SENIOR HONORS THESIS CONTRACT HONR 490

Honors Student Name:

Student ID:

Date Submitted:

The Senior Honors Thesis is an <u>independent</u> research/creativity project that enables Honors students to synthesize what they have learned. It should be of graduate level caliber and ideally of publishable merit. This project <u>may not</u> be a duplicate of a paper/project submitted for another class anytime during your academic career. However, if you wish to use a previous or current paper/project as a starting point to expand upon or to focus on a different area of specialization, this is allowed. Please indicate the duration and credits desired on the lines below (1-6 credits/semester). In the proposal itself, please outline the groundwork necessary to do the project, describe the project itself, and indicate what results are expected. At the completion of the Senior Honors Thesis, a public presentation of your work is required. A copy of the thesis will be given to the Honors College and may be used by the Honors College for educational and internal purposes.
