

Manufacturing Technician

Vision Aerial is a fast-growing technology company designing and manufacturing state-of-the-art Unmanned Aerial Systems (drones) for use in demanding industrial environments. With a design ethos of extreme adaptability, performance, and quality, Vision Aerial systems have been deployed all over the world. Vision Aerial systems are used in a wide range of applications including: mapping/surveying, fire fighting, infrastructure inspection and search & rescue. Vision Aerial is looking for passionate, energetic individuals to join our team and help us scale to the next level. This position will require an organized, self motivated individual with an adaptable, fast learning attitude. As an early-stage company, we need someone capable of wearing multiple hats well and as our products are safety critical, we need a candidate with a maniacal focus on detail.

What you'll do:

- Mechanical airframe assembly
- Wire & PCB soldering
- Wiring of the vehicle
- Vehicle setup (calibrations, settings, test flights, etc.)
- Participate in quality control procedures (bench tests, test flights, etc.)
- Parts manufacturing (laser cutting, 3D Printing, etc.)
- Facilities maintenance
- Inventory stocking and kitting
- Engineering projects

What we're looking for:

- Extreme attention to detail
- Mechanically inclined
- Takes direction & constructive criticism well
- Comfortable working autonomously
- Punctual
- Honest
- Hard working
- Good team player

Bonus points for:

- 2+ years experience assembling technical products
- CNC machining experience
- Engineering experience
- Direct experience in the infrastructure, energy, or mapping/surveying industries
- Photo & filming experience
- Photo/Video editing experience
- Drone piloting experience
- Part 107 drone operators' certificate
- Prior experience with early-stage companies

What to Expect:

We expect excellence, professionalism, and constant growth from all staff members. This role will be adaptable to changing business conditions with significant growth opportunities for the right person. If you're looking to work hard and build something exceptional, we want to hear from you. The successful applicant will enjoy a creative, flexible culture with some of the coolest products in the world.
