

Questions about the following announcement should be directed to Anne Angermeyr at annea@montana.edu

An invitation from the MSU Teaching & Learning Committee

“A Closer Look at Social and Collaborative Computing Tools in Higher Education”

presented by

Ritchie Boyd

Instructional Technology
Project Director

Burns Technology Center
Extended University

In this luncheon we'll discuss the changing relationship of faculty, students, and technology, and how emerging tools and toys are shaking things up.

In particular, we will take a close look at a few of the most popular tools among students and faculty (Delicious, Facebook, and Wikis), interwoven with a discussion about why they are important both inside and outside of higher education.

Participants are encouraged to bring their own stories about how they use these and other Web 2.0 tools to support and enhance teaching and learning.

Thursday, September 25, 2008

Room 108 Plant BioScience Building

Lunch served 12:15 p.m.

Discussion 12:30-1:30 p.m.

Please RSVP to annea@montana.edu by Wednesday, September 24
