TEST INSTRUCTIONS (PLEASE READ CAREFULLY!)
A Fire Fighter 1 Candidate has an 18 month period to complete this test. Once the FSTS administered portion of the test has begun, it must be completed within 9 months. This period begins with the first test date entered and ends with the last test date a skill was demonstrated and recorded. Notification: When testing is planned or scheduled, contact your local FSTS Field Trainer and give notice of the dates, times, and location of the testing. Occasionally, the FSTS Field Trainer is required to observe local testing to ensure compliance with accreditation and certification rules. Reference materials from any source may be used by the Candidate to complete the locally administered, open resource portions of the testing process. The (FSTS) Fire Fighter 1 Coaching Package is a vital training tool for instructors teaching the tactical skills listed inside the rear cover. Other resources are listed after some test elements and are available from the FSTS Resource Center.

The Chief Officer (CEO) of your Fire Service Organization must sign off in the signature block under "Fitness Requirements" and “Facilities and Equipment Compliance” before any testing begins. An FSTS authorized test administrator, a certified instructor or Chief Officer of the Department who has a Proctor's Affidavit on file with the FSTS must sign off each signature block and enter the date after witnessing your completion of each element. Every signature block must be signed and dated. The individual who conducts the test for an element and signs off a block, must be someone other than the instructor the Candidate was trained and learned the skill from. Original signatures are required. The reference source cited after each element is the authoritative source for satisfactory performance.

Safety - All of the performance elements/objectives shall be performed swiftly, safely, and with competence. Each element/objective shall be demonstrated in its entirety.
Fitness Requirements
The signature of the Chief of the Fire Service Organization is evidence to FSTS that the candidate has met local requirements with regard to good physical and mental condition and has a background indicating good moral character. The local chief should ensure that the candidate has an appropriate background and physical and mental condition prior to beginning this test. NFPA 1582 (*Medical Requirements for Fire Fighters*) is recommended for use by local authorities in assessing the physical and medical evaluation of candidates.

----------------------   ----------------------
Chief Officer’s Signature        Date

Facilities and Equipment Compliance:
The signature of the chief of the Fire Service Organization is evidence to FSTS that the facilities and equipment used for testing are in compliance with applicable NFPA Standards.

----------------------   ----------------------
Chief Officer’s Signature        Date

Signature Verification:
For the purpose of signature verification to sign off in this test booklet I certify my signature as:
Signed:                      Printed Name:

If you have questions, contact the FSTS at (406) 761-7885 during office hours, or any of the following representatives:

- **Doug Lobaugh** (406) 750-6046       Great Falls
- **Dave Mason** (406) 461-0570       Helena
- **Jerry Prete** (406) 461-2274       Miles City
- **Craig Jeppson** (406) 498-5444      Missoula
- **Ed Burlingame** (406) 249-0745      Columbia Falls
- **John Culbertson** (406) 771-4328    FSTS Office - Great Falls

Upon Completion of this Test Documentation Booklet, make a copy for your records, then give to an FSTS Staff Member OR send to FSTS via certified mail. FSTS Address: MSU Fire Services Training School - Certification Program, 750 6th Street SW–Ste 205, Great Falls, Montana 59404-3297
Duration of Certification:

Accredited certifications issued by the Montana Fire Services Training School do not have an expiration date. However, for purposes of progression within the FSTS certification system, a certification is recognized for five years from the test completion date. The policy regarding this is part of the Montana Fire Service Professional Qualifications Certification System, which is adopted by the Fire Services Training School Advisory Council. The policy is shown below.

304 Duration of Certification
304.1 Certifications issued under this system are recognized for purposes of progression within the system from the test completion date to the date a revised testing process is implemented by FSTS, however, certification will be recognized for progression purposes for a minimum of 5 years from its date of issuance.

304.2 Individuals with certifications which have lapsed under 304.1, are treated as new to the level or system and must be re-tested to the current standard for a given level.
**Definitions and Acronyms** - The following definitions and acronyms for the terms indicated are intended for use with the Certification Program.

**Approved** - Acceptable to the FSTS or their authorized representative.

**Authority having jurisdiction** - Fire Services Training School (FSTS).

**Candidate** - The person who has made application for certification.

**Define** - To describe the basic qualities and principles.

**Demonstrate** - To show by actual use or simulation.

**EAP** - Employee Assistance Program

**Fire company** - Subpart of FSO to which an individual is assigned.

**Fire department** - An agency of government charged with primary fire protection responsibility within a city, county, reservation or district.

**FSO** - Fire service organization.

**FSTS Website** – [http://www.montana.edu/wwwfire](http://www.montana.edu/wwwfire)

**Element** – A single item, task or tactic that is tested under this program.

**Identify** - To physically select, indicate, or explain verbally or in writing, using standard terms recognized by the fire service.

