

**MONTANA STATE UNIVERSITY
COLLEGE OF NURSING
Master Resource Outline**

N574: Teaching Practicum

Credits: 1 - 4 laboratory*; may be repeated

Semester Offered: Fall, Spring, or Summer on demand

Prerequisite: N 504 or Consent of Instructor

Course Description:

Teaching/learning principles are integrated into nursing education in academic or practice environments. Students practice, observe, and evaluate teaching/learning processes. The instructor and student negotiate laboratory activities.

Course Objectives:

At the conclusion of this course, the student will be able to:

1. Demonstrate appropriate teaching competencies.
2. Integrate personal philosophy of education into teaching activities.
3. Apply teaching and learning principles.
4. Evaluate outcomes in the teaching/learning process.
5. Use appropriate evidence as a basis for teaching practice.

Recommended Concepts and Content:

The N 574 practicum is individualized to a student's needs and negotiated to achieve course objectives.

Examples of Learning Activities

Classroom teaching

Clinical teaching

Online teaching

Grade student papers

Develop a collaborative teaching project

Develop a remediation teaching session for students

Participate in professional activities related to nursing education

Interview faculty members

Write professional articles related to nursing education, e.g. *MSU TODAY, STTI, Pulse*

Maintain practicum journal / log

Student self evaluates teaching activity

* Laboratory credit as defined by the University (1 credit = 3 hours of work per week).

Approved by GAAC: December, 2006

Approved by Faculty: January, 2007
