions or changes and date(s) in certification status (if any) made by the committee (if applicable):

4. Changes in key senior-level positions, institutional or athletics program, if any, since the institution’s previous athletics certification self-study. If this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years:

5. Significant changes impacting the institution and/or athletics program, if any (e.g., conference affiliation, sports sponsored, changes in admissions standards, significant changes in graduation rates, changes in mission statement of the athletics program, changes in fiscal stability/condition of the athletics program), since the institution’s previous athletics certification self-study. If this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years:

Athletics Certification Self-Study Information

1. Steering committee chair (name and title).

2. Report coordinator (name and title).

3. Campus contact (name and title).

4. Athletics certification liaison [ACL] (name and title).

5. Describe the extent of broad-based participation of campus constituencies in the self-study. Specifically, report on the opportunities that were provided to various individuals or groups in the broad-campus community to: (a) offer input into the self-study report before findings and plans for improvement were formulated; and (b) review the self-study report after it was drafted.

6. Provide a copy of the institution’s written plan for conducting the self-study. [Please use the file upload link contained within this question on the athletics certification system (ACS) database to submit a copy of the institution’s written plan.]

7. Please provide the institution’s mission, philosophy and goals statement and the athletics program’s mission, philosophy and goals statement. Also, indicate the dates of formal approval for the most recent versions.
Governance and Commitment to Rules Compliance

Operating Principle 1.1
Institutional Control, Presidential Authority and Shared Responsibilities

The Association’s principle of institutional control vests in the institution the responsibility for the conduct of its athletics program, including the actions of its staff members and representatives of its athletics interests. In fulfilling this principle, the institution shall demonstrate that:

a. The institution’s governing board provides oversight and broad policy formulation for intercollegiate athletics in a manner consistent with other units of the institution.
b. The chancellor or president is assigned ultimate responsibility and authority for the operation, fiscal integrity and personnel of the athletics program.
c. Appropriate campus constituencies have the opportunity, under the purview of the chancellor or president, to provide input into the formulation of policies relating to the conduct of the athletics program and to review periodically the implementation of such policies.

Self-Study Items for Operating Principle 1.1

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to NCAA Operating Principle 1.1 (Institutional Control, Presidential Authority and Shared Responsibilities). For each condition, provide:

   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process for Operating Principle 1.1 (Institutional Control, Presidential Authority and Shared Responsibilities). For each issue identified, provide:

   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.
Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.

**Measureable Standard No. 1**

If the institution developed a plan for improvement for Operating Principle 1.1 during Cycle 2, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:

   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:

   - The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.

3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 1.1 (Institutional Control, Presidential Authority and Shared Responsibilities). For each additional plan, provide:

   a. The additional goal(s);
   b. The step(s) taken by the institution to achieve the goal(s); and
   c. The date(s) the step(s) was completed.

4. Describe how the institution’s chancellor or president maintains clear and direct oversight of the athletics program, including a description of reporting lines from the athletics director to the chancellor or president.

   **Measureable Standard No. 2**

   The chancellor or president must have and demonstrate clear and direct oversight of the athletics program.

5. Since the institution’s previous self-study, list the major decisions made related to intercollegiate athletics. For each decision, explain the role and involvement (if any) of the:

   a. Chancellor or president;
   b. Athletics board or committee;
   c. Faculty senate (or other faculty governing body);
   d. Student-athlete advisory committee;
   e. Director of athletics;
   f. Faculty athletics representative;
   g. Senior woman administrator; and/or
   h. Other individual(s) or campus constituencies.
Please note, if this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years.

6. Describe the institution’s written governance policies regarding the administration and oversight of the athletics program, including the specific role and responsibilities of the institution’s governing board. Describe how the written athletics governance policies and/or other written communication is provided to the governing board on an annual basis.

<table>
<thead>
<tr>
<th>Measurable Standard No. 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>The institution must provide evidence that specific governance policies exist for its governing board regarding the administration and oversight of athletics, including the role and responsibilities of its governing board.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Measurable Standard No. 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>The institution must provide evidence that written communication (e.g., annual report, governance policies) is provided annually to its governing board with respect to athletics. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.</td>
</tr>
</tbody>
</table>

7. Since the institution’s previous self-study, list the decisions related to intercollegiate athletics in which the institution’s governing board or individual board members have been involved and describe the extent of the governing board’s involvement with those decisions.

Please note, if this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years.

<table>
<thead>
<tr>
<th>Measurable Standard No. 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>The institution must demonstrate, through examples since the institution’s previous self-study, that its governing board’s oversight and policy formulation for athletics is consistent with its policies and stated responsibilities for other units of the institution (e.g., personnel, budget, facilities).</td>
</tr>
</tbody>
</table>

8. Describe how the institution’s governing board decisions regarding the athletics program are consistent with those of other on-campus units.

9. For each of the following individuals or groups:
   a. Explain the role and authority of the individual or group as it relates to intercollegiate athletics;
   b. Describe how the individual or group has the opportunity (if any) to provide meaningful input into the formulation of the department of athletics policies (e.g., review admissions data, review academic performance data, receive periodic reports from the department of athletics); and
c. Describe how the individual or group has the opportunity (if any) to periodically review policy implementation related to athletics.

(1) Athletics board or committee;
(2) Faculty senate (or other faculty governing body);
(3) Faculty athletics representative;
(4) Student-athlete advisory committee; and/or
(5) Other individual(s) or campus group(s)

Measurable Standard No. 6
The institution must identify involved individuals or groups external to the department of athletics (e.g., faculty senate, athletics advisory group, student-athlete advisory committee) and explain how they have opportunities to provide meaningful input into the formulation of policies and how they periodically review policy implementation related to the conduct of the athletics program.

10. Describe how the activities of the institution’s athletics booster groups, support groups and other representatives of the institution’s athletics interests are maintained under the clear control of the institution, including whether institutional personnel serve on booster club, support group or foundation boards.

11. Provide the composition of the athletics board or committee (including titles and positions).

12. Describe how the institution’s chancellor or president and his or her designee(s) maintain control with respect to each of the following areas of the athletics program:

a. Budget, including all sources of funding;
b. Accounting;
c. Purchasing; and
d. Debt management.

In addition, identify key individuals, other than the chancellor or president, with responsibilities in these areas.

Measurable Standard No. 7
Institutions must demonstrate institutional control of the athletics program with respect to budget, accounting, purchasing and debt management.

13. Describe how the institution’s chancellor or president and his or her designated authority review the budget of the athletics program to at least the same extent that they do for other on-campus programs and departments. In addition, identify the authority (e.g., president’s cabinet, finance committee) designated with this responsibility.

Measurable Standard No. 7
Institutions must demonstrate institutional control of the athletics program with respect to budget, accounting, purchasing and debt management.

14. Describe the process by which the institution’s chancellor or president or his or her designee(s) conduct an administrative review of the NCAA comparative data (i.e., dashboard indicators) on an annual basis. In addition, specify the individual(s), other than the chancellor or president, involved in this administrative review.
15. If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 1.1, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
Membership in the Association places the responsibility on each institution to ensure that its staff, student-athletes, and other individuals and groups representing the institution’s athletics interests comply with the applicable Association rules and regulations. Consistent with this responsibility, the institution shall demonstrate that:

a. It has in place a set of written policies and procedures that are clearly communicated to athletics staff members and those individuals outside athletics who have rules compliance responsibilities. These written policies and procedures must assign specific responsibilities in the areas of rules compliance, including assignment of direct accountability for rules compliance to the individual the chancellor or president assigns overall responsibility for the athletics program.

b. In critical and sensitive areas, institutional compliance procedures provide for the regular participation of persons outside of the department of athletics. The responsibility for admission, certification of academic standing, evaluation of academic performance and administration of financial aid for student-athletes must be vested in the same agencies that have authority in these matters for students in general.

c. Rules compliance is the subject of a continuous, comprehensive educational effort to a wide range of constituencies.

d. A clear and unambiguous commitment to rules compliance is a central element in all personnel matters for individuals involved in the intercollegiate athletics program.

e. At least once every four years, its rules compliance program is the subject of evaluation by an authority outside the department of athletics. This rules compliance evaluation shall include the following areas:

(1) Governance and organization.
(2) Initial-eligibility certification.
(3) Continuing-eligibility certification.
(4) Transfer-eligibility certification.
(5) NCAA Division I Academic Performance Program (APP).
(6) Financial aid administration, including individual and team limits.
(7) Recruiting (e.g., contacts and evaluations, official and unofficial visits).
(8) Camps and clinics.
(9) Investigations and self-reporting of rules violation(s).
(10) Rules education.
(11) Extra benefits.
(12) Playing and practice seasons.
(13) Student-athlete employment.
(14) Amateurism.
(15) Commitment of personnel to rules compliance activities.
Self-Study Items for Operating Principle 1.2

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 1.2 (Rules Compliance). For each condition, provide:
   a.  The original “condition” imposed;
   b.  The action(s) taken by the institution;
   c.  The date(s) of the action(s); and
   d.  An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process for Operating Principle 1.2 (Rules Compliance). For each issue identified, provide:
   a.  The original goal(s);
   b.  The step(s) taken by the institution to achieve the goal(s);
   c.  The date(s) the step(s) was completed; and
   d.  An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

Measurable Standard No. 1
If the institution developed a plan for improvement for Operating Principle 1.2 during Cycle 2, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a.  The committee will not accept the following explanations for partial completion or noncompletion:
   (1)  The institution did not possess sufficient funds to implement the plan.
   (2)  The institution has had personnel changes since the original development of the plan.
   (3)  The institution does not have documentation of actions taken to implement the plan.

b.  The committee will accept the following explanation for partial completion or noncompletion:

The institution has implemented a different plan(s) or a taken different action(s) to achieve or make progress toward the same goal outlined in its Cycle 2 plan.

Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.
3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 1.2 (Rules Compliance). For each additional plan, provide:
   a. The additional goal(s);
   b. The step(s) taken by the institution to achieve the goal(s); and
   c. The date(s) the step(s) was completed.

4. Describe how the institution ensures that rules compliance is a central element in personnel matters for individuals within the department of athletics. Specifically, the institution must provide written evidence that all individuals inside the department of athletics (e.g., coaches, staff) have statements regarding the importance of rules compliance in all of the following documents:
   a. Contracts or letters of appointment;
   b. Job descriptions; and
   c. Performance evaluations.

   Please note, if the institution does not use one or more of the documents (listed in a-c above), provide an explanation.

<table>

<tbody>
<tr>
<td>The institution must provide written evidence that all individuals inside the department of athletics (e.g., staff, coaches) have statements regarding the importance of rules compliance in all of the following documents: contracts or letters of appointment, job descriptions and performance evaluations. If the institution is in the process of revising one or more of the documents noted above due its obligation to seek approval from an outside entity (e.g., union), the institution must provide written evidence supporting the planned revision. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.</td>
</tr>
</tbody>
</table>

5. Describe how the institution ensures that rules compliance is a central element in personnel matters for individuals outside the department of athletics who are involved in rules compliance activities. Specifically, the institution must provide written evidence that all individuals outside the department of athletics who are involved or associated with athletics (including, but not limited to, individuals who have responsibility for admission, certification of academic standing, evaluation of academic performance and administration of financial aid for student-athletes) have statements regarding the importance of rules compliance in all of the following documents:
   a. Contracts or letters of appointment;
   b. Job descriptions; and
   c. Performance evaluations.

   Please note, if the institution does not use one or more of the documents (listed in a-c above), provide an explanation.
6. Provide the name(s) and title(s) of the institutional staff member outside the department of athletics who has ultimate responsibility in determining student-athletes’ admission to the institution, certification of academic standing and conferment of academic degrees.

Measurable Standard No. 3

The institution must provide written evidence that all individuals outside the department of athletics who are involved or associated with athletics (including, but not limited to, individuals who have responsibility for admission, certification of academic standing, evaluation of academic performance and administration of financial aid for student-athletes) have statements regarding the importance of rules compliance in all of the following documents: contracts or letters of appointment, job descriptions and performance evaluations. If the institution is in the process of revising one or more of the documents noted above due its obligation to seek approval from an outside entity (e.g., union), the institution must provide written evidence supporting the planned revision. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

7. Provide the name(s) and title(s) of the individual(s) (other than the institution’s compliance officer/director) who the chancellor or president designates as having final authority for the institution’s rules compliance (e.g., athletics director, vice president for athletics).

Measurable Standard No. 4

The institution must demonstrate that the responsibility for admission, certification of academic standing and conferment of academic degrees of student-athletes is vested in the same agencies that have authority in these matters for students in general.

8. Identify the individuals inside and outside the department of athletics who have rules compliance responsibilities. Describe the reporting lines for and responsibilities assigned to these individuals, including but not limited to:

a. Faculty athletics representative;
b. Director of athletics;
c. Compliance officer/director;
d. Coaches; and
e. Other key individuals (e.g., admissions director, financial aid personnel, registrar) who are responsible for documenting and monitoring compliance with NCAA rules, including but not limited to:

1. Eligibility certification;
2. Investigation and self-reporting of violations;
3. Monitoring of financial aid; and
4. NCAA Division I Academic Performance Program (APP).

Measurable Standard No. 6.

The institution must identify individuals who have rules compliance-related responsibilities and the reporting lines of these individuals.
9. Indicate by clicking “yes” or “no” in the Athletics Certification System (ACS), whether the institution has written policies and step-by-step procedures that include assignment of specific responsibilities pertaining to rules compliance. Please note, all policies and procedures must be available during the evaluation visit. If the institution indicates a specific written policy and step-by-step procedure is not applicable, the institution must provide an explanation. Please use the file upload link contained within this question on ACS to submit an explanation if the institution selects N/A.

a. Initial eligibility certification.
b. Continuing-eligibility certification.
c. Transfer-eligibility certification.
d. APP.
e. Financial aid administration.
f. Recruiting.
g. Camps and clinics.
h. Investigations and self-reporting of rules violations.
i. Rules education.
j. Extra benefits.
k. Playing and practice seasons.
l. Student-athlete employment.
m. Amateurism.

Measurable Standard No. 8
The institution must provide evidence that written compliance policies and procedures exist and demonstrate that they are engaged and functioning in the following areas:

a. Initial-eligibility certification;
b. Continuing-eligibility certification;
c. Transfer-eligibility certification;
d. NCAA Division I Academic Performance Program (APP) (e.g., data collection process, penalty implementation process);
e. Financial aid administration, including individual and team limits;
f. Recruiting (e.g., official and unofficial visits, hosts, entertainment, contacts, phone calls)
g. Camps and clinics;
h. Investigations and self-reporting rules violations;
i. Rules education;
j. Extra benefits;
k. Playing and practice seasons;
l. Student-athlete employment;
m. Amateurism.

Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.
10. Describe how the institution’s written compliance policies and procedures are communicated on an annual basis to the department of athletics staff and individuals outside the department of athletics with rules compliance responsibilities.

Measurable Standard No. 9
The institution must demonstrate that its compliance policies and procedures are directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) on an annual basis to department of athletics staff and individuals outside the department of athletics with rules compliance responsibilities. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

11. Describe the institution’s rules-education efforts for all individuals associated with the department of athletics, including the frequency and topics reviewed with each of the following groups:
   a. Boosters;
   b. Student-athletes;
   c. Department of athletics staff;
   d. Coaches;
   e. Faculty; and
   f. Institutional staff outside the department of athletics.

Measurable Standard No. 10
The institution must provide evidence that it has a continuous and comprehensive rules education program for all individuals associated with the athletics program including boosters, student-athletes, department of athletics staff, coaches, and directly involved faculty and institutional staff outside the department of athletics.

12. In regard to the institution’s most recent rules compliance evaluation:
   a. Provide the name(s) and affiliation(s) of the individual(s) responsible for conducting the institution’s rules compliance evaluation;
   b. Describe the process used in selecting this authority outside the department of athletics to ensure the individual(s) does not have day-to-day compliance responsibilities for the institution’s department of athletics and is knowledgeable of NCAA legislation and rules compliance practices; and
   c. Provide the date of the institution’s most recent rules compliance evaluation.

Measurable Standard No. 11
The institution must demonstrate that its rules-compliance program is subject to a comprehensive, external rules-compliance evaluation at least once every four years and is conducted by an individual(s) external to athletics who is knowledgeable of NCAA compliance and who does not have day-to-day responsibilities in the areas under review. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.
13. The rules compliance evaluation must determine that the institution’s compliance practices are engaged and functioning and must include the required areas listed below. Indicate by clicking “yes” or “no” in the ACS which areas were included in the institution’s most recent rules compliance evaluation. If the institution indicates a specific area is not applicable, the institution must provide an explanation. Please use the file upload link contained within this question on ACS to submit an explanation if the institution selects N/A.

   a. Governance and organization.
   b. Initial-eligibility certification.
   c. Continuing-eligibility certification.
   d. Transfer-eligibility certification.
   e. APP.
   f. Financial aid administration, including individual and team limits.
   g. Recruiting (e.g., contacts and evaluations, official and unofficial visits).
   h. Camps and clinics.
   i. Investigations and self-reporting of rules violations.
   j. Rules education.
   k. Extra benefits.
   l. Playing and practice seasons.
   m. Student-athlete employment.
   n. Amateurism.
   o. Commitment of personnel to rules-compliance activities.

---

**Measurable Standard No. 12**

The institution must provide evidence that the comprehensive, external rules-compliance evaluation demonstrates that the rules-compliance program is engaged and functioning. Further, the institution must review the written, comprehensive evaluation as part of the self-study process and determine if appropriate corrective actions are necessary in response to the written report.
Measurable Standard No. 13
The institution must provide evidence that the comprehensive, external rules-compliance evaluation includes, at a minimum, the following areas:

a. Governance and organization (e.g., governing board policies related to athletics, responsibilities and duties of compliance personnel);
b. Initial-eligibility certification;
c. Continuing-eligibility certification;
d. Transfer-eligibility certification;
e. APP (e.g., data collection process, penalty implementation process);
f. Financial aid administration, including individual and team limits;
g. Recruiting (e.g., official and unofficial visits, hosts, entertainment, contacts, phone calls);
h. Camps and clinics;
i. Investigations and self-reporting of rules violations;
j. Rules education;
k. Extra benefits;
l. Playing and practice seasons;
m. Student-athlete employment;
n. Amateurism;
o. Commitment of personnel to rules-compliance activities.

All rules compliance evaluations conducted on/after September 1, 2008 must include the following new areas: governance and organization; APP; amateurism; and commitment of personnel to rules-compliance activities. If an institution’s rules compliance program has been evaluated at least once in the past four years at the time of the self-study process and the evaluation was conducted prior to September 1, 2008, the institution is not required to include the four new areas in its evaluation or conduct an additional evaluation to include the four new areas. However, the institution must create a plan for improvement demonstrating that the four new areas of review will be included in the next scheduled rules compliance evaluation.

14. Describe the process used by the institution during the development of the self-study to review the most recent rules compliance evaluation to determine any necessary corrective actions. In addition, identify the individuals involved with this review.

Measurable Standard No. 12
The institution must provide evidence that the comprehensive, external rules-compliance evaluation demonstrates that the rules-compliance program is engaged and functioning. Further, the institution must review the written, comprehensive evaluation as part of the self-study process and determine if appropriate corrective actions are necessary in response to the written report.

15. Identify any relevant corrective action(s) planned as a result of the process described in Self-Study Item No. 14 or actions previously planned or implemented from the most recent rules compliance evaluation. Provide:

a. The plan(s) or action(s) implemented; and
b. The date(s) of action(s) taken or specific timetable(s) for completion of the plan(s).

16. Submit a copy of the report from the institution’s most recent rules compliance evaluation. [Please use the file upload link contained within this question on the ACS to submit a copy of the institution’s most recent rules compliance evaluation.]
17. If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 1.2, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
The Association’s fundamental principles indicate that an intercollegiate athletics program shall be designed and maintained as a vital component of the institution’s educational system, and student-athletes shall be treated consistently with the student body. Consistent with this philosophy, the institution shall demonstrate that:

a. The institution admits all student-athletes as regularly enrolled, degree-seeking students in accordance with the regular, published entrance requirements that apply to all students;

b. The institution admits only student-athletes who have reasonable expectations of obtaining academic degrees;

(1) If the academic profile of entering student-athletes, as a whole or for any student-athlete subgroup, is lower than that of other student-athlete or comparable student-body groups or subgroups, the contrast shall be analyzed and explained by appropriate institutional authorities.

(2) If the measures of academic performance of student-athletes, as a whole or for any student-athlete subgroup, are lower than that of other student-athlete or comparable student-body groups or subgroups, this disparity shall be analyzed, explained and, if necessary, addressed (through specific plans for improvement) by appropriate institutional authorities.

c. Academic standards and policies applicable to student-athletes are consistent with those adopted by the institution for the student body in general or conference or Association standards, whichever are higher;

d. If the retention rate of any student-athlete subgroup, is lower than that of all student-athletes, this disparity shall be analyzed, explained and, if necessary, addressed through specific plans for improvement by appropriate institutional authorities;

e. Written policies related to scheduling are established in all sports to minimize student-athlete conflicts with class time and/or final examination periods due to participation in intercollegiate athletics, consistent with the provisions of NCAA Constitution 3.2.4.14; and

f. Assessment, evaluation and plans for improvement exist to ensure acclimation, retention and academic success for student-athletes with special academic needs and student-athletes who are admitted through the institution’s special-admission process or, for those institutions without a special-admission process, student-athletes in the lower quartile of the institution’s student academic profile.
Self-Study Items for Operating Principle 2.1

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 2.1 (Academic Standards). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

[Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.]

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process as they relate to Operating Principle 2.1 (Academic Standards). For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

Measurable Standard No. 1
If the institution developed a plan for improvement for Operating Principle 2.1 during Cycle, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:
   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   • The institution has implemented a different plan(s) or taken different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.

[Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.]
3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 2.1 (Academic Standards), including any plans or recommendations developed through the institution’s involvement in the NCAA Division I Academic Performance Program (APP) Data Review process, if applicable. For each additional plan, provide:

a. The additional goal(s);
b. The step(s) taken by the institution to achieve the goal(s); and
c. The date(s) the step(s) was completed.

4. Describe the process by which student-athletes are admitted to the institution and identify the agencies vested with this responsibility. In what ways (if any) do the process and/or criteria used for the admission of student-athletes differ from the process for admitting students in general? Be specific and give careful attention to key decision points (e.g., second-level or subsequent review process, appeals procedure) in these processes and the individuals or groups involved at each point, including the role, either formal or informal, the department of athletics plays (if any) in the admissions process for student-athletes.

5. Describe the process by which students who do not meet the institution’s standard or normal entrance requirements may be admitted, and identify the agencies vested with this responsibility. This should include any second-level or subsequent review processes or appeals procedures that may be used when students are not automatically admitted because they do not meet the institution’s published entrance requirements.

6. Compare and explain any differences between the percentage of first-year student-athletes receiving athletics aid who were admitted through any of the processes described in Self-Study Item No. 5 and the percentage of first-year students in general (including student-athletes) who
were so admitted. Provide these comparative data for the four most recent academic years.

[Note: Use the supplied charts (Special Admissions on Page No. 34 and Special Admissions by Sport Group on Page No. 35) to compile this data.]

7. Compare and explain any differences in the admissions profiles of student-athletes who received athletics aid with the profiles of students in general by submitting the following information for the four most recent academic years: average standardized test scores for first-year student-athletes who received athletics aid (by gender, by racial or ethnic group, and according to the eight sport groups) and for all entering first-year students (by gender and by racial or ethnic group).

If any of the institution’s sports teams had student-athletes certified through the pilot early academic certification program from August 1, 2007, through July 31, 2008, provide an explanation regarding how the inclusion of these average core-course grade-point averages affects the data provided.

[Note: Use the supplied charts (Test Scores by Gender on Page No. 36, Test Scores by Racial and Ethnic Group on Page No. 37-38, and Test Scores and GPA by Sport on Page No. 39) to compile this data.]

8. Describe the institution’s specific academic support programs (e.g., Facilitating Learning and Achieving Graduation program (FLAG) to ensure acclimation, academic success and retention of first-year student-athletes with special academic needs and first-year student-athletes admitted through any of the processes described in Self-Study Item No. 5.

9. For the four most recent academic years, assess and evaluate data regarding acclimation, retention and the academic success of student-athletes with special academic needs (as defined by the institution (e.g., at-risk, education-impacting disability)] and those student-athletes admitted through any of the processes described in Self-Study Item No. 5. If necessary, the institution must develop plans for improvement to ensure acclimation, retention and academic success for these student-athletes.

If the institution does not employ a special, or alternate, admissions process, the institution must assess and evaluate acclimation, retention and the academic success of student-athletes in the lowest (i.e., fourth) quartile of the institution’s general student academic profile or for an alternate group defined by a different benchmark (e.g., quintile) typically used by the institution. If necessary, the institution must develop plans for improvement to ensure acclimation, retention and academic success for these student-athletes.
10. Describe your institution’s written policies and procedures related to the step-by-step sequence of actions taken by particular individuals on the institution’s campus to certify initial eligibility for student-athletes. Provide the names and titles of individuals inside and/or outside of athletics who are involved with the certification of initial eligibility. In addition, provide the name(s) and title(s) of the individual(s) who has ultimate responsibility in determining student-athletes’ initial eligibility.

