- 2017 stats:
 - 11,471 unique patients
 - 40,732 encounters
 - 135 employees

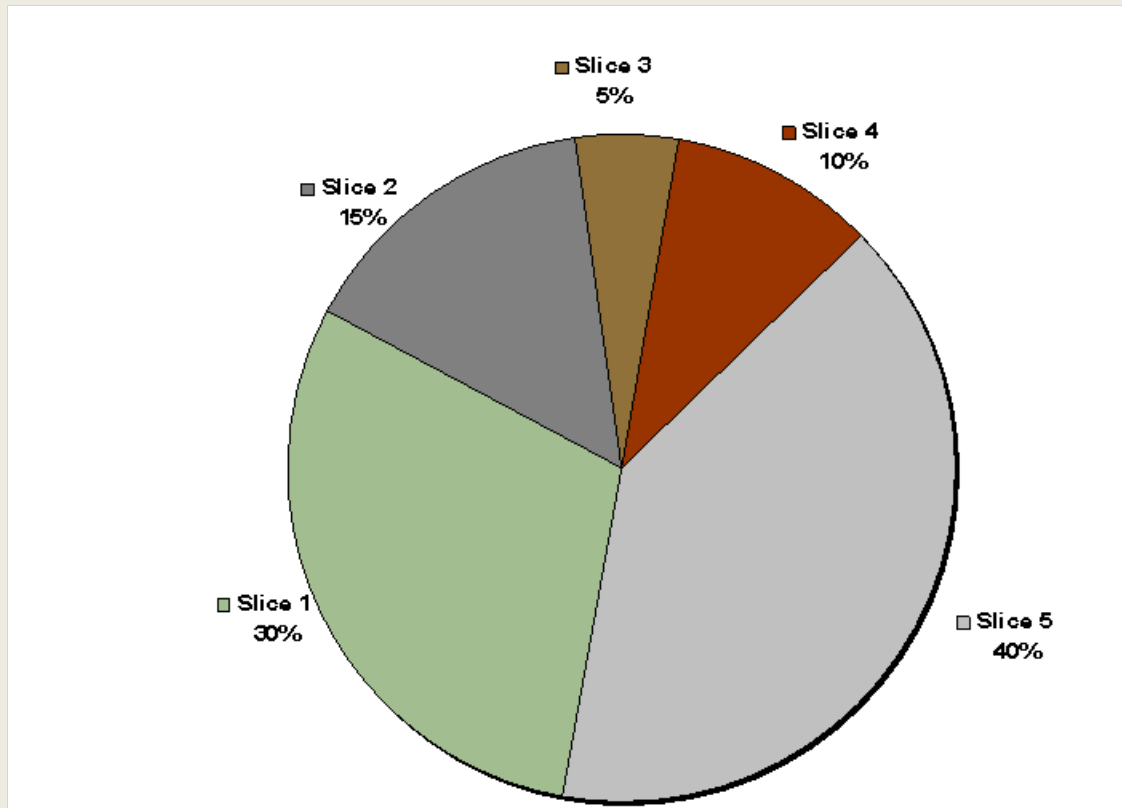

Vulnerable Populations

- In 2017:
 - 17% of CHP patients were 18 years old or younger
 - 6% met the federal definition of homeless
 - 8% were Hispanic
 - 87% of patients reporting incomes lived below 200% of the Federal Poverty Level
 - 26% were uninsured
 - 35% had Medicaid coverage

What Determines Health?