**IMS** - Incident Management System

**May** - The term is used to state a permissive use or an alternative method to a specified requirement.

**Objective** - A goal that is achieved through the attainment of a skill, knowledge, or both, which can be observed or measured.

**Qualified** - Having satisfactorily completed the requirements of the objectives.

**PAR** - Personnel Accountability Report

**PASS** - Personal Alert Safety System

**Safely** - To perform the objective without unreasonable risk or injury to self, others, apparatus or equipment.

**Shall** - The term indicates a mandatory requirement.

**Swiftly** - The time, as determined by the qualified evaluator or FSTS that it takes to perform the element satisfactorily.

**Technique** - The systematic procedure by which a task is accomplished.

**With competence** - Possessing the knowledge, skill, and judgment needed to perform indicated objectives satisfactorily.
5.1 General.

5.1.1 General Knowledge Requirements. (Resource: 6th Edition IFSTA ESSENTIALS of Fire Fighting and Fire Department Operations, Chapters 1, 2, 7, 18; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 1, 2, 9)

Describe the organization of the fire department.
Candidate will provide a written narrative describing the operations and administrative staffing and duties of their Fire Service Organization (FSO).* Resource: Your FSO Leadership

Signed_________________________________________________ Date: ____/_____/_____

Explain the Fire Fighter I's role as a member of the organization.
Candidate will provide a written narrative describing the role of fire fighter in their FSO.* Resource: Your FSO Leadership

Signed__________________________________________________ Date: _____/_____/_____

Explain the mission of the fire service and of the local fire department.
Candidate will provide a narrative describing the mission of their FSO.* Resource: Your FSO Leadership

Signed _________________________________________________ Date: _____/_____/_____

Explain the function of a standard operating procedure.
Candidate will provide a written narrative explaining the function of a standard operating procedure. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 1, NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 1)

Signed__________________________________________________ Date: _____/_____/_____
Explain fire department rules and regulations that apply to the Fire Fighter I. 
Candidate will provide a written narrative which explains the rules and regulations that directly affect the Candidate. (The rules and regulations must, at a minimum, include the areas of duties and responsibilities, evaluation, and discipline.*) Resource: Your FSO Leadership

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

Signed__________________________________________________ Date: _____/_____/_____

Explain the value of fire and life safety initiatives in support of the fire department mission and to reduce fire fighter line-of-duty injuries and fatalities. 
Candidate will provide a written narrative explaining the value of fire and life safety initiatives as it relates to their fire service organization. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 21, NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 2)

Signed__________________________________________________ Date: _____/_____/_____

9
Describe the responsibilities of a fire fighter as required by NFPA 1500, *Standard on Fire Department Occupational Safety and Health Program*, and adopted by the Candidate's FSO. Candidate has been provided with a written copy of the FSO's responsibilities of fire fighters as required by NFPA 1500 and will provide a written narrative describing those responsibilities. (Resource: NFPA 1500, *Standard on Fire Department Occupational Safety and Health Program*, and leadership or procedures of FSO; Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 1&2; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. Chapter 2)

5.2 Fire Department Communications.
5.2.1 Initiate the response to a reported emergency, given the report of an emergency, fire department standard operating procedures, and communications equipment, so that all necessary information is obtained, communications equipment is operated correctly, and the information is promptly and accurately relayed to the dispatch center. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 3; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 4)

Candidate has initiated the response to a reported emergency.

5.2.2 Receive a business or personal telephone call, given a fire department business phone, so that procedures for answering the phone are used and the caller's information is relayed. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 3; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 4)

Candidate has demonstrated receiving a business or personal telephone call.

5.3 Fireground Operations.
5.3.3 Establish and operate in work areas at emergency scenes, given protective equipment, traffic and scene control devices, structure fire and roadway emergency scenes, traffic hazards and downed electrical wires, an assignment, and SOPs, so that procedures are followed, protective equipment is worn, protected work areas are established as directed using traffic and scene control devices, and the fire fighter performs assigned tasks only in established, protected work areas.

Signed ____________________________ Date: ___/____/____

5.3.7 Attack a passenger vehicle fire operating as a member of a team, given personal protective equipment, attack line, and hand tools, so that hazards are avoided, leaking flammable liquids are identified and controlled, protection from flash fires is maintained, all vehicle compartments are overhauled, and the fire is extinguished. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 17; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 22)

Signed ____________________________ Date: ___/____/____
5.3.8 Extinguish fires in exterior Class A materials, given fires in stacks or piles, small unattached structures or storage containers that can be fought from the exterior, attack lines, hand tools and master stream devices, and an assignment, so that exposures are protected, the spread of fire is stopped, collapse hazards are avoided, water application is effective, the fire is extinguished, and signs of the origin area(s) and arson are preserved. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 17; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS 3rd Ed, CH 22)

