

2005 Faculty Activity Survey

This survey assists several campus constituencies in data collection. By combining several instruments into one concise questionnaire, we hope to reduce the burden we place on your time. Your responses will be aggregated to the department level and used by UPBAC, the Office of Planning and Analysis, the College of Graduate Studies, and the Undergraduate Research Program, among others, for budget and planning, reporting, and review purposes. Most of the following questions also satisfy our participation in the FIPSE-funded Delaware Study of Out-of-Classroom Faculty Activity.

Please report your activity for each of the following measures. Report only what you accomplished in each area during your most recent faculty evaluation period. For most departments, this will be calendar year 2004. Be sure to review the definitions provided before responding. Please denote any not-applicable data as 'NA' and any data element that is truly zero as '0'.

Please direct any questions about the use of the data to Chris Fastnow, Office of Planning and Analysis, x2870 or cfastnow@montana.edu. If you have questions on particular items, consult the definitions provided or contact Chris Fastnow.