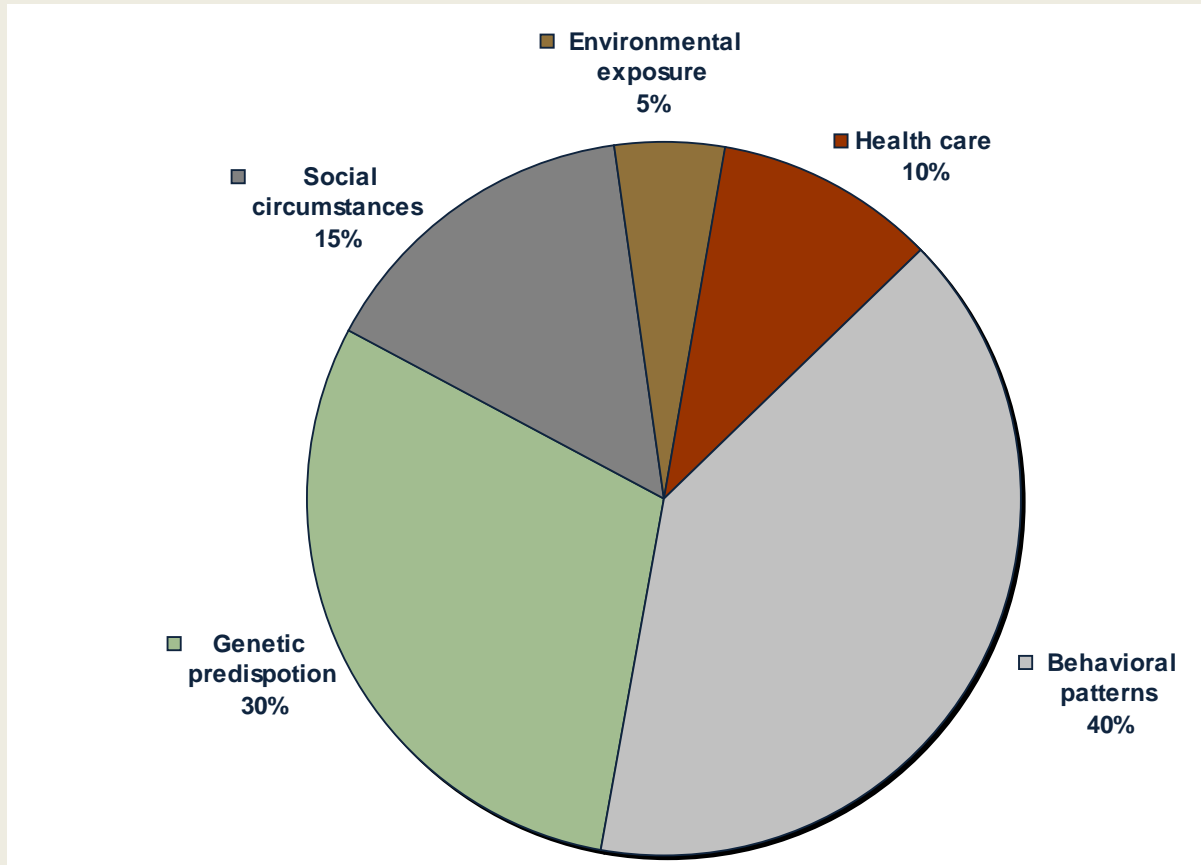

- Genetic Predisposition
- Access to Healthcare
- Behavioral Patterns
- Social Circumstances
- Environmental Exposure

Schroeder, Steven A, MD. N Engl J Med 2007; 357: 1221-1228

What Determines Health?

What **Makes** Us Healthy

What We **Spend** On Being Healthy

Healthcare
≠ Health

Addressing Root Causes

- Mission: To enhance community health and well-being
- Health Centers strive to address root causes of poor health by caring for the whole person, supporting health behaviors

What does that look like?

- Integrated behavioral health
- Resource coordination
- Bilingual, culturally competent staff
- Regular staff education in health literacy, social determinants of health, patient centered interactions skills
- Team-based care

Patient Story

ACA and Medicaid Expansion

- Coverage = increased use of preventive services for patients, reduced bad debt for rural facilities, economic stimulus for communities
- Medicaid Expansion in MT:
 - 71,000 new enrollees
 - Improves self-reported health
 - Improves financial health
 - Reduces crime
 - Increases labor force participation

University of MT Bureau of Business and Economic Research, 2018

What's Next?

- Unclear future for ACA
- State level debate about Medicaid
- Will we focus on prevention & promotion, innovation, alternative payment?
