

Banner Forms Transitions to NetID Login

Dear Banner Users,

This is a reminder that the NetID and password login credential will be implemented in Banner Forms (Banner INF) tomorrow, **Tuesday, May 16, 2017**. The use of the NetID login simplifies the connection and prepares users for Banner 9 access. This change will only effect a user's login, not Banner functionality.

NOTE: You will still need your Banner (Oracle) Login credentials for some applications such as the following:

- SQL Developer
- Microsoft Access
- TOAD
- Crystal Reports

NetID Login Instructions for Banner

Follow these instructions to complete a successful NetID login to Banner Forms:

http://www.montana.edu/pmo/documents/BannerSSOUserGuide_FINAL.pdf .
