

# MATH PREP @ MSU

Powered by EdReady Montana ([edreadymontana.org](http://edreadymontana.org))

Summer 2016

## What is EdReady?

MSU/Gallatin College has partnered with EdReadyMT to create an online math readiness tool that is available for FREE to students who plan on attending MSU. The purpose of our customized EdReady program is to help students save time and money during their college career by better preparing them for college-level math at MSU.

**Q: Who should use MSU's customized EdReady program?**

A: Any current or future MSU student with an ACT math score of 21 (SAT: 520, MPLEX Level 2) or less.

**Q: Why should students use EdReady before attending MSU?**

A: EdReady allows students to be placed into a math class that more accurately represents their skill level and may result in a shorter path to their degree. Students who complete an EdReady section often place into a higher math course than their ACT/SAT score would normally allow.

**Q: Is EdReady right for me?**

A: If you want to revisit possible gaps in your math skills, become better prepared for college math, or haven't taken math recently, then EdReady may be right for you.

**Note:** EdReady is an online program that requires access to a computer.
