Around Montana
Bozeman Firefighters Raise Money At Firehouse Subs
http://www.kbzk.com/.../bozeman-firefighters-raise-money-at-f...
Local firefighters spent a few hours at Firehouse Subs in Bozeman Saturday, but not just to chow down. They were raising money for next month’s 24th Annual Scott Firefighter Stair climb. It’s an event in which teams of firefighters from around the country race up 69 flights of stairs inside Seattle’s Columbia Center. Five Bozeman firefighters are heading to Seattle. The stair climb is coming up on March 8th. “Firehouse Subs is donating 20% of their profits and every little bit helps when you’re looking for a cure for cancer,” said Thaddeus Josephson, Bozeman Paramedic Firefighter.

The entire process supports the Leukemia & Lymphoma Society. Bozeman firefighters raised over $400 on Saturday.

---

**2015 FSTS Staff And Command Coming In April**

MSU Fire Services Training School will be presenting the Staff and Command seminar Saturday, April 18th through Sunday, April 19th at the Hampton Inn, 2301 14th St SW, Great Falls Montana. Class will begin at 8:30 a.m. Saturday morning.

This seminar is intended to assist chief fire officers, trustees, fire service area board members and administrative officials with the leadership and management of effective fire service organizations. This seminar will provide current or newly appointed chief officers, trustees, fee service area board members, administrative officers, and city/county commissioners’ exposure to the fire protection challenges they face and the range of skills required for success. Participants’ interest and needs will determine the content of the presentations which are informal and highly interactive.

Tuition is $129.00 for members of a public Montana Fire Department and $200.00 Private for private or out-of-state individuals. This includes 2 lunches, 1 dinner and handout materials.
To register please contact:
http://www.montana.edu/wwwfire/register.php or
Jon Marshall at jonathan.marshall@montana.edu  (406) 771-4338
Or Kathy Craig at katheryn.craig@montana.edu  (406) 771-4335

Red Lodge Fire Rescue (RLFR) is accepting applications for positions on the seasonal fuel mitigation crew. The RLFR fuel crew generally works 40 hours per week with opportunities for overtime pay on local, regional, and national wildland fire engine assignments. Up to 4 temporary seasonal positions will be hired. Primary duties will include removing forest fuels from the landscape to reduce wildfire risk. Additional duties may include responding to wildfires, miscellaneous station work, and other duties as assigned. Qualified applicants must work well with others in a physically demanding work environment. Wildland firefighting experience, chainsaw experience, NWCG S-130/190 and S-212 is preferred. Other necessary training will be provided to successful applicants. The temporary seasonal position is full time from mid-May through October with a salary range of $14.00 - $15.00 per hour.

Applications due by April 1st, 2015. For questions about the positions, please email Jon Trapp at jon@redlodgefire.com or call (406) 446-2320. Applicants should include a cover letter, resume and at least two references. Send submissions to:

IAAI Training Opportunity Coming to Great Falls

Electrical Aspects of Fire Investigation

Instructor: Dave Cusatis IAAI-CFI, IAAI-CI

Where: Great Falls Fire Rescue Charles C. Carrico Regional Training Facility, 1900 9th Street South Great Falls MT, 59405

When: Thursday March 12th, 2015 8am-5pm Lunch Provided

Description: This course addresses the critical skills essential to the effective investigation and evaluation of fires involving potential electrical causes. This course utilizes state of the art techniques, practices, protocols and standards to assist investigators to properly and effectively evaluate electrical systems and associated components to ascertain their role in a fire.
Students will be provided with a basic knowledge of electrical faults and failures of electrical components and circuits, as well as a working knowledge of the National Electrical Code (NEC) and how it applies to the fire investigations.

The use of 'Arc Mapping' will also be discussed and how it can be effectively used to assist in fire origin determination. Participants will also be able to demonstrate a general knowledge of electricity, electrical circuits, systems and arc mapping principles through a series of instructor led 'hands-on' practical exercises.

**3 Pa. Firefighters Hurt Battling House Fire**

CHESTER COUNTY, Pa. — Three firefighters were hurt while battling a 2-alarm fire in Chester County Sunday night. The fire began at a home on Highland Hill Lane in Charlestown, Pennsylvania around 7:15 p.m. A family was inside the home at the time but got out safely. The flames were intense and heavy smoke could be seen throughout the second floor when firefighters arrived. They were able to bring the flames under control at 9:08 p.m.

**Fire Chief Saves Boy Who Collapsed During Soccer Practice**

The chief, who is also the soccer coach, started CPR and revived the boy; he was taken to the hospital and will be OK.

CRESSKILL, N.J. — A New Jersey fire chief and pre-K recreational soccer team coach helped save a 4-year-old boy who collapsed on the floor during practice Wednesday. Coach Chris Ulshoefer, who is the fire chief in Bergen County's Cresskill, was at the opposite end of the gym at Bryan Elementary School when the boy fell. He heard commotion and saw the boy's mother run, screaming, toward him.
"She was screaming for someone to dial 911," Ulshoefer said. He said he ran over to find the little boy prone on the hardwood floor, unconscious.