11. Describe your institution’s written policies and procedures related to the step-by-step sequence of actions taken by particular individuals on the institution’s campus to certify transfer eligibility for student-athletes. Provide the names and titles of individuals inside and/or outside of athletics who are involved with the certification of transfer eligibility. In addition, provide the name(s) and title(s) of the individual(s) who has ultimate responsibility in determining student-athletes’ transfer eligibility.

12. Describe your institution’s written policies and procedures related to the step-by-step sequence of actions taken by particular individuals on the institution’s campus to certify continuing eligibility for student-athletes. Provide the names and titles of individuals inside and/or outside of athletics who are involved with the certification of continuing eligibility. In addition, provide the name(s) and title(s) of the individual(s) who has ultimate responsibility in determining student-athletes’ continuing eligibility.

Please use the prepopulated charts on Page Nos. 40-46 to respond to Self-Study Item Nos. 13-17.

13. Analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate for student-athletes who received athletics aid and the most recent four-class average Federal Graduation Rate of all students.

If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate for student-athletes and the most recent four-class average Federal Graduation Rate for all students, the institution must develop a plan for improvement to
address the issue.

Information obtained to complete this chart:
• NCAA Federal Graduation Rates Report

[Note: Use the supplied chart (Federal Graduation Rates Comparison on Page No. 40) to analyze data.]

Measurable Standard No. 9
The institution must analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate of student-athletes as a whole and the most recent four-class average Federal Graduation Rate of students generally. If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate of student-athletes and the most recent four-class average Federal Graduation Rate of students generally, the institution must develop a plan for improvement to address the issue.

14. Analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate for all student-athlete subgroups (i.e., team, gender, ethnicity, ethnicity within team) and the most recent four-class average Federal Graduation Rate for all students, including comparable student-body subgroups (i.e., gender, ethnicity).

If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate of a student-athlete subgroup and the most recent four-class average Federal Graduation Rate for all students or comparable student-body subgroup, the institution must develop a plan for improvement to address the issue.

Information obtained to complete this chart:
• NCAA Federal Graduation Rates Report

[Note: Use the supplied charts (Federal Graduation Rates by Sport on Page No. 41 and Federal Graduation Rates by Racial and Ethnic Group on Page No. 42) to analyze data. In addition, please refer to Page No. 78 for an explanation regarding the required analysis.]

Measurable Standard No. 10
The institution must analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate of all student-athlete subgroups (i.e., team, gender, ethnicity, ethnicity within team) and the most recent four-class average Federal Graduation Rate of students generally, including comparable student body groups. If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate of a student-athlete subgroup and the most recent four-class average Federal Graduation Rate of students generally or a comparable student body subgroup, the institution must develop a plan for improvement to address the issue.

15. Analyze, explain and address any differences between the corresponding Federal Graduation Rate projected by the most recent NCAA Division I Academic Progress Rate (APR) for each sports team and the most recent multiyear four-class average Federal Graduation Rate for all students.

If there is a difference that cannot be adequately explained between a sports team’s projected Federal Graduation Rate and the most recent four-class average Federal Graduation Rate for all students, the institution must develop a plan for improvement to address the issue.
16. Analyze, explain and address any differences between the most recent four-cohort average Graduation Success Rate (GSR) for each sports team and the most recent four-cohort GSR for all student-athletes.

If there is a difference that cannot be adequately explained between the most recent four-cohort GSR for any sports team and the GSR for all student-athletes, the institution must develop a plan for improvement to address the issue.

If the data in the charts on Page No. 44 include sports that are not used by the institution for NCAA sports sponsorship and/or sports in which the NCAA does not conduct a championship, the institution may provide an explanation of how the inclusion/exclusion of the sport(s) impacts the analysis of the data.

Information obtained to complete this chart:

- NCAA Graduation Success Rates Report
- NCAA Federal Graduation Rates Report

[Note: Use the supplied chart (Graduation Success Rates on Page No. 44) to analyze data.]

17. Analyze, explain and address any differences between the most recent four-class retention rate for student-athlete subgroups (i.e., sport, gender, ethnicity, ethnicity within team) and the most recent four-class retention rate for all student-athletes, including comparable student-athlete subgroups (i.e., gender, ethnicity).

If there is a difference that cannot be adequately explained between the most recent four-class...
retention rate for any student-athlete subgroup and the retention rate for all student-athletes or comparable student-athlete subgroup, the institution must develop a plan for improvement to address the issue.

Information obtained to complete this chart:

- NCAA Academic Progress Rates Report (retention multiyear rate column)

[Note: Use the supplied charts (Retention Rates-Men’s Sports on Page No. 45, Retention Rates-Women’s Sports on Page No. 46) to analyze data.]

18. Describe the department of athletics written policies and procedures related to scheduling competitions and practices to minimize student-athletes’ conflicts with class time and/or final examination periods due to participation in intercollegiate athletics, including how the institution monitors this area.

19. Describe the institution’s written missed-class policies for all students, including any exceptions or differences that exist for student-athletes.

20. Provide supporting data to analyze, explain and address missed class time for the last two years for each sports team.

21. Describe the means by which the department of athletics policies and procedures regarding the scheduling of athletics competition and practices (as described in Self-Study Item No. 18) and the institution’s missed-class policies (as described in Self-Study Item No. 19) are directly communicated in writing to student-athletes, department of athletics staff members and appropriate faculty and administrative staff.
22. If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 2.1, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
Members of the Association have the responsibility to conduct intercollegiate athletics programs in a manner designed to protect and enhance the educational experience of student-athletes and to ensure proper emphasis on educational objectives. Consistent with this responsibility, the institution shall demonstrate that:

a. Adequate academic support services are available for student-athletes;

b. Student-athletes are encouraged and assisted in reaching attainable academic goals of their own choosing;

c. When it is determined that individual student-athletes have special academic needs, these needs are addressed either through institutional programming or through student-athlete support services;

d. The support services are evaluated and approved at least once every four years by appropriate academic authorities outside the department of intercollegiate athletics (e.g., faculty members or academic administrators of the institution);

e. There is a commitment to the fair and equitable treatment of student-athletes, in support of their academic endeavors; and

f. Academic-improvement plans developed during the previous self-study or as required by the APP have been implemented. After initial campus approval of an academic-improvement plan, if the plan is modified or not fully implemented, the institution shall provide a written explanation prepared and approved by appropriate institutional authorities.
Self-Study Items For Operating Principle 2.2

Self-Study Items [Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 2.2 (Academic Support). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

[Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.]

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process as they relate to Operating Principle 2.2 (Academic Support). For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

[Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.]

a. The committee will not accept the following explanations for partial completion or noncompletion:
   1. The institution did not possess sufficient funds to implement the plan.
   2. The institution has had personnel changes since the original development of the plan.
   3. The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   • The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.

3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 2.2 (Academic Support). For each additional plan, provide:
a. The additional goal(s);
b. The step(s) taken by the institution to achieve the goal(s); and

c. The date(s) the step(s) was completed.

4. Explain how the institution is organized to provide academic support and advising services to student-athletes, either through institutional programming or student-athlete support services. In addition, provide a description of reporting lines and responsibilities assigned to specific staff members.

5. Explain how the institution’s staffing, physical space and financial support for student-athlete academic support services has been reviewed by appropriate institutional academic authorities to ensure they meet the academic needs of student-athletes at the institution (this review must be conducted as part of the self-study process).

6. Using the program areas for academic support services listed below, describe the following (this program analysis must be conducted as part of the self-study process):

a. The specific academic support services offered to student-athletes (if any);
b. Any policies that govern which students can use these services; and

c. The mechanisms by which student-athletes and staff are made aware of these services;

If the institution has additional or different academic support services not included in the following list of examples, please click “Add Academic Support Area” in the ACS.

(1) Academic counseling/advising: Course selection, class scheduling, priority registration.

(2) Tutoring: Availability; procedures and criteria for obtaining assistance; assignment, qualifications, training, experience, etc.; compensation, rate of pay, pupil loads, qualifications, experience, other terms and conditions of employment.

(3) Academic progress monitoring and reporting: Individual’s responsibility, frequency, procedures for periodic grade and attendance checks.

(4) Assistance for special academic needs: Provisions for diagnosis and treatment of education-impacting disabilities (EID).
(5) Assistance for at-risk students: Availability including institution-wide assistance.
(6) Academic support facilities: Availability of study rooms, computers and labs.
(8) Student-athlete degree selection: Degree program assistance.
(9) Learning assessments: Provisions for testing and evaluation (e.g., placement testing).
(10) Success skills: Study skills, note and test taking, writing and grammar skills, time-management skills.
(11) Study hall: Availability, facilities, attendance policies.
(12) First year/transfer orientation: Availability, attendance requirements.
(13) Mentoring: Availability of mentors, identification and assignment methods, frequency of interaction.
(14) Posteligibility programs: Availability of scholarships, assistantships and academic support.

**Measurable Standard No. 5**
Information related to all academic support services must be clearly communicated to student-athletes and staff (e.g., through inclusion in the student-athlete handbook, discussion during team meetings, through inclusion in personnel manuals, review during staff orientation).

**Measurable Standard No. 6**
The institution must provide effective support services for student-athletes with learning disabilities and/or other special needs, either through institutional programming or through student-athlete support services.

**Measurable Standard No. 7**
The institution must demonstrate that all academic support services provided to student-athletes are subject to a comprehensive, written evaluation and approval at least once every four years by appropriate academic authorities outside athletics who do not have day-to-day responsibilities in the academic support services area (e.g., faculty members, degree program advisors, academic administrators of the institution or noninstitutional academic support specialists). Please note, academic support services evaluations conducted by athletics conference office personnel generally will not meet this requirement. Finally, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

7. Please submit a copy of the written report from the most recent academic support services evaluation. [Please use the file upload link contained within this question on the ACS to submit a copy of the institution’s most recent academic support services evaluation.]
8. Identify the academic authorities outside the department of athletics responsible for conducting the institution’s academic support services evaluation and explain the process used in selecting these individuals to ensure they do not have day-to-day responsibilities in the academic support services area. Also, provide the date of the institution’s most recent academic support services evaluation.

9. If the institution used an outside individual or entity (e.g., conference office, peer colleagues) to assist in the coordination or facilitation of the academic support services evaluation, provide the name(s) and affiliation(s) of the individual(s). Further, describe the process used in selecting this authority outside the institution to ensure the individual(s) is knowledgeable of academic support services. Also, provide a description of the authority’s involvement in the academic support services evaluation.
10. Describe the process used by the institution during development of the self-study to review the most recent academic support services evaluation to determine any necessary corrective actions. In addition, identify the individuals involved with this review.

**Measurable Standard No. 10**

The institution must involve a broad group of on-campus personnel who are employed outside the department of intercollegiate athletics (e.g., academic board, undergraduate education office, provost office) as participants in the comprehensive, written evaluation and periodic approval of academic support services. Further, institutions must review the written, comprehensive evaluation as part of the self-study process and determine if appropriate corrective actions are necessary in response to the written report.

11. Identify relevant corrective action(s) planned as a result of the process described in Self-Study Item No. 10 or actions previously planned or implemented from the most recent academic support services evaluation. Provide:

   a. The plan(s) or action(s) implemented; and
   b. The date(s) of actions taken or specific timetable(s) for completion of the plan(s).

12. List the most recent APR Improvement Plans developed and approved by the institution for any team if required by the NCAA Division I Committee on Academic Performance. In each case, provide:

   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve

**Measurable Standard No. 11**

The institution must provide evidence that the most recent NCAA Division I Academic Progress Rate improvement plans developed and approved by the institution during the previous self-study or as required by the NCAA Division I Committee on Academic Performance have been implemented. If the plan(s) was modified or not fully implemented, the institution must provide a written explanation prepared and approved by appropriate institutional authorities.

13. If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 2.2, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
Special-Admissions
FOR FIRST-YEAR STUDENTS GENERALLY
AND FIRST-YEAR STUDENT-ATHLETES ON ATHLETICS AID*
Operating Principle 2.1, Self-Study Item No. 6

1. Indicate the numerical percentage of entering first-year students who were admitted through special exception provisions during the four most recent academic years. List the most recent academic year’s data first and include all first-year students entering the institution during the year.

Column 1. Calculate this percentage by dividing the number of all entering first-year students who were admitted through special exception provisions by the total number of entering first-year students.

2. Indicate the numerical percentage of first-year student-athletes receiving athletics aid* who were admitted through special exception provisions during the four most recent academic years. Include nonqualifiers who were ineligible for aid. List the most recent academic year’s data first.

Column 2. Calculate this percentage by dividing the number of entering first-year student-athletes receiving athletics aid* who were admitted through special exception provisions by the total number of entering first-year students.

Test Scores by Gender
FOR FIRST-YEAR STUDENTS GENERALLY AND FIRST-YEAR STUDENT-ATHLETES ON ATHLETICS AID*
Operating Principle 2.1, Self-Study Item No. 7

Calculate and provide the average (mean) standardized test scores for all entering first-year students and first-year student-athletes who received athletics aid* (include nonqualifiers who were ineligible for athletically related aid) during the four most recent academic years, by gender. Report all scores as either recentered SAT or ACT z-scores. Individual student-athlete scores should be converted using the conversion chart before the average (mean) test scores are calculated. If possible, this same procedure should be used in converting the scores of first-year students generally. Otherwise, the average score for first-year students generally may be converted using the conversion chart. List the most recent academic year's data first and include all first-year students entering the institution during the year.

Test Scores and GPA by Sport
FOR FIRST-YEAR STUDENT-ATHLETES ON ATHLETICS AID*
Operating Principle 2.1, Self-Study Item No. 7

Calculate and provide the average (mean) standardized test scores and core-course grade-point average for first-year student-athletes who received athletics aid (include nonqualifiers who were ineligible for athletically related aid) during the four most recent academic years, by sport group. Report all scores as either recentered SAT or ACT sum scores. Individual student-athlete scores should be converted using the conversion chart before the average (mean) test scores are calculated. List the most recent academic year's data first and include all first-year students entering the institution during the year. For student-athletes certified through the early academic certification program beginning August 1, 2008, institutions should base student-athlete core-course GPA on his/her six semester academic transcript. (see NCAA bylaw 14.3.1.1.1)

Operating Principle 3.1 Gender Issues

It is a principle of the Association to conduct and promote its athletics programs free from gender bias. In accordance with this fundamental principle, the institution shall:

a. Have implemented its approved gender-equity plan from the previous self-study. If the plan was modified or not fully implemented, provide an acceptable explanation from appropriate institutional authorities.

b. Demonstrate that it is committed to, and has progressed toward, fair and equitable treatment of both male and female student-athletes and athletics department personnel.

c. Formally adopt a written plan for the future for the intercollegiate athletics program that ensures the institution maintains, or continues progress toward, a program that is equitable for both genders. The plan shall include measurable goals the institution intends to achieve, steps the institution will take to achieve those goals, persons responsible and timetables.
Self-Study Items for Operating Principle 3.1

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the Committee on Athletics Certification in its Cycle 2 certification decision (if any) as they relate to Operating Principle 3.1 (Gender Issues). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

   Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. Report on the implementation of the plan for improvement to address gender issues developed by the institution during its Cycle 2 certification process. For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

   The Committee will not accept the following explanations for partial or noncompletion:

   1. The institution did not possess sufficient funds to implement the plan; and
   2. The institution has had personnel changes since the original development of the plan.
   3. The institution does not have documentation of actions taken to implement the plan.

   The committee will accept the following explanation for partial completion or noncompletion:
   • The institution has implemented a different plan(s) to achieve the same goal outlined in its Cycle 2 gender-issues plan.
Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but not limited to participation rates and budget increases, specific numerical targets may be appropriate.

3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 3.1 (Gender Issues). For each additional plan, provide:
   a. The additional goal(s);
   b. The step(s) taken by the institution to achieve the goal(s); and
   c. The date(s) the step(s) was completed.

4. Explain how the institution is organized to further its efforts related to the gender-issues operating principle for both department of athletics staff, coaches and student-athletes.

5. Describe how matters concerning gender equity for department of athletics staff, coaches and student-athletes are monitored, evaluated and addressed on a continuing basis.

6. Describe the programs and activities that the institution has in place for coaches, department of athletics staff and student-athletes that address gender issues, including programs and activities designed to address the needs of the underrepresented gender within the athletics program.

Measurable Standard No. 1
The institution must demonstrate that it has implemented its Cycle 2 gender-issues plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:
   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   • The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress towards the same goal outlined in its Cycle 2 gender-issues plan.

Measurable Standard No. 2
The institution must demonstrate that it provides programs and activities for coaches, department of athletics staff and student-athletes that address gender issues, including programs and activities designed to address the needs of the underrepresented gender within the athletics program.
7. For the three most recent academic years in which information is available, analyze the institution’s Equity in Athletics Disclosure Act (EADA) report (i.e., participation, head coaches and assistant coaches). [Note: the institution must include all male and female NCAA intercollegiate sports programs offered at the institution in its analysis]. If any differences exist, the institution must explain (using supporting data) and address any deficiencies in the gender-issues plan for improvement.

8. For the three most recent academic years in which information is available, analyze the institution’s NCAA financial report (specified expense categories). [Note: the institution must include all male and female NCAA intercollegiate sports programs offered at the institution in its analysis]. If any differences exist, the institution must explain (using supporting data) and address any deficiencies in the gender-issues plan for improvement. See Appendix H for specified expense categories.

9. Using the program areas for gender issues, provided on Page Nos. 75-76:
   a. Describe how the institution has ensured a complete study of each of the 15 program areas. This study must be conducted as part of the self-study process;
   b. Provide data demonstrating the institution’s status and commitment, including resource allocation, across each of the 15 areas;
   c. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of the underrepresented gender within the athletics program (any differences should be clearly explained in the institution’s narrative response, including any deficiencies the institution identifies in its analysis). [Note: the institution must include all male and female NCAA intercollegiate sports programs offered at the institution in its program area analysis]; and
   d. Explain how the institution’s written, stand-alone plan for gender issues addresses each of the 15 areas, including any deficiencies identified in the institution’s narrative response as listed in item (c) above.
Measurable Standard No. 4
The institution must conduct a thorough and written review of each of the 15-program areas for gender issues. Please see program area definitions located in the Gender, Diversity and Student-Athlete Well-Being attachment of the self-study instrument. If the institution identifies any deficiencies during this review, the deficiencies must be incorporated into the institution’s gender-issues plan for improvement. If no deficiency exists, the institution must include a maintenance plan for each program area and action steps the institution will take if the program area(s) becomes inequitable in the future.

The review must:
Describe how the institution has ensured a complete study of each of the 15-program areas for gender issues. This study should be conducted as part of the self-study process. Please note that for the program area of accommodations of interests and abilities, the use of surveys alone does not constitute a complete study. If an institution chooses to use an interest survey (e.g., a Web survey or hard-copy survey) as one of its sources of data, the committee will require an explanation regarding the survey content, populations surveyed, the survey response rate, method used to interpret the data, and written evidence demonstrating the institution’s Title IX coordinator has approved the survey. In addition, the institution must describe other methods of measuring interest and ability.

a. Provide data demonstrating the institution’s status and commitment, including resource allocation, across each of the areas;
b. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of the underrepresented gender within the athletics program. Please note, any differences should be clearly explained in the institution’s narrative response, including any deficiencies the institution identifies in its analysis; and
c. Explain how the institution’s written, stand-alone plan for gender issues addresses each of the 15-program areas, including any deficiencies identified in the institution’s narrative response as listed in (c) above.

Measurable Standard No. 5
The institution must develop a five-year written, stand-alone plan addressing gender issues that maintains an institution’s conformity or moves an institution into conformity with the operating principle.

[Note: The institution may want to refer to the equitable medical care section of the NCAA Sports Medicine Handbook as a guide in responding to Item No. 9 of the program area checklist.]

10. Using the plan for improvement section, provide an institutional gender-issues plan that addresses all 15 aforementioned program areas for the department of athletics. The plan must include all required elements of a plan as noted by the committee (Appendix B). If a deficiency does not exist in a program area(s), the institution must include an evaluation mechanism to maintain the institution’s status in that program area(s) and action steps the institution will take if the program area(s) becomes inequitable in the future. Finally, the institution must describe how it will review its plan on an annual basis and include this information in the institution’s gender-issues plan.

Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but
not limited to participation rates and budget increases, specific numerical targets may be appropriate.

**Measurable Standard No. 6**
The institution’s plan must be active at all times and include a mechanism to ensure the plan is reviewed on an annual basis, including a comparison with its EADA report and NCAA financial report, to determine if the course of action is still appropriate and this information must be included in the institution’s gender-issues plan.

11. Describe how the institution will annually compare its gender-issues plan with its EADA reports and NCAA financial reports to determine if the course of action is still appropriate. Further, please provide the names and titles of the individuals who will be responsible for this review.

**Measurable Standard No. 6**
The institution’s plan must be active at all times and include a mechanism to ensure the plan is reviewed on an annual basis, including a comparison with its EADA report and NCAA financial report, to determine if the course of action is still appropriate and this information must be included in the institution’s gender-issues plan.

12. Describe the institution’s efforts to ensure the gender-issues plan for improvement was developed through a process involving broad-based campus participation and has received formal institutional approval. Further, please identify the length (e.g., five years) of this plan, including the specific years this plan will be active.

**Measurable Standard No. 7**
If a plan concludes prior to the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan were ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle. Please note that all institutional plans must contain all of the committee’s required elements.

**Measurable Standard No. 8**
The institution’s gender-issues plan must include the following requirements:

- **a.** Include identification of issues or problems confronting the institution.
- **b.** Include measurable goals the institution intends to achieve to address issues or problems.
- **c.** Include specific steps the institution will take to achieve its goals.
- **d.** Include a specific timetable(s) for completing the work.
- **e.** Identify the individuals and/or offices responsible for carrying out the actions identified by the institution.

Further, the institution’s gender-issues plan must meet the following requirements:

- **a.** Be committed to paper and be a stand-alone document.
- **b.** Be developed with opportunities for significant input from appropriate constituent groups inside and outside athletics.
- **c.** Must be adopted formally by the institution’s final authority in such matters (i.e., chancellor/president or board of trustees) to ensure that it carries the commitment and support of the entire institution.
[Please Note: If a plan concludes before the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan were ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle.]
Operating Principle - 3.2. Diversity Issues

It is a principle of the Association to promote respect for and sensitivity to the dignity of every person and to refrain from discrimination. In accordance with this fundamental principle, the institution shall:

a. Have implemented its approved minority-issues plan from the previous self-study. If the plan was modified or not fully implemented, provide an acceptable explanation from appropriate institutional authorities.

b. Demonstrate that it is committed to, and has progressed toward, fair and equitable treatment of all student-athletes and department of athletics personnel with diverse racial, ethnic and other backgrounds; and

c. Formally adopt a written plan for the future of the intercollegiate athletics program that ensures the institution maintains, or continues progress toward, a program that expands equitable opportunities and support for student-athletes and athletics personnel with diverse racial, ethnic and other backgrounds. The plan shall include measurable goals the institution intends to achieve, steps the institution will take to achieve those goals, persons responsible and timetables.

Please note, that for purposes of athletics certification, institutions have discretion to address those areas of diversity that align with the institution’s overall mission and culture. However, institutions are reminded that the Committee on Athletics Certification expects a comprehensive and good-faith effort throughout the self-study process. Examples of areas to review for diverse backgrounds or underrepresented groups include, but are not limited to: race, ethnicity, creed, color, national origin, age, disability, sexual orientation and gender identity, in addition to other areas such as religion, marital status, education, income, geographic location and work experience.
Self-Study Items for Operating Principle 3.2

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the Committee on Athletics Certification in its Cycle 2 certification decision (if any) as they relate to Operating Principle 3.2 (Minority Issues). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

   Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. Report on the implementation of the plan for improvement to address minority issues developed by the institution during its Cycle 2 certification process. For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

   The committee will not accept the following explanations for partial or noncompletion:

   1. The institution did not possess sufficient funds to implement the plan; and
   2. The institution has had personnel changes since the original development of the plan.
   3. The institution does not have documentation of actions taken to implement the plan.

   The committee will accept the following explanation for partial completion or noncompletion:

   • The institution has implemented a different plan(s) to achieve the same goal outlined in its Cycle 2 minority-issues plan.

   Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but
not limited to participation rates and budget increases, specific numerical targets may be appropriate.

Measurable Standard No. 1
The institution must demonstrate that it has implemented its Cycle 2 minority-issues plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:

   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:

   • The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress towards the same goal outlined in its Cycle 2 minority-issues plan.

3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the Committee for Operating Principle 3.2 (Minority Issues). For each additional plan, provide:
   a. The additional goal(s);
   b. The step(s) taken by the institution to achieve the goal(s); and
   c. The date(s) the step(s) was completed.

4. Explain how the institution is organized to further its efforts related to the diversity-issues operating principle for both department of athletics staff, coaches and student-athletes.

5. Describe the institution’s written statements (e.g., vision statements, mission statements, diversity statements, policies, plans) that address issues of diversity, including where the statements are published. Describe how the institution’s written statements are communicated directly to department of athletics staff, coaches and student-athletes.