Signed _______________________________ Date: __/__/____

5.3.10 Attack an interior structure fire operating as a member of a team, given an attack line, ladders when needed, personal protective equipment, tools, and an assignment, so that team integrity is maintained, the attack line is deployed for advancement, ladders are correctly placed when used, access is gained into the fire area, effective water application practices are used, the fire is approached correctly, attack techniques facilitate suppression given the level of the fire, hidden fires are located and controlled, the correct body posture is maintained, hazards are recognized and managed, and the fire is brought under control. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 17; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 22)

Signed _______________________________ Date: __/__/____

5.3.13 Overhaul a fire scene, given personal protective equipment, attack line, hand tools, a flashlight, and an assignment, so that structural integrity is not compromised, all hidden fires are discovered, fire cause evidence is preserved, and the fire is extinguished. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 18; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 19)

Signed _______________________________ Date: __/__/____

5.3.14 Conserve property as a member of a team, given salvage tools and equipment and an assignment, so that the building and its contents are protected from further damage. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 18; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 19)

Signed _______________________________ Date: __/__/____

5.3.15 Connect a fire department pumper to a water supply as a member of a team, given supply or intake hose, hose tools, and a fire hydrant or static water source, so that connections are tight and water flow is unobstructed. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 15; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 16)

Signed _______________________________ Date: __/__/____

5.3.16 Extinguish incipient Class A, Class B, and Class C fires, given a selection of portable fire extinguishers, so that the correct extinguisher is chosen, the fire is completely extinguished, and correct extinguisher-handling techniques are followed. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 7; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed CH 8)

Signed _______________________________ Date: __/__/____

5.3.17 Illuminate the emergency scene, given fire service electrical equipment and an assignment, so that designated areas are illuminated and all equipment is operated within the manufacturer's listed
safety precautions. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 10; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 19)

Signed___________________________________________________ Date: ___/____/_____

5.3.19 Combat a ground cover fire operating as a member of a team, given protective clothing, SCBA if needed, hose lines, extinguishers or hand tools, and an assignment, so that threats to property are reported, threats to personal safety are recognized, retreat is quickly accomplished when warranted, and the assignment is completed. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops CH 17; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 21)

Signed___________________________________________________ Date: ___/____/_____

5.3.20 Ropes and Knots
(Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapter 8; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. Chapter 10)

Explain the primary usage of each of the following:

1) bowline
2) clove hitch
3) figure eight on a bight
4) half hitch
5) becket or sheet bend
6) safety knot

Given each of the following situations, describe the types of knots to use:

Hoist a 14’ roof ladder to a third floor roof:
_____________________________________________________________________________

To hoist a Pike Pole to a roof:
_____________________________________________________________________________

Signed _________________________________________________ Date: ___/____/_____

Distinguish between life safety and utility ropes.
Candidate will provide a written narrative explaining the characteristics and uses of life safety and utility ropes. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 8, NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed. CH 10)

_____________________________________________________________________________
_____________________________________________________________________________
_____________________________________________________________________________

Signed _________________________________________________ Date: ___/____/_____

Candidate will provide a written explanation of the reasons for placing a rope out of service.
Signed ____________________________________________________ Date: ___/_____/_____

Given the proper size and amount of rope the Candidate has demonstrated each of the following:

Bowline:
Signed ____________________________________________________ Date: ___/_____/_____

Clove hitch:
Signed ____________________________________________________ Date: ___/_____/_____

Figure of Eight on the Bight:
Signed ____________________________________________________ Date: ___/_____/_____

Becket or Sheet Bend:
Signed ____________________________________________________ Date: ___/_____/_____

Safety Knot:
Signed ____________________________________________________ Date: ___/_____/_____

Candidate has demonstrated tying approved knot and hoisting tool at least 10 feet.
Signed ____________________________________________________ Date: ___/_____/_____

Candidate has demonstrated using a rope to tie ladders, hose and other objects to secure them.
Signed ____________________________________________________ Date: ___/_____/_____

5.5 Preparedness and Maintenance

5.5.1 Clean and check ladders, ventilation equipment, self-contained breathing apparatus (SCBA), ropes, salvage equipment, and hand tools, given cleaning tools, cleaning supplies, and an assignment, so that equipment is clean and maintained according to manufacturer's or departmental guidelines, maintenance is recorded, and equipment is placed in a ready state or reported otherwise.

