

Sally Sanchez and Bridget Kevane developed a K-5 curriculum with new materials and teaching ideas for the *MLS 470: Teaching in the Public Schools* course. Currently 40 students are using this curriculum at Hawthorne, Longfellow, and Morningstar. There are five different syllabi specific to grades K-5, but the syllabi are integrated and meant to interface with each other. For example, the first grade curriculum is meant to build on what was done in K, and so on. Sally Sanchez and Bridget Kevane also outlined the pedagogical goals for each grade and expect their Spanish students to reach those goals with their students. In addition to the K-5 curriculum, students were supplied with new materials ranging from a CD with over 20 songs for students to teach in the classroom and some practical life materials for teaching language.
