

Please direct any interested students to the below link to apply before the January 2<sup>nd</sup> deadline.

<https://www.governmentjobs.com/careers/bozeman/jobs/3336150/water-treatment-plant-operator>

Also, relay to them that they are qualified regardless of what the requirements state. Ensure that they put details of what courses they have taken, real life experience related to maintenance, mechanics, lab, etc even if it is not paid experience. Tell them not to assume anything and to put details into the application and resume. Make sure they read the job description and include phrases and words from it in their application.

I have been pushing to get to see every application regardless of qualifications so those who are about to graduate will not be overlooked.

I am also willing to work with student schedules if they graduate in May to accommodate class schedules and still get in 40 hours of work a week.

If you have interested students and they have questions, feel free to send them my direction.

**Jill Miller | Water Treatment Plant Superintendent**

City of Bozeman WTP | 7024 Sourdough Canyon Rd | Bozeman, MT 59715