Signed ____________________________________________________ Date: ___/_____/_____
5.5.2 Clean, inspect, and return fire hose to service, given washing equipment, water, detergent, tools, and replacement gaskets, so that damage is noted and corrected, the hose is clean, and the equipment is placed in a ready state for service. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., CH 15; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., CH 170

Signed___________________________________________________ Date: ____/_____/_____

Hazardous Materials Awareness

Website: www.montana.edu/wwwfire/hazmattest.html

4.1.2.2 When already on the scene of a hazardous materials/WMD incident, the awareness level personnel shall be able to perform the following tasks:

(1) Analyze the incident to determine both the hazardous materials/WMD present and the basic hazard and response information for each hazardous material/WMD agent by completing the following tasks:

(a) Detect the presence of hazardous materials/WMD.

Test each of the elements in this section by referring to the illustration or photo indicated on the Web. Go to the FSTS Home Page, from the menu go to Academies, Hazmat Testing Page. Indicate by placing a check in the appropriate space if hazardous materials are likely present at the scene. For each yes checked, in the space provided, list what clues make you think hazardous materials might be involved.

Scene 1

Signed___________________________________________________ Date: ____/_____/_____

(c) Collect hazard information from the current edition of the DOT *Emergency Response Guidebook* to determine:

**Scene 8** Which is the proper guide page? _____ For a large spill, how far should you first isolate in all directions? ______

**Scene 9** Which is the proper guide for the Hazardous Material involved in this fire incident? ______________ If the material in this tank car is involved in a fire, what is the recommended isolation distance in all directions? __________

**Scene 10** This barrel is leaking liquid. What is indicated by the “P” after the Guide Number?
____________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

(2) Implement actions consistent with the authority having jurisdiction (AHJ) and the current edition of the DOT *Emergency Response Guidebook* by completing the following tasks: (for Scene 9)

(a) Initiate protective actions

____________________________________________________________________________

____________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

(b) Initiate the notification process

(d) Special hazard communication markings for each hazard class

Identify the Hazard Class of each symbol below

hazard symbols
(e) Pipeline markings (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 28-30)

The candidate has toured jurisdiction and identified the below listed markings for pipelines

Signed___________________________________________________ Date: ____/_____/_____   (e) Pipeline markings

(f) Container markings
The candidate has toured the jurisdiction and identified the markings listed below: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 28-30)
Identify marking found in local jurisdiction that indicate presence of hazardous material

5.2 Core Competencies – Analyzing the Incident

5.2.1 Surveying Hazardous Materials/WMD Incidents. Given scenarios involving hazardous materials/WMD incidents, the operations level responder shall collect information about the incident to identify the containers, the materials involved, the surrounding conditions, and whether hazardous materials/WMD have been released, by completing the requirements of 5.2.1.1 through 5.2.1.6.

{Use pictures under 5.2 Competencies on FSTS website. Match letter identified with picture to standard.}

5.2.1.1 Given three examples each of liquid, gas, and solid hazardous material or WMD, including various hazard classes, operations level personnel shall identify the general shapes of containers in which the hazardous materials/WMD are typically found. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

1) Gas: ____________________________________________________________
2) Liquid: __________________________________________________________
3) Solid: ____________________________________________________________

35
5.2.1.2.1 Given examples of the following marked transport vehicles and their corresponding shipping papers, the operations level responder shall identify the following vehicle or tank identification marking:  (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33) {Use pictures under 5.2 Competencies on FSTS website.  Match letter identified with picture to standard.}

(1) Highway transport vehicles, including cargo tanks

________________________________________________________________________________

________________________________________________________________________________

________________________________________________________________________________

(2) Intermodal equipment, including tank containers

________________________________________________________________________________

________________________________________________________________________________

________________________________________________________________________________

(3) Rail transport vehicles, including tank cars

________________________________________________________________________________

________________________________________________________________________________

________________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

5.2.1.2.2 Given examples of facility containers, the operations level responder shall identify the markings indicating container size, product contained, and/or site identification numbers.  (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33) {Use pictures on FSTS website assigned to 5.2.1.2.2 standard.} Using the example on the FSTS web site:

List the products present:

________________________________________________________________________________

________________________________________________________________________________

Are there any visible markings to: ID location?  YES          NO

Container size?   YES      NO

Signed___________________________________________________ Date: ____/_____/_____

5.2.1.3.1 The operations level responder shall identify the following information on a pipeline marker: .} Using the example on the FSTS web site:

(1) Emergency telephone number

________________________________________________________________________________

________________________________________________________________________________

________________________________________________________________________________

(2) Owner
(3) Product

Signed ___________________________________________ Date: ____/_____/_____ 

5.2.1.3.2 Given a pesticide label, the operations level responder shall identify each of the following pieces of information, then match the piece of information to its significance in surveying hazardous materials incidents: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33) {Use pesticide form on FSTS website.}

(1) Active ingredient (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(2) Hazard statement (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(3) Name of pesticide (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(4) Pest control product EPA or (PCP) number (in Canada) (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(6) Signal word (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
5.2.1.3.3 Given a label for a radioactive material, the operations level responder shall identify the type or category of label, contents, activity, transport index, and criticality safety index as applicable. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33) {Refer to Label on FSTS website.}