Measurable Standard No. 2
The institution must demonstrate how the institution’s and department of athletics’ written commitment and expectations related to diversity are communicated directly to department of athletics staff, coaches and student-athletes.

6. Describe how matters concerning diversity issues for department of athletics staff, coaches, and student-athletes are monitored, evaluated and addressed on a continuing basis.

7. Describe the programs and activities the institution has in place for coaches, department of athletics staff and student-athletes that address diversity issues, including programs
and activities designed to address the needs of the underrepresented groups or individuals of diverse backgrounds.

Measurable Standard No. 3
The institution must demonstrate that it provides programs and activities for coaches, department of athletics staff and student-athletes that address diversity issues, including programs and activities designed to address the needs of under-represented groups or individuals of diverse backgrounds.

8. Describe how the institution actively recruits department of athletics staff, coaches and student-athletes from underrepresented groups or diverse backgrounds including a description of actions and strategies taken to increase diversity.

Measurable Standard No. 4
The institution must demonstrate through actions and strategies how it actively recruits department of athletics staff, coaches, and student-athletes from underrepresented groups or diverse backgrounds from those currently represented in athletics.

9. Describe institutional and department of athletics hiring practices to ensure the department of athletics demonstrates a commitment to diversity in hiring procedures for department of athletics staff and coaches. Compare and explain any differences that exist between institutional hiring practices and department of athletics hiring practices. Please provide the date of your most recent assessment and comparison of the institution’s and athletics department’s hiring practices. Note: this assessment and comparison must occur at least once every five years.

Measurable Standard No. 5
The institution must provide evidence that an assessment and comparison of the institution’s and department of athletics’ hiring practices has occurred at least once every five years.

10. Describe institutional and department of athletics polices related to the use of outside firms (e.g., search firms) and truncated or expedited hiring processes. Describe the actual hiring practices used by your institution since the previous self-study for any positions (e.g., coaches, staff) determined to be high profile at your institution.

Measurable Standard No. 6
The institution must demonstrate a commitment to diversity in all athletics department hiring efforts, including those involving outside firms (e.g., search firms) and truncated or expedited processes.

11. For the three most recent academic years, analyze and explain the data regarding the racial or ethnic composition for the following:

a. Full-time senior administrative department of athletics staff members (i.e., assistant director of athletics up through the director of athletics level);
b. Other full- and part-time professional (i.e., nonclerical) department of athletics staff members (such as directors of operations, athletic trainers, ticket managers, academic support staff and facility managers, even if the position is not funded by or does not report to the department of athletics);

c. Full- and part-time head coaches;

d. Full- and part-time assistant coaches (including graduate assistant and volunteer coaches);

e. Faculty-based athletics board or committee (e.g., faculty senate subcommittee on athletics, faculty athletics committee) members; and

f. Other advisory or policy-making group (e.g., governing board subcommittee for athletics, student-athlete advisory committee) members (if any).

[Note: Use the supplied chart (Racial or Ethnic Composition of Personnel on Page Nos. 62-63) to compile the data requested in this self-study item.]

12. For the three most recent academic years, analyze and explain the data regarding the racial or ethnic composition for student-athletes who received athletics aid and for all students.

[Note: Use the supplied chart (Racial or Ethnic Composition of all Students on Page Nos. 64-65) to compile the data requested in this self-study item.]

13. For the three most recent academic years, analyze and explain the data regarding the racial or ethnic composition of student-athletes who received athletics aid by the eight sport groups listed in the NCAA Federal Graduation Rates Report.

[Note: Use the supplied chart (Racial or Ethnic Composition of Student-Athletes by Sport Group on Page Nos. 66-67) to compile the data requested in this self-study item.]

14. Using the program areas for diversity issues, provided on Page No. 77.

a. Describe how the institution has ensured a complete study of each of the four program areas. This study must be conducted as part of the self-study process;

b. Provide data demonstrating the institution’s status and commitment across each of the four areas;

c. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of its student-athletes and staff with diverse racial, ethnic and other backgrounds (any differences should be clearly explained in the institution’s narrative response, including any deficiencies the institution identifies in its analysis); and
d. Explain how the institution’s written, stand-alone plan for diversity issues addresses each of the four areas, including any deficiencies identified in the institution’s narrative response as listed in item (c) above.

Measurable Standard No. 7
The institution must conduct a thorough and written review of each of the four program areas for diversity issues. Please see program area definitions located in the Equity and Student-Athlete Well-Being attachment of the self-study instrument. If the institution identifies any deficiencies during this review, the deficiencies must be incorporated into the institution’s diversity issues plan for improvement. If no deficiency exists, the institution must include a maintenance plan for each program area and action steps the institution will take if the program area(s) becomes inequitable in the future.

The review must:

a. Describe how the institution has ensured a complete study of each of the four program areas for diversity issues. This study should be conducted as part of the self-study process;

Please note that for the program area of assessment, the use of student-athlete exit interviews alone does not constitute a complete assessment for purposes of the self-study. An institution may choose to include student-athlete exit interviews as part of a broader assessment conducted, but the institution must ensure that an assessment of the entire department of athletics has been conducted with respect to diversity issues.

b. Provide data demonstrating the institution’s status and commitment, including resource allocation, across each of the areas;

c. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of its student-athletes, coaches, and athletic department staff with diverse racial, ethnic and other backgrounds. Please note, any deficiencies should be clearly explained in the institution’s narrative response, including any deficiencies the institution identifies in its analysis; and

d. Explain how the institution’s written, stand-alone plan for diversity issues addresses each of the four program areas, including any deficiencies identified in the institution’s narrative response as listed in (c) above.

Measurable Standard No. 8
The institution must develop a five-year written, stand-alone plan addressing diversity issues that maintains an institution’s conformity or moves an institution into conformity with the operating principle.

15. Using the “plan for improvement” section, provide an institutional diversity-issues plan that addresses all four aforementioned program areas for the department of athletics. The plan must include all required elements of a plan as noted by the committee (see Appendix B). If a deficiency does not exist in a program area(s), the institution must include an evaluation mechanism to maintain the institution’s status in that program area(s) and action steps the institution will take if the program area(s) becomes inequitable in the future. Finally, the institution must describe how it will review its plan on an annual basis and include this information in the institution’s diversity-issues plan.
Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but not limited to participation rates and budget increases, specific numerical targets may be appropriate.

### Measurable Standard No. 8

The institution must develop a five-year written, stand-alone plan addressing diversity issues that maintains an institution’s conformity or moves an institution into conformity with the operating principle.

### Measurable Standard No. 9

The institution’s plan must be active at all times and include a mechanism to ensure the plan is reviewed on annual basis to determine if the course of action is still appropriate. This information must be included in the institution’s diversity-issues plan.

### Measurable Standard No. 10

The institution must compare its diversity-issues plan with its written assessment of the campus diversity climate (see Program Area No. 1) at least once every four years, to determine if the course of action is still appropriate.

16. Describe how the institution will periodically compare its diversity-issues plan with its assessment of the campus diversity climate (see Program Area No. 1) using the four diversity program areas to determine if the course of action is still appropriate. Further, provide the names and titles of the individuals who will be responsible for this review.

### Measurable Standard No. 11

If a plan concludes prior to the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan was ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle.

*If a plan concludes before the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan was ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle.*

Page No. 60 - Gender/Diversity Issues and Student-Athlete Well-Being
### Measurable Standard No. 12

The institution’s diversity-issues plan must include the following requirements:

- Include identification of issues or problems confronting the institution.
- Include the measurable goals the institution intends to achieve to address issues or problems.
- Include the specific steps the institution will take to achieve its goals.
- Include a specific timetable(s) for completing the work.
- Identify the individuals and/or offices responsible for carrying out the actions identified by the institution.

Further, the institution’s diversity-issues plan must meet the following requirements:

- Be committed to paper and be a stand-alone document.
- Be developed with opportunities for significant input from appropriate constituent groups inside and outside athletics.
- Must be adopted formally by the institution’s final authority in such matters (i.e., chancellor/president or board of trustees) to ensure that it carries the commitment and support of the entire institution.
## Racial or Ethnic Composition of Personnel - Old Race/Ethnicity Categories Chart (IPEDS)

Gender/Diversity and Student-Athlete Well-Being – Page No. 67
Gender/Diversity Issues and Student-Athlete Well-Being

Operating Principle - 3.3 Student-Athlete Well-Being

Conducting the intercollegiate athletics program in a manner designed to protect and enhance the physical and educational well-being of student-athletes is a basic principle of the Association.

Consistent with this fundamental principle, the institution shall:

a. Provide evidence that the well-being of student-athletes and the fairness of their treatment is monitored, evaluated and addressed on a continuing basis.

b. Have established grievance or appeal procedures available to student-athletes in appropriate areas.

c. Provide evidence that the institution has in place programs that protect the health of and provide a safe and inclusive environment for each of its student-athletes.
Self-Study Items for Operating Principle 3.3

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 3.3 (Student-Athlete Well-Being). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process as they relate to Operating Principle 3.3 (Student-Athlete Well-Being). For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.

---

### Measurable Standard No. 1

*If the institution developed a plan for improvement for Operating Principle 3.3 during Cycle 2, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.*

a. The committee will not accept the following explanations for partial completion or noncompletion:
   1. The institution did not possess sufficient funds to implement the plan.
   2. The institution has had personnel changes since the original development of the plan.
   3. The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   ➢ The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.
3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 3.3 (Student-Athlete Well-Being). For each additional plan, provide:

a. The additional goal(s);
b. The step(s) taken by the institution to achieve the goal(s); and
c. The date(s) the step(s) was completed;

4. Please submit a copy of the student-athlete exit-interview instrument with the submission of your self-study report. [Please use the file upload link contained within this question on the ACS to submit a copy of your current student-athlete exit-interview instrument.]

5. Describe the methods used to conduct student-athlete exit interviews. Further, describe the process used to evaluate and implement outcomes.

Measurable Standard No. 2
The institution’s instrument used to conduct student-athlete exit interviews must contain questions related to the following: (Note: Institutions should note the list of examples below is not an exhaustive list and institutions are not limited to addressing only those provided.)

a. The institution’s commitment to the academic success of its student-athletes (e.g., academic support services available, priority registration for classes, coaches’ support).
b. The institution’s commitment to opportunities for student-athletes to integrate into campus life.
c. The institution’s efforts to measure the extent of time demands encountered by student-athletes.
d. The institution’s efforts to measure the effectiveness of the institution’s mechanisms to monitor time demands of its student-athletes (e.g., travel commitments, missed class time, final exam schedules, and summer vacation periods).
e. The institution’s efforts to measure the effectiveness of the institution’s NCAA Division I Student-Athlete Advisory Committee (SAAC).
f. The institution’s commitment to informing student-athletes about the NCAA Special Assistance Fund and NCAA Student-Athlete Opportunity Fund.
g. The institution’s efforts to measure the effectiveness of the institution’s mechanisms (e.g., annual surveys, exit-interview process) to monitor the well-being of its student-athletes.
h. The institution’s commitment to the physical, psychological and emotional health (e.g., athletic training, nutrition, counseling) of student-athletes.
i. The institution’s commitment to the safety (e.g., travel policies, emergency medical plans) of student-athletes.
j. The institution’s commitment to a safe and inclusive environment for all student-athletes.
k. The institution’s commitment to diversity.
l. The value of student-athletes’ athletics experience.
m. The opportunity for student-athletes to suggest proposed changes in intercollegiate athletics.
n. The opportunity for student-athletes to express concerns related to the administration of the sport(s) in which student-athletes participate.

Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

Measurable Standard No. 3
The institution must demonstrate that it conducts exit interviews via in-person meetings and/or conference calls in each sport with a sample of student-athletes (as determined by the institution) whose eligibility has expired in accordance with NCAA Constitution 6.3.2. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.
6. Describe opportunities other than the student-athlete exit-interview process that are available to student-athletes to provide input regarding student-athlete well-being issues (e.g., student-athlete advisory committee; open-door policy of athletics administrators, including the director of athletics, senior woman administrator, and/or faculty athletics representative).

7. Describe the department of athletics written grievance and/or appeals procedures available to student-athletes in areas mandated by NCAA legislation (i.e., financial aid and transfers). Also, provide the name(s) and title(s) of the individual(s) responsible for overseeing the administration of these grievance and/or appeals procedures. Describe the means by which these grievance and/or appeals procedures are directly communicated in writing to department of athletics staff members, coaches and student-athletes.

---

**Measurable Standard No. 4**

The institution must have established written grievance and/or appeals procedures for areas mandated by NCAA legislation (i.e., financial aid [in accordance with NCAA Division I Bylaw 15.3.2.4] and transfers [in accordance with Bylaws 13.02.1, 13.1.1.3, 13.1.1.3.1, 14.02.2, 14.5.5.2.10 and 14.5.5.2.10.1]). Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

---

**Measurable Standard No. 5**

The institution must demonstrate that grievance and/or appeals procedures for areas mandated by NCAA legislation (i.e., financial aid [in accordance with NCAA Division I Bylaw 15.3.2.4] and transfers [in accordance with Bylaws 13.02.1, 13.1.1.3, 13.1.1.3.1, 14.02.2, 14.5.5.2.10 and 14.5.5.2.10.1]) are directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) to department of athletics staff members, coaches and student-athletes. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

---

8. Describe the institution’s written grievance and/or appeals procedures available to student-athletes in other areas (e.g., harassment, hazing, abusive behavior, discrimination). Also, provide the name(s) and title(s) of the individual(s) responsible for overseeing the administration of these grievance and/or appeals procedures. Describe the means by which these grievance and/or appeals procedures are directly communicated in writing to department of athletics staff members, coaches and student-athletes.

---

**Measurable Standard No. 6**

The institution must have established written grievance and/or appeals procedures for other areas not mandated by NCAA legislation (e.g., harassment, problems with coaches, hazing, abusive behavior). Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

---

**Measurable Standard No. 7**

The institution must demonstrate that all grievance and/or appeals procedures for other areas not mandated by NCAA legislation (e.g., harassment, problems with coaches, hazing, abusive behavior) are directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) to department of athletics staff members, coaches and student-athletes. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.
9. Describe the institution’s educational and support programs in the area of sexual orientation. Also, describe the institution’s structure and/or policies that ensure the provision of a safe environment for all students, including student-athletes with diverse sexual orientations.

10. Describe the policies, organization and structure of the department of athletics and how it enhances student-athlete well-being. Further, describe the commitment of the institution to enhance the overall student-athlete educational experience including how issues are monitored, evaluated and addressed on a continuing basis.

11. Describe how student-athletes are involved in the governance and decision-making processes of the department of athletics, including the role of the student-athlete advisory committee (SAAC).

<table>

<tbody>
<tr>
<td></td>
</tr>
<tr>
<td>The institution must demonstrate that it has an active CHAMPS/Life Skills program (or an equivalent program) pursuant to NCAA legislation with programming to address nonacademic areas (e.g., career counseling, personal counseling, nutrition, diversity, gambling, alcohol and drug guidelines, sexual orientation, personal development, leadership). Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.</td>
</tr>
</tbody>
</table>

13. Describe how the department of athletics monitors student-athlete time demands, including travel commitments, missed class time, final exam schedules, summer vacation periods and intercession periods. Further, describe methods used to educate coaches and student-athletes about time demands and opportunities to integrate into campus life.

14. Please submit a copy of the department of athletics and/or institution’s written travel policies to ensure the safety and well-being of student-athletes with the submission of your self-study report (e.g., road travel; air travel, including charter policies; driver selection; training; privately owned vehicles). [Please use the file upload link contained within this question on the ACS to submit a copy of the department of athletics and/or institution’s written travel policies].

15. Describe the annual evaluation of the department of athletics and/or institution’s travel policies to ensure these policies are effective. Further, describe how the travel policies are directly communicated in writing to department of athletics staff members and student-athletes and list the name and title of the administrator(s) responsible for oversight in this area.
The institution must have written travel policies that are annually evaluated for their effectiveness in protecting the health and providing a safe environment for student-athletes. Further, the administrator(s) responsible for annually evaluating travel policies must be identified and travel policies must be directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) to athletics department staff members, including coaches, and student-athletes.

The institution must have a written emergency medical plan for practices, contests, strength training and skills sessions. Further, the administrator(s) responsible for annually evaluating this emergency medical plan must be identified and the emergency medical plan must be directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) to athletics department staff members, including coaches, and student-athletes.

The institution must have a written emergency medical plan for out-of-season workouts. Further, the administrator(s) responsible for annually evaluating this emergency medical plan must be identified and the emergency medical plan must be directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) to athletics department staff members, including coaches, and student-athletes.

The institution must have written travel policies that are annually evaluated for their effectiveness in protecting the health and providing a safe environment for student-athletes. Operating Principle 3.3

Gender/Diversity and Student-Athlete Well-Being – Page No. 73
21. Describe the annual evaluation of the department of athletics written athletic training and sports medicine policies and procedures. Further, describe how the department of athletics athletic training and sports medicine policies and procedures is directly communicated in writing to department of athletics staff members and student-athletes and list the name and title of the administrator(s) responsible for oversight in these areas.

Measurable Standard No. 13
The institution must have written athletic training and sports medicine policies that are reviewed annually. Further, the administrator(s) responsible for annually evaluating athletic training and sports medicine policies must be identified and the athletic training and sports medicine policies must be directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) to athletics department staff members, including coaches, and student-athletes.

22. If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 3.3, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based campus participation and has received formal institutional approval.
# Program Areas to be Reviewed for Gender Issues

<table>
<thead>
<tr>
<th>PROGRAM AREA</th>
<th>PROGRAM AREA DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Accommodation of interests and abilities</td>
<td>Participation proportionate to enrollment; and/or history and continuing practice of program expansion for the under-represented gender within the athletics program; and/or fully and effectively accommodating the under-represented gender within the athletics program; and equivalent levels of competition. Institutions must clearly identify methods (e.g., proportionality, history of program expansion, etc.) for addressing accommodation of interests and abilities when presenting gender-issues plans for the future.</td>
</tr>
<tr>
<td>2. Athletics scholarships.</td>
<td>Athletics scholarship dollars to be awarded to women and men at same proportion as their respective rate of participation in the intercollegiate athletics program.</td>
</tr>
<tr>
<td>3. Equipment and supplies.</td>
<td>Quality, amount, suitability, maintenance and replacement and availability of equipment and supplies.</td>
</tr>
<tr>
<td>4. Scheduling of contests and practice time</td>
<td>Number of contests; number, length, and time of day of practices; time of day of contests; preseason and postseason opportunities, including foreign tours.</td>
</tr>
<tr>
<td>5. Travel allowance.</td>
<td>Modes of transportation, housing furnished during travel, length of stay before and after competitive events, dining arrangements and per diem for institutional competition and other competitive opportunities (e.g., under NCAA Division I Bylaw 16.8.1.3).</td>
</tr>
<tr>
<td>6. Academic support services.</td>
<td>Availability of, and equitable access to, academic support services that meet the needs of student-athletes based on individual student-athlete academic profiles and/or performance, and equitable criteria for obtaining assistance.</td>
</tr>
<tr>
<td>7. Coaches.</td>
<td>Availability of full time, part time, assistant and graduate assistants. Training, experience, professional standing, and other professional qualifications. Total rate of compensation package, duration of contracts, conditions relating to contract renewal, experience, nature of coaching duties, working conditions, and other terms and conditions of employment.</td>
</tr>
<tr>
<td>PROGRAM AREA</td>
<td>PROGRAM AREA DESCRIPTIONS</td>
</tr>
<tr>
<td>--------------</td>
<td>----------------------------</td>
</tr>
<tr>
<td>8. Locker rooms, practice and competitive facilities.</td>
<td>Quality, availability and exclusivity of practice and competitive facilities; quality and availability of locker rooms; maintenance and preparation of practice and competitive facilities.</td>
</tr>
<tr>
<td>9. Medical and training facilities and services.</td>
<td>Availability of medical personnel; availability and quality of weight training and conditioning facilities; availability and qualifications of athletics trainers; health, accident, and injury insurance coverage; provision of medical and training expenses.</td>
</tr>
<tr>
<td>10. Housing, dining facilities and services.</td>
<td>Housing provided; special services as part of housing; dining arrangements.</td>
</tr>
<tr>
<td>11. Publicity and awards.</td>
<td>Availability and quality of sports information personnel; access to other publicity resources; quantity and quality of publications and other promotional devices; availability and quality of institutional awards; opportunity for application and/or nomination for other outside awards (e.g., NCAA, national or conference awards).</td>
</tr>
<tr>
<td>12. Support services.</td>
<td>Administrative, secretarial, clerical support and office space.</td>
</tr>
<tr>
<td>13. Recruitment of Student-Athletes.</td>
<td>Equitable opportunities for professional personnel to recruit; availability of financial and other resources for recruitment; equivalent benefits, opportunities and treatment of prospective student-athletes.</td>
</tr>
<tr>
<td>14. Retention</td>
<td>Programs and services to address retention of staff, coaches and student-athletes from the under-represented gender within the athletics program; review of retention and promotion of staff and coaches from the under-represented gender within the athletics program, including professional development opportunities (e.g., mentoring programs), rate of compensation, duration of contracts, conditions relating to contract renewal; programs and services to address retention of student-athletes who are members of the under-represented gender within the athletics program.</td>
</tr>
<tr>
<td>15. Participation in governance and decision making.</td>
<td>Involvement of department of athletics staff, coaches and student-athletes from the under-represented gender within the athletics program in the governance and decision-making processes of the athletics department; provision of leadership opportunities for all student-athletes (e.g., participation on student-athlete advisory committee) and department of athletics staff and coaches (e.g., participation at the conference and/or national level).</td>
</tr>
</tbody>
</table>
For purposes of athletics certification, institutions have discretion to address those areas of diversity that align with the institution’s overall mission and culture. However, institutions are reminded the NCAA Division I Committee on Athletics Certification expects a comprehensive and good-faith effort throughout the self-study process. Examples of areas to review for diverse backgrounds or under-represented groups include, but are not limited to, race, ethnicity, creed, color, national origin, age, disability, sexual orientation and gender identity, in addition to other areas such as religion, marital status, education, income, geographic location and work experience.

<table>
<thead>
<tr>

- All SAs
- All SAs of same gender
- All students of same gender
- All students of same gender and racial/ethnic group
- All students of same racial/ethnic group

Note: Please refer to Appendix A in the 2010-11 Self-Study Instrument for further clarification.
Requirements for Institutional Plans for Improvement

In an effort to provide more specific direction to institutions and peer-review teams, the following information outlines the expectations of the NCAA Division I Committee on Athletics Certification regarding all institutional plans for improvement. Institutional plans for improvement are required when an institution is not in conformity with a specific operating principle.

Additionally, plans for improvement are required for the gender-issues and diversity-issues operating principles. Written institutional plans communicate an institution’s current commitment, provide benchmarks to assess progress and also serve as records that ensure institutions’ continued commitments.

Required Elements of the Plans

Institutional plans must include the following requirements:

1. **Issues/Problems.** Each plan must include identification of issues or problems confronting the institution.

2. **Measurable Goals.** Each plan must include the measurable goals the institution intends to achieve to address issues or deficiencies.

3. **Steps to Achieve the Goals.** Each plan must include the specific steps the institution will take to achieve its goals.

4. **Specific Timetable(s).** Each plan must include a specific timetable(s) for completing the work.

5. **Individuals/Offices Responsible for Carrying out the Specific Actions.** Each plan must identify the individuals and/or offices responsible for carrying out the actions identified by the institution.

Further, institutional plans for improvement must meet the following requirements:

1. **Stand Alone and in Writing.** Each plan shall be committed to paper and be a stand-alone document.

2. **Broad-Based Campus Participation.** Each plan shall be developed with opportunities for significant input from appropriate constituent groups inside and outside of athletics.

3. **Institutional Approval.** Each plan must be adopted formally by the institution’s final authority in such matters (i.e., chancellor/president or board of trustees) to ensure that it carries the commitment and support of the entire institution. If funding is needed for a
plan element, approval of the plan by the appropriate institutional authority signifies the institution’s commitment to fund the plan.

**Sample Formats for Plans**

A sample format for plans for improvement can be found in the Athletics Certification Self-Study Instrument. The sample plans are intended to serve as examples of plans containing all required elements and are laid out in an easy-to-read manner. The samples are provided only as illustrations of plans containing the required elements, as is required by the Athletics Certification System. As an institution develops its plans, it should ensure that it addresses the situations and issues unique to the institution.

**Additional Consideration for Gender-Issues and Diversity-Issues Plans**

The committee reminds the institution that plans for improvement must extend at least five years into the future and be active at all times. If a plan for improvement concludes before the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan is continuing. The institution must develop a new five-year plan that will maintain conformity with the applicable operating principle. Please note that all institutional plans for improvement must contain all eight of the committee’s required elements.

In addition, the committee takes the position that an institution-wide plan for addressing diversity issues may serve as the basic framework for addressing diversity opportunities in the athletics program. However, the institution must amend the institution-wide affirmative action plan to include specific references to intercollegiate athletics.