3 Dead After Car Runs Red Light And Crashes Into Ambulance In Battle Creek

BATTLE CREEK, Mich. — Three people are dead — including a patient who was being rushed to the hospital — after a car ran a red light and crashed into an ambulance, police say. At this point, officers are saying alcohol may have been involved.

The crash happened early Tuesday at around 1:00 a.m. at the intersection of North Avenue and Garfield Avenue. Police say an ambulance was on its way to the hospital with its flashers and siren on with a cardiac arrest patient in the back.

A car ran the flashing red light at the intersection and struck the ambulance. The adult female driver of that car was killed on impact, and a male passenger also died. The patient was transferred to another ambulance and rushed to the hospital, but that patient did not survive.

Police say both high speeds and alcohol may be factors in this crash.

Tire Warehouse Burns Near BWI Airport
Firefighters remain on the scene of a tire warehouse blaze near BWI.

**Photo credit:** Anne Arundel County Fire Department

LINTHICUM, Md. (WUSA9) -- Firefighters are keeping a close eye on the smoldering remains of a tire fire near BWI Airport.

The smoke from the fire at K & K Tires in the 800 block of Oregon Avenue in Linthicum could be seen for miles around, including from the Baltimore Beltway.

Crews were called to the scene at approximately 8:30 p.m., say Anne Arundel County fire officials. They found fire coming from a shed on the property.

There were 42 firefighters on the scene with units from Anne Arundel County, BWI Airport and Baltimore City. Firefighters had to battle both the flames and the bitter cold.

Crews tried to keep the fire from spreading to other nearby businesses in the industrial area.

No one was hurt.

Officials have not determined the cause of the fire at this time.

Tire fires can be very difficult to control. Tire fires threaten air, soil and water pollution as tires break down into hazardous materials, according to the EPA.

=====

**Town Pump Charitable Foundation**
Mission Statement: The Town Pump Charitable Foundation was established in 1999 with the mission of providing financial support to Montana charitable or governmental organizations with a priority of supporting/meeting basic needs and education for Montana citizens.

Qualifications/Requirements: In general, an organization seeking financial support from the Foundation must be a 501(c)(3) or governmental entity. The grant must be used for charitable purposes and primarily for the benefit of Montana citizens. The organization must be able to provide a copy of the IRS determination letter showing non-profit status or provide evidence of governmental status.

Contact Information: If your organization is interested in seeking financial support from the Town Pump Charitable Foundation please send a brief letter outlining your mission, the project you want to support, the amount of funds you are requesting and a copy of your IRS determination letter. Also include the name and phone number of the contact person. Please do not send videotapes, CD’s or an extensive presentation binder, if we need further information we will contact you with our questions. Please allow two to three weeks for processing. Send your letter of request to:

Town Pump Charitable Foundation  
Attn: Grant Committee  
P.O. Box 6000  
Butte, MT 59702

Walmart’s Local Giving Program

Walmart’s Local Giving Program helps local organizations and government (including FD’s) with grants from $250-$2500. I know some departments have been successful in obtaining this grant. One idea for utilizing this grant is for new or updated AED’s for your fire department or local ambulance service?

**Save The Dates: FSTS Spring Training Symposium With Captain John Ceriello, FDNY**

May 2-3, 2015

John Ceriello is a 27-year veteran of the New York City Fire Department, 14 of those years was spent in Special Operations Command. He is a Captain and currently assigned to Division of Training. He has been an integral part in the FDNY & NIST Wind Impacted Fires Project that introduced stairwell pressurization, wind control devices and high-rise nozzles into the field. He also was part of the implementation of new concepts of ventilation and flow-path control
to the FDNY. John is on Underwriter Laboratories advisory panel for a number of projects including their most recent research on horizontal and vertical ventilation.

Summary of the presentation-
There has been a lot being said lately in the American fire service on the research of fire behavior. A tremendous amount of information has been streaming across fire publications and on-line sources. It's a lot for the firefighter and chief to be able to absorb and process. John Ceriello has been involved with this research since 2006 when the FDNY reached out to NIST to better understand the effects of wind when a high-rise structure is on fire. With John’s knowledge and time in the field the attendee will have a unique combination of science and practical fire-ground knowledge to tap into. He will be able to express the true essence of what the latest research means to all levels of the fire service from probationary firefighter to Chief of the Department. John will use a multi media presentation to show how and more importantly why it’s so important to take heed in the latest research so intelligent decisions can be made on the fire ground where it counts the most.

Location: Montana State University, Strand Union Building, Bozeman, MT

Cost: $75 (includes lunch on Saturday)

Times: 0900-1700 Saturday, 0800-noon Sunday.

*Parking permit will not be required; ample parking available.