5.2.1.4* The operations level responder shall identify and list the surrounding conditions that should be noted when a hazardous materials/WMD incident is surveyed. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

5.2.1.5 The operations level responder shall describe ways to verify information obtained from the survey of a hazardous materials/WMD incident. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

5.2.1.6* The operations level responder shall identify at least three additional hazards that could be associated with an incident involving terrorist or criminal activities. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

5.2.2 Collecting Hazard and Response Information. Given scenarios involving known hazardous materials/WMD, the operations level responder shall collect hazard and response information using MSDS, CHEMTREC/CANUTEC/SETIQ, governmental authorities, and shippers and manufacturers by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(1) Match the definitions associated with the UN/DOT hazard classes and divisions of hazardous materials/WMD, including refrigerated liquefied gases and cryogenic liquids, with the class or division. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(c) Gamma radiation (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(d) Neutron radiation (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

5.2.3* Predicting the Likely Behavior of a Material and Its Container. Given scenarios involving hazardous materials/ WMD incidents, each with a single hazardous material/WMD, the operations level responder shall describe the likely behavior of the material or agent and its container by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(1) Interpret the hazard and response information obtained from the current edition of the DOT Emergency Response Guidebook, MSDS, CHEMTREC/CANUTEC/SETIQ, governmental authorities, and shipper and manufacturer contacts, as follows:

(a) Match the following chemical and physical properties with their significance and impact on the behavior of the container and its contents: (See Scenario Descriptions on FSTS Website)

After researching the product with resources provided provide a short description of possible events and list the physical and chemical properties of the product listed below that would significantly impact the behavior of the product.
Scenario 1: Motor carrier transporting Chlorine has rolled

(2)*Identify three types of stress that can cause a container system to release its contents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____  

(3)*Identify five ways in which containers can breach. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____  

(4)*Identify four ways in which containers can release their contents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____
(5)*Identify at least four dispersion patterns that can be created upon release of a hazardous material. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(6)*Identify the time frames for estimating the duration that hazardous materials/WMD will present an exposure risk. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(7)*Identify the health and physical hazards that could cause harm. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(8)*Identify the health hazards associated with the following terms:

(a) Alpha, beta, gamma and neutron radiation  (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(b) Asphyxiant  (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(c)*Carcinogen  (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(d) Convulsant  (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
(e) Corrosive (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(f) Highly toxic (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(g) Irritant (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(h) Sensitizer, allergen (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(i) Target organ effects (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(j) Toxic (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____

(9)*Given the following, identify the corresponding UN/DOT hazard class and division:

(a) Blood agents (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(b) Biological agents and biological toxins (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(c) Choking agents (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
(d) Irritants (riot control agents) (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(e) Nerve agents (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(f) Radiological materials (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(g) Vesicants (blister agents) (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

5.2.4 Estimating the Potential Harm
Given scenarios involving hazardous materials/WMD incidents, the operations level responder shall describe the potential harm within the endangered area at each incident by completing the following requirements:

(1) Identify a resource for determining the size of an endangered area of a hazardous materials/WMD incident (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(2) Given the dimensions of the endangered area and the surrounding conditions at a hazardous materials/WMD incident; describe the number types of exposure within that endangered area. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33) (NOTE: refer to table of isolation distances in ERG)

Exercise: You respond to a MC-331 vessel that is overturned and is leaking on an interstate. Placard on the tank lists Un number 1005. Time of day is 1:00 pm on July 7. Clear, sunny day expected. Temperature will be 85 degrees. Winds will be 5-10 mph and coming from the southwest.
(3) Identify resources available for determining the concentrations of a released hazardous materials/WMD within an endangered area. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(4) Given the concentrations of the released material, describe the factors for determining the extent of physical, health, and safety hazards within the endangered area of a hazardous materials incident. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(5) Describe the impact that time, distance, and shielding have on exposure to radioactive materials specific to the expected dose rate. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

5.3 Core Competencies - Planning the Response.

5.3.1 Describing Response Objectives. Given at least two scenarios involving hazardous materials/WMD incidents, the operations level responder shall describe the response objectives for each example by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Scenario #1 At 08:00 you are dispatched to a strong odor from the city water treatment plant. Upon arriving on scene you are contacted by the facility manager. He states that they were receiving their monthly load of chlorine when they encountered a leaky fitting. You notice a strong smell of chlorine and visually see a milky cloud inside the warehouse. The plant is border by a river and undeveloped land to the SW and a commercial/retail area adjacent to the North and East.