An institution-wide affirmative action plan is acceptable for meeting the requirements of Operating Principle 3.2 (Diversity Issues) only if it:

1. Specifically references, in the plan or in a separate document, the intercollegiate athletics program.
2. Addresses diversity opportunities and needs for student-athletes and department of athletics personnel.
3. Satisfies the committee’s minimum expectations for a plan. (See Required Elements of the Plans on the previous page.)

Helpful Hints for Gender-Issues and Diversity-Issues Plans for Improvement

1. Example of measurable goals versus vague goals.
   a. Measurable goal: To provide comparable quality apparel to women’s soccer, women’s golf and women’s gymnastics to reflect conference comparable sports (men’s soccer, men’s golf and men’s gymnastics).
   b. Nonmeasurable goal: To enhance equipment and supplies for women’s athletics teams.

2. Example of specific steps versus plan-to-plan steps.
   a. Specific step (to achieve measurable goal): Athletics department will offer internships to minority students and will provide professional development programs for minority students.
   b. Nonspecific step or plan-to-plan step: Assess whether or not athletics department can create development programs for minority students.

3. Example of specific timelines.
   a. Specific timeline: One additional support staff for women’s soccer will be hired during the next two academic years (2011-13). Two additional support staff for all other women’s sports will be added during the 2011-13 academic year.
   b. Nonspecific timeline: Three support staff will be hired as the budget permits.

4. Ensure all 15 program areas for gender equity and 4 program areas for diversity issues are addressed before submission.

5. If there is a deficiency identified in the program area evaluation, include the deficiency as an issue within the stand-alone gender-issues or diversity-issues plan. Then, rectify the deficiency with measurable goals and steps to achieve the goals as outlined above.

6. If there is NOT a deficiency identified in the program area evaluation, the measurable goal should indicate that there will be an effort to maintain the current state in the program area and the specific steps should reflect how to achieve the maintenance.
Documents to be Available for Peer-Review Team Visit

Operating Principle 1.1

1. Minutes of athletics board or committee meetings.
2. Composition of the institution’s governing board (including titles and positions).
3. Minutes of the institution’s governing board meetings (Please flag those that relate to the athletics program or athletics interests).
4. Published policies of the institution’s governing board that relate to the athletics program or athletics interests.
5. Institutional organizational chart.
6. Department of athletics organizational chart.
7. List of athletics booster organizations and their officers.
8. Description of athletics booster group policies and procedures (e.g., constitution and bylaws).

Operating Principle 1.2

1. Job descriptions for individuals inside the department of athletics and individuals outside the department of athletics who are involved in rules compliance activities.
2. Contracts or letters of appointment for individuals inside the department of athletics and individuals outside the department of athletics who are involved in rules compliance activities.
3. Performance evaluation criteria for individuals inside the department of athletics and individuals outside the department of athletics who are involved in rules compliance activities.
4. Rules compliance policies and procedures for all of the following areas: initial-eligibility certification, continuing-eligibility certification, transfer-eligibility certification, NCAA Division I Academic Performance Program, financial aid administration, recruiting, camps and clinics, investigations and self-reporting of rules violations, rules education, extra benefits, playing and practice seasons, student-athlete employment, and amateurism.
5. Documentation required by the institution to maintain compliance with NCAA rules (e.g., compliance manual, samples of recruiting logs, samples of eligibility files).
6. Documentation related to secondary rules violations for the last three years and the institutional response to these violations.

8. Department of athletics policies and procedures manual.

9. Documentation related to the rules education program for boosters, student-athletes, department of athletics staff, coaches, faculty and institutional staff outside the department of athletics (e.g., meeting agendas).

---

**Operating Principle 2.1**

1. Most recent Federal Graduation Rates report.

2. Most recent Academic Progress Rate report.

3. Most recent Graduation Success Rate report.

4. Most recent institutional catalog and/or bulletin.

5. Institution’s standard or regular, published entrance requirements, including the provisions under which students may be admitted by special exception to the institution’s standard or normal entrance requirements.

6. Information regularly reported to the chancellor or president, faculty senate or director of athletics concerning the academic performances of sports teams (if any).

7. A random sampling of student-athlete eligibility files (including, when appropriate, final high school transcripts, high schools’ lists of approved core courses and final certification reports, verification of standardized test scores, NCAA student-athlete statements, institutional transcripts, and transfer documentation).

8. Athletics department manual and/or policies and procedures.

10. Institutional handbook for students.

11. Scheduling policies.

12. Missed class policies.
Operating Principle 3.1

1. Documentation assessing the institution’s goals and actions regarding Title IX (if applicable).

2. Equity in Athletics Disclosure Act survey forms and worksheets. [Please note: For confidentiality purposes, the committee will permit an institution to provide the EADA worksheets with salary information in the form of a percentage.]

3. NCAA financial reports for the three most recent academic years.

Operating Principle 3.2

1. Written statements that address diversity (e.g., vision statements, mission statements, diversity statements, policies, plans).

2. Written policies related to hiring policies and procedures, including any policies related to the use of outside firms (e.g., search firms).

3. Written or published information related to the recruitment and retention of diverse staff, coaches and student-athletes.

4. Written or published information related to programs and activities for staff, coaches and student-athletes.

Operating Principle 3.3

1. Facilities schedules for practice and competition.

2. Sports schedules.

3. Institution’s student-athlete handbook or, if no such handbook exists, institution’s method(s) for conveying athletics policies and procedures to student-athletes.

4. Compilation of results from student-athlete exit interviews.

5. Institution’s and/or department of athletics’ written grievance and/or appeal procedures available to student-athletes in areas mandated by NCAA legislation and in other areas.
### Operating Principle 3.1, Self-Study Item No. 8, Measurable Standard No. 2

#### Analysis of NCAA Financial Reports

**NCAA Financial Reports-Expense Categories to be Reviewed**

<table>
<thead>
<tr>
<th>EXPENSE CATEGORY</th>
<th>EXPENSE CATEGORY DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Athletics Student Aid.</td>
<td>Include the total amount of athletically related student aid awarded, including summer school and tuition discounts and waivers (including aid given to student-athletes who have exhausted their eligibility or who are inactive due to medical reasons). Athletics aid awarded to nonathletes (student managers, graduate assistants, trainers) should be reported as Expenses Not Related to Specific Teams. It is permissible to report only dollars in the Expenses Not Related to Specific Teams row as long as you have reported non-zero entries for Equivalencies, Number of Students and Dollars (all 3 required) for at least one sport.</td>
</tr>
<tr>
<td>2. Coaching Salaries, Benefits and Bonuses.</td>
<td>Include gross salaries, bonuses and benefits provided to head and assistant coaches, which includes all gross wages, benefits and bonuses attributable to coaching that would be reportable on university and related entities (e.g., foundations, booster clubs) W-2 and 1099 forms (e.g., car stipend, country club membership, entertainment allowance, clothing allowance, speaking fees, housing allowance, supplemental retirement allowance, compensation from camps, radio income, television income, tuition remission, earned deferred compensation benefits). Place any payment made to previous coaches to satisfy a contractual agreement for coaching in Category 23 (Severance Payments).</td>
</tr>
<tr>
<td>3. Coaching, Other Compensation and Benefits Paid by a Third Party.</td>
<td>Include all compensation paid to the coaching staff by a third party and contractually guaranteed by the institution, but not included on the institution’s W-2 (e.g., car stipend, country club membership, entertainment allowance, clothing allowance, speaking fees, housing allowance, compensation from camps, radio income, television income, and shoe and apparel income).</td>
</tr>
<tr>
<td>4. Support Staff/ Administrative Salaries, Benefits and Bonuses Paid by the University and Related Entities.</td>
<td>Include gross salaries, bonuses and benefits paid to administrative staff (i.e., football secretary, sport-specific trainer) that would be reportable on university and related entities (e.g., foundations, booster clubs) W-2 and 1099 forms (e.g., car stipend, country club membership, entertainment allowance, clothing allowance, speaking fees, housing allowance, supplemental retirement allowance, compensation from camps, radio income, television income, tuition remission, earned deferred compensation benefits). Staff members responsible for the gender-specific athletics department, but not a specific sport (i.e., director of men’s athletics), will have their compensation figures reported as Expenses Not Related to Specific Teams fields. Athletics department staff members who assist both men’s and women’s teams (sports information director, academic advisor) will be reported as Not Allocated by Gender column.</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>5. Support Staff/ Administrative Other Compensation and Benefits Paid by a Third Party.</td>
<td>Include all compensation paid to the support staff by a third party and contractually guaranteed by the institution, but not included on the institution’s W-2 (e.g., car stipend, country club membership, entertainment allowance, clothing allowance, speaking fees, housing allowance, compensation from camps, radio income, television income, and shoe and apparel income).</td>
</tr>
<tr>
<td>6. Recruiting.</td>
<td>Include transportation, lodging and meals for prospective student-athletes and institutional personnel on official and unofficial visits, telephone call charges, postage and such. Include value of use of institution’s own vehicles or airplanes as well as in-kind value of loaned or contributed transportation.</td>
</tr>
<tr>
<td>7. Team Travel.</td>
<td>Include air and ground travel, lodging, meals and incidentals for competition related to preseason, regular season and postseason. Amounts incurred for food and lodging for housing the team before a home game also should be included. Include value of use of the institution’s own vehicles or airplanes as well as in-kind value of donor-provided transportation.</td>
</tr>
<tr>
<td>8. Equipment, Uniforms and Supplies.</td>
<td>Include items that are provided to the teams only. Equipment amounts are those expended from current or operating funds.</td>
</tr>
<tr>
<td>9. Games Expenses.</td>
<td>Include game-day expenses other than travel that is necessary for intercollegiate athletics competition, including officials, security, event staff, ambulance and such.</td>
</tr>

<td>12. Medical Expenses and Medical Insurance.</td>
<td>Include medical expenses and medical insurance premiums for student-athletes.</td>
</tr>
<tr>
<td>13. Memberships and Dues.</td>
<td>Include memberships, conference and association dues.</td>
</tr>
</tbody>
</table>
A. Objectives Related to the Self-Study.

1. Goals.

   a. Institution's goals for the process are clearly stated.

      Beginning with the orientation meeting in August, President Cruzado will emphasize the following three responsibilities for the Steering Committee and each of the three Subcommittees:

      • Conduct a comprehensive review of MSU’s intercollegiate athletics program
      • Assess the extent to which MSU meets the certification standards in the NCAA third cycle self-study instrument.
      • Develop plans for improvement for areas that are identified as concerns or weaknesses.

      Steering Committee Chair Jim Rimpau and NCAA Athletics Certification Liaison Camie Bechtold will attend the first meeting of each committee and articulate the committee responsibilities and answer any questions from committee members about their responsibilities.

   b. Institution’s goals are consistent with overall goals of certification.

      Our goals are consistent with the overall goals of certification which are to ensure integrity in our athletics operations; to open up our Athletics operations to the rest of the university community and to the public; and to increase campus wide awareness and knowledge of our athletics program. It will be an opportunity to confirm our strengths and to improve any areas of concern.

2. Cycle 2 institutional plans for improvement.

   a. Institution has included all “conditions for certification” imposed by the committee in its Cycle 2 certification decision relating to currently legislated operating principles.

      (Note: This information can be found in the Cycle 2 Summary of Actions document. If an institution was certified without condition(s), this item is not applicable.)

      Montana State University was certified without conditions in Cycle 2.
b. Institution has included all plans for improvement developed by the institution during its Cycle 2 self-study process including all appropriate supplemental materials relating to currently legislated operating principles.

(Note: All institutions must include Cycle 2 gender and diversity plans for improvement for this item. Some institutions may have also developed plans in other areas and must also include these plans for improvement in the written plan. Cycle 2 plans for improvement can be found in the ACS – Cycle 2 Plan Report. The institution should verify the accuracy and completeness of the plans in the Cycle 2 Plan Report on ACS with information/plans on campus.

See Attachment A.

B. Major Components of the Self-Study.

a. The chair is appointed by the chancellor or president.

In March of 2010, President Waded Cruzado appointed Dr. James Rimpau as Steering Committee Chair for MSU’s third cycle Certification.

b. The chair is NOT the chancellor or president, nor any person with direct oversight of athletics (e.g., director of athletics, vice president to whom athletics reports, faculty athletics representative).

Dr. Rimpau is the Vice President of Planning and the Chief Information Officer at Montana State University. Dr. Rimpau has no administrative connection to MSU’s Department of Athletics.

c. The chair is considered by the institution to be a member of its senior-management team.

Dr. Rimpau is the Vice President of Planning and the Chief Information Officer at Montana State University. He reports directly to the President and is a member of President Cruzado’s Executive team.

2. Appointment of steering committee and subcommittees (Handbook pages 11-12).

a. The names and titles of all steering committee and subcommittee members are listed.
Steering Committee membership

Dr. Waded Cruzado, President
Dr. James Rimpau, (Chair) Vice President for Planning and Chief Information Officer
Dean Susan Agre-Kippenhan, College of Art and Architecture
Ms. Meghan Albiston, volleyball student-athlete
Ms. Camie Bechtold, Associate Athletics Director for Student and Compliance Services, SWA, and Certification liaison
Mrs. Tricia Binford, Head Women’s Basketball Coach
Mr. Todd Buchanan, member of the MUS Board of Regents, co-owner and financial advisor with Buchanan Capital LLC, Alumnus, former student-athlete
Ms. Cathy Conover, Vice President for Communications
Mr. Dan Davies, Senior Associate Athletics Director
Mr. Todd Eliason, Past chair of the Alumni Association and Bozeman community member
Dr. Christina Fastnow, Associate Director, Planning and Analysis
Mr. Peter Fields, Director of Athletics
Mr. Eric Fisher, ASMSU President and former student-athlete
Dr. Paula Lutz, Dean, College of Letters and Science
Dr. Tom McCoy, Vice President for Research, Technology Transfer and Creativity
Ms. Jaynee Nadolski, Assistant Commissioner for Compliance/SWA Big Sky Conference (ex-officio)
Dr. Bob Oakberg, Professor of Civil Engineering and Faculty Athletics Rep
Mr. Tom Stump, Director of Auxiliary Services
Dr. Allen Yarnell, Vice President for Student Success

b. The following required individuals have been included on the steering committee:

Yes_ (1) Chancellor or president;
Yes_ (2) Faculty Athletics representative;
Yes_ (3) Director of athletics;
Yes_ (4) Senior woman administrator;
Yes_ (5) Student-athlete representative(s); and
Yes_ (6) Athletics certification liaison.
Yes_ (7) Report coordinator
No _ (8) Campus Contact (Campus Contact will attend all Steering Committee meetings.
c. The steering committee and subcommittees have the appropriate composition as listed below:

**Governance and Commitment to Rules Compliance Subcommittee**

Dr. Thomas McCoy, (Chair), Vice President for Research, Technology Transfer and Creativity  
Mr. Daniel Adams, Director, Internal Audit  
Mr. Cody Anderson, Student-Athlete, MBB  
Ms. Bonnie Ashley, Associate Registrar  
Ms. Kathy Attebury, University Budget Director  
Dr. Larry Baker, Dean, Education, Health, and Human Development  
Ms. Camie Bechtold, Associate Athletics Director for Student and Compliance Services, SWA, and Certification liaison  
Mr. Dan Davies, Senior Associate Director of Athletics  
Mr. Tom Jewell, Financial Aid Officer  
Mr. Terry Leist, Budget & Fiscal Director  
Ms. Diane Letendre, Interim Director, Office of Human Resources and Affirmative Action  
Ms. Pam Merrell, Asst Legal Counsel  
Dr. Bob Oakberg, Assoc Professor, Civil Engineering and Faculty Athletic Rep  
Dr. Glenn Puffer, Associate Dean, Student Affairs  
Ms. Amy Starr, Assistant Coach, WBB  
Mr. Michael Stevenson, Asst VP for Development, Foundation  

**Academic Integrity Subcommittee**

Dean Susan Agre-Kippenhan, (Chair), College of Arts and Architecture  
Dr. Jeff Adams, Asst Vice Provost  
Mr. Mike Carrigan, Assistant Coach, Track and Field  
Dr. David Cherry, Director, Liberal Studies and American Studies Program  
Ms. Terra Cusack, Academic Advisor, College of Technology  
Ms. Diane Donnelly, Interim Director, University Studies  
Dr. Jayne Downey, Department Head, Education  
Ms. Jody Ogata, Admin Assoc II, Registrar's Office  
Ms. Jamie Rizzuto, Director of Athletic Academic Services  
Ms. Ronda Russell, Director, Admissions  
Ms. Lyndi Seidensticker, Student-Athlete, WBB  
Dr. Durward Sobek, Assoc Professor, Mechanical and Industrial Engineering, Chair University Athletics Committee
Student Athlete Well Being, Gender/Diversity Subcommittee

Dr. Christina Fastnow, (Chair) Assoc Director, Planning and Analysis
Ms. Denise Albright, Head Coach, Women's Tennis
Mr. Bobby Biskupiak, Student-Athlete, Track and Field
Mr. Jeff Bondy, Associate Director, Residence Life
Ms. Nancy Colton, Assistant Professor, Health and Human Development
Mr. Dan Davies, Senior Associate Director of Athletics
Dr. Pat Donahoe, Director, Counseling and Psychological Services
Ms. Jen Dunn, Asst Director, Programs, Admissions
Ms. Nancy Filbin, Program Coordinator, Disability, Re-Entry, & Veteran Services
Ms. Christina Fournier, Director of Athletic Business Operations, Athletics
Ms. Jen Haubenreiser, Health Promo Program Director, Student Health Services
Mr. Rob Higgs, Head Athletic Trainer, Athletics
Ms. Diane Letendre, Interim Director, Office of Human Resources and Affirmative Action
Mr. Bob Lashaway, Assoc VP University Services
Ms. Erin Macdonald-Peck, Asst Dean, Student Affairs
Mr. Jason McEndoo, Assistant Coach, Football
Dr. Scott Myers, Associate Professor, Sociology and Anthropology
Dr. Mike Redburn, Assistant Professor, Education
Mr. Tanner Ripley, Student-Athlete, Football
Ms. Heidi Sherick, Asst Dean, College of Engineering
Ms. Leslie Spalding, Head Coach, Women's Golf
Ms. Lena Suek, Student-Athlete, Track and Field
Mr. John Taylor, Asst Student Athlete Services, Athletics

(1) The number is adequate to perform duties and responsibilities;

   Our Steering Committee and three Subcommittees are sized and configured appropriately for the work that needs to be completed.

(2) The composition ensures broad-based participation;

   Our committees are comprised of individuals from a wide array of campus offices and departments. Over 35 different campus units are represented on our four committees.

(3) The composition is balanced between staff members inside and outside athletics;
Each committee has some representation from Athletics but in each case the majority of committee members are from outside of Athletics.

(4) Composition ensures access to information necessary to conduct the self-study;

Each committee has some representation from Athletics to help provide access to information from within Athletics. Each committee also has access to the full research capability and expertise in the Office of Planning and Analysis. The chair of the steering committee and the chair of one of the subcommittees both work in the Office of Planning and Analysis.

(5) Steering committee and subcommittee members have the time to devote to the self-study;

All committee members are volunteers and were asked if they were able to commit the necessary time to participate. All agreed to do so.

(6) Subcommittee chairs are not athletics department staff members;

All three subcommittee Chairs (Dr. McCoy, Dean Agre-Kippenhan, and Dr. Fastnow) have no direct affiliation with Athletics. Dr. McCoy is the Vice President for Research and Creative Activity. Dean Agre-Kippenhan is the Dean of the College of Art and Architecture. Dr. Fastnow is the Associate Director of the Office of Planning and Analysis.

(7) Subcommittee chairs are members of the steering committee.

All three subcommittee Chairs (Dr. McCoy, Dean Agre-Kippenhan, and Dr. Fastnow) are members of the Steering Committee.

(8) Subcommittee chairs are not athletics department staff members or FAR.

All three subcommittee Chairs (Dr. McCoy, Dean Agre-Kippenhan, and Dr. Fastnow) have no direct affiliation with Athletics. None of them are the FAR. Dr. McCoy is the Vice President for Research and Creative Activity. Dean Agre-Kippenhan is the Dean of the College of Art and Architecture. Dr. Fastnow is the Associate Director of the Office of Planning and Analysis.

   a. Steering committee’s and subcommittees’ general responsibilities are clearly stated.

   President Cruzado, who is herself a member of the steering committee has stated that the steering committee will have the authority to speak and act on behalf of MSU with regard to the self study process.

   In her appointment letter to committee members, President Cruzado listed the following three benefits that MSU expects to realize from this process. Those are:

   • **Self-awareness.** The self-study offers a unique opportunity to educate individuals across campus about the athletics program’s goals and purposes, the many challenges facing athletics and the ways in which athletics support the institution’s mission.

   • **Affirmation.** Athletics certification is meant to be a positive experience and the self-study process will reveal many aspects of the athletics program worthy of praise.

   • **Opportunities to Improve.** Even an outstanding program can be better, and issues will be identified routinely as part of any institution’s self-study. As these issues come to light, the self-study process will offer a forum for suggestions from individuals with a wide range of experience.

   Each committee member will be provided a full set of NCAA documents that itemize committee responsibilities. Additionally, Steering Committee Chair Jim Rimpau and Athletics Certification Liaison Camie Bechtold will attend the first meeting of each committee and articulate the committee responsibilities and answer any questions from committee members about those responsibilities.

   b. Methods identified for collecting and organizing data.

   Each committee is chaired by someone with extensive research experience including the collection, organization, and presentation of data. Each committee will also receive any needed help from MSU’s Office of Planning and Analysis.
c. Methods identified for coordinating and activities of the subcommittees and monitoring progress of the self-study, including:

Opportunities for input from appropriate campus groups, including student-athletes.

The Chair of the Steering Committee will be available to meet with any campus or community group upon request. The Steering Committee chair will also make informational presentations to MSU governance groups (Faculty Senate, Student Government, etc). Draft reports will be made available to the campus and community and responses and comments will be encouraged.

Appropriate involvement of all members of the steering committee and subcommittees.

Each committee is chaired by someone with extensive committee experience and it will be the Chair’s responsibility to ensure that each committee member has ample opportunity to participate. All draft reports and any other relevant information and data will be shared completely within each subcommittee and then with the steering committee.

d. Process identified for reviewing previous self-study documents.

All previous self-study documents will be shared with members of the steering committee and each subcommittee. A representative from Athletics will be available to discuss the documents with committee members at the first meeting following the initial video meeting.

e. Process identified for review of drafts and final self-study report.

Throughout the process, each draft will be shared with all members of the responsible subcommittee. Final drafts of each report will be shared with all members of the steering committee. The Chair of the Steering committee will act as the final editor for all reports. The Steering Committee membership includes the Vice President for Communications and Public Affairs and she has volunteered her offices to help with final review and editing of reports. We will maintain an Athletics Certification website where drafts and final reports will be posted for public review.
f. Process identified for communicating regularly through meetings and reports.

The President’s Office is providing staff to take minutes/notes at all committee meetings. Those notes and minutes along with agendas and any relevant background material will be posted on the MSU Athletics Certification web site.

g. Process identified for maintaining a written record of:

(1) Dates of steering committee and subcommittee meetings and individuals in attendance;

The President’s Office is providing staff assistance to take and maintain accurate minutes (including attendance records) for each committee meeting.

(2) Individual(s) responsible for writing subcommittees’ reports; and

Subcommittee chairs will be responsible for assuring that the subcommittee reports are written.

(3) Invitations extended to members of subcommittees and steering committee to comment on draft reports, including dates on which invitations were extended.

The President’s Office is providing staff assistance to take and maintain accurate minutes (including attendance records) for each committee meeting. All committee members will be invited to comment on these minutes. The minutes will reflect the discussion of draft reports.

4. Campus contact (Handbook page 12).

a. Name and title of campus contact is listed.

The MSU Campus Contact will be Ms. Jennifer Joyce, Assistant to the VP for Planning and CIO.
b. Campus contact’s general responsibilities are clearly stated.

The Campus Contact is responsible for coordinating preparations for the evaluation visit, including lodging and travel for peer-review team members and NCAA staff, scheduling interviews and organizing any work-related needs for peer reviewers (e.g., computer resources, meeting rooms, documents to be reviewed). The Campus Contact will also be provided the *NCAA Division I Athletics Certification Program: Role of the Campus Contact* document which is a complete checklist of duties and responsibilities.

5. Conference assistance/use of outside individuals or agencies (Handbook pages 12-13).

a. Role of conference office (if any) is defined.

Jaynee Nadolski, Assistant Commissioner for Compliance/SWA, will serve as an ex-officio member of the Steering Committee. She will receive all documents and reports produced during the self study. Additionally, the Big Sky Conference will receive a copy of the final self study report.

b. Roles and responsibilities of any outside consultant(s) are defined.

We do not intend to use any outside consultants.

c. Any outside consultant(s) have been approved by the NCAA Division I Committee on Athletics Certification.

We do not intend to use any outside consultants.

6. Outline and schedule (Handbook pages 8-9).

a. The timetable is complete.

The timetable is complete and key dates and deadlines are established.

