

Museum of the Rockies Paleontology Fieldwork Opportunity

Museum of the Rockies' Department of Paleontology is currently seeking motivated student volunteers for its 2022 summer field crew! MOR will be excavating several different dinosaur localities in the Upper Cretaceous of central and eastern Montana. If you are interested in gaining hands-on experience in field paleontology, enjoy camping and the outdoors, and like to work hard: *apply now!*

Dates:

Camp 1, Hinsdale: June 06th – 27th (3 Weeks)

Camp 2, Ekalaka: July 11th – 25th (2 Weeks)

Camp 3, Glendive: July 25th – August 15th (3 Weeks)

Please note:

- **Minimum commitment time is 2 or 3 weeks depending on the camp.** Students may stay for a single or multiple camps, and up to the duration of the summer season (~8 weeks).
- Fieldwork occurs in the rugged Montana backcountry and consists of strenuous physical activity for extended periods of time conducted outdoors during hot summer months under changing and unpredictable weather conditions.
- All camp meals are provided by MOR Paleo during the work week. Meals on town day are the students' responsibility.