List resources that would be available for initial response in your jurisdiction

(1) Describe the number of exposures that could be saved with the resources provided by the authority having jurisdiction. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/____
(2) Describe the steps for determining response objectives. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

List your response objectives:

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed___________________________________________________ Date: ____/____/_____

(3) Describe how to assess the risk to a responder for each hazard class in rescuing injured persons at a hazardous materials/WMD incident. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

____________________________________________________________________________________________________________
____________________________________________________________________________________________________________
____________________________________________________________________________________________________________

(4) Assess the potential for secondary attacks and devices at criminal or terrorist events.

_________________________________________________________________________________
_________________________________________________________________________________

Signed___________________________________________________ Date: ____/____/_____

Scenario 2:
A truck transporting flammable liquids has rolled on a two lane highway in a rural area. The container has breached and is actively burning. The driver is not visible and the nearest exposure is a farm house 300 feet down wind. There are no other visible exposures. The nearest water supply is a 5 acre farm pond a half mile away.

_________________________________________________________________________________

(2) Describe the prioritization of emergency medical care and removal of victims from the hazard area relative to exposure and contamination concerns.

_________________________________________________________________________________

_________________________________________________________________________________

Signed: _____________________________________________________ Date: __/__/____

5.3.3 Determining Suitability of Personal Protective Equipment
Given examples of hazardous materials/WMD incidents, including the name of the hazardous material/WMD involved and the anticipated type of exposure, the operations level responder shall determine whether available personal protective equipment is applicable to performing assigned Tasks by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
The hazardous material for this standard is Hydrochloric Acid.

(1) Identify the respiratory protection required for a given response option and the following: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(a) Describe the advantages, limitations, uses, and operational components of the following types of respiratory protection at hazardous materials/WMD incidents: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

i. Positive pressure self-contained breathing apparatus (SCBA)

ii. Positive pressure air-line respirator with required escape unit

iii. Closed-circuit SCBA

iv. Powered air-purifying respirator (PAPR)

v. Air-purifying respirator (APR)

vi. Particulate respirator

Signed: _____________________________ Date: ___/___/___

(b) Identify the required physical capabilities and limitations of personnel working in respiratory protection.  (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
(2) Identify the personal protective clothing required for a given option and the following: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(a) Identify skin contact hazards encountered at HazMat/WMD incidents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(b) Identify the purpose, advantages, and limitations of the following types of protective clothing at hazardous materials/WMD incidents: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(i) Chemical-protective clothing: liquid splash–protective clothing and vapor-protective clothing

(ii) High temperature–protective clothing: proximity suit and entry suits

(iii) Structural fire-fighting protective clothing

5.3.4* Identifying Decontamination Issues. Given scenarios involving hazardous materials/WMD incidents, operations level responders shall identify when emergency decontamination is needed by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Considering the scenarios on the FSTS website, which one would most likely require emergency decon and why?
(1) Identify ways that people, personal protective equipment, apparatus, tools, and equipment become contaminated. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____

(2) Describe how the potential for secondary contamination determines the need for decontamination. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____

(3) Explain the importance and limitations of decontamination procedures at hazardous materials incidents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____

(4) Identify the purpose of emergency decontamination procedures at hazardous materials incidents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____

(5) Identify the methods, advantages, and limitations of emergency decontamination procedures. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed___________________________________________________ Date: ____/_____/_____

5.4 Core Competencies - Implementing the Planned Response.

5.4.1 Establishing Scene Control.
Given scenarios involving hazardous materials/WMD incidents, the first responder at the operational level shall explain how to establish and maintain scene control, including control zones and emergency decontamination, and communications between responders and to the public by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
(1) Identify the procedures for establishing scene control through control zones.

   Demonstrated in FF1 tactic

(2) Identify the criteria for determining the locations of the control zones at hazardous materials/WMD incidents.

   Demonstrated in FF1 tactic

(3) Identify the basic techniques for the following protective actions at hazardous materials/WMD incidents:

   (a) Evacuation________________________________________

   (b) Sheltering in-place protection______________________

(4) Demonstrate the ability to perform emergency decontamination

   Demonstrated within FF 1 tactics

Signed ________________________________________________

(5)* Identify the items to be considered in a safety briefing prior to allowing personnel to work at the following:

(a) Hazardous materials incident

   ___________________________________________________
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________

(b)* Hazardous materials incident involving criminal or terrorist activities

   ___________________________________________________
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________

(6) Identify procedures for ensuring coordinated communication between responders and the public.