Tentative Certification Timeline

b. Dates/deadlines and processes have been established for:

(1) Dates of steering/subcommittee meetings;

The initial Orientation videoconference will occur on August 26, 2010. Exact dates of subsequent meetings for each committee will be established at that time.
(2) Data gathering;

Data collection will be completed in September and October 2010.

(3) Responding to self-study items;

Sub Committees draft responses from October thru December 2010.

(4) Opportunities for campus groups to review reports;

Campus and community review of the draft documents will be in February and March 2011.

(5) Evaluating responses against operating principles;

Review of the draft documents by the Steering committee (and others) will occur between December 2010 and March 2011.

(6) Developing institution's plans for improvement;

This occurs throughout the process but is finalized during April 2011.

(7) Steering committee’s/subcommittees’ review of report drafts;

This occurs throughout the process but concludes in April 2011.

(8) Preparing final report;

Preparation of the final report will occur during March and April 2011. Final document will be submitted to the NCAA no later than April 29th, 2011.

(9) Reviewing final ACS report;

This will occur in April 2011.

(10) Submitting final ACS report to NCAA;

This will occur no later than April 29th, 2011.

(11) Responding to committee-identified issues;

This will occur in August of 2011 and continue until two weeks prior to the peer-review team visit.
(12) Conducting peer-review team visit;

The on-site evaluation visit will be conducted between September 12th and November 18th, 2011. Exact date is still being discussed with the NCAA and President Cruzado.

(13) Responding to peer-review team’s report;

This will occur in November and December of 2011.

(14) Communicating work of the steering committee to institutional community, electronic and print media;

This will be an ongoing process beginning around the time of the Fall 2010 orientation videoconference and continuing until the final committee review in February 2012.

7. Self-study report.

a. The name title and responsibilities of the report coordinator is listed (Handbook page 12).

The report coordinator is Dr. James B. Rimpau. Dr. Rimpau is the Vice President for Planning and Chief Information Officer.

b. Work-related needs (e.g., computer needs, internet access, secretarial assistance, reproducing copies) have been identified for collecting data and producing report drafts.

Each committee chair has access to these kinds of resources in their own offices and the President’s Office has offered to add support when needed.

c. Process identified for requesting institutional (e.g., president/chancellor) approval for all plans for improvement.

The Chair of the Steering Committee, works in the President’s Office and will provide President Cruzado updates about committee progress and any plan for improvement at his weekly meeting with her.
d. Specific plans or strategies have been outlined for communicating work of steering committee to:

(1) Institutional community;

(2) Electronic and print media; and

(3) The general public.

Our Vice President for Communications and Public Affairs (Cathy Conover) is a member of our Steering Committee. Ms. Conover’s offices will design a communication plan for the entire Certification process. That plan will include messages and media appropriate for both the campus community and the general public.
## 1.2 Institutional Control, Presidential Authority and Shared Responsibilities

**Plan Date:** Sep 28, 2007

While the Athletics Committee has existed for a number of years as a body of faculty, students, and members of the Department of Intercollegiate Athletics with a published constitution, for the past two to three years, it has functioned without real purpose or direction. As such, during this time, there has been no substantive interaction between the Committee and the Department of Intercollegiate Athletics, President, VP for student Affairs, or the Faculty Council.
## 1.3 Rules Compliance

**Plan Date:** Sep 28, 2007

### 4.1 Gender Issues

**Plan Date:** Sep 28, 2007

<table>
<thead>
<tr>
<th>Elements</th>
<th>Goals</th>
<th>Steps to Achieve Goals</th>
<th>Individuals/Officers Responsible for Implementation</th>
<th>Specific Timetable for Completing the Work</th>
</tr>
</thead>
<tbody>
<tr>
<td>Issues in the Self-Study</td>
<td>Measurable Goals</td>
<td>The proportion of athletic participation opportunities for men and women shall be maintained to correspond to the proportionality limits for Title IX</td>
<td>AD, SWA, Coaches, Human Resources/Affirmative Action Director</td>
<td>Ongoing</td>
</tr>
</tbody>
</table>

As of FY 2001, the percentage of male undergraduates was 54.4%, their proportion of the student-athlete population was 55.2%. The percentage of women undergraduates was 45.6%. Women were 44.8% of the student-athletes. The difference is 0.8%, making the University in compliance with the proportionality test of Title IX. Over the past five years, the difference has averaged about 1.8%.

| | | This goal has been achieved, it must now be maintained. The EWS subcommittee recognizes that normal variations from strict proportionality will occur due to changes in composition of the student body and unanticipated changes in athletic participation. | AD, SWA, Coaches, Human Resources/Affirmative Action Director | Ongoing |

Women's participation in intercollegiate athletics should vary within 1.8% of the female undergraduate enrollment.

If men's skiing is added to the current sports offerings to remedy the equity concern regarding competitive opportunities for the women's ski team, the number and percentage of male athletes will increase relative to women. The committee is willing to accommodate a small increase in the number of male student-athletes relative to FY 2001 in order to improve the quality of women's participation in skiing (based on FY 2001 figures, adding 10 male skiers would change the percentage of male athletes from 55.2% to 56.4%. Increase the difference from 0.8% to 1.2% still within the five year average).

| | | If men's skiing is added to the current sports offerings, the Department must match any addition of a male athlete in the men's ski program with the addition of a female athlete in a women's ski program beyond the minimum number of male athletes. | AD, SWA, Coaches | Ongoing |

If men's skiing is added to the current sports offerings, the Department must match any addition of a male athlete in the men's ski program with the addition of a female athlete in a women's ski program beyond the minimum number of male athletes.
<table>
<thead>
<tr>
<th>Elements</th>
<th>Goals</th>
<th>Steps</th>
<th>Individuals/Officers Responsible for Implementation</th>
<th>Specific Timetable for Completing the Work</th>
</tr>
</thead>
<tbody>
<tr>
<td>Issues in the Self-Study</td>
<td>Remedy the concern regarding the competitiveness of women's ski team. Solutions include:</td>
<td>Analyze the possible solutions to the equity concern regarding the women's ski team.</td>
<td>DIA, Athletic Scholarship Association (ASA)</td>
<td>Spring 2003 analysis of alternative solutions and projected net costs submitted to the President and UPBAC. If adding men's skiing is recommended, coaching staff will be hired in FY 2004-05. Competition no later than AY 2005-06.</td>
</tr>
<tr>
<td></td>
<td>(1) adding men's alpine and Nordic skiing to the current sports offerings</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>(2) changing NCAA regulations regarding the rules for national championship competition in skiing</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>(3) Other appropriate remedy that will address the disparity in the team competition opportunities for women's skiing.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>DIA, ASA</td>
<td>Spring 2003</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Women alpine and Nordic skiers are not competitive for national championships because scores of men and women are added together to determine rankings. MSU does not have an NCAA men's ski team. Student-athletes in all other sports have the potential for winning national championships.
<table>
<thead>
<tr>
<th>Elements</th>
<th>Goals</th>
<th>Steps to Achieve Goals</th>
<th>Individuals/ Officers Responsible for Implementation</th>
<th>Specific Timetable for Completing the Work</th>
</tr>
</thead>
<tbody>
<tr>
<td>Issues in the Self-Study</td>
<td>The University shall continue to fund athletic grants-in-aid (scholarships) for female athletes as close as possible to the maximums allowed per sport by the NCAA.</td>
<td>If men's alpine and Nordic skiing is added, fund up to six (6) full grants-in-aid by FY 2007. After this level of support has been reached, match any additional grants-in-aid awarded to student-athletes in the men's ski program by the additional grants-in-aid for athletes in the women's ski program as allowed by NCAA regulations.</td>
<td>AD, President, ASA</td>
<td>Ongoing, after FY 2007</td>
</tr>
<tr>
<td></td>
<td>Public awareness of and support for women's sports at the University will increase.</td>
<td>Develop a plan for increased donor contacts, publicity, and funding.</td>
<td>ASA, DIA Staff, University Relations</td>
<td>2003-2007, priority list developed by November 2002</td>
</tr>
</tbody>
</table>

- Although progress has been made since 1995, there is still a great deal of work to be done to increase public awareness of and support for women's sports.
- Lack of written policies has made the self-study process more difficult and time-consuming than necessary because written policies had not been developed nor data properly maintained.
- Cuts in the administration of the DIA and vacancies in central administrative positions have meant that no one in DIA has been responsible for data collection, maintenance, and analysis.
- Although the DIA is in compliance with the proportionality requirements of Title IX and in general conformity with NCAA operating principles, including the EADA reporting requirement, there does not seem to be any written policies affirming the department's commitment to non-discrimination in all DIA activities.

NCAA Athletics Certification Orientation

Cycle 3, Class 3
OVERVIEW

• Origin, Purpose and Benefits.

• Athletics Certification Process.

• Participants in the Athletics Certification Process

• Operating Principles.

• Measurable Standards.
OVERVIEW

• Cycle 3 Standards.
• Institutional Plans.
• Certification Decisions
• Technology.
• Available Resources.
• Questions.
Origins, Purpose and Benefits

Cycle 3, Class 3
ORIGIN OF ATHLETICS CERTIFICATION

• Approved at the 1993 Convention after a two-year pilot program.

• Cycle 2 began in 1999 as a ten-year cycle.

  ➢ Originally was a five-year cycle.

• Cycle 3 began fall 2008.
PURPOSE

• Open up affairs of athletics to university community and public.

• Set standards, called operating principles, for operation of all NCAA Division I athletics programs.

• Establish tough sanctions for failure to conduct a comprehensive self-study or correct problems.
BENEFITS

• Self-awareness.

• Affirmation.

• Opportunities to improve.
Athletics Certification Process

Cycle 3, Class 3
**ATHLETICS CERTIFICATION PROCESS**

**Step No. 1**
Institution begins self-study process with orientation videoconference.
August 16, 2010 – October 29, 2010

**Step No. 2**
Institution develops self-study report.  
August 16, 2010 – April 29, 2011

**Step No. 3**

**Step No. 4**
NCAA staff liaison reviews report for preliminary issues.
April 29, 2011 – May 31, 2011

**Step No. 5**
Full committee reviews self-study report and approves issues.  
June 1, 2011 – August 15, 2011

**Step No. 6**
Institution responds to issues identified in CAC analysis in ACS.
August 11 – Until two weeks prior to the evaluation visit
Step No. 7
Peer-review team conducts evaluation visit and writes report.
September 15, 2011 – November 18, 2011

Step No. 8
PRT report sent to institution for response
Within two weeks of campus visit

Step No. 9
Institution's response to PRT report due.
December 16, 2011

Step No. 10
Committee deliberates and issues a final decision for all institutions.
February 2012

Step No. 11
Certification decision announced publicly.
April 2012
Participants in the Athletics Certification Process

Cycle 3, Class 3
PARTICIPANTS

- Committee on Athletics Certification.
COMMITTEE ON ATHLETICS CERTIFICATION

• 18 members:
  ➢ College chancellors or presidents.
  ➢ Athletics administrators.
  ➢ Faculty athletics representatives.
  ➢ Conference administrators.
COMMITTEE PHILOSOPHY

Assist institutions in identifying mechanisms which ensure intercollegiate athletics programs are operating in accordance with the high standards and core values of Division I.
PARTICIPANTS

• Committee on Athletics Certification.
• Peer-Review Team.
PEER-REVIEW TEAM

• Typical team:
  ➢ Generally three to five members.
  ➢ Chaired by a chancellor or president whenever possible.
  ➢ Random selection approved by committee.
  ➢ Will not include peer reviewers with potential conflicts of interest.
PEER-REVIEW TEAM

• Responsible for:

➢ Verifying accuracy of the self-study.

➢ Confirming broad-based participation.

➢ Evaluating conformity with the operating principles.
PARTICIPANTS

• Committee on Athletics Certification.
• Peer-Review Team.
• Athletics Certification Liaison.
ATHLETICS CERTIFICATION LIAISON

• Has been previously designated by the chancellor or president.

• Responsible for monitoring progress on plans for improvement developed during the Cycle 2 certification process.

• May be an individual inside or outside athletics.
ATHLETICS CERTIFICATION LIAISON

- The Cycle 3 athletics certification liaison will be designated after the evaluation visit prior to certification decision.
- Designated via the NCAA Online Directory.
PARTICIPANTS

- Committee on Athletics Certification.
- Peer-Review Team.
- Athletics Certification Liaison.
- Steering Committee.
- Self-Study Subcommittees.
- Campus Contact.
- Report Coordinator.
- NCAA Staff Liaison.
Operating Principles

Cycle 3, Class 3
GOVERNANCE AND COMMITMENT TO RULES COMPLIANCE

• NCAA Operating Principle 1.1 - Institutional control, presidential authority and shared responsibilities.
  - The institution must be responsible for the conduct of its athletics program, including the actions of its staff members and representatives of its athletics interests.

• Operating Principle 1.2 - Rules compliance.
  - Staff, student-athletes, other individuals and groups representing the institution's athletics interests must comply with NCAA rules and regulations.
• Operating Principle 2.1 – Academic standards.
  ▶ Athletics programs must be designed and maintained as a vital component of the institution's educational system and student-athletes are treated consistently with the student body.

• Operating Principle 2.2 – Academic support.
  ▶ Athletics programs must be conducted in a manner designed to protect and enhance the educational experience of student-athletes and emphasize educational objectives.
GENDER/ DIVERSITY ISSUES AND
STUDENT-ATHLETE WELL-BEING

• Operating Principle 3.1 – Gender issues.
  ➢ Institutions must conduct and promote athletics programs that are free from gender bias.

• Operating Principle 3.2 – Diversity issues.
  ➢ Institutions must promote respect for and sensitivity to the dignity of every person and to refrain from discrimination.

• Operating Principle 3.3 – Student-athlete well-being.
  ➢ Athletics program must be designed to protect and enhance the physical and educational well-being of student-athletes.
Measurable Standards

Cycle 3, Class 3
MEASURABLE STANDARDS

• Clarifies expectations for each operating principle.

• Brings more consistency to the process.

• Used by institutions, NCAA staff, peer-review teams and the NCAA Division I Committee on Athletics Certification.
Cycle 3 Standards

Cycle 3, Class 3
CYCLE 3 STANDARDS

• Increased accountability.
  ➢ Cycle 2 plans for improvement.
  ➢ Gender-equity and minority-issues plans.

• Increased the number of program areas in gender issues, diversity issues and student-athlete well-being areas.

• Measurable standards.
CYCLE 3 STANDARDS

• Highlights of changes made to the measurable standards:

  ➢ Fiscal responsibility.
  ➢ Written athletics governance policies.
  ➢ Analysis of NCAA Division I Academic Progress Rate (APR), Graduation Success Rate and retention data.
  ➢ Implementation of APR Improvement Plans.
CYCLE 3 STANDARDS

• Highlights of changes made to the measurable standards:
  ➢ Required annual review of diversity and gender plans.
  ➢ Diversity issues (previously minority issues).
  ➢ Increased emphasis on evaluation of student-athlete well-being.

• Technology initiatives.
Institutional Plans

Cycle 3, Class 3
PLANS FOR IMPROVEMENT

Institutional plans must include the following requirements:

- Issues/problems.
- Measurable goals.
- Steps to achieve the goals.
- Individuals/offices responsible for carrying out the specific actions.
- Specific timetable(s).
PLANS FOR IMPROVEMENT

Further, institutional plans for improvement must meet the following requirements:

• Stand alone and in writing.
• Broad-based campus participation.
• Institutional approval.
Certification Decisions

Cycle 3, Class 3
THE CERTIFICATION DECISION

• Materials reviewed during deliberations:
  - Self-study report.
  - Initial issues identified by the committee.
  - Institution's response to Committee's analysis.
  - Peer-review team's report.
  - Institution's response to peer-review team's report.
  - Other material and information deemed relevant by the committee.
CERTIFICATION DECISIONS

• Certified.

• Certified with conditions.

• Not certified.
POSTPONEMENT OF EVALUATION VISIT OR RESUBMISSION OF SELF-STUDY REPORT

- Report has numerous and complex issues.
- Report lacks implementation of Cycle 2 gender-issues and minority-issues plans.
- No Cycle 3 gender-equity or diversity-issues plans or plans require major revisions.
- Incomplete program area analysis for OP 3.1 or 3.2.
- Incomplete report in ACS.
- Nonsubmission of required documents.
Technology

Cycle 3, Class 3
TECHNOLOGY

• Athletics certification web-based system.

➢ Benefits:
  o Increases efficiency.
  o Reduces costs.
  o Adds greater consistency.
  o Upload limited supplements.

• ID and password protected.
Available Resources

Cycle 3, Class 3
AVAILABLE RESOURCES

• NCAA staff liaison.

• [www.ncaa.org](http://www.ncaa.org) > Legislation & Governance > Rules Compliance > Athletics Certification Program (Division I).

• Handbook (PDF).
• Self-study instrument (PDF).
• Orientation materials.
• Self-study checklist.
• ACS training videos.
• Other guides.
Questions?
NCAA Athletics Certification Orientation

Cycle 3, Class 3
Accuracy and Broad Based Participation Guidelines
(This information will be reviewed by the peer-review team on the evaluation visit.)

Accuracy.

☐ For each self-study response, has the written information provided in the self-study report and subsequent documents (e.g., institution’s response to the committee’s analysis) been corroborated with individuals interviewed and data reviewed on-campus? If not, please explain using specific examples.

☐ Are the institution’s conclusions based on data or records that are available and reliable?

☐ Are the conclusions reasonable in light of the available data?

Broad-Based Participation in the Self-Study Process.

☐ Were appropriate campus constituencies represented on the steering committee and subcommittees?

☐ Were appropriate campus constituencies involved in the collection and analysis of data used in drawing conclusions and responses to self-study items?

☐ Were appropriate campus constituencies afforded sufficient opportunities to respond to the steering committee’s initial observations?

☐ Were appropriate campus constituencies made aware of and provided access to the self-study report?

☐ Were all members of the subcommittees involved in preparing and evaluating the subcommittee reports?

☐ Were all members of the steering committee involved in evaluation the subcommittee reports and in preparing and evaluating reports of the steering committee?

☐ Has the institution demonstrated broad based participation in the development of all institutional plans for improvement and if necessary, any revisions made to the original plans for improvement?

Introduction to Self-Study Report

Institutional Information

(Name of Institution)

1. ☐ Type of institution: ☐ Public ☐ Private

2. ☐ Year institution was founded:

3. ☐ Special affiliation (e.g., religious, military)? ☐ Yes ☐ No

4. ☐ Coeducational? ☐ Yes ☐ No

5. ☐ Total student enrollment (undergraduate and graduate combined) [using a full-time equivalency basis]:

6. ☐ Number of faculty [using a full-time equivalency basis]:

7. ☐ Highest level of academic degree offered:

8. ☐ Institution’s governing entity (e.g., board of trustees):
   a. ☐ Regional accreditation agency:
   b. ☐ Date of most recent regional accreditation self-study:
   c. ☐ Current accreditation status:

Athletics Information

1. ☐ Subdivision status of athletics program: ☐ FBS ☐ FCS ☐ Division I (without football)

2. ☐ Conference affiliation(s) or independent status:

3. ☐ Athletics program structure (check all that apply):
   - ☐ One combined department of athletics.
   - ☐ Separate men’s and women’s departments.
   - ☐ Incorporated unit separate from institution.
   - ☐ Department within a physical education division.

4. ☐ Date of NCAA major infractions case(s) (if any) since the institution’s previous athletics certification self-study and impact (if any) on the areas of the certification program. If this is the institution’s first time to complete a self-study, respond to the question based on the last 10 years:

5. ☐ Other significant events (with dates) in the history of intercollegiate athletics program
since the institution’s previous athletics certification self-study. If this is the institution’s first time to complete a self-study, respond to the question based on the last 10 years:

**Previous Certification Self-Study**

1. ☐ Date of Cycle 2 orientation visit and evaluation visit (if applicable):
2. ☐ Cycle 2 certification-status decision and date rendered by the NCAA Division I Committee on Athletics Certification (if applicable):
3. ☐ Subsequent actions or changes and date(s) in certification status (if any) made by the committee (if applicable):
4. ☐ Changes in key senior-level positions, institutional or athletics program, if any, since the institution’s previous athletics certification self-study. If this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years:
5. ☐ Significant changes impacting the institution and/or athletics program, if any (e.g., conference affiliation, sports sponsored, changes in admissions standards, significant changes in graduation rates, changes in mission statement of the athletics program, changes in fiscal stability/condition of the athletics program), since the institution’s previous athletics certification self-study. If this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years:

**Athletics Certification Self-Study Information**

1. ☐ Steering committee chair (name and title).
2. ☐ Report coordinator (name and title).
3. ☐ Campus contact (name and title).
4. ☐ Athletics certification liaison [ACL] (name and title).
5. ☐ Describe the extent of broad-based participation of campus constituencies in the self-study. Specifically, report on the opportunities that were provided to various individuals or groups in the broad-campus community to: (a) offer input into the self-study report before findings and plans for improvement were formulated; and (b) review the self-study report after it was drafted.
6. ☐ Provide a copy of the institution’s written plan for conducting the self-study. [Please use the file upload link contained within this question on the athletics certification system (ACS) database to submit a copy of the institution’s written plan.]
7. ☐ Please provide the institution’s mission, philosophy and goals statement and the athletics program’s mission, philosophy and goals statement. Also, indicate the dates of formal approval for the most recent versions.
Governance and Commitment to Rules Compliance

Operating Principle 1.1
Institutional Control, Presidential Authority and Shared Responsibilities

The Association’s principle of institutional control vests in the institution the responsibility for the conduct of its athletics program, including the actions of its staff members and representatives of its athletics interests. In fulfilling this principle, the institution shall demonstrate that:

a. The institution’s governing board provides oversight and broad policy formulation for intercollegiate athletics in a manner consistent with other units of the institution.
b. The chancellor or president is assigned ultimate responsibility and authority for the operation, fiscal integrity and personnel of the athletics program.
c. Appropriate campus constituencies have the opportunity, under the purview of the chancellor or president, to provide input into the formulation of policies relating to the conduct of the athletics program and to review periodically the implementation of such policies.

Self-Study Items for Operating Principle 1.1

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to NCAA Operating Principle 1.1 (Institutional Control, Presidential Authority and Shared Responsibilities). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process for Operating Principle 1.1 (Institutional Control, Presidential Authority and Shared Responsibilities). For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.
Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.

Measureable Standard No. 1
If the institution developed a plan for improvement for Operating Principle 1.1 during Cycle 2, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:

(1) The institution did not possess sufficient funds to implement the plan.
(2) The institution has had personnel changes since the original development of the plan.
(3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:

- The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.

3. □ Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 1.1 (Institutional Control, Presidential Authority and Shared Responsibilities). For each additional plan, provide:

a. □ The additional goal(s);
b. □ The step(s) taken by the institution to achieve the goal(s); and
c. □ The date(s) the step(s) was completed.

4. □ Describe how the institution’s chancellor or president maintains clear and direct oversight of the athletics program, including a description of reporting lines from the athletics director to the chancellor or president.

Measureable Standard No. 2
The chancellor or president must have and demonstrate clear and direct oversight of the athletics program.

5. □ Since the institution’s previous self-study, list the major decisions made related to intercollegiate athletics. For each decision, explain the role and involvement (if any) of the:

a. □ Chancellor or president;
b. □ Athletics board or committee;
c. □ Faculty senate (or other faculty governing body);
d. □ Student-athlete advisory committee;
e. □ Director of athletics;
f. □ Faculty athletics representative;
g. □ Senior woman administrator; and/or
h. □ Other individual(s) or campus constituencies.
Please note, if this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years.

6. □ Describe the institution’s written governance policies regarding the administration and oversight of the athletics program, including the specific role and responsibilities of the institution’s governing board. Describe how the written athletics governance policies and/or other written communication is provided to the governing board on an annual basis.

Measurable Standard No. 3
The institution must provide evidence that specific governance policies exist for its governing board regarding the administration and oversight of athletics, including the role and responsibilities of its governing board.

Measurable Standard No. 4.
The institution must provide evidence that written communication (e.g., annual report, governance policies) is provided annually to its governing board with respect to athletics. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

7. □ Since the institution’s previous self-study, list the decisions related to intercollegiate athletics in which the institution’s governing board or individual board members have been involved and describe the extent of the governing board’s involvement with those decisions.

Please note, if this is the institution’s first time to complete an athletics certification self-study, respond to the question based on the last 10 years.

Measurable Standard No. 5
The institution must demonstrate, through examples since the institution’s previous self-study, that its governing board’s oversight and policy formulation for athletics is consistent with its policies and stated responsibilities for other units of the institution (e.g., personnel, budget, facilities).

8. □ Describe how the institution’s governing board decisions regarding the athletics program are consistent with those of other on-campus units.

9. □ For each of the following individuals or groups:
   a. □ Explain the role and authority of the individual or group as it relates to intercollegiate athletics;
   b. □ Describe how the individual or group has the opportunity (if any) to provide meaningful input into the formulation of the department of athletics policies (e.g., review admissions data, review academic performance data, receive periodic reports from the department of athletics); and
c.  □ Describe how the individual or group has the opportunity (if any) to periodically review policy implementation related to athletics.

