

**Genesis Engineering, Inc.** is offering one or more summer internships from May 15, 2023 to August 22, 2023.

Our internship opportunity provides engineering students with real world experience in the civil engineering field at a local level. At Genesis you can learn to use sub-centimeter GPS equipment, AutoCAD, HEC-RAS, and stormwater modeling software while working on infrastructure plans for developments ranging from 5 lots to 100 lots. Duties will also include pavement assessment work in the Yellowstone Club, basic construction observation, civil site design work, and GPS construction stakeout help throughout the Gallatin Valley.

Candidates shall be a Junior or Senior working towards a BS or MS in Civil Engineering with an emphasis in civil development and have the following qualifications:

- A willingness to perform general engineering tasks under close supervision,
- A driver's license with a clean driving record,
- A working knowledge of Word & Excel,
- Have a service oriented attitude and able to work within a team environment,
- Interested in pursuing a career as a Professional Engineer,
- Strong organizational skills and attention to detail,
- Ability to interact with staff, engineers, & contractors in a professional, positive manner,
- And proficient oral and written communication skills.

If you meet the above qualifications and are looking for a possible career path, please email your resume and cover letter to Angie at [awasia@g-e-i.net](mailto:awasia@g-e-i.net) for consideration.

Thank you!