   ___________________________________________________
   ___________________________________________________
   ___________________________________________________
   ___________________________________________________

Signed__________________________________________ Date______/______/______
5.4.2* Preserving Evidence. Given two scenarios involving hazardous materials/WMD incidents, the operations level responder shall describe the process to preserve evidence as listed in the emergency response plan and/or standard operating procedures. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

List general procedures to follow for preserving evidence

1. ____________________________________________________________________________
2. ____________________________________________________________________________
3. ____________________________________________________________________________

Signed ___________________________________________ Date: __/__/____

5.4.3* Initiating the Incident Command System. Given scenarios involving hazardous materials/WMD incidents, the operations level responder shall implement the incident command system as required by the AHJ by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Demonstrated: ICS will be established at all tactics performed

(1) Identify the role of the operations level responder during hazardous materials/WMD incidents as specified in the emergency response plan and/or standard operating procedures. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed ___________________________________________ Date: __/__/____

(2) Identify the levels of hazardous materials/WMD incidents as defined in the emergency response plan. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed ___________________________________________ Date: __/__/____

(3) Identify the purpose, need, benefits, and elements of the incident command system for hazardous materials/WMD incidents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed ___________________________________________ Date: __/__/____

(4) Identify the duties and responsibilities of the following functions within the incident management system:

(a) Incident safety officer (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
(b) Hazardous materials branch or group (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(5) Identify the considerations for determining the location of the incident command post for a hazardous materials/WMD incident. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(6) Identify the procedures for requesting additional resources at a hazardous materials/WMD incident. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Demonstrated FF1 tactic

(7) Describe the role and response objectives of other agencies that respond to hazardous materials/WMD incidents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

5.4.4 Using Personal Protective Equipment. Given personal protective equipment provided by the AHJ, the operations level responder shall describe considerations for the use of personal protective equipment provided by the authority having jurisdiction by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(1) Identify the importance of the buddy system. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(2) Identify the importance of the backup personnel. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
(3) Identify the safety precautions to be observed when approaching and working at hazardous materials/WMD incidents. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Demonstrated FF1 tactic

(4) Identify the signs and symptoms of heat and cold stress and procedures for their control. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(5) Identify the capabilities and limitations of personnel working in the personal protective equipment provided by the AHJ.

(6) Identify the procedures for cleaning, disinfecting, and inspecting personal protective equipment provided by the authority having jurisdiction. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Demonstrated FF1 tactic

(7) Describe the maintenance, testing, inspection, and storage procedures for personal protective equipment provided by the authority having jurisdiction according to the manufacturer’s specifications and recommendations. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Demonstrated FF1 tactic

5.5 Core Competencies - Evaluating Progress.

5.5.1 Evaluating the Status of Planned Response. Given two scenarios involving hazardous materials/WMD incidents, including the incident action plan, the operations level responder shall determine the effectiveness of the actions taken in accomplishing the response objectives and shall meet the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Use scenarios 7 and 8 on FSTS website to answer the following questions.
(1) Identify the considerations for evaluating whether actions taken were effective in accomplishing the objectives. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Scenario 7
Identify the following:

Primary Hazard (statement of problem)
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Response Objectives
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Actions
_________________________________________________________________________________
_________________________________________________________________________________

Did the actions meet the response objectives?_____________________________________________________

Scenario 8
Identify the following:

Primary Hazard (statement of problem)
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Response Objectives
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Actions
_________________________________________________________________________________
_________________________________________________________________________________

Did the actions meet the response objectives?_____________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

(2) Describe the circumstances under which it would be prudent to withdraw from a hazardous materials/WMD incident. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

58
5.5.2 **Communicating the Status of the Planned Response.** Given two scenarios involving hazardous materials/WMD incidents, including the incident action plan, the operations level responder shall report the status of the planned response through the normal chain of command by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(1) Identify the methods for communicating the status of the planned response through the normal chain of command. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed __________________________________ Date: ___/___/____

(2) Identify the methods for immediate notification of the incident commander and other response personnel about critical emergency conditions at the incident. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

Signed __________________________________ Date: ___/___/____

6.2.3.1 **Selecting Personal Protective Equipment.** Given scenarios involving hazardous materials/WMD incidents with known and unknown hazardous materials/WMD and the personal protective equipment provided by the AHJ, the operations level responder assigned to use personal protective equipment shall select the personal protective equipment required to support mission-specific tasks at hazardous materials/WMD incidents based on local procedures by completing the following requirements: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(1)*Describe the types of protective clothing and equipment that are available for response based on NFPA standards and how these items relate to EPA levels of protection.

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

Signed __________________________________ Date: ___/___/____

(2) Describe personal protective equipment options for the following hazards:
(a) Thermal

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

Signed __________________________________ Date: ___/___/____

(b) Radiological

________________________________________________________________________________
________________________________________________________________________________
________________________________________________________________________________

Signed __________________________________ Date: ___/___/____
(3) Select personal protective equipment for mission-specific tasks at hazardous materials/WMD incidents based on local procedures.

(a) Describe the following terms and explain their impact and significance on the selection of chemical protective clothing:

i. Degradation

ii. Penetration

iii. Permeation

(b) Identify at least three indications of material degradation of chemical-protective clothing.
(c) Identify the different designs of vapor-protective and splash-protective clothing and describe the advantages and disadvantages of each type.

