Organizational Meeting

Bozeman-Area
Audio Interest Group

Are you an enthusiast about audio systems, music recording, sound design, home theater, or multimedia audio production?

Would you like to meet occasionally with other people from the community who share your interest in audio?

If so, we invite you to attend an informal organizational meeting for the Bozeman Audio Interest Group.

If there is sufficient interest, we will investigate forming a local section of the Audio Engineering Society.

7:00PM
Wednesday, April 30, 2003
Studio B: Room 233
Visual Communications Building
(11th and Grant, Montana State University Campus)

We will discuss ideas for future meetings and tours, plus listen to some audio examples and sound effects.

No charge: Open to the public.
Please plan to join us!
