### **Reports & Resources**

#### **Rural Suicides**

#### Quartz | READ STORY

The state of the US economy has a lot to answer for these days. Hopelessness and the perception that crime is rampant (even if it's at near record lows). But perhaps the most troubling trend is the toll the economy seems to be taking on Americans' mental health. Suicide rates have been on the rise, especially in economically depressed regions of the country, and especially among the middle aged.

#### President's Corner

We are excited to be hosting the <u>NACDEP</u> and <u>CDS</u> Boards in Big Sky, MT Sept. 7-10 to plan our <u>2017 CDS-NACDEP</u> <u>Conference</u>. To coincide with this visit, our annual MSU Community Development (CD) Update takes place, and we look forward to learning more about Board members who will share their work with our MSU faculty. Please <u>email</u> me if you are interested to join by phone or in person.

#### The <u>7th Annual Community</u> Foundation Convening is

Sept. 26 & 27 in Helena. I am happy to be serving on the planning committee and we have a great line up of speakers and activities; you can learn more about topics such as socially responsible investing, endowment building, and have a chance to engage with community members who want to create

# Trends in Family Wealth, 1989-2013

#### CBO | READ STORY

From 1989 to 2013, family wealth grew at significantly different rates for different segments of the U.S. population, and the distribution among the nation's families was more unequal in 2013 than it had been in 1989.

# Remittance Flows Worldwide in 2015

#### Pew Research Center | READ STORY

Remittances are funds or other assets that migrants send to their home countries, either directly or in the form of compensation for border, short-term and seasonal employees. With the exception of 2009, migrant remittances worldwide have steadily climbed since the World Bank began releasing estimates in 1970.

a lasting legacy in their communities.

Deadline: Ongoing Funder: CHS, Inc.

#### **Community Building Grants**

Deadline: Ongoing Funder: Singing for Change

### Sports and Community Development

Deadline: Open Funder: Adidas Group

#### Ride-hailing Services Are Seen by Minorities as a Benefit to Areas Underserved by Taxis

#### Pew Research Center | READ STORY

Ride-hailing and home-sharing are two of the most talked-about sharing-economy services and each has been drawn into a broader debate over whether people of color experience benefit from these new technologies. In the case of ride-hailing apps, like Uber and Lyft, proponents of these services often argue that they can help promote racial equity in transportation for instance, they might serve customers in lowerincome or minority neighborhoods where traditional taxis are often scarce.

#### Announcing Global Forest Watch Water

#### WRI | <u>READ STORY</u>

World Resources Institute announces its Global Forest Watch (GFW) Water, a global mapping tool that examines how threats to natural infrastructure affect water security throughout the world. Access spatial data sets, forest-related statistics and risk scores for all 230 major watersheds around the world.

# How Quickly Climate Change is Accelerating, in 167 Maps

#### Wired | READ STORY

When it comes to explaining climate change, it helps to have clear, convincing evidence on hand. Ed Hawkins, a climate scientist at the University of Reading with a knack for datavisualization, specializes in precisely this kind of evidence.
