PSYX 494		Seminar	PSYX 225 or consent of instructor	3		

Applied Psychology Option

Students interested in areas of applied psychology such as industrial/organizational psychology, human resource management, or organizational behavior, may consider the Applied Psychology Option and may choose elective courses in such disciplines as business, management, industrial and management engineering, or statistics.

Psychological Science Option

Students interested in areas of psychological science may choose elective courses in disciplines such as sociology, political science, computer science, or statistics.

Students interested in advanced study in clinical psychology or counseling psychology may follow either the Psychological Science Option or the Applied Psychology Option and should choose elective courses in such disciplines as human development, pre-med, or statistics.

Students in either psychology option should consider developing a minor or second major in an area that enhances career interests. Information regarding these options is available through the Psychology Advising Office, Psychology Faculty Advisors, and the Department of Psychology website.

The deadline to submit your Application for Baccalaureate Degree is the 15th class day of the semester before you graduate.
