

Re: Geotechnical Engineering Candidate

Hello, Dr. Khosravi,

I am an MSU alum and now live in Jackson, Wyoming, acting as the Geotechnical Engineering Manager for the consulting firm Jorgensen Associates.

We are looking for an entry-level geotechnical engineer to add to our staff. Undergrads or graduate engineers are both of interest, especially if they are interested and willing to live in Western Wyoming or Eastern Idaho...the Tetons are beautiful but the cost of living is high.

Colter H. Lane, PE