(d) Identify the relative advantages and disadvantages of the following heat exchange units used for the cooling of personnel operating in personal protective equipment:

i. Air cooled

ii. Ice cooled

iii. Water cooled

iv. Phase change cooling technology

(e) Identify the physiological and psychological stresses that can affect users of personal protective equipment.

(f) Describe local procedures for going through the technical decontamination process.

6.2.4 Core Competencies — Implementing the Planned Response.
6.2.4.1 Using Protective Clothing and Respiratory Protection. Given the personal protective equipment provided by the authority having jurisdiction, the operations level responder assigned to use personal protective equipment shall demonstrate the ability to don, work in, and doff the equipment provided to support mission specific tasks by completing the following requirements:

(1) Describe at least three safety procedures for personnel wearing protective clothing. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

(2) Describe at least three emergency procedures for personnel wearing protective clothing. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

6.2.5.1 Reporting and Documenting the Incident. Given a scenario involving a hazardous materials/WMD incident, the operations level responder assigned to use personal protective equipment shall document use of the personal protective equipment by completing the documentation requirements of the emergency response plan or standard operating procedures regarding personal protective equipment.

(1) Complete the documentation requirements of the emergency response plan or standard operating procedures regarding personal protective equipment. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

6.6 Mission-Specific Competencies: Product Control.

6.6.1.2.2 When responding to hazardous materials/WMD incidents, the operations level responder assigned to perform product control shall be able to perform the following tasks: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(1) Plan an initial response within the capabilities and competencies of available personnel, personal protective equipment, and control equipment and in accordance with the emergency response plan or standard operating procedures by completing the following tasks:

(a) Describe the control options available to the operations level responder. (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)
6.6.3 Planning the Response.
(2) Identify the purpose for and the procedures, equipment, and safety precautions associated with each of the following control techniques: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(a) Absorption:

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

(b) Adsorption:

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

(c) Damming
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

(d) Diking
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

(e) Dilution
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
(f) Diversion

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

(g) Remote valve shutoff

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

(h) Retention

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

(i) Vapor dispersion

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

(j) Vapor suppression

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

Signed___________________________________________________ Date: ____/_____/_____

6.6.4 Implementing the Planned Response.

6.6.4.1 Performing Control Options. Given an incident action plan for a hazardous materials/WMD incident, within the capabilities and equipment provided by the authority having jurisdiction, the operations level responder assigned to perform product control shall demonstrate control functions set out in the plan by completing the following requirements as prescribed by the authority having jurisdiction: (Resource: 6th Ed. IFSTA ESSENTIALS of FF and FD Ops., Chapters 23 and 24; NFPA/IAFC FUNDAMENTALS OF FIRE FIGHTER SKILLS, 3rd Ed., Chapters 27-33)

(1) Demonstrate application of foam on spill

Signed___________________________________________________ Date: __/__/____

(2) Identify the characteristics and applicability of the following Class B foams if supplied by the authority having jurisdiction:
(a) Aqueous film-forming foam (AFFF)

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

(b) Alcohol-resistant concentrates

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
3. Given the required tools and equipment, demonstrate how to perform the following control activities:
   (a) Absorption
   (b) Adsorption
   (c) Damming
   (d) Diking
   (e) Dilution
   (f) Diversion
   (g) Remote valve shutoff
   (h) Retention
   (i) Vapor dispersion
   (j) Vapor suppression

   Signed___________________________________________________ Date: ____/_____/_____

This page provides documentation for completion of the tactics required for Fire Fighter 1 certification. **Each Tactic must be signed off by a representative of the FSTS.** Other signatures will not be accepted on this page. Bring this Booklet with you when testing and be sure to have the appropriate sections completed by the evaluators **before** they leave the test site.

Bypass Breathing
- Candidate has demonstrated the ability to activate bypass system to breathe in an emergency, using only 1 hand to access and activate the valve and with obscured vision. Candidate must perform skill laying on their front and back, for 30 seconds each side.

Evaluator_________________________ Date_____________________

PASS Activation
- Candidate has demonstrated the ability to activate PASS device, using only 1 hand to access and activate it and with obscured vision. Candidate must do so lying on their front and back, and demonstrate both activating and deactivating the device.

Evaluator_________________________ Date_____________________

Mayday Radio Traffic
- Candidate must demonstrate the ability to transmit mayday radio traffic in an emergency given a portable radio in full PPE and SCBA. Candidate must include who, what happened, where, and current air supply in the radio transmission. Candidate must demonstrate ability to cancel PASS alarm during the radio transmission. Candidate must utilize proper communication technique (closed loop). Candidate must perform skill lying on the floor with obscured vision.

Evaluator_________________________ Date_____________________
