Pre-Medicine

Our college houses the Pre-Med intake program for students interested in pursuing a career in the health professions. This program is designed to allow students to explore the academic environment at MSU and understand the breadth of career opportunities in the health professions, while staying 'on track' with the science curriculum associated with professional school pre-requisites.

Additional Advising Programs

Montana State University is dedicated to supporting its students by offering various advising programs in addition to the Pre-Medicine track. The programs below are particularly advantageous for our college's students, helping them prepare for their next steps in their academic and professional journeys.

Pre-Health

Pre-Law

Pre-Vet

Resources

Our college is home to several resource centers that provide free tutoring services to all MSU students. Additionally, MSU students have the opportunity to share their skills as tutors, fostering a spirit of community and mentorship.
