MSU Values

Values are principles that guide an organization’s internal conduct as well as its relationship to the outside world.

- **Students first.** Students are at the center of our work as an institution. We value all students and believe in creating an environment in which they can be successful and reach their full potential.
- **Excellence.** We believe in challenging ourselves and our students to create the highest quality work and solve the most difficult problems.
- **Integrity.** We value honesty and professionalism in all of our work. We also believe that each of us is personally accountable for our work and our behavior.
- **Respect.** We value respect for diversity in all its dimensions. Respect and civility foster collaboration and open communication, which in turn create productive communities not only in the local arena, but also in the regional and global arenas.