(1)  □ Athletics board or committee;
(2)  □ Faculty senate (or other faculty governing body);
(3)  □ Faculty athletics representative;
(4)  □ Student-athlete advisory committee; and/or
(5)  □ Other individual(s) or campus group(s)

Measurable Standard No. 6
The institution must identify involved individuals or groups external to the department of athletics (e.g., faculty senate, athletics advisory group, student-athlete advisory committee) and explain how they have opportunities to provide meaningful input into the formulation of policies and how they periodically review policy implementation related to the conduct of the athletics program.

10. □ Describe how the activities of the institution’s athletics booster groups, support groups and other representatives of the institution’s athletics interests are maintained under the clear control of the institution, including whether institutional personnel serve on booster club, support group or foundation boards.

11. □ Provide the composition of the athletics board or committee (including titles and positions).

12. □ Describe how the institution’s chancellor or president and his or her designee(s) maintain control with respect to each of the following areas of the athletics program:

a.  □ Budget, including all sources of funding;
b.  □ Accounting;
c.  □ Purchasing; and
d.  □ Debt management.

In addition, identify key individuals, other than the chancellor or president, with responsibilities in these areas.

Measurable Standard No. 7
Institutions must demonstrate institutional control of the athletics program with respect to budget, accounting, purchasing and debt management.

13. □ Describe how the institution’s chancellor or president and his or her designated authority review the budget of the athletics program to at least the same extent that they do for other on-campus programs and departments. In addition, identify the authority (e.g., president’s cabinet, finance committee) designated with this responsibility.

Measurable Standard No. 7
Institutions must demonstrate institutional control of the athletics program with respect to budget, accounting, purchasing and debt management.

14. □ Describe the process by which the institution’s chancellor or president or his or her designee(s) conduct an administrative review of the NCAA comparative data (i.e., dashboard
indicators) on an annual basis. In addition, specify the individual(s), other than the chancellor or president, involved in this administrative review.

Measurable Standard No. 8.
Institutions must demonstrate that an administrative review of NCAA comparative data (i.e., dashboard indicators) has occurred on an annual basis by the chancellor or president or his/her designees. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

15. □ If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 1.1, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
Governance and Commitment to Rules Compliance

Operating Principle 1.2 - Rules Compliance.

Membership in the Association places the responsibility on each institution to ensure that its staff, student-athletes, and other individuals and groups representing the institution’s athletics interests comply with the applicable Association rules and regulations. Consistent with this responsibility, the institution shall demonstrate that:

a. It has in place a set of written policies and procedures that are clearly communicated to athletics staff members and those individuals outside athletics who have rules compliance responsibilities. These written policies and procedures must assign specific responsibilities in the areas of rules compliance, including assignment of direct accountability for rules compliance to the individual the chancellor or president assigns overall responsibility for the athletics program.

b. In critical and sensitive areas, institutional compliance procedures provide for the regular participation of persons outside of the department of athletics. The responsibility for admission, certification of academic standing, evaluation of academic performance and administration of financial aid for student-athletes must be vested in the same agencies that have authority in these matters for students in general.

c. Rules compliance is the subject of a continuous, comprehensive educational effort to a wide range of constituencies.

d. A clear and unambiguous commitment to rules compliance is a central element in all personnel matters for individuals involved in the intercollegiate athletics program.

e. At least once every four years, its rules compliance program is the subject of evaluation by an authority outside the department of athletics. This rules compliance evaluation shall include the following areas:

(1) Governance and organization.
(2) Initial-eligibility certification.
(3) Continuing-eligibility certification.
(4) Transfer-eligibility certification.
(5) NCAA Division I Academic Performance Program (APP).
(6) Financial aid administration, including individual and team limits.
(7) Recruiting (e.g., contacts and evaluations, official and unofficial visits).
(8) Camps and clinics.
(9) Investigations and self-reporting of rules violation(s).
(10) Rules education.
(11) Extra benefits.
(12) Playing and practice seasons.
(13) Student-athlete employment.
(14) Amateurism.
(15) Commitment of personnel to rules compliance activities.
Self-Study Items for Operating Principle 1.2

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 1.2 (Rules Compliance). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process for Operating Principle 1.2 (Rules Compliance). For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

Measurable Standard No. 1

If the institution developed a plan for improvement for Operating Principle 1.2 during Cycle 2, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:
   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:

The institution has implemented a different plan(s) or a taken different action(s) to achieve or make progress toward the same goal outlined in its Cycle 2 plan.

Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.
3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 1.2 (Rules Compliance). For each additional plan, provide:
   a. The additional goal(s);
   b. The step(s) taken by the institution to achieve the goal(s); and
   c. The date(s) the step(s) was completed.

4. Describe how the institution ensures that rules compliance is a central element in personnel matters for individuals within the department of athletics. Specifically, the institution must provide written evidence that all individuals inside the department of athletics (e.g., coaches, staff) have statements regarding the importance of rules compliance in all of the following documents:
   a. Contracts or letters of appointment;
   b. Job descriptions; and
   c. Performance evaluations.

Please note, if the institution does not use one or more of the documents (listed in a-c above), provide an explanation.

---

5. Describe how the institution ensures that rules compliance is a central element in personnel matters for individuals outside the department of athletics who are involved in rules compliance activities. Specifically, the institution must provide written evidence that all individuals outside the department of athletics who are involved or associated with athletics (including, but not limited to, individuals who have responsibility for admission, certification of academic standing, evaluation of academic performance and administration of financial aid for student-athletes) have statements regarding the importance of rules compliance in all of the following documents:
   a. Contracts or letters of appointment;
   b. Job descriptions; and
   c. Performance evaluations.

Please note, if the institution does not use one or more of the documents (listed in a-c above), provide an explanation.
Measurable Standard No. 3
The institution must provide written evidence that all individuals outside the department of athletics who are involved or associated with athletics (including, but not limited to, individuals who have responsibility for admission, certification of academic standing, evaluation of academic performance and administration of financial aid for student-athletes) have statements regarding the importance of rules compliance in all of the following documents: contracts or letters of appointment, job descriptions and performance evaluations. If the institution is in the process of revising one or more of the documents noted above due its obligation to seek approval from an outside entity (e.g., union), the institution must provide written evidence supporting the planned revision. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

6.  □ Provide the name(s) and title(s) of the institutional staff member outside the department of athletics who has ultimate responsibility in determining student-athletes’ admission to the institution, certification of academic standing and conferment of academic degrees.

Measurable Standard No. 4
The institution must demonstrate that the responsibility for admission, certification of academic standing and conferment of academic degrees of student-athletes is vested in the same agencies that have authority in these matters for students in general.

7.  □ Provide the name(s) and title(s) of the individual(s) (other than the institution’s compliance officer/director) who the chancellor or president designates as having final authority for the institution’s rules compliance (e.g., athletics director, vice president for athletics).

Measurable Standard No. 5
The institution must assign direct accountability for rules compliance to the individual the chancellor or president assigns final authority for the athletics program (e.g., director of athletics, vice president for athletics).

8.  □ Identify the individuals inside and outside the department of athletics who have rules compliance responsibilities. Describe the reporting lines for and responsibilities assigned to these individuals, including but not limited to:

   a.  □ Faculty athletics representative;
   b.  □ Director of athletics;
   c.  □ Compliance officer/director;
   d.  □ Coaches; and
   e.  □ Other key individuals (e.g., admissions director, financial aid personnel, registrar) who are responsible for documenting and monitoring compliance with NCAA rules, including but not limited to:

       (1) □ Eligibility certification;
       (2) □ Investigation and self-reporting of violations;
       (3) □ Monitoring of financial aid; and
       (4) □ NCAA Division I Academic Performance Program (APP).

Measurable Standard No. 6.
The institution must identify individuals who have rules compliance-related responsibilities and the reporting lines of these individuals.
Measurable Standard No. 7
The institution must demonstrate that individuals external to the athletics program (including, but not limited to, financial aid personnel, registrar, faculty athletics representative) are engaged in the critical and sensitive areas of rules compliance. Examples of critical and sensitive areas of rules compliance include, but are not limited to, eligibility certification, investigation and self-reporting of rules violations, monitoring financial aid and academic performance program.

9. □ Indicate by clicking “yes” or “no” in the Athletics Certification System (ACS), whether the institution has written policies and step-by-step procedures that include assignment of specific responsibilities pertaining to rules compliance. Please note, all policies and procedures must be available during the evaluation visit. If the institution indicates a specific written policy and step-by-step procedure is not applicable, the institution must provide an explanation. Please use the file upload link contained within this question on ACS to submit an explanation if the institution selects N/A.

   a. □ Initial eligibility certification.
   b. □ Continuing-eligibility certification.
   c. □ Transfer-eligibility certification.
   d. □ APP.
   e. □ Financial aid administration.
   f. □ Recruiting.
   g. □ Camps and clinics.
   h. □ Investigations and self-reporting of rules violations.
   i. □ Rules education.
   j. □ Extra benefits.
   k. □ Playing and practice seasons.
   l. □ Student-athlete employment.
   m. □ Amateurism.

Measurable Standard No. 8
The institution must provide evidence that written compliance policies and procedures exist and demonstrate that they are engaged and functioning in the following areas:

   a. Initial-eligibility certification;
   b. Continuing-eligibility certification;
   c. Transfer-eligibility certification;
   d. NCAA Division I Academic Performance Program (APP) (e.g., data collection process, penalty implementation process);
   e. Financial aid administration, including individual and team limits;
   f. Recruiting (e.g., official and unofficial visits, hosts, entertainment, contacts, phone calls)
   g. Camps and clinics;
   h. Investigations and self-reporting rules violations;
   i. Rules education;
   j. Extra benefits;
   k. Playing and practice seasons;
   l. Student-athlete employment;
   m. Amateurism.

Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.
10. Describe how the institution’s written compliance policies and procedures are communicated on an annual basis to the department of athletics staff and individuals outside the department of athletics with rules compliance responsibilities.

Measurable Standard No. 9
The institution must demonstrate that its compliance policies and procedures are directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) on an annual basis to department of athletics staff and individuals outside the department of athletics with rules compliance responsibilities. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

11. Describe the institution’s rules-education efforts for all individuals associated with the department of athletics, including the frequency and topics reviewed with each of the following groups:
   a. Boosters;
   b. Student-athletes;
   c. Department of athletics staff;
   d. Coaches;
   e. Faculty; and
   f. Institutional staff outside the department of athletics.

Measurable Standard No. 10
The institution must provide evidence that it has a continuous and comprehensive rules education program for all individuals associated with the athletics program including boosters, student-athletes, department of athletics staff, coaches, and directly involved faculty and institutional staff outside the department of athletics.

12. In regard to the institution’s most recent rules compliance evaluation:
   a. Provide the name(s) and affiliation(s) of the individual(s) responsible for conducting the institution’s rules compliance evaluation;
   b. Describe the process used in selecting this authority outside the department of athletics to ensure the individual(s) does not have day-to-day compliance responsibilities for the institution’s department of athletics and is knowledgeable of NCAA legislation and rules compliance practices; and
   c. Provide the date of the institution’s most recent rules compliance evaluation.

Measurable Standard No. 11
The institution must demonstrate that its rules-compliance program is subject to a comprehensive, external rules-compliance evaluation at least once every four years and is conducted by an individual(s) external to athletics who is knowledgeable of NCAA compliance and who does not have day-to-day responsibilities in the areas under review. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.
13. The rules compliance evaluation must determine that the institution’s compliance practices are engaged and functioning and must include the required areas listed below. Indicate by clicking “yes” or “no” in the ACS which areas were included in the institution’s most recent rules compliance evaluation. If the institution indicates a specific area is not applicable, the institution must provide an explanation. Please use the file upload link contained within this question on ACS to submit an explanation if the institution selects N/A.

   a. Governance and organization.
   b. Initial-eligibility certification.
   c. Continuing-eligibility certification.
   d. Transfer-eligibility certification.
   e. APP.
   f. Financial aid administration, including individual and team limits.
   g. Recruiting (e.g., contacts and evaluations, official and unofficial visits).
   h. Camps and clinics.
   i. Investigations and self-reporting of rules violations.
   j. Rules education.
   k. Extra benefits.
   l. Playing and practice seasons.
   m. Student-athlete employment.
   n. Amateurism.
   o. Commitment of personnel to rules-compliance activities.

---

**Measurable Standard No. 12**

The institution must provide evidence that the comprehensive, external rules-compliance evaluation demonstrates that the rules-compliance program is engaged and functioning. Further, the institution must review the written, comprehensive evaluation as part of the self-study process and determine if appropriate corrective actions are necessary in response to the written report.
**Measurable Standard No. 13**
The institution must provide evidence that the comprehensive, external rules-compliance evaluation includes, at a minimum, the following areas:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>Governance and organization (e.g., governing board policies related to athletics, responsibilities and duties of compliance personnel);</td>

</tbody>
</table>

All rules compliance evaluations conducted on/after September 1, 2008 must include the following new areas: governance and organization; APP; amateurism; and commitment of personnel to rules-compliance activities. If an institution’s rules compliance program has been evaluated at least once in the past four years at the time of the self-study process and the evaluation was conducted prior to September 1, 2008, the institution is not required to include the four new areas in its evaluation or conduct an additional evaluation to include the four new areas. However, the institution must create a plan for improvement demonstrating that the four new areas of review will be included in the next scheduled rules compliance evaluation.

14. □ Describe the process used by the institution during the development of the self-study to review the most recent rules compliance evaluation to determine any necessary corrective actions. In addition, identify the individuals involved with this review.

15. □ Identify any relevant corrective action(s) planned as a result of the process described in Self-Study Item No. 14 or actions previously planned or implemented from the most recent rules compliance evaluation. Provide:

   a. □ The plan(s) or action(s) implemented; and
   b. □ The date(s) of action(s) taken or specific timetable(s) for completion of the plan(s).

16. □ Submit a copy of the report from the institution’s most recent rules compliance evaluation. [Please use the file upload link contained within this question on the ACS to submit]
a copy of the institution’s most recent rules compliance evaluation.]

Measurable Standard No. 14
The institution must submit a copy of the written evaluation from its comprehensive, external rules-compliance evaluation.

17. ☐ If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 1.2, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
The Association’s fundamental principles indicate that an intercollegiate athletics program shall be designed and maintained as a vital component of the institution’s educational system, and student-athletes shall be treated consistently with the student body. Consistent with this philosophy, the institution shall demonstrate that:

a. The institution admits all student-athletes as regularly enrolled, degree-seeking students in accordance with the regular, published entrance requirements that apply to all students;

b. The institution admits only student-athletes who have reasonable expectations of obtaining academic degrees;

(1) If the academic profile of entering student-athletes, as a whole or for any student-athlete subgroup, is lower than that of other student-athlete or comparable student-body groups or subgroups, the contrast shall be analyzed and explained by appropriate institutional authorities.

(2) If the measures of academic performance of student-athletes, as a whole or for any student-athlete subgroup, are lower than that of other student-athlete or comparable student-body groups or subgroups, this disparity shall be analyzed, explained and, if necessary, addressed (through specific plans for improvement) by appropriate institutional authorities.

c. Academic standards and policies applicable to student-athletes are consistent with those adopted by the institution for the student body in general or conference or Association standards, whichever are higher;

d. If the retention rate of any student-athlete subgroup, is lower than that of all student-athletes, this disparity shall be analyzed, explained and, if necessary, addressed through specific plans for improvement by appropriate institutional authorities;

e. Written policies related to scheduling are established in all sports to minimize student-athlete conflicts with class time and/or final examination periods due to participation in intercollegiate athletics, consistent with the provisions of NCAA Constitution 3.2.4.14; and

f. Assessment, evaluation and plans for improvement exist to ensure acclimation, retention and academic success for student-athletes with special academic needs and student-athletes who are admitted through the institution’s special-admission process or, for those institutions without a special-admission process, student-athletes in the lower quartile of the institution’s student academic profile.
Self-Study Items for Operating Principle 2.1

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 2.1 (Academic Standards). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

[Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.]

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process as they relate to Operating Principle 2.1 (Academic Standards). For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

Measurable Standard No. 1
If the institution developed a plan for improvement for Operating Principle 2.1 during Cycle, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:
   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   • The institution has implemented a different plan(s) or taken different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.

[Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.]
3. Complete description of additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 2.1 (Academic Standards), including any plans or recommendations developed through the institution’s involvement in the NCAA Division I Academic Performance Program (APP) Data Review process, if applicable. For each additional plan, provide:

   a. The additional goal(s);
   b. The step(s) taken by the institution to achieve the goal(s); and
   c. The date(s) the step(s) was completed.

4. Complete description of the process by which student-athletes are admitted to the institution and identify the agencies vested with this responsibility. In what ways (if any) do the process and/or criteria used for the admission of student-athletes differ from the process for admitting students in general? Be specific and give careful attention to key decision points (e.g., second-level or subsequent review process, appeals procedure) in these processes and the individuals or groups involved at each point, including the role, either formal or informal, the department of athletics plays (if any) in the admissions process for student-athletes.

5. Complete description of the process by which students who do not meet the institution’s standard or normal entrance requirements may be admitted, and identify the agencies vested with this responsibility. This should include any second-level or subsequent review processes or appeals procedures that may be used when students are not automatically admitted because they do not meet the institution’s published entrance requirements.

6. Compare and explain any differences between the percentage of first-year student-athletes receiving athletics aid who were admitted through any of the processes described in Self-Study Item No. 5 and the percentage of first-year students in general (including student-athletes) who

---

**Measurable Standard No. 2**

_Student-athletes must be governed by the institutional admissions policies that apply to all students._

**Measurable Standard No. 3**

_Institutional admissions decisions for student-athletes must be made solely by the authority responsible for admissions decisions._

**Measurable Standard No. 4**

_Academic standards and policies for student-athletes must be consistent with the standards for the student body in general, conference or NCAA standards, whichever are higher._
were so admitted. Provide these comparative data for the four most recent academic years.

[Note: Use the supplied charts (Special Admissions on Page No. 34 and Special Admissions by Sport Group on Page No. 35) to compile this data.]

7. Compare and explain any differences in the admissions profiles of student-athletes who received athletics aid with the profiles of students in general by submitting the following information for the four most recent academic years: average standardized test scores for first-year student-athletes who received athletics aid (by gender, by racial or ethnic group, and according to the eight sport groups) and for all entering first-year students (by gender and by racial or ethnic group).

If any of the institution’s sports teams had student-athletes certified through the pilot early academic certification program from August 1, 2007, through July 31, 2008, provide an explanation regarding how the inclusion of these average core-course grade-point averages affects the data provided.

[Note: Use the supplied charts (Test Scores by Gender on Page No. 36, Test Scores by Racial and Ethnic Group on Page No. 37-38, and Test Scores and GPA by Sport on Page No. 39) to compile this data.]

8. Describe the institution’s specific academic support programs (e.g.; Facilitating Learning and Achieving Graduation program (FLAG) to ensure acclimation, academic success and retention of first-year student-athletes with special academic needs and first-year student-athletes admitted through any of the processes described in Self-Study Item No. 5.

9. For the four most recent academic years, assess and evaluate data regarding acclimation, retention and the academic success of student-athletes with special academic needs [as defined by the institution (e.g., at-risk, education-impacting disability)] and those student-athletes admitted through any of the processes described in Self-Study Item No. 5. If necessary, the institution must develop plans for improvement to ensure acclimation, retention and academic success for these student-athletes.

If the institution does not employ a special, or alternate, admissions process, the institution must assess and evaluate acclimation, retention and the academic success of student-athletes in the lowest (i.e., fourth) quartile of the institution’s general student academic profile or for an alternate group defined by a different benchmark (e.g., quintile) typically used by the institution. If necessary, the institution must develop plans for improvement to ensure acclimation, retention and academic success for these student-athletes.
10. Describe your institution’s written policies and procedures related to the step-by-step sequence of actions taken by particular individuals on the institution’s campus to certify initial eligibility for student-athletes. Provide the names and titles of individuals inside and/or outside of athletics who are involved with the certification of initial eligibility. In addition, provide the name(s) and title(s) of the individual(s) who has ultimate responsibility in determining student-athletes’ initial eligibility.

Measurable Standard No. 8
The institution must have written step-by-step policies and procedures for the certification of initial, transfer, and continuing eligibility.

11. Describe your institution’s written policies and procedures related to the step-by-step sequence of actions taken by particular individuals on the institution’s campus to certify transfer eligibility for student-athletes. Provide the names and titles of individuals inside and/or outside of athletics who are involved with the certification of transfer eligibility. In addition, provide the name(s) and title(s) of the individual(s) who has ultimate responsibility in determining student-athletes’ transfer eligibility.

Measurable Standard No. 8
The institution must have written step-by-step policies and procedures for the certification of initial, transfer, and continuing eligibility.

12. Describe your institution’s written policies and procedures related to the step-by-step sequence of actions taken by particular individuals on the institution’s campus to certify continuing eligibility for student-athletes. Provide the names and titles of individuals inside and/or outside of athletics who are involved with the certification of continuing eligibility. In addition, provide the name(s) and title(s) of the individual(s) who has ultimate responsibility in determining student-athletes’ continuing eligibility.

Measurable Standard No. 8
The institution must have written step-by-step policies and procedures for the certification of initial, transfer, and continuing eligibility.

Please use the prepopulated charts on Page Nos. 40-46 to respond to Self-Study Item Nos. 13-17.

13. Analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate for student-athletes who received athletics aid and the most recent four-class average Federal Graduation Rate of all students.

If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate for student-athletes and the most recent four-class average Federal Graduation Rate for all students, the institution must develop a plan for
improvement to address the issue.

Information obtained to complete this chart:
• NCAA Federal Graduation Rates Report

[Note: Use the supplied chart (Federal Graduation Rates Comparison on Page No. 40) to analyze data.]

---

### Measurable Standard No. 9

The institution must analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate of student-athletes as a whole and the most recent four-class average Federal Graduation Rate of students generally. If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate of student-athletes and the most recent four-class average Federal Graduation Rate of students generally, the institution must develop a plan for improvement to address the issue.

---

14. □ Analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate for all student-athlete subgroups (i.e., team, gender, ethnicity, ethnicity within team) and the most recent four-class average Federal Graduation Rate for all students, including comparable student-body subgroups (i.e., gender, ethnicity).

□ If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate of a student-athlete subgroup and the most recent four-class average Federal Graduation Rate for all students or comparable student-body subgroup, the institution must develop a plan for improvement to address the issue.

Information obtained to complete this chart:
• NCAA Federal Graduation Rates Report

[Note: Use the supplied charts (Federal Graduation Rates by Sport on Page No. 41 and Federal Graduation Rates by Racial and Ethnic Group on Page No. 42) to analyze data. In addition, please refer to Page No. 78 for an explanation regarding the required analysis.]

---

### Measurable Standard No. 10

The institution must analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate of all student-athlete subgroups (i.e., team, gender, ethnicity, ethnicity within team) and the most recent four-class average Federal Graduation Rate of students generally, including comparable student body groups. If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate of a student-athlete subgroup and the most recent four-class average Federal Graduation Rate of students generally or a comparable student body subgroup, the institution must develop a plan for improvement to address the issue.

---

15. □ Analyze, explain and address any differences between the corresponding Federal Graduation Rate projected by the most recent NCAA Division I Academic Progress Rate (APR) for each sports team and the most recent multiyear four-class average Federal Graduation Rate for all students.

□ If there is a difference that cannot be adequately explained between a sports team’s projected Federal Graduation Rate and the most recent four-class average Federal Graduation
Rate for all students, the institution must develop a plan for improvement to address the issue. Information obtained to complete this chart:

- NCAA Academic Progress Rates Report (APR multiyear rate column)
- NCAA Projected Federal Graduation Rates Conversion Chart

[Note: Use the supplied chart (Academic Progress Rates on Page No. 43) to analyze data.]

16. □ Analyze, explain and address any differences between the most recent four-cohort average Graduation Success Rate (GSR) for each sports team and the most recent four-cohort GSR for all student-athletes.

□ If there is a difference that cannot be adequately explained between the most recent four-cohort GSR for any sports team and the GSR for all student-athletes, the institution must develop a plan for improvement to address the issue.

□ If the data in the charts on Page No. 44 include sports that are not used by the institution for NCAA sports sponsorship and/or sports in which the NCAA does not conduct a championship, the institution may provide an explanation of how the inclusion/exclusion of the sport(s) impacts the analysis of the data.

Information obtained to complete this chart:

- NCAA Graduation Success Rates Report
- NCAA Federal Graduation Rates Report

[Note: Use the supplied chart (Graduation Success Rates on Page No. 44) to analyze data.]

17. □ Analyze, explain and address any differences between the most recent four-class retention rate for student-athlete subgroups (i.e., sport, gender, ethnicity, ethnicity within team) and the most recent four-class retention rate for all student-athletes, including comparable student-athlete subgroups (i.e., gender, ethnicity).
If there is a difference that cannot be adequately explained between the most recent four-class retention rate for any student-athlete subgroup and the retention rate for all student-athletes or comparable student-athlete subgroup, the institution must develop a plan for improvement to address the issue.

Information obtained to complete this chart:

• NCAA Academic Progress Rates Report (retention multiyear rate column)

[Note: Use the supplied charts (Retention Rates-Men’s Sports on Page No. 45, Retention Rates-Women’s Sports on Page No. 46) to analyze data.]

