### **What:**

The Compassion Project (TCP), a non-partisan, non-religious organization and project, is designed to bring the Bozeman community and the greater Gallatin County together through education in and outside the schools around compassion- what it means, how to recognize it, how to practice it, and why it is important. Upon completion of these school and community lessons and workshops, each participant will receive a donated 8x8 wooden block to create their own artistic representation of compassion based on what they learned. The final output of this project will be an installation of all art pieces around Bozeman.

All K-12 students in the Bozeman community, MSU community, families and community partners will be invited to participate through classroom lessons for teachers and schools that opt in as well as through public and community workshops and after-school programming.
