GENERAL NOTES

1. All notes and materials shall conform with the Asphalt Institute Basic Emulsion Manual and the specifications for this project.

2. The safety requirements for the contractor are outlined in the "Safety Section" of this manual. The contractor shall be held responsible for safety. The contractor shall ensure that all incidental safety devices are provided and utilized to ensure the safety and health of the contractor’s employees. The contractor shall maintain the construction site and access roads and all other areas designated in areas affected by the contractor’s activities.

3. Line and street elevations to be controlled with and approved by the engineer and located on street section.

4. All notes shown herein are not the contractor’s responsibility during the life of the project.

5. The contractor’s duties and responsibilities shall be limited to the installation of materials and labor recommended herein, unless otherwise directed in writing by the engineer. No other conveyances or changes shall be changed or modified by the contractor. The contractor shall not be responsible for any errors or omissions in the plans, specifications, or other written materials furnished to the contractor. The contractor shall be responsible for the proper installation of all materials and labor as specified herein.

6. The contractor shall be responsible for purchasing, placing, and testing all materials required for the project.

7. The contractor shall be responsible for maintaining all equipment and work areas.

8. The contractor shall be responsible for providing all necessary materials, labor, and equipment for the project.

9. The contractor shall be responsible for providing all necessary safety equipment and safety regulations.

10. The contractor shall be responsible for maintaining all areas prior to completing the work.

11. All dimensions and areas are approximate. The contractor shall be responsible for providing quantities.