18. Describe the department of athletics written policies and procedures related to scheduling competitions and practices to minimize student-athletes’ conflicts with class time and/or final examination periods due to participation in intercollegiate athletics, including how the institution monitors this area.

19. Describe the institution’s written missed-class policies for all students, including any exceptions or differences that exist for student-athletes.

20. Provide supporting data to analyze, explain and address missed class time for the last two years for each sports team.

21. Describe the means by which the department of athletics policies and procedures regarding the scheduling of athletics competition and practices (as described in Self-Study Item No. 18) and the institution’s missed-class policies (as described in Self-Study Item No. 19) are directly communicated in writing to student-athletes, department of athletics staff members and appropriate faculty and administrative staff.
22. □ If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 2.1, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
Members of the Association have the responsibility to conduct intercollegiate athletics programs in a manner designed to protect and enhance the educational experience of student-athletes and to ensure proper emphasis on educational objectives. Consistent with this responsibility, the institution shall demonstrate that:

a. Adequate academic support services are available for student-athletes;

b. Student-athletes are encouraged and assisted in reaching attainable academic goals of their own choosing;

c. When it is determined that individual student-athletes have special academic needs, these needs are addressed either through institutional programming or through student-athlete support services;

d. The support services are evaluated and approved at least once every four years by appropriate academic authorities outside the department of intercollegiate athletics (e.g., faculty members or academic administrators of the institution);

e. There is a commitment to the fair and equitable treatment of student-athletes, in support of their academic endeavors; and

f. Academic-improvement plans developed during the previous self-study or as required by the APP have been implemented. After initial campus approval of an academic-improvement plan, if the plan is modified or not fully implemented, the institution shall provide a written explanation prepared and approved by appropriate institutional authorities.
Self-Study Items For Operating Principle 2.2

Self-Study Items [Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. □ List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 2.2 (Academic Support). For each condition, provide:
   a. □ The original “condition” imposed;
   b. □ The action(s) taken by the institution;
   c. □ The date(s) of the action(s); and
   d. □ An explanation for any partial or noncompletion of such required actions.

[Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.]

2. □ List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process as they relate to Operating Principle 2.2 (Academic Support). For each issue identified, provide:
   a. □ The original goal(s);
   b. □ The step(s) taken by the institution to achieve the goal(s);
   c. □ The date(s) the step(s) was completed; and
   d. □ An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

[Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.]

Measurable Standard No. 1

If the institution developed a plan for improvement for Operating Principle 2.2 during Cycle 2, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:
   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   • The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.

3. □ Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 2.2 (Academic Support). For each additional plan, provide:
a. The additional goal(s);
b. The step(s) taken by the institution to achieve the goal(s); and
c. The date(s) the step(s) was completed.

4. Explain how the institution is organized to provide academic support and advising services to student-athletes, either through institutional programming or student-athlete support services. In addition, provide a description of reporting lines and responsibilities assigned to specific staff members.

5. Explain how the institution’s staffing, physical space and financial support for student-athlete academic support services has been reviewed by appropriate institutional academic authorities to ensure they meet the academic needs of student-athletes at the institution (this review must be conducted as part of the self-study process).

6. Using the program areas for academic support services listed below, describe the following (this program analysis must be conducted as part of the self-study process):

   a. The specific academic support services offered to student-athletes (if any);
   b. Any policies that govern which students can use these services; and
   c. The mechanisms by which student-athletes and staff are made aware of these services;

   If the institution has additional or different academic support services not included in the following list of examples, please click “Add Academic Support Area” in the ACS.

   (1) Academic counseling/advising: Course selection, class scheduling, priority registration.
   (2) Tutoring: Availability; procedures and criteria for obtaining assistance; assignment, qualifications, training, experience, etc.; compensation, rate of pay, pupil loads, qualifications, experience, other terms and conditions of employment.
   (3) Academic progress monitoring and reporting: Individual’s responsibility,
frequency, procedures for periodic grade and attendance checks.

(4) Assistance for special academic needs: Provisions for diagnosis and treatment of education-impacting disabilities (EID).

(5) Assistance for at-risk students: Availability including institution-wide assistance.

(6) Academic support facilities: Availability of study rooms, computers and labs.

(8) Student-athlete degree selection: Degree program assistance.

(9) Learning assessments: Provisions for testing and evaluation (e.g., placement testing).

(10) Success skills: Study skills, note and test taking, writing and grammar skills, time-management skills.

(11) Study hall: Availability, facilities, attendance policies.

(12) First year/transfer orientation: Availability, attendance requirements.

(13) Mentoring: Availability of mentors, identification and assignment methods, frequency of interaction.

(14) Posteligibility programs: Availability of scholarships, assistantships and academic support.

---

Measurable Standard No. 5

Information related to all academic support services must be clearly communicated to student-athletes and staff (e.g., through inclusion in the student-athlete handbook, discussion during team meetings, through inclusion in personnel manuals, review during staff orientation).

---

Measurable Standard No. 6

The institution must provide effective support services for student-athletes with learning disabilities and/or other special needs, either through institutional programming or through student-athlete support services.

---

Measurable Standard No. 7

The institution must demonstrate that all academic support services provided to student-athletes are subject to a comprehensive, written evaluation and approval at least once every four years by appropriate academic authorities outside athletics who do not have day-to-day responsibilities in the academic support services area (e.g., faculty members, degree program advisors, academic administrators of the institution or noninstitutional academic support specialists). Please note, academic support services evaluations conducted by athletics conference office personnel generally will not meet this requirement. Finally, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

---

7. Please submit a copy of the written report from the most recent academic support services evaluation. [Please use the file upload link contained within this question on the ACS to submit a copy of the institution’s most recent academic support services evaluation.]
Measurable Standard No. 7
The institution must demonstrate that all academic support services provided to student-athletes are subject to a comprehensive, written evaluation and approval at least once every four years by appropriate academic authorities outside athletics who do not have day-to-day responsibilities in the academic support services area (e.g., faculty members, degree program advisors, academic administrators of the institution or noninstitutional academic support specialists). Please note, academic support services evaluations conducted by athletics conference office personnel generally will not meet this requirement. Finally, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

The Measurable Standard No. 8
The comprehensive, written academic support services evaluation must include an evaluation of all services provided to student-athletes. [Note: The list below should provide institutions with a starting point for the evaluation but it is not an exhaustive list. Institutions are required to evaluate all relevant services provided.]

- Academic counseling/advising resources and services;
- Tutoring;
- Academic progress monitoring and reporting;
- Assistance for special academic needs;
- Assistance for at-risk students;
- Academic support facilities;
- Academic evaluation of prospective student-athletes;
- Student-athlete degree selection;
- Learning assessments;
- Success skills;
- Study hall;
- First year/transfer orientation;
- Mentoring;
- Posteligibility programs; and
- Any other relevant service provided to student-athletes.

Measurable Standard No. 9
The institution must submit a copy of the written evaluation of the academic support services. Please note that institutions that do not have a separate academic support program for student-athletes are not required to ensure that its academic support program for students generally is subject to a comprehensive written evaluation at least once every four years by authorities external to athletics.

Measurable Standard No. 10
The institution must involve a broad group of on-campus personnel who are employed outside the department of intercollegiate athletics (e.g., academic board, undergraduate education office, provost office) as participants in the comprehensive, written evaluation and periodic approval of academic support services. Further, institutions must review the written, comprehensive evaluation as part of the self-study process and determine if appropriate corrective actions are necessary in response to the written report.

8. Identify the academic authorities outside the department of athletics responsible for conducting the institution’s academic support services evaluation and explain the process used in selecting these individuals to ensure they do not have day-to-day responsibilities in the academic support services area. Also, provide the date of the institution’s most recent academic support services evaluation
9. If the institution used an outside individual or entity (e.g., conference office, peer colleagues) to assist in the coordination or facilitation of the academic support services evaluation, provide the name(s) and affiliation(s) of the individual(s). Further, describe the process used in selecting this authority outside the institution to ensure the individual(s) is knowledgeable of academic support services. Also, provide a description of the authority’s involvement in the academic support services evaluation.

10. Describe the process used by the institution during development of the self-study to review the most recent academic support services evaluation to determine any necessary corrective actions. In addition, identify the individuals involved with this review.

11. Identify relevant corrective action(s) planned as a result of the process described in Self-Study Item No. 10 or actions previously planned or implemented from the most recent academic support services evaluation. Provide:
   a. The plan(s) or action(s) implemented; and
   b. The date(s) of actions taken or specific timetable(s) for completion of the plan(s).

12. List the most recent APR Improvement Plans developed and approved by the institution for any team if required by the NCAA Division I Committee on Academic Performance. In each case, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve

Measurable Standard No. 10
The institution must involve a broad group of on-campus personnel who are employed outside the department of intercollegiate athletics (e.g., academic board, undergraduate education office, provost office) as participants in the comprehensive, written evaluation and periodic approval of academic support services. Further, institutions must review the written, comprehensive evaluation as part of the self-study process and determine if appropriate corrective actions are necessary in response to the written report.

Measurable Standard No. 11
The institution must provide evidence that the most recent NCAA Division I Academic Progress Rate improvement plans developed and approved by the institution during the previous self-study or as required by the NCAA Division I Committee on Academic Performance have been implemented. If the plan(s) was modified or not fully implemented, the institution must provide a written explanation prepared and approved by appropriate institutional authorities.
13. If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 2.2, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based participation and has received formal institutional approval.
Gender/Diversity Issues and Student-Athlete Well-Being

Operating Principle 3.1 Gender Issues

It is a principle of the Association to conduct and promote its athletics programs free from gender bias. In accordance with this fundamental principle, the institution shall:

a. Have implemented its approved gender-equity plan from the previous self-study. If the plan was modified or not fully implemented, provide an acceptable explanation from appropriate institutional authorities.

b. Demonstrate that it is committed to, and has progressed toward, fair and equitable treatment of both male and female student-athletes and athletics department personnel.

c. Formally adopt a written plan for the future for the intercollegiate athletics program that ensures the institution maintains, or continues progress toward, a program that is equitable for both genders. The plan shall include measurable goals the institution intends to achieve, steps the institution will take to achieve those goals, persons responsible and timetables.
Self-Study Items for Operating Principle 3.1

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. □ List all “conditions for certification” imposed by the Committee on Athletics Certification in its Cycle 2 certification decision (if any) as they relate to Operating Principle 3.1 (Gender Issues). For each condition, provide:
   a. □ The original “condition” imposed;
   b. □ The action(s) taken by the institution;
   c. □ The date(s) of the action(s); and
   d. □ An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. □ Report on the implementation of the plan for improvement to address gender issues developed by the institution during its Cycle 2 certification process. For each issue identified, provide:
   a. □ The original goal(s);
   b. □ The step(s) taken by the institution to achieve the goal(s);
   c. □ The date(s) the step(s) was completed; and
   d. □ An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

The Committee will not accept the following explanations for partial or noncompletion:

1. The institution did not possess sufficient funds to implement the plan; and
2. The institution has had personnel changes since the original development of the plan.
3. The institution does not have documentation of actions taken to implement the plan.

The committee will accept the following explanation for partial completion or noncompletion:

- The institution has implemented a different plan(s) to achieve the same goal outlined in its Cycle 2 gender-issues plan.
Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but not limited to participation rates and budget increases, specific numerical targets may be appropriate.

3. Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 3.1 (Gender Issues). For each additional plan, provide:
   a. The additional goal(s);
   b. The step(s) taken by the institution to achieve the goal(s); and
   c. The date(s) the step(s) was completed.

4. Explain how the institution is organized to further its efforts related to the gender-issues operating principle for both department of athletics staff, coaches and student-athletes.

5. Describe how matters concerning gender equity for department of athletics staff, coaches and student-athletes are monitored, evaluated and addressed on a continuing basis.

6. Describe the programs and activities that the institution has in place for coaches, department of athletics staff and student-athletes that address gender issues, including programs and activities designed to address the needs of the underrepresented gender within the athletics program.

Measurable Standard No. 1
The institution must demonstrate that it has implemented its Cycle 2 gender-issues plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:
   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   • The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress towards the same goal outlined in its Cycle 2 gender-issues plan.
7. For the three most recent academic years in which information is available, analyze the institution’s Equity in Athletics Disclosure Act (EADA) report (i.e., participation, head coaches and assistant coaches). [Note: the institution must include all male and female NCAA intercollegiate sports programs offered at the institution in its analysis]. If any differences exist, the institution must explain (using supporting data) and address any deficiencies in the gender-issues plan for improvement.

8. For the three most recent academic years in which information is available, analyze the institution’s NCAA financial report (specified expense categories). [Note: the institution must include all male and female NCAA intercollegiate sports programs offered at the institution in its analysis]. If any differences exist, the institution must explain (using supporting data) and address any deficiencies in the gender-issues plan for improvement. See Appendix H for specified expense categories.

9. Using the program areas for gender issues, provided on Page Nos. 75-76:
   a. Describe how the institution has ensured a complete study of each of the 15 program areas. This study must be conducted as part of the self-study process;
   b. Provide data demonstrating the institution’s status and commitment, including resource allocation, across each of the 15 areas;
   c. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of the underrepresented gender within the athletics program (any differences should be clearly explained in the institution’s narrative response, including any deficiencies the institution identifies in its analysis). [Note: the institution must include all male and female NCAA intercollegiate sports programs offered at the institution in its program area analysis]; and
d. Explain how the institution’s written, stand-alone plan for gender issues addresses each of the 15 areas, including any deficiencies identified in the institution’s narrative response as listed in item (c) above.

| Measurable Standard No. 4 |
The institution must conduct a thorough and written review of each of the 15-program areas for gender issues. Please see program area definitions located in the Gender, Diversity and Student-Athlete Well-Being attachment of the self-study instrument. If the institution identifies any deficiencies during this review, the deficiencies must be incorporated into the institution’s gender-issues plan for improvement. If no deficiency exists, the institution must include a maintenance plan for each program area and action steps the institution will take if the program area(s) becomes inequitable in the future. |

The review must:
Describe how the institution has ensured a complete study of each of the 15-program areas for gender issues. This study should be conducted as part of the self-study process. Please note that for the program area of accommodations of interests and abilities, the use of surveys alone does not constitute a complete study. If an institution chooses to use an interest survey (e.g., a Web survey or hard-copy survey) as one of its sources of data, the committee will require an explanation regarding the survey content, populations surveyed, the survey response rate, method used to interpret the data, and written evidence demonstrating the institution’s Title IX coordinator has approved the survey. In addition, the institution must describe other methods of measuring interest and ability.

a. Provide data demonstrating the institution’s status and commitment, including resource allocation, across each of the areas;

b. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of the underrepresented gender within the athletics program. Please note, any differences should be clearly explained in the institution’s narrative response, including any deficiencies the institution identifies in its analysis; and

c. Explain how the institution’s written, stand-alone plan for gender issues addresses each of the 15-program areas, including any deficiencies identified in the institution’s narrative response as listed in (c) above.

| Measurable Standard No. 5 |
The institution must develop a five-year written, stand-alone plan addressing gender issues that maintains an institution’s conformity or moves an institution into conformity with the operating principle.

[Note: The institution may want to refer to the equitable medical care section of the NCAA Sports Medicine Handbook as a guide in responding to Item No. 9 of the program area checklist.]

10. Using the plan for improvement section, provide an institutional gender-issues plan that addresses all 15 aforementioned program areas for the department of athletics. The plan must include all required elements of a plan as noted by the committee (Appendix B). If a deficiency does not exist in a program area(s), the institution must include an evaluation mechanism to maintain the institution’s status in that program area(s) and action steps the institution will take if the program area(s) becomes inequitable in the future. Finally, the
institution must describe how it will review its plan on an annual basis and include this information in the institution’s gender-issues plan.

Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but not limited to participation rates and budget increases, specific numerical targets may be appropriate.

11. □ Describe how the institution will annually compare its gender-issues plan with its EADA reports and NCAA financial reports to determine if the course of action is still appropriate. Further, please provide the names and titles of the individuals who will be responsible for this review.

12. □ Describe the institution’s efforts to ensure the gender-issues plan for improvement was developed through a process involving broad-based campus participation and has received formal institutional approval. Further, please identify the length (e.g., five years) of this plan, including the specific years this plan will be active.

If a plan concludes prior to the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan were ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle. Please note that all institutional plans must contain all of the committee’s required elements.
Measurable Standard No. 8
The institution’s gender-issues plan must include the following requirements:

a. Include identification of issues or problems confronting the institution.
b. Include measurable goals the institution intends to achieve to address issues or problems.
c. Include specific steps the institution will take to achieve its goals.
d. Include a specific timetable(s) for completing the work.
e. Identify the individuals and/or offices responsible for carrying out the actions identified by the institution.

Further, the institution’s gender-issues plan must meet the following requirements:

a. Be committed to paper and be a stand-alone document.
b. Be developed with opportunities for significant input from appropriate constituent groups inside and outside athletics.
c. Must be adopted formally by the institution’s final authority in such matters (i.e., chancellor/president or board of trustees) to ensure that it carries the commitment and support of the entire institution.

[Please Note: If a plan concludes before the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan were ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle.]
Gender/Diversity Issues and Student-Athlete Well-Being

Operating Principle - 3.2. Diversity Issues

It is a principle of the Association to promote respect for and sensitivity to the dignity of every person and to refrain from discrimination. In accordance with this fundamental principle, the institution shall:

a. Have implemented its approved minority-issues plan from the previous self-study. If the plan was modified or not fully implemented, provide an acceptable explanation from appropriate institutional authorities.

b. Demonstrate that it is committed to, and has progressed toward, fair and equitable treatment of all student-athletes and department of athletics personnel with diverse racial, ethnic and other backgrounds; and

c. Formally adopt a written plan for the future of the intercollegiate athletics program that ensures the institution maintains, or continues progress toward, a program that expands equitable opportunities and support for student-athletes and athletics personnel with diverse racial, ethnic and other backgrounds. The plan shall include measurable goals the institution intends to achieve, steps the institution will take to achieve those goals, persons responsible and timetables.

Please note, that for purposes of athletics certification, institutions have discretion to address those areas of diversity that align with the institution’s overall mission and culture. However, institutions are reminded that the Committee on Athletics Certification expects a comprehensive and good-faith effort throughout the self-study process. Examples of areas to review for diverse backgrounds or underrepresented groups include, but are not limited to: race, ethnicity, creed, color, national origin, age, disability, sexual orientation and gender identity, in addition to other areas such as religion, marital status, education, income, geographic location and work experience.
Self-Study Items for Operating Principle 3.2

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the Committee on Athletics Certification in its Cycle 2 certification decision (if any) as they relate to Operating Principle 3.2 (Minority Issues). For each condition, provide:

   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. Report on the implementation of the plan for improvement to address minority issues developed by the institution during its Cycle 2 certification process. For each issue identified, provide:

   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

The committee will not accept the following explanations for partial or noncompletion:

1. The institution did not possess sufficient funds to implement the plan; and
2. The institution has had personnel changes since the original development of the plan.
3. The institution does not have documentation of actions taken to implement the plan.

The committee will accept the following explanation for partial completion or noncompletion:

- The institution has implemented a different plan(s) to achieve the same goal outlined in its Cycle 2 minority-issues plan.

Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but
not limited to participation rates and budget increases, specific numerical targets may be appropriate.

Measurable Standard No. 1
The institution must demonstrate that it has implemented its Cycle 2 minority-issues plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:

   (1) The institution did not possess sufficient funds to implement the plan.
   (2) The institution has had personnel changes since the original development of the plan.
   (3) The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:

   • The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress towards the same goal outlined in its Cycle 2 minority-issues plan.

3. □ Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the Committee for Operating Principle 3.2 (Minority Issues). For each additional plan, provide:

   a. □ The additional goal(s);
   b. □ The step(s) taken by the institution to achieve the goal(s); and
   c. □ The date(s) the step(s) was completed.

4. □ Explain how the institution is organized to further its efforts related to the diversity-issues operating principle for both department of athletics staff, coaches and student-athletes.

5 □ Describe the institution’s written statements (e.g., vision statements, mission statements, diversity statements, policies, plans) that address issues of diversity, including where the statements are published. Describe how the institution’s written statements are communicated directly to department of athletics staff, coaches and student-athletes.

Measurable Standard No. 2
The institution must demonstrate how the institution’s and department of athletics’ written commitment and expectations related to diversity are communicated directly to department of athletics staff, coaches and student-athletes.

6. □ Describe how matters concerning diversity issues for department of athletics staff, coaches, and student-athletes are monitored, evaluated and addressed on a continuing basis.

7. □ Describe the programs and activities the institution has in place for coaches, department of athletics staff and student-athletes that address diversity issues, including
programs and activities designed to address the needs of the underrepresented groups or individuals of diverse backgrounds.

</tr>
</tbody>
</table>

11. For the three most recent academic years, analyze and explain the data regarding the racial or ethnic composition for the following:

   a. Full-time senior administrative department of athletics staff members (i.e., assistant director of athletics up through the director of athletics level);
b. Other full- and part-time professional (i.e., nonclerical) department of athletics staff members (such as directors of operations, athletic trainers, ticket managers, academic support staff and facility managers, even if the position is not funded by or does not report to the department of athletics);

c. Full- and part-time head coaches;

d. Full- and part-time assistant coaches (including graduate assistant and volunteer coaches);

e. Faculty-based athletics board or committee (e.g., faculty senate subcommittee on athletics, faculty athletics committee) members; and

f. Other advisory or policy-making group (e.g., governing board subcommittee for athletics, student-athlete advisory committee) members (if any).

[Note: Use the supplied chart (Racial or Ethnic Composition of Personnel on Page Nos. 62-63) to compile the data requested in this self-study item.]

12. For the three most recent academic years, analyze and explain the data regarding the racial or ethnic composition for student-athletes who received athletics aid and for all students.

[Note: Use the supplied chart (Racial or Ethnic Composition of all Students on Page Nos. 64-65) to compile the data requested in this self-study item.]

13. For the three most recent academic years, analyze and explain the data regarding the racial or ethnic composition of student-athletes who received athletics aid by the eight sport groups listed in the NCAA Federal Graduation Rates Report.

[Note: Use the supplied chart (Racial or Ethnic Composition of Student-Athletes by Sport Group on Page Nos. 66-67) to compile the data requested in this self-study item.]

14. Using the program areas for diversity issues, provided on Page No. 77.

a. Describe how the institution has ensured a complete study of each of the four program areas. This study must be conducted as part of the self-study process;

b. Provide data demonstrating the institution’s status and commitment across each of the four areas;

c. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of its student-athletes and staff with diverse racial, ethnic and other backgrounds (any differences should be clearly explained in the
institution’s narrative response, including any deficiencies the institution identifies in its analysis); and

d. Explain how the institution’s written, stand-alone plan for diversity issues addresses each of the four areas, including any deficiencies identified in the institution’s narrative response as listed in item (c) above.

Class 3 Self-Study Report Checklist

Measurable Standard No. 7
The institution must conduct a thorough and written review of each of the four program areas for diversity issues. Please see program area definitions located in the Equity and Student-Athlete Well-Being attachment of the self-study instrument. If the institution identifies any deficiencies during this review, the deficiencies must be incorporated into the institution’s diversity issues plan for improvement. If no deficiency exists, the institution must include a maintenance plan for each program area and action steps the institution will take if the program area(s) becomes inequitable in the future.

The review must:

a. Describe how the institution has ensured a complete study of each of the four program areas for diversity issues. This study should be conducted as part of the self-study process;

Please note that for the program area of assessment, the use of student-athlete exit interviews alone does not constitute a complete assessment for purposes of the self-study. An institution may choose to include student-athlete exit interviews as part of a broader assessment conducted, but the institution must ensure that an assessment of the entire department of athletics has been conducted with respect to diversity issues.

b. Provide data demonstrating the institution’s status and commitment, including resource allocation, across each of the areas;

c. Using the data provided in (b) above, analyze and explain how the institution is meeting the needs of its student-athletes, coaches, and athletic department staff with diverse racial, ethnic and other backgrounds. Please note, any deficiencies should be clearly explained in the institution’s narrative response, including any deficiencies the institution identifies in its analysis; and

d. Explain how the institution’s written, stand-alone plan for diversity issues addresses each of the four program areas, including any deficiencies identified in the institution’s narrative response as listed in (c) above.

Measurable Standard No. 8
The institution must develop a five-year written, stand-alone plan addressing diversity issues that maintains an institution’s conformity or moves an institution into conformity with the operating principle.

15. Using the “plan for improvement” section, provide an institutional diversity-issues plan that addresses all four aforementioned program areas for the department of athletics. The plan must include all required elements of a plan as noted by the committee (see Appendix B). If a deficiency does not exist in a program area(s), the institution must include an evaluation mechanism to maintain the institution’s status in that program area(s) and action steps the institution will take if the program area(s) becomes
inequitable in the future. Finally, the institution must describe how it will review its plan on an annual basis and include this information in the institution’s diversity-issues plan.

