

Expectations for STEM Oral Communication Fellows and Research Team

Fellows will learn the following skills:

- ❖ Employ storytelling techniques to discuss your research
- ❖ Use Improvisation techniques during conversations about your research
- ❖ Convey a strong stage presence
- ❖ Create and edit a podcast about an open access journal article in your field
- ❖ Prepare and deliver Curiosity Café events to the public

Each Fellow agrees to:

- ❖ Attend weekly workshops; 90 minutes per week for the duration of the academic year
- ❖ During the fall semester: script, record and edit two podcasts with your partner (you will each be in charge of one)
- ❖ During the spring semester: attend all Curiosity Cafes; present at one
- ❖ Keep a weekly journal. This journal may be collected occasionally by the research team
- ❖ Miss no more than three workshops, or your Fellowship may be revoked.
- ❖ Meet all deadlines
- ❖ Collaborate productively and respectfully with your cohort

The research team agrees to:

- ❖ Assist Fellows in creating and achieving goals related to this program
- ❖ Support the Fellows in their learning in a non-judgmental manner
- ❖ Provide each Fellow with regular feedback
- ❖ Be available for one on one meetings
- ❖ Guide Fellows on earning 592 independent study credits
- ❖ Meet all deadlines
- ❖ Provide financial support for Fellows to attend the *American Association for the Advancement of Science* Conference upon completion of the program
