Windows 8.1 Post-Migration Updates: MSU-Secure Wireless and VPN

MSU Secure

1. Go to the Charms > Settings.
2. Tap MSU-Secure in bottom of window.
3. Tap View Connection Settings.
4. Tap Manage known networks.
5. Tap MSU-Secure.
6. Tap the Forget button.
7. Tap the Home button (windows button on frame).
8. Tap the Wireless icon.
   (Check connect automatically if it isn’t already).
10. Enter the following:
    a. User name: netid@msu.montana.edu (All lower case: x11y001@msu.montana.edu)
    b. Password: NetID password
11. Tap OK.
    You will be prompted: Are you sure you want to connect?
12. Tap Connect.

VPN

1. Go to Charms > Settings.
2. Tap Change PC Settings (located in lower right hand corner of screen).
3. Tap Network.
4. Tap Connections.
5. Tap MSU VPN (or whatever you had named it).
6. Tap Edit.
7. On next screen tap Edit again.
8. Enter the following:
    a. User name: netid@msu.montana.edu (All lower case: x11y001@msu.montana.edu)
    b. Password: NetID password
9. Click Connect.