Within gender-issues and diversity-issues written plans, specific numerical targets may place an institution at legal risk and are not expected in an institution’s written plan, particularly as it relates to hiring practices. Institutions may develop plans that have broad, flexible non-numeric hiring goals. As it relates to the program areas, including but not limited to participation rates and budget increases, specific numerical targets may be appropriate.

Measurable Standard No. 8
The institution must develop a five-year written, stand-alone plan addressing diversity issues that maintains an institution’s conformity or moves an institution into conformity with the operating principle.

16. Describe how the institution will periodically compare its diversity-issues plan with its assessment of the campus diversity climate (see Program Area No. 1) using the four diversity program areas to determine if the course of action is still appropriate. Further, provide the names and titles of the individuals who will be responsible for this review.

Measurable Standard No. 9
The institution’s plan must be active at all times and include a mechanism to ensure the plan is reviewed on annual basis to determine if the course of action is still appropriate. This information must be included in the institution’s diversity-issues plan.

Measurable Standard No. 10
The institution must compare its diversity-issues plan with its written assessment of the campus diversity climate (see Program Area No. 1) at least once every four years, to determine if the course of action is still appropriate.

17. Describe the institution’s efforts to ensure the diversity-issues plan for improvement was developed through a process involving broad-based campus participation and has received formal institutional approval. Further, please identify the length (e.g., five years) of this plan, including the specific years this plan will be active.

*If a plan concludes before the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan was ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the operating principle.

Measurable Standard No. 11
If a plan concludes prior to the commencement of the institution’s next self-study, the institution is expected to create a new five-year plan for improvement, even if each of the actions in the institution’s original plan was ongoing in nature. The institution must develop a new five-year plan that will maintain conformity with the applicable operating principle. Please note that all institutional plans must contain all of the committee’s required elements.
Measurable Standard No. 12
The institution’s diversity-issues plan must include the following requirements:

a. Include identification of issues or problems confronting the institution.
b. Include the measurable goals the institution intends to achieve to address issues or problems.
c. Include the specific steps the institution will take to achieve its goals.
d. Include a specific timetable(s) for completing the work.
e. Identify the individuals and/or offices responsible for carrying out the actions identified by the institution.

Further, the institution’s diversity-issues plan must meet the following requirements:

a. Be committed to paper and be a stand-alone document.
b. Be developed with opportunities for significant input from appropriate constituent groups inside and outside athletics.
c. Must be adopted formally by the institution’s final authority in such matters (i.e., chancellor/president or board of trustees) to ensure that it carries the commitment and support of the entire institution.
Gender/Diversity Issues and Student-Athlete Well-Being

Operating Principle - 3.3 Student-Athlete Well-Being

Conducting the intercollegiate athletics program in a manner designed to protect and enhance the physical and educational well-being of student-athletes is a basic principle of the Association.

Consistent with this fundamental principle, the institution shall:

a. Provide evidence that the well-being of student-athletes and the fairness of their treatment is monitored, evaluated and addressed on a continuing basis.

b. Have established grievance or appeal procedures available to student-athletes in appropriate areas.

c. Provide evidence that the institution has in place programs that protect the health of and provide a safe and inclusive environment for each of its student-athletes.
**Self-Study Items for Operating Principle 3.3**

[Note: Not applicable (N/A) in and of itself is not an appropriate response. If the institution cannot provide a response for a self-study item, the institution must provide a narrative explanation why a self-study item is not applicable.]

1. List all “conditions for certification” imposed by the committee in its Cycle 2 certification decision (if any) as they relate to Operating Principle 3.3 (Student-Athlete Well-Being). For each condition, provide:
   a. The original “condition” imposed;
   b. The action(s) taken by the institution;
   c. The date(s) of the action(s); and
   d. An explanation for any partial or noncompletion of such required actions.

Please note, the institution is not required to respond to opportunities for enhancement developed by the peer-review team unless those same items were adopted by the committee.

2. List all actions the institution has completed or progress it has made regarding all plans for improvement/recommendations developed by the institution during its Cycle 2 certification process as they relate to Operating Principle 3.3 (Student-Athlete Well-Being). For each issue identified, provide:
   a. The original goal(s);
   b. The step(s) taken by the institution to achieve the goal(s);
   c. The date(s) the step(s) was completed; and
   d. An explanation for any partial or noncompletion of the original goal(s) and/or step(s) to achieve the goal.

Please note, the institution will not be required to fulfill an element of a Cycle 2 plan if the element does not affect conformity with a current operating principle.

---

**Measurable Standard No. 1**

If the institution developed a plan for improvement for Operating Principle 3.3 during Cycle 2, the institution must demonstrate that it has implemented its Cycle 2 plan or provide an explanation for partial completion of the plan.

a. The committee will not accept the following explanations for partial completion or noncompletion:
   1. The institution did not possess sufficient funds to implement the plan.
   2. The institution has had personnel changes since the original development of the plan.
   3. The institution does not have documentation of actions taken to implement the plan.

b. The committee will accept the following explanation for partial completion or noncompletion:
   - The institution has implemented a different plan(s) or taken a different action(s) to achieve or maintain progress toward the same goal outlined in its Cycle 2 plan.
3. □ Describe any additional plans for improvement/recommendations developed by the institution since the Cycle 2 certification decision was rendered by the committee for Operating Principle 3.3 (Student-Athlete Well-Being). For each additional plan, provide:
   a. □ The additional goal(s);
   b. □ The step(s) taken by the institution to achieve the goal(s); and
   c. □ The date(s) the step(s) was completed;

4. □ Please submit a copy of the student-athlete exit-interview instrument with the submission of your self-study report. [Please use the file upload link contained within this question on the ACS to submit a copy of your current student-athlete exit-interview instrument.]

Measurable Standard No. 2
The institution’s instrument used to conduct student-athlete exit interviews must contain questions related to the following: (Note: Institutions should note the list of examples below is not an exhaustive list and institutions are not limited to addressing only those provided.)

- a. The institution’s commitment to the academic success of its student-athletes (e.g., academic support services available, priority registration for classes, coaches’ support).
- b. The institution’s commitment to opportunities for student-athletes to integrate into campus life.
- c. The institution’s efforts to measure the extent of time demands encountered by student-athletes.
- d. The institution’s efforts to measure the effectiveness of the institution’s mechanisms to monitor time demands of its student-athletes (e.g., travel commitments, missed class time, final exam schedules, and summer vacation periods).
- e. The institution’s efforts to measure the effectiveness of the institution’s NCAA Division I Student-Athlete Advisory Committee (SAAC).
- f. The institution’s commitment to informing student-athletes about the NCAA Special Assistance Fund and NCAA Student-Athlete Opportunity Fund.
- g. The institution’s efforts to measure the effectiveness of the institution’s mechanisms (e.g., annual surveys, exit-interview process) to monitor the well-being of its student-athletes.
- h. The institution’s commitment to the physical, psychological and emotional health (e.g., athletic training, nutrition, counseling) of student-athletes.
- i. The institution’s commitment to the safety (e.g., travel policies, emergency medical plans) of student-athletes.
- j. The institution’s commitment to a safe and inclusive environment for all student-athletes.
- k. The institution’s commitment to diversity.
- l. The value of student-athletes’ athletics experience.
- m. The opportunity for student-athletes to suggest proposed changes in intercollegiate athletics.
- n. The opportunity for student-athletes to express concerns related to the administration of the sport(s) in which student-athletes participate.

Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.

5. □ Describe the methods used to conduct student-athlete exit interviews. Further, describe the process used to evaluate and implement outcomes.

Measurable Standard No. 3
The institution must demonstrate that it conducts exit interviews via in-person meetings and/or conference calls in each sport with a sample of student-athletes (as determined by the institution) whose eligibility has expired in accordance with NCAA Constitution 6.3.2. Please note, if an institution develops a plan for improvement in this area, the plan must be implemented prior to the completion of the certification process.
6. □ Describe opportunities other than the student-athlete exit-interview process that are available to student-athletes to provide input regarding student-athlete well-being issues (e.g., student-athlete advisory committee; open-door policy of athletics administrators, including the director of athletics, senior woman administrator, and/or faculty athletics representative).

7. □ Describe the department of athletics written grievance and/or appeals procedures available to student-athletes in areas mandated by NCAA legislation (i.e., financial aid and transfers). Also, provide the name(s) and title(s) of the individual(s) responsible for overseeing the administration of these grievance and/or appeals procedures. Describe the means by which these grievance and/or appeals procedures are directly communicated in writing to department of athletics staff members, coaches and student-athletes.

8. □ Describe the institution’s written grievance and/or appeals procedures available to student-athletes in other areas (e.g., harassment, hazing, abusive behavior, discrimination). Also, provide the name(s) and title(s) of the individual(s) responsible for overseeing the administration of these grievance and/or appeals procedures. Describe the means by which these grievance and/or appeals procedures are directly communicated in writing to department of athletics staff members, coaches and student-athletes.

9. □ Describe the institution’s educational and support programs in the area of sexual orientation. Also, describe the institution’s structure and/or policies that ensure the provision
of a safe environment for all students, including student-athletes with diverse sexual orientations.

10. Describe the policies, organization and structure of the department of athletics and how it enhances student-athlete well-being. Further, describe the commitment of the institution to enhance the overall student-athlete educational experience including how issues are monitored, evaluated and addressed on a continuing basis.

11. Describe how student-athletes are involved in the governance and decision-making processes of the department of athletics, including the role of the student-athlete advisory committee (SAAC).

12. List the department of athletics and/or other institutional programs in place that address the needs and issues affecting student-athletes (e.g., CHAMPS/Life Skills program and/or programming involving career counseling, personal counseling, nutrition, diversity, gambling, alcohol and drug guidelines, sexual orientation, personal development, leadership). Further, describe the policies and procedures in place to encourage and ensure student-athletes’ access to these programs.

13. Describe how the department of athletics monitors student-athlete time demands, including travel commitments, missed class time, final exam schedules, summer vacation periods and intercession periods. Further, describe methods used to educate coaches and student-athletes about time demands and opportunities to integrate into campus life.

14. Please submit a copy of the department of athletics and/or institution’s written travel policies to ensure the safety and well-being of student-athletes with the submission of your self-study report (e.g., road travel; air travel, including charter policies; driver selection; training; privately owned vehicles). [Please use the file upload link contained within this question on the ACS to submit a copy of the department of athletics and/or institution’s written travel policies].

15. Describe the annual evaluation of the department of athletics and/or institution’s travel policies to ensure these policies are effective. Further, describe how the travel policies are directly communicated in writing to department of athletics staff members and student-athletes and list the name and title of the administrator(s) responsible for oversight in this area.
16. Please submit a copy of the department of athletics written emergency medical plan for practices, contests, strength training and skills sessions with the submission of your self-study report. [Please use the file upload link contained within this question on the ACS to submit a copy of the department of athletics written emergency medical plan for practices, contests, strength training and skills sessions].

17. Describe the annual evaluation of the department of athletics written emergency medical plan for practices, contests, strength training and skills sessions to ensure its effectiveness. Further, describe how the department of athletics written emergency medical plan for practices, contests, strength training and skills sessions is directly communicated in writing to department of athletics staff members and student-athletes and list the name and title of the administrator(s) responsible for oversight in this area.

18. Please submit a copy of the department of athletics written emergency medical plan for out-of-season workouts with the submission of your self-study report. [Please use the file upload link contained within this question on the ACS to submit a copy of the department of athletics written emergency medical plan for out-of-season workouts].

19. Describe the annual evaluation of the department of athletics written emergency medical plan for out-of-season workouts to ensure its effectiveness. Further, describe how the department of athletics written emergency medical plan for out-of-season workouts is directly communicated in writing to department of athletics staff members and student-athletes and list the name and title of the administrator(s) responsible for oversight in this area.

20. Please submit a copy of the athletics department’s athletic training and sports medicine policies and procedures with the submission of your self-study report. [Please use the file upload link contained within this question on the ACS to submit a copy of the department of athletics athletic training and sports medicine policies and procedures].
21. □ Describe the annual evaluation of the department of athletics written athletic training and sports medicine policies and procedures. Further, describe how the department of athletics athletic training and sports medicine policies and procedures is directly communicated in writing to department of athletics staff members and student-athletes and list the name and title of the administrator(s) responsible for oversight in these areas.

**Measurable Standard No. 13**
The institution must have written athletic training and sports medicine policies that are reviewed annually. Further, the administrator(s) responsible for annually evaluating athletic training and sports medicine policies must be identified and the athletic training and sports medicine policies must be directly communicated in writing (e.g., provide hard copy of document, provide Web link via e-mail) to athletics department staff members, including coaches, and student-athletes.

22. □ If the institution has developed a plan(s) for improvement during the current self-study process for Operating Principle 3.3, describe the institution’s efforts to ensure the plan(s) for improvement was developed through a process involving broad-based campus participation and has received formal institutional approval.
TOP 10 ISSUES IDENTIFIED FOR DIVISION I INSTITUTIONS IN THE ATHLETICS CERTIFICATION PROCESS

The purpose of this document is to educate NCAA Division I member institutions and conference offices by providing information on the 10 issues most frequently identified by the NCAA Division I Committee on Athletics Certification during the review for Cycle 3, Class 2 institutions. This information is intended to assist institutions that already have gone through Cycle 2 of athletics certification, as well as those institutions that are preparing to go through the certification process in the near future.

1. The institution’s gender-issues plan must include all required plan elements. [NCAA Operating Principle 3.1]

2. The institution must analyze its Equity in Athletics Disclosure Act (EADA) report (i.e., participation, head coaches and assistant coaches) and NCAA financial report (specified revenue and expense categories) for the three most recent academic years, explain (using supporting data) any differences, address any deficiencies and comment on any trends. [Operating Principle 3.1]

3. The institution must conduct a thorough and written review of each of the 17 program areas for gender issues. If the institution identifies any deficiencies during this review, the deficiencies must be incorporated into the institution’s gender-issues plan for improvement. If no deficiency exists, the institution must include a maintenance plan for each program area. [Operating Principle 3.1]

4. The institution must have written policies and procedures in the areas of athletic training; sports medicine; emergency medical plans for practices and games; emergency medical plans for out-of-season workouts, strength training and skills sessions; and travel policies (e.g., passenger vans, buses, permissible drivers, flights, length of trips). Further, the institution must evaluate the policies and procedures for their effectiveness in protecting the health and providing a safe environment for its student-athletes; identify the administrator(s) responsible for annually evaluating the policies and procedures for their effectiveness in protecting the health and providing a safe environment for its student-athletes; and demonstrate that policies and procedures are directly communicated in writing to department of athletics staff members, coaches and student-athletes. [Operating Principle 3.3]

5. The institution’s diversity-issues plan must include all required plan elements. [Operating Principle 3.2]

6. The institution’s instrument used to conduct student-athlete exit interviews must contain specified questions. [Operating Principle 3.3]
7. The institution must conduct a thorough and written review of each of the seven program areas for student-athlete well-being. If the institution identifies any deficiencies during this review, these deficiencies must be incorporated into a student-athlete well-being plan for improvement. [Operating Principle 3.3]

8. The institution must conduct a thorough and written review of each of the nine program areas for diversity issues. If the institution identifies any deficiencies during this review, the deficiencies must be incorporated into the institution’s diversity issues plan for improvement. If no deficiency exists, the institution must include a maintenance plan for each program area. [Operating Principle 3.2]

9. The institution must analyze, explain and address any differences between the most recent four-class average Federal Graduation Rate of all student-athlete subgroups (i.e., team, gender, ethnicity, ethnicity within team) and the most recent four-class average Federal Graduation Rate of students generally, including comparable student body groups. If there is a difference that cannot be adequately explained between the most recent four-class average Federal Graduation Rate of a student-athlete subgroup and the most recent four-class average Federal Graduation Rate of students generally or a comparable student body subgroup, the institution must develop a plan for improvement to address the issue. [Operating Principle 2.1]

10. The institution must analyze, explain and address any differences between the most recent four-class retention rate of student-athlete subgroups (i.e., sport, gender, ethnicity) and the most recent four-class retention rate of all student-athletes. If there is a difference that cannot be adequately explained between the most recent four-class retention rate of any student-athlete subgroup and the four-class retention rate of student-athletes generally, the institution must develop a plan for improvement to address the issue. [Operating Principle 2.1]
NCAA Bylaw 22.1 COMMITTEE ON ATHLETICS CERTIFICATION

The Management Council shall appoint a Division I Committee on Athletics Certification that shall be responsible for administration of the athletics certification program.

22.1.1 Composition of Committee. The committee shall be composed of a minimum of 12 members and shall include one chief executive officer, one faculty athletics representative, one director of athletics, one senior woman administrator and one conference commissioner. All shall be on the staff of a Division I active member institution or member conference. One of the members shall serve as chair.

22.1.2 Duties of Committee. The duties of the NCAA Division I Committee on Athletics Certification are:

(a) To establish a pool of peer reviewers;

(b) To select and assign peer-review teams to each institution;

(c) To determine the schedule of participating institutions;

(d) To modify and refine standards and procedures for the peer-review evaluation visit as necessary;

(e) To establish and maintain procedures for the preparation of peer-review team reports and the review-team chair’s comments related to an institution’s response to the report;

(f) To establish and maintain procedures for determining whether intermittent peer-review visits should be conducted as a result of changes in an institution (e.g., new personnel);

(g) To determine the certification status of member institutions, per 22.3;

(h) To review and recommend changes in the certification cycle if appropriate; and

(i) To carry out any other duties directly related to the administration of the Association’s athletics certification program.

GLOSSARY OF TERMS
NCAA DIVISION I COMMITTEE ON ATHLETICS CERTIFICATION

**Athletics Certification Liaison (ACL).** The NCAA Division I Committee on Athletics Certification requires each NCAA Division I institution to designate an individual to serve as its athletics certification liaison. The liaison shall be the individual on the institution's campus responsible for monitoring the progress of the institution's plans for improvement developed during the athletics certification process. The institution's chancellor or president has previously identified the ACL who was responsible for monitoring the progress of the institution’s plans for improvement developed during the Cycle 2 athletics certification process. After the evaluation visit and before receiving the certification decision, the NCAA staff liaison will contact the chancellor or president to initiate the submission of the ACL for monitoring Cycle 3 plans for improvement developed by the institution.

**Athletics Certification System (ACS).** In order to increase efficiency, reduce costs and add greater consistency, the committee developed a Web-based program, ACS, for the submission and storage of institutional self-studies, committee-identified issues, peer-review team reports and committee actions. Self-study reports are required to be submitted through ACS, which is both ID and password protected.

**Campus Contact.** The campus contact is responsible for coordinating preparations for the evaluation visit, including lodging and travel for peer-review team members and NCAA staff, scheduling interviews and organizing any work-related needs for peer reviewers (e.g., computer resources, meeting rooms, documents to be reviewed).

**Certified.** An institution that has been "certified" is considered to be operating its athletics program in substantial conformity with all operating principles. This classification denotes: (1) any problems identified by the institution in its self-study or by the peer-review team during its evaluation were considered by the committee not serious enough to affect the institution's certification status, and (2) the institution demonstrated adequate follow-up to concerns/improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution's previous regular and/or interim self-study.

**Certified with Conditions.** An institution that has been "certified with conditions" is not considered to be operating its athletics program in substantial conformity with all operating principles. This classification denotes: (1) problems identified by the institution in its self-study or the peer-review team during its evaluation were considered serious enough by the committee to cause it to withhold full certification until those problems have been corrected, or (2) the institution did not demonstrate adequate follow-up to concerns/improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution's previous regular and/or interim self-study.
Committee Analysis (CAC Analysis). Once the staff analysis is completed, the committee will review the institution's self-study and the staff analysis of the report. The committee will determine the final issues that will be forwarded to the institution and the peer-review team.

Condition. For institutions classified as "certified with conditions" or "not certified," the committee will include any corrective actions, and the timetable for completing each action, specified by the committee. These corrective actions are considered conditions. For those institutions that are certified with conditions, the institution will generally have a one-year time frame in which to report back to the committee to rectify its conditions. Once the institution responds with additional information regarding its conditions, the committee will deliberate the institution's materials at its next in-person meeting.

Conformity. The peer-review team and committee's most demanding task is to assess the extent of substantial conformity achieved by the institution with respect to the operating principles. This evaluation inevitably involves subjective judgment. In making these decisions, the peer-review team and committee make every effort to base decisions on reliable data; be sensitive to the unique characteristics and circumstances of the institution; and remain free of personal and professional bias.

Evaluation Visit (EV). The EV occurs after the institution has submitted its self-study report, after the staff and committee analyses have been completed and after the institution has had an opportunity to respond to the committee's analysis. The EV is staffed by a peer-review team who will have reached tentative conclusions about the nature of the institution's self-study process, the accuracy of the institution's written report and the operation of the athletics program in relation to the certification program's operating principles. Before leaving campus, the peer-review team is obligated to record its conclusions in a report that will be shared with the institution and committee. The institution's president/chancellor (and other institutional representatives at the discretion of the president/chancellor) is afforded an opportunity to hear the peer-review teams general impressions in an exit meeting at the conclusion of the EV. The EV may occur anytime between September 15 and November 30.

Measurable Standard (MS). The committee developed MS documents as a means to bring greater consistency to the athletics certification process. These documents are intended to clarify the expectations of the committee for each operating principle.

Not Certified. An institution that is "not certified" is not considered to be operating its athletics program in substantial conformity with the operating principles. This classification denotes: (1) problems identified by the institution in its self-study or the peer-review team during its evaluation were considered by the committee to be very serious or pervasive, or (2) the institution did not demonstrate adequate follow-up to
concerns/improvement plans directly related to the operating principles that were identified by the institution or the committee during the institution's previous self-study and action must be taken by the institution before it can be conditionally certified.

**Operating Principle (OP).** The athletics certification program is made up of seven standards, OPs, which every Division I institution needs to meet. The OPs were originally adopted overwhelmingly at the 1993 NCAA Convention. They address the three basic areas of governance and commitment to rules compliance, academic integrity, gender/diversity issues and student-athlete well-being. OPs are included as a part of the athletics certification self-study instrument and appear in NCAA Bylaw 22 of the NCAA Division I Manual.

**Opportunities for Enhancement.** As part of its report, the peer-review team will identify any pertinent recommendations for the institution in a section titled, "Opportunities for Enhancement." Additionally, the committee may provide opportunities for enhancement with its certification status decision. The institution is not obligated to implement or respond to such recommendations; rather, these should be viewed as helpful suggestions from the institution's peers and/or committee to improve its athletics program.

**Orientation Videoconference (OV).** The NCAA staff liaison will conduct an OV for an institution approximately 12-14 months before the evaluation visit. The purpose of the OV is to review the purpose and format of the certification program; the institution's activities already conducted in preparation for the OV; the self-study instrument (with members of the steering committee and subcommittees); preparations for the evaluation visit; and projected dates for the evaluation visit. The OV is intended to benefit campus members who will be involved in the self-study. The OV can occur anytime between August 15 and October 31.

**Peer-Review Team (PRT).** An external PRT, selected and assigned by the committee, is composed of experienced institutional and athletics personnel. The PRT is responsible for verifying that the institution's self-study is accurate and complete; confirming that the self-study was developed through a broad-based process that involved campus-wide participation; and evaluating the self-study and committee-identified issues in terms of the OPs that have been approved for all Division I members. Before leaving campus, the PRT must complete its written report to the committee. Ordinarily, each member of the PRT is responsible for writing one or more sections of the report, divided generally according to those sections of the self-study members of the PRT were assigned. A typical PRT will consist of a maximum of four members. Whenever possible, a president or chancellor will serve as chair. Each PRT member will receive training, with special emphasis on training for PRT chairs.
Plans for Improvement. Written institutional plans have significant value for every Division I institution. They communicate an institution's current commitment, provide benchmarks to assess progress and also serve as enduring records that help ensure institutions' continued commitments in the future. Institutional plans must meet certain minimum requirements. Plans for improvement are required in the gender and diversity areas and in other areas when a deficiency is identified.

Report Coordinator. The report coordinator is responsible for entering information, including plans for improvement, into ACS. The report coordinator submits responses to each specific self-study item so they can be read individually, rather than as part of a general narrative. It is suggested the report coordinator be well-versed in Internet technology and/or data entry programming.

Self-Study Item (SSI). A SSI is a question contained in the self-study instrument to be researched, studied and answered by an institution during its self-study process. In evaluating the completeness and accuracy of an institution's self-study report, the peer-review team will consider whether institutional responses address each specific aspect of all SSIs identified by the committee.

Staff Analysis. After an institution submits its self-study report via ACS, the NCAA staff liaison will review the self-study report, verify that all self-study items are completed and ensure that all measurable standards are met. This results in the staff analysis. Once the staff analysis is completed, the committee will review the institution's self-study and the staff analysis of the report. The committee will determine the final issues that will be forwarded to the institution and the peer-review team.

Staff Liaison. An NCAA staff member is assigned to each institution that is participating in the self-study process. The staff liaison serves as the primary resource to the institution and is available to answer any questions throughout the process. Additionally, the staff liaison verifies that the institution's self-study report, including any supporting documentation, is complete. In addition, the liaison provides a preliminary assessment regarding the institution's adherence to the measurable standards. The staff liaison accompanies the peer-review team on its campus visit and serves as the liaison between the host institution and the peer-review team.
