Choice for transportation arrangements beyond 225 miles of Bozeman:

Because of budgetary and time constraints, it may not always be possible to accept donations from beyond 225 road miles of Bozeman, unless the survivors or estate help pay transportation costs. If I should die at a distance of more than 225 road miles from Bozeman, Montana, it is my wish that:

- (Initial one) My estate or next of kin pay the additional cost, beyond that of the 225 mile trip, of transporting my body in a timely manner to Montana State University.
- My body be delivered to another medical school.
- This gift be null and void.

.....

Choice for final disposition of remains after completion of studies:

- (Initial one) I agree that my remains be buried in a shared plot and coffin, without a named stone, in the Bozeman City Cemetery, at no expense to my estate or next of kin.
- I wish that my estate or next of kin make arrangements with a hometown funeral home or a Bozeman area funeral home to have my remains cremated and returned to the family, recognizing that such arrangements are at the expense of my estate or next of kin. *Please note this is not the Authorization for Cremation that is required by the State of Montana. The Authorization for Cremation is an additional form that will be obtained from the funeral home prior to cremation.*
- I wish that my estate or next of kin make arrangements with a hometown funeral home or a Bozeman area funeral home to have my remains returned for local burial, recognizing that such arrangements are at the expense of my estate or next of kin.

Permission for retaining internal organs or other anatomical specimens for use as teaching demonstrations:

- (Initial one) Yes, I provide permission to allow the Montana Body Donation Program to keep internal organs or other anatomical specimens for use as teaching demonstrations for future medical students and others in health-related professions. The involved internal organs or anatomical specimens will be buried at some indefinite time in the future with other organs from similar teaching demonstrations and will not be returned or buried with the remains.
- No, I do not provide permission for the Montana Body Donation Program to keep internal organs or other anatomical specimens to use as demonstrations for future teaching purposes.
